Timber \$5@ \$12 per M. feet for mill timber, \$10@ \$15 for small shipping do., and \$14@ \$20 for large do. Lumber \$20@ \$22 for ordinary sizes; \$25@ \$30 for difficult sizes, and \$22@ \$23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4@ \$5 per M.

Charleston prices remain as follows: Steam sawed \$5.00 @ \$30.00 per M.; hoards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00 @ \$35.00, mill timber, \$6.00 @ \$8.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.
Flooring, 1½x4 to 6, \$15 to \$17 per M.
" dressed, 25 to 27 " "
Ceiling, ¾, dressed, \$24 to \$25 per M.
Planks, 1½x10 and upwards, \$15 to \$17 per M.
" 1½x2 " 15 to 17 "
Scantling, 2x4 to 8x10, 16 to 20 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing is very dull and values somewhat unsettled as manufacturers are not working with the same uniformity in regard to the price as heretofore. We do not as yet alter figures, but the tendency appears to be downward, and quotations are in a measure nominal at about 33c. for new, and 20@21c. for old. Yellow metal sells very slowly and has been reduced to 25c. Scotch pig-iron continues to arrive in pretty liberal quantities, and with no outlet at the moment, the stock is rapidly augmenting. Holders are rather anxious to realize, and have reduced figures on all grades, the market closing unsettled. The sales for the week foot up only a few hundred tons, mostly worked off in small job lots. We quote at \$38.00@ \$41.00 per ton, and small parcels choice quality to jobbing trade at \$41.50 per ton. American pig-iron Nos. 1 and 2 is also lower and extremely dull, the free offerings failing to draw out enough buyers to make any important impression upon the supply, and sellers continue to press the market. According to latest sales we reduce quotations to \$35.00@ \$40.00 per ton for No. 1, and \$37.00 @ \$38.00 do. for No. 2. Forge, however, is quite scarce and with a very good demand for the season, prices are higher, closing steady and regular at \$35.00@ \$36.00 per ton. Bar iron from store meets with scarcely any demand and prices generally are weak and unsettled, very few lots now realizing outside figures. We quote at \$57.50@ \$60.00 per ton for common American and English bar; \$90.00@ \$95.00 for refined do.; \$155.00 for Swedes ordinary sizes; scroll \$180.00@ \$175.00 per ton; oval and half round \$125.00@ \$155.00, and rods ¾ @ 3-16 inch \$105.00@ \$165.00 do. Common sheet iron is only moderately active, the demand being entirely of a jobbing character, and prices without much general strength. We quote at 5@7c. for singles, doubles, and trebles. Russia sheet is much neglected, and as the stock continues large and pretty well assorted, the buyer has the advantage. We quote at about 10@11½c. gold, according to number. Pig lead has been quite dull throughout the week, and the tone of the market rather heavy, the common grades showing some reduction. We quote at \$6.30@ \$6.87½ gold. Bar lead 10½c., and pipe and sheet 12c., less 6 per cent. to the trade. Tin in slabs is without much general activity, but is still very firmly held, all the foreign advices adding to the confidence of sellers. We quote in coin at 25c. for English; 25¼@28½c. for Straits, and 30@30½c. for Banca. Tin plates have met with more inquiry, partly speculative, and are rather buoyant. Zinc is quiet, but with a moderate supply is firm at 12½@13½c. from store.

NAILS.—Cut nails early in the week met with some little shipping demand, but the orders were soon filled and as the home trade is confined to very small job parcels, the market has relaxed into a quiet state, and closes rather heavy. We quote at 5½c. for wholesale lots, and scarcely anything exceeds 5½c. in a retail way. Clinch are lifeless at about 6½@7c. as to quantity &c. Finishing nails remain nominally at about 5½@5½c. for 6d., 8d., 10d., and 12d.; 5½@5½c. for 5d., and 6½@6½c. for 4d. Other kinds steady at 18c. for zinc; 26c. for yellow metal, and 40c. for copper. The exports are 853 packages, valued at \$5,105, against 298 packages, valued at \$2,650, same time last week. Shipments to San Francisco of 1,056 pkgs.

PAINTS AND OILS.—There has been rather more inquiry for shipment, and some increase in the demand from jobbers, with a slight improvement in the retail trade, and though the aggregate sales are as yet small, dealers appear to feel that the extreme dull season has passed, and that a fair business may now be anticipated. Prices for most grades of paints are without alteration, and steady. Foreign glues of prime quality are quite firm, but the low grades are offered on easier terms. Linseed oil has met with a very fair demand, on jobbing orders and prices hold their own, but we notice a disposition on the part of buyers to confine themselves to immediate wants as much as possible. Quotations at the close range from 85c up to \$1.05 in casks and bbls., according to quantity &c. For future delivery there is still some speculation, mostly at about \$1.04 for March. The exports reported this week are 114 packages paint, valued at \$3,509; and 242 gallons linseed oil, valued at \$247.

PITCH.—The demand has been good from the home trade, mostly for small lots, to be sure, but footing up a very respectable total for the week, and a few orders have been filled on foreign account. This, with continued light supplies, gives sellers increased confidence, and the market closes strong. About \$2.57½ is now an inside figure for inferior; nothing good sells below \$3.00, and jobbing parcels choice bring \$3.06½@ \$3.12½ per bbl. Receipts for week 24 bbls. Exports for week 60 bbls.; since January 1st, 80 bbls.; and for same period last year, 183 bbls.

PLASTER PARIS.—A few small lots of lump have been sold, but not enough to affect the market, and the general range of values remains about as before. We find among dealers, however, a pretty strong feeling and few if any are willing to contract to deliver stock except at outside figures. Calcined is a little more active, both for local use and for consumption, and prices rule firm at \$2.40@ \$2.50 per bbl. We notice shipments of 200 bbls. to San Francisco.

PLUMBING MATERIALS.—The market for solder continues very strong; the cheap lots have all been worked off and nothing can now be bought below 22@24c. for No. 2 and No. 1. Lead pipes remain steady. Iron pipes are selling to some extent, but are not active, and on quick sales manufacturers are rather disposed to allow more liberal discounts. Other goods, quiet and unchanged.

SLATE.—A few fair sized orders were filled soon after our last, but aside from this the market has been without life and in an unsettled condition. Inferior and common grades in particular show a want of regularity as to value, but the majority of the holders are free sellers on any reasonable bid. Prime and choice colored slates are the best sustained, but even these, seldom command outside rates except on very small orders.

SPIRITS TURPENTINE.—There was some recovery from the heaviness noted at the close of our last report,

owing to the manipulations of speculators, with sales of New York bbls. as high as 55c., but sellers were unable to sustain the market, and values again fell off about 1c. per gallon, showing at the present writing much irregularity on all styles. A considerable increase of the supply has given buyers an advantage. The demand has been moderate and mostly for small lots, as required by local dealers or exporters to fill positive orders. We quote nominally at 52½@53c. for merchantable and shipping order; 53½@54c. for New York bbls., and 54@55c. for jobbing lots. Receipts for week, 2,195 bbls. Exports for week, 147 bbls.; since January 1st, 150 bbls., and for same period last year, 255 bbls.

TAR.—The reduction in values noticed in our last drew out a sufficiently active demand to work off about all the supplies upon which sellers were anxious to realize, and the stock being now comparatively moderate, and in good shape, prices have improved somewhat, closing firm. There is not much taken for export, but a fair amount for home shipment. A goodly proportion of the recent arrivals have been on contract, mostly with the wooden-pavement companies. We quote at \$2.62½@ \$3.00 for North County; \$3.00@ \$3.37½ for Wilmington, as it runs, and \$3.50@ \$3.62½ for choice thin delivered. Receipts for week, 882 bbls.; exports for week, 90 bbls.; since January 1st, 110 bbls., and for same period last year, 1,053 bbls.

REAL ESTATE NEWS AGENCY.

C. W. SWEET & CO., proprietors of the REAL ESTATE RECORD, have opened, in connection with their paper, an agency, through which they propose to furnish extremely valuable information for the benefit of Real Estate dealers, owners, and operators. Persons about investing in Real Estate, usually wish to be informed on these points:—

1st. Who the actual owner of any piece of property may be, and whether any incumbrance is existing against it.

2d. What the actual value of said property was at the last sale.

3d. What price the property adjacent and within same block has sold for within the past few years.

4th. An intelligent, unbiased estimate of the value of the property at the present time; the future prospects of the same; whether there are likely to be any improvements, and of what kind, in the street where property is located; and such other information as will be likely to affect the value of said property.

Real Estate dealers will at once see the immense value of the class of information we propose to furnish, particularly to those who now buy in the dark without any reliable data to guide them, but who, by means of our agency, will have every light which official records, transcripts of sales, etc., can furnish. We have peculiar facilities for furnishing this class of information, having in our possession maps, books, etc., gotten up exclusively by us, which contain every piece of property in New York and Kings counties, with the names of owners, and other information accessible to no other firm or persons in the U. S.

Titles searched, and careful abstracts made at the lowest prices. This work will be done accurately and cheaply for regular subscribers.

IMPORTANT DECISION RELATING TO THE MECHANICS' LIEN LAW.

An important decision, relating to the operation of the Mechanics' Lien Law, was made in the Court of Common Pleas, before Judges Daly, Brady, and Barrett.

The plaintiff, David A. Knapp, commenced an action to foreclose a mechanic's lien, filed by him against certain premises, situated at the corner of Sixth avenue and West Thirty-second street. The lien was claimed against one Mrs. Anna M. Jackson, as owner and respondent, and one J. R. Brown, as owner and contractor.

"It appeared on the trial that Mrs. Jackson leased the premises to Brown for a period of seven years at a specified sum per annum, with the usual clauses as to payment, and in addition thereto as a condition precedent, the lease contained a covenant with the penalty of forfeiture, that Brown should, at his own expense, build an extension and do other repairs to the building already on the premises within ninety days from the commencement of his term; the repairs and the extension to be built were particularly specified in the lease, and at the end of the term all of said repairs, &c., were to be surrendered to Jackson. The respondent, Brown, employed the plaintiff, Knapp, to do the repairs and build the extension, and to carry out the terms of the covenants in the lease on his part. Brown failed to pay Knapp his claim, and hence this suit. The issues were referred to a referee who reported against Brown, and held the lien valid as against his interest in the premises, but dismissed the complaint as against Jackson without costs. The plaintiff appealed from the judgment entered thereon, and contented that the lien attached to Mrs. Jackson's reversionary interest in the property, and that the referee erred in not so finding as a matter of law."

On the part of the plaintiff, Knapp, it was argued that the lease and the covenants requiring Brown to build and repair, as therein mentioned, establish the relation of owner and contractor between Brown and Jackson, and then a lien could be established against Jackson's (the owner's) interest by persons employed by Brown (the lessee); that the repairs, &c., were to be ultimately for Jackson, and benefited her property, and if prompt payment were not made by Brown she had the immediate right to the possession of said property.

That though no expressed sum was named for the repairs, the right to a lien is not impaired thereby. The lien would still be valid against Mrs. Jackson, the owner, to the full, fair value of such work, and materials, &c. * * * "Provided also," says the statute, "that no owner shall be required to pay a greater amount than the contract price or value of the work and materials furnished (when no specific contract is made) upon his land by his contractor." Sec. 1, law 1863. That it did not appear that Jackson had paid anything to Brown for those repairs, and that payment could not be implied from the terms of the lease, and that the notice of lien had been

filed before Brown had completed his part of the contract, to repair &c., and that he had not a right of rental until he had completed that part of the contract, and that if the use of the premises was to be considered as payment for the repairs, the owner had made payments since the notice of lien, and was still making payments so long as he allowed Brown to occupy, and other payments were due to him as long as he had an unexpired term.

That it had been held, that when a person had a reversionary right to the use of buildings on which a mechanic's lien is placed, he may be deemed an owner. That S. 5 of the Law 1863, required all owners and incumbents to be made parties to these proceedings, and that by S. 114 of the Code, a person having such a right should be made a party to these proceedings. That as the tenant (Brown) did not retain the right of the removal of the buildings at the end of his term, but expressly agreed that Jackson should have them, he was not the owner of them, and the Court of Appeals had so held on that point in 19 N. Y., 242.

That to hold that no mechanic's lien could attach to Mrs. Jackson's reversionary interest in the property would render the lien law of little avail. That in following this principle an owner could lease his property to a contractor for a nominal sum, for a term just long enough to have the job completed and have a covenant of renewal, provided the work was satisfactory, and could make the term so short that before proceedings could terminate in a judgment the contractor's interest would be valueless. That a similar case as that last mentioned would shortly be brought before this court, where the repairs by the tenant were to be about \$15,000, and only three weeks were given to do them in, with a covenant of the privilege of renewal at a nominal sum for a term of nine months, a time too short to a lien of any avail, if contested; and if the landlord contested it he would only be liable for the costs of the litigation. This would lead to great injustice.

That on the contrary, the view of the law that the landlord is the owner, in such cases as his reversionary right is liable under such leases, is equitable, just, and proper. Under it, instead of the laborers, material-men &c., looking after the responsibility of a contract, it would be properly thrown on the owner to see that he does not engage an irresponsible contractor, and pay him by the use of the premises or otherwise while there are liens on the building. If he has to pay off liens he can and should look to his contractor for reimbursement. That if Mrs. Jackson had to pay claimant's lien she could look to Brown for damages for his breach of the covenants in the lease.

On the part of the respondent, Jackson, it was argued:

That the improvements to be made by the lessee, Brown, were a substitute for the value thereof, as so much additional rental. If the lessee had not agreed to make the improvements the rent would have been increased by a proportionate amount. The lessee was not the agent of the owner—he makes the improvements for his own benefit and in lieu of so much rent. That the claimant has no personal claim against Mrs. Jackson. If by any possibility of construction he could acquire a lien on her land, this would virtually make Mrs. Jackson liable for the death of the lessee. That the claimant has no legal claim for the

work done by him except a personal claim against the lessee, and he has only a lien on the leasehold interest of the lessee.

After a careful consideration by the Court the Presiding Judge announced that they were of the unanimous opinion, that where premises are leased to a tenant without a covenant requiring him to build or repair, as a part or entire consideration for the lease, the tenant making the agreement is deemed the owner under the operation of the lien law, and it can only be enforced against his interest in the premises, and that the judgment must be affirmed. Counsel for appellant announced that he should take this question to the Court of Appeals. R. S. Guernsey for appellant; W. L. and F. H. Cowdrey for respondent, Jackson.

THE WEST SIDE ASSOCIATION.

At the meeting of the West Side Association held Tuesday evening last, the Executive Committee's report recommended the removal of portions of the tenement-house law requiring the construction of fire-escapes and fire-proof cellars; the immediate opening and grading of Seventy-second and One Hundred and Forty-fifth streets, the opening of River Side and Morning Side Parks, and that valuation commissioners be appointed by the General Term of the Supreme Court instead of the present mode; also that sewers be built beneath the Boulevard. The report was adopted.

Mr. Wm. A. Whitbeck, the chairman, said that the delay in opening the first section of the Boulevard had cost the city over \$2,000,000 by a rise in real estate. The owners received the extra \$2,000,000; but if they had received the market value of the lots two years ago, and then reinvested on other portions of the Boulevard, or indeed anywhere else on the west side, they would have realized larger profits. The upper section of the Boulevard is still to be opened, and the unnecessary delay in that proceeding may be safely estimated to cause a loss of \$3,000,000, making in all \$5,000,000 thus taken out of the people's pockets. In alluding to the want of efficient transportation to the upper portion of the island, the chairman said that the people would not have rapid steam-transit by the underground or any other railway until it is settled and determined: First, That no more franchises for passenger carriage shall be given away; that the people are to have the benefit of them in cheap fares. Second, That all opposition must cease. Third, That the route selected for the first road, on whatever plan of construction, shall be a practicable one, either on Broadway or so near it as best to accommodate the public.

Mr. Clark, who had some experience of the London Underground Railway, hoped that New York would make a movement for a similar road on both sides of the city. He moved to appoint a committee to confer with the East Side Association, so that both associations might combine. The city might issue \$5,000,000 of bonds, and Westchester half that amount for promoting the work. Half a million might be added to the island's population with such a road.

SOME very handsome specimens of marble mantels are now on exhibition at the steam marble works of Thomas Carson & Co., Nos. 7 and 9 East Warren street, near Court street, Brooklyn.

OFFICIAL RECORD OF MORTGAGES
—NEW YORK COUNTY.

IN the arrangement of the following mortgages, where no description of the property follows the names, it is to be understood that there is a corresponding transfer under the same or nearly the same date in our columns, and the amount set down is what remains on bond and mortgage.

and basement brick dwellings; 13.6½x40x100; cost
\$2,700 each; owner and architect Benj. Webar; plan
No. 45.

46TH ST., No. 520, West; one three-story and
basement brick dwelling; flat roof; 25x45x100;
cost \$10,000; owner, C. McDonald; architect, J. M.
Forster; plan No. 46.

REAL ESTATE MARKET.

The market for the past week has been a very active one
for the season of the year, and every indication is present-
ed of a continuance of the same. Active preparations
are being made for bringing into the market some choice
pieces of property, and lively times may be expected dur-
ing the coming spring. The chief interest of the week
centred in the sale of the 64 lots on 5th and 5th streets
and 9th and 10th avenues, which were disposed of by
Messrs. Muller, Wilkins & Co., on Wednesday. The sale
realized \$417,225, and was very satisfactory to the owners
of the property. The same lots were offered at private
sale, less than a month since, for \$385,000. On Tuesday,
19th inst., Messrs. Johnson & Miller had a sale of Brook-
lyn property. On Thursday next, 28th inst., the great
sale of 400 lots, being part of the Morris-Stebbins tract,
situate on the Grand Central Avenue, will take place by
Messrs. Muller, Wilkins & Co. From the natural advan-
tages the property possesses, it will, no doubt, find ready
buyers at good prices.

MARKET REVIEW.

BRICKS.—The wholesale market for all styles of hard
brick remains quite dull and few sales of any importance
have been consummated since our last report. We find pre-
vious prices still current, however, and dealers apparently
rather more confident, very few, if any, offering concessions
for the sake of realizing. This is owing, in a great mea-
sure, to the shutting off receipts from the Jersey yards and
the consequent small additions to the stock, the amount to
be obtained from other points barely balancing the con-
sumption, even during the prevailing inactivity. The ac-
cumulated supply at this point, though fair for the season,
and not decreasing with much rapidity, would scarcely
stand an ordinary revival of the demand, and until some
opportunity presents itself for replacing such stock as they
might sell, holders are not willing to part with their goods
except at very full figures. On the other hand, however,
it is claimed that builders were such free buyers during
the late rise, they now hold brick enough to last well into
the spring months, and no heavy purchases will be neces-
sary until the means of getting cargoes into market are
more reliable, and the competition among sellers natu-
rally greater, thus making a decline very probable; while
it is certain that at ruling rates it will be impossible to in-
duce any class of buyers to handle more goods than imme-
diate and positive wants require. A few odd lots have
again been received from the Hudson River Yards, but
this source of supply is decidedly uncertain, and is now
practically closed. The amount run down
during the recent open weather was something over 1,500,-
000 brick, mostly of good average quality. Some common
Jersey stock has sold at \$13.00, but very little goes below
\$14.00, and from this the range is up to \$16.00 per M. for
the best. The retail trade, in some sections, has been fair,
but in the aggregate foots up small, prices running higher
than the above figures in proportion to the amount taken.
Pale brick less active, but not very plenty, and quite
steady at \$10.00 to \$11.00 per M. Fronts are rather dull,

but could not be bought at any reduction from previous
figures.

CEMENT.—The demand has been comparatively light
during the past week for local consumption, but a few
orders were received for coastwise account, and there is
still some inquiry for shipment to California. Stocks in
yard are fair, but not excessive, and holders appear indif-
ferent about selling unless full former rates are obtained,
and the market may still be called firm. We quote at
\$2.50 to \$2.75 per bbl. for Rosendale, according to quantity,
&c. The shipments reported are 196 bbls. to San Francisco
and 100 bbls. to New Granada.

FOREIGN WOODS.—In retail lots from yard there has
been a very fair business doing in mahogany, and choice
woods have commanded very full prices. For shipment
there is some inquiry, but exporters find ocean freight
charges too high to allow them any margin for profit, and
very few purchases were made except upon positive orders.
Cedar remains in much the same condition heretofore no-
ticed, the majority of importers either holding their goods
entirely out of the market, or at such high prices as to
prevent buyers from operating. This is the case with both
Cuba and Mexican woods, holders of the latter style gain-
ing confidence by the continued strong tone on the former.
It is barely possible that an outright offer of 23@24c.
might secure a moderate amount of Cuba stock, but no
bids as high as this are made, and most sellers ask 25c.
Nearly all the offerings at auction have been withdrawn
after one or two parcels were sold, the figures in every case
running much below the views of owners. The only ex-
ports reported include 39 crotches mahogany, valued at
\$700, to Hamburg; and shipments to San Francisco of
97 sticks lignum vitae. Receipts of 478 logs Cedar from
Manzanilla.

GLASS.—The demand is moderate, not only for the
large and medium, but even for the small sizes. The lat-
ter, however, come forward too slowly to cause any fears
of an accumulation, and only a few parcels go into store.
The few sales making are mostly of a local character, though
occasionally a Western dealer finds it necessary to for-
ward a pretty large order to fill up broken assortments,
and there is some inquiry from the South. Importers and
dealers are considering a revision of their price-lists, but
as yet no action has been taken. The general tone may be
called steady at 40@50c per cent. off on French; 35@40c per
cent. on English; and 50 per cent. on American.

LABOR.—We learn of no existing trouble between em-
ployers and their workmen, the demand for labor at this
season being too light for those who have engagements to
jeopardize their positions by asking any unusual privi-
leges. It is certain, however, that with the renewal of
building operations, in the spring many difficulties are to
be anticipated, and journeymen, will, if possible, force the
eight-hour law upon the bosses. At the Bricklayer's con-
vention, recently held in Washington, a committee was
appointed to consider the late strike in this city, who re-
ported the following:

Resolved, That we have unintentionally weakened the
efforts of our brothers in New York city by refusing to aid
them in their efforts to reduce the hours of labor, thereby
laying the corner-stone to success for all who may attempt
the introduction of this needed relief; that we will redress
all wrongs inflicted upon the aforesaid Unions, by indem-
nifying them for their loss of time and money; that we
will pay or cause to be paid the sum of seven dollars per
week for each member of said Unions who was idle while
on the strike in June last to October 1, 1885; that the
aforesaid Unions be requested to refuse working until the
just demands made by them be granted by the employers,
and that to make successful the eight-hour movement, at-
tempted by the aforesaid Unions, we advise them to organize
themselves into a cooperative association, and we pledge
the several Unions to assist them in raising a capital stock,
so that they may successfully compete with their former
employers in the contract market.

This was followed by considerable debate, during which
nearly all the delegates from New York and vicinity, ad-
vocate the eight-hour law, and many directly recommend-
ed a renewal of the strike next summer, and finally a sub-
stitute was adopted endorsing the eight-hour law by the
National Convention, and empowering subordinate Unions
to inaugurate strikes whenever in their opinion occasion
requires, provided they do so in conformity with the con-
stitution of the National Union. The taxation feature of
the original resolution, was not concurred in, and the mat-
ter of raising funds to sustain strikers was left to volun-
tary contributions as heretofore.

One of the ostensible objects of this convention was to
adopt measures by which strikes could in future be avoid-
ed, the remarkable manner in which the idea has been ad-
hered to, will be seen in the above resolutions. Take
warning, Master Masous, and be prepared.

LATH.—There has probably been about 1,000,000 lath
recently sold by receivers, mostly at \$3.00, embracing odd
lots, hardly expected at this season. There was no regular
demand for them, however, and it required some little
"looking round," before the sales could be effected, most
of the jobbers finding their supplies holding out pretty
well as yet. The retail trade continues very fair from local
consumers, but shipping orders are not plenty, and taken
as a whole the market has rather a dull tone. Prices, how-
ever, hold, their own, and we still quote at \$3.25 to \$3.50,
per M. according to quantity, quality, mode of delivery,
etc.

LIME.—We can learn of nothing new, or of special in-
terest in this market. There is a fair retail trade, doing
about equal in the aggregate to the amount usually going
into consumption at this season of the year, and as dealers
run out of stock, they find no difficulty in immediately re-
placing the amounts sold, either from the supply of North-
ern or from the cargoes of Rockland now and then drop-
ping in. Neither buyer or seller gains any advantage under
the circumstances, and prices remain as before, viz. \$1.60
per bbl. for common; and \$2.00 for lump.

UMBER.—The retail trade from yard cannot be said
to have improved materially during the week, but nearly
all dealers agree that they are doing much better than be-
fore the first of the year; and in a few cases we have re-
ports of a really active business. Shipping orders are a

little more plenty, and the amount going into consumption increases. Prices remain about as before, and no important changes are anticipated for the present, the general stocks being ample for all ordinary calls, and working down in such a regular manner, that there appears no likelihood of any particular style running short, except perhaps a few grades spruce, timber, &c. The wholesale market is still very dull, in fact a great many dealers have left for the lumber regions or points of supply along the coast, in order to perfect their arrangements for the coming season, having no stock coming in for several weeks yet, and nothing to detain them here. Choice desirable schedules could probably be sold to some extent, but fancy lots are all that are wanted at present by our city buyers, and it would require but a very few ordinary cargoes to accumulate before prices would fall off. Of Eastern Spruce we hear of only a few hundred thousand feet being sold, and at the present writing there is nothing of importance offering. Some inquiry from dealers who have unexpectedly worked up all their choice goods, and are now anxious to replace them at the earliest possible moment, imparts a pretty strong tone to the market, and it is predicted that the early arrivals in the Spring if anything like good specifications, will command very full prices, say, \$20.00@23.00; and choice will run even higher. The offerings for the late Spring and early Summer months are at about \$20.00@22.00 per M., for lengths to order, etc. Prices for goods on the spot are given at \$19.00@22.00, but for the present can only be considered nominal. White Pine continues fairly active in job lots for local manufacturing purposes and the supply is slowly but surely decreasing. The demand, however, is quite uniform, and all grades appear to sell with about equal rapidity. From shippers there has been no important inquiry for the West Indies, but several fairish lots have been selected out on South American accounts, mostly good to prime boards at \$30.00@31.00 per M. We quote at \$21.00@25.00 for inferior to fair box boards, &c.; \$26.00@31.00 for good to prime do.; and \$31.00 for very choice lots. Pickets have again received a few accessions to the large supply now accumulated, and as there is absolutely no demand at present, receivers are obliged to look calmly on and await the opening of spring, when there will probably be a chance of selling them. Prices in the meantime remain nominal. Piling remains steady and uniform at 7@9c. for common to prime sizes, and with this range a few recent arrivals were disposed of without great difficulty, the demand having only been dormant for want of a supply. Yellow pine continues quite dull, and had there been any further material accumulation of supplies on which receivers thought it necessary to realize, a still greater reduction in values must have been the consequence. As it is, a few lots—some 2@300,000 feet in all—were forced off, and though a very good average random lot of timber throughout, about \$30.00 was all that could be obtained. Prime flooring boards are quoted at \$34.00@35.00, with very few at the latter rate. Prices at the mills remain steady, but the reduction in freights reduces the cost laid down here, and hence the success of buyers in obtaining concessions. Black walnut is not remarkably active, but still in job lots a fair average of stock changes hands both for building and manufacturing purposes, and all well-seasoned grades, though costing the owners a pretty round figure, will probably well work off at remunerative rates. Black walnut logs for shipment are firm at 7@7½, and in some demand but the scarcity of stock and of freight-room prevents free purchases. White pine shingles quiet at \$4.50@5.00 per M. Cypress shingles are dull and heavy at \$16.00@20.00 per M. Supply large.

The exports of lumber have been as follows:—

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Argentine Republic	105,000	89,947	194,647
Brazil	19,200	28,500	163,850
British Australia	35,676	—	443,435
British West Indies	20,000	—	21,000
Cisplatine Republic	—	58,434	58,434
Cuba	1,560	—	1,560
French West Indies	14,520	—	14,520
Havre	—	8,745	8,745
Hayti	14,981	—	14,981
Mexico	6,950	61,730	68,430
New Granada	40,141	10,010	50,151
Porto Rico	—	—	15,000
Venezuela	—	16,017	16,017
Total feet	258,028	273,183	1,076,120
Value	\$10,009	\$11,426	\$46,508

We also notice shipments of 20,000 shingles to British West Indies; 29,400 do. to French West Indies; 20,000 do. to Haiti; 40,000 do. and 5,000 pickets to New Granada; 1,574 pieces plank and 193,940 staves to San Francisco; 4,800 staves to London; 4,000 do. to Gibraltar; 1,260 do. to British Australia; 9,600 do. to Vigo, and 61,000 do. to Alicante. The receipts reported at this port are as follows: From Shule, N. S., 550 pieces piling, 30 spars, and 25,000 pea sticks; from St. John, N. B., 81,414 feet lumber, and 52,000 lath; from Jacksonville 207,540 feet lumber; from Charleston 210,000 feet lumber; from Wilmington, N. C., 125,000 feet lumber; and from Georgetown, S. C., 21,000 staves.

Most of the Western markets continue at a stand, so far as cargo sales and the wholesale business is concerned; but from all points reports reach us of a steady local trade from yard at remunerative prices, and a gradual reduction of supplies. Nothing positive as yet from the woods. At Chicago, during the past year, thirty-three planing mills handled in the aggregate about 200,000,000 feet lumber. Through the courtesy of Wm. L. Southworth, Secretary of the Chicago Lumber Association, we are in possession of the annexed statistics.

The following table, showing the amounts of Pine Lumber, Shingles, Lath, Pickets, and Cedar Posts, on hand and for sale in this city, on the first day of January 1869, as compiled under the direction of the undersigned, in conformity with the custom of previous years, by careful and competent men, who personally visited every yard in the city—one hundred and twenty-three (123) in number

—and receiving from the proprietors, as we believe, a correct statement, based on actual measurement of the quantity on hand January 1st, 1869.

We find the total amount on hand for sale in all the yards in Chicago, Jan. 1st, 1869, as follows:

Sawed Pine Lumber and Timber	272,164,838 feet
Ilawn Timber	4,771,700 feet
Pickets	1,879,845 feet
Lath	28,312,590 ps.
Cedar Posts	298,945 ps.
Sawed Shingles	24,926 m.
Shaved Shingles	553 m.

Stock of Lumber on hand January 1st, 1869, as compared with January 1st, 1868

1869—Jan. 1, Lumber	272,164,838 ft.; Shingles..25,479 m.
1868—Jan. 1. Lumber	203,825,833 ft.; Shingles..32,598 m.

Excess of Jan. 1, 1869 } 68,339,005 ft.; Decrease.. 7,119 m.
over Jan. 1, 1868.

Receipts of Lumber and Shingles for 1868 and 1867 compared:

1868—Lumber	994,924,091 ft.; Shingles..537,867 m.
1867—Lumber	357,400,000 ft.; Shingles..431,261 m.

Excess of '68 over '67..137,524,091 ft.; Excess..106,615 m.

By comparison of receipts and stocks on hand of Lumber and Shingles for the past two years, we find the amount of Lumber sold in 1868 exceeds the sales of 1867, one hundred million feet, and of Shingles ninety-nine million ps.

JESSE SPALDING,

Pres't Chicago Lumber Ass'n.

WM. L. SOUTHWORTH,

Sec'y Chicago Lumber Ass'n.

We have received advices from the Eastern markets, of recent date, but absolutely nothing new presents itself, and the markets generally may be considered in a nominal condition.

Sugar Box Shooks, each.....	

The Southern markets continue steady on all desirable stock and business very good, most of the mills being sold ahead and running their saws as fast as the supply of logs will admit of. Vessels quite plenty, and freight changes still rather on the downward turn, for coastwise cargoes. Shipments to northward fair, but not excessive.

Savannah prices are as follows:

Timber \$8@12 per M. feet for mill timber, \$10@15 for small shipping do., and \$14@20 for large do. Lumber \$20@22 for ordinary sizes; \$25@30 for difficult sizes, and \$22@23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4@5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @30.00 per M.; boards and scantling, \$24.00 @25.00 per M.; flooring boards \$35.00@38.00, mill timber, \$6.00@8.00; and shipping, \$11.00@12.00.

Wilmington quotations as follows:

Pine Steam Sawed Lumber—Cargo rates—per 1000 feet.	
Ordinary assortment Cuba cargoes.....	\$20 00 @ \$25 00
" " Hayti cargoes.....	18 00 @ 20 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.

Flooring, 1½x4 to 6, \$15 to \$17 per M.

" dressed, 25 to 27 " "

Ceiling, ¾, dressed, \$24 to \$25 per M.

Planks, 1½x10 and upwards, \$15 to \$17 per M.

" 1½x2 15 to 17 " "

Scantling, 2x4 to 5x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing has sold with a trifle more freedom in small lots, and since the upward turn in the market for ingot, manufacturers appear a little more steady, prices closing at full 33c. for new, and 20@21c. for old. Yellow metal in moderate demand and steady at 25c.

Scotch pig iron has recovered from the depression previously noted and closes quite firm. The low prices at which the stock was offered, and some falling off in the supply present and prospective attracted the attention of speculators as well as the regular trade, and pretty much all the lots on the market were bought up at about \$39.00@40.00 per ton. Holders now appear very indifferent operators, and nothing of desirable quality is offered below \$40.00 @41.00 per ton, and the best grades about \$42.00 do.

American pig iron Nos. 1 and 2 remains quite dull, buyers insisting upon more liberal concessions in order to induce them to operate. The companies, however, have gained some confidence from the advance in Scotch, and are not offering freely below \$40.00. We quote at \$39.00@40.00 per ton for No. 1, and \$37.00@38.00 for No. 2. Forge has arrived more freely and met with less inquiry, but sympathizes with other grades and closes firm at \$35.00@36.00 per ton. Bar iron from store is still quite dull, the orders received being apparently confined to the smallest possible quantities, calculated to meet pressing wants of buyers, dealers offer easier terms and our figures are modified to conform to current rates. We quote at \$87.50@90.00 per ton for common American and English bar; \$90@95 for refined do.; \$145 for Swedes, ordinary sizes; \$125@165 per ton ovals and half round; \$122.50@150.00 do.; and rods 3-8 and 3-16 inch \$100@160 do. Common sheet iron is without much activity, prices remaining steady however, and holders not forcing the market. We quote at 5@7c. for singles, doubles, and triples; Russia sheet without new features, dealers still quoting at 10@11½c. gold, according to number. Pig lead has been rather more active on speculative account, but not much stock has gone into consumption, as many manufacturers are now making direct importations. Prices without alteration, ranging at \$6.30@6.87½ gold. Bar lead 10½c. and sheet and pipe 12c. less, 6 per cent. to the trade. Tin in slabs has again become very excited on the

advices from Europe, and prices are decidedly higher on all grades, closing strong and buoyant. The business, however, has been comparatively light owing to the small amount of stock to be found on sale. We quote in coin at 20½@20¾c. for English; 30@30¾c. for Straits; 31½@32c. for Banca. Tin plates in fair request at full prices, Zinc has ruled rather dull, and prices are hardly so firm, closing at about 12½@13c. from store.

NAILS.—There has been comparatively little doing in cut nails, either on local or shipping account, and the general tone of the market continues very heavy, but without further actual decline established. For retail lots 5½c. is the quoted rate, though at the moment 5¼c. would undoubtedly be accepted on almost any quantity. Clinch also very quiet, and cannot be quoted above 5¼c. Finishing nails remain nominally at about 5½@5¾c. for 6d., 8d., 10d., and 12d.; 5¾@5½c. for 5d., and 6½@6¼c. for 4d. Other kinds steady at 18c. for zinc; 26c. for yellow metal, and 40c. for copper. The exports are 204 packages, valued at \$2,592, against 358 packages, valued at \$5,108, same time last week. Shipments to San Francisco of 2,118 packages.

PAINTS AND OILS.—For the various qualities of paints there is a very fair jobbing demand on local and country orders, and some little inquiry from shippers, though export business is not by any means general, and mostly for regular accounts. English white leads are higher at the base of supplies, and our market in consequence improves in proportion. German glues continue in very good demand, and there is rather more firmness in all grades. Linseed oil was quiet early in the week, but lately the demand has improved from both consumers and speculators, and crushers have advanced their rates, the market closing firm for all prime lots, with not much stock offering. We quote at \$1.00@1.01 in casks; \$1.02@1.04 in bbls., and retail parcels in proportion. Sales for March at \$1.05 per gallon. We note exports of 63 pkgs. paint, valued at \$896.

PITCH.—There has been a fair average business doing throughout the week, mostly with the regular trade, though one or two small lots were taken forexport, and with light receipts the supply has suffered some reduction. Prices remain steady and at the close, whatever advantage may exist is in sellers' favor. We quote at \$3.00 for the ordinary run of stock in a wholesale way, and from this prices range up to \$3.12½@3.18½ per bbl, according to quantity, &c. Receipts for the week 100 bbls. Exports for week 60 bbls., since January 1st 140 bbls., and for same period last year 148 bbls.

PLASTER PARIS.—The general demand is still very moderate, and nothing important has been contracted for, but in one or two cases there has been some little inquiry for cargoes of lump, and dealers hope to bring about sales within a few days. The negotiations were all on a basis of about \$4.75@5.00 per ton for white. For colored there has been a fair inquiry, in part for shipment, and full former figures are still current. We note the arrival of 1,391 bbls. calcined from Hillsboro, N. B., and 250 tons lump, from Windsor, N. S. Shipments of 475 bbls. calcined to San Francisco.

SLATE.—Business at most of the wholesale depots, is almost at a complete stand, particularly on common grades,

MISCELLANEOUS.

OFFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS, No. 32 Chambers street, New York, January 4, 1869. NOTICE TO TAXPAYERS.—Notice is hereby given that the assessment rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment, the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

J. W. ALLEN, } Commissioners of

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. II.]

NEW YORK, SATURDAY, JANUARY 30, 1869.

[No. 46.]

PUBLISHED WEEKLY BY

C. W. SWEET & CO.,

Room B, WORLD BUILDING, No. 37 PARK ROW.

TERMS.

Six months, payable in advance..... \$3 00
One year in advance 6 00

TO WHOM IT MAY CONCERN.

IN consequence of the "strike" of the book and job printers of this city, The New York Printing Co., who have always done the printing work of the RECORD, and done it very well, find themselves unable to give us this week our usual number of pages. Our judgments, liens, building material market, &c., will lay over for this issue. This is very annoying to us and to thousands of our readers, but we trust they will grant us their indulgence in consideration of the state of affairs.

REAL ESTATE NEWS AGENCY.

C. W. SWEET & CO., pro-
prietors of the REAL ESTATE
RECORD, have opened, in con-
nection with their paper, an agen-
cy, through which they propose to
furnish extremely valuable infor-
mation for the benefit of Real Es-
tate dealers, owners, and opera-
tors. Persons about investing in
Real Estate, usually wish to be
informed on these points:—

1st. Who the actual owner of
any piece of property may be,
and whether any incumbrance
is existing against it.

2d. What the actual value of
said property was at the last sale.

3d. What price the property
adjacent and within same block
has sold for within the past few
years.

4th. An intelligent, unbiassed
estimate of the value of the prop-
erty at the present time; the fu-
ture prospects of the same;
whether there are likely to be
any improvements, and of what
kind, in the street where property
is located; and such other infor-
mation as will be likely to affect the
value of said property.

Real Estate dealers will at
once see the immense value of
the class of information we pro-
pose to furnish, particularly to
those who now buy in the dark
without any reliable data to
guide them, but who, by means
of our agency, will have every
light which official records, tran-
scripts of sales, etc., can furnish.
We have peculiar facilities for
furnishing this class of infor-
mation, having in our possession
maps, books, etc., gotten up ex-
clusively by us, which contain
every piece of property in New
York and Kings counties, with
the names of owners, and other
information accessible to no other
firm or persons in the U. S.

Titles searched, and careful ab-
stracts made at the lowest prices.
This work will be done accurately
and cheaply for regular subscri-
bers.

C. W. SWEET & CO.,

Room B, World Building,

37 Park Row.

MISCELLANEOUS.

OFFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS, No. 32 Chambers street, New York, January 4, 1869. NOTICE TO TAXPAYERS.—Notice is hereby given that the assessment rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment, the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if, in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

J. W. ALLEN. } Commissioners of
J. W. BROWN. } Taxes and
C. M. DEPEW. } Assessments.

C. W. SWEET & CO.,

ROOM E, WORLD BUILDING, No. 37 PARK ROW.

TERMS.

Six months, payable in advance..... \$3 00
One year in advance..... 6 00

OPENING OF THE SEASON.

THE spring campaign of the real estate agents opens magnificently. There is a great deal of property in the market, buyers are plenty and flush, and all the omens promise a heavy business—the largest, probably, ever transacted. Last year there was an immense business done, but it will be nothing to what this year will show.

Of course the favorite investments will be on this island. High as property seems, all of us know that as certain as years roll around prices must keep going up as our population and wealth increase. Had we a steam road, or even an assurance that one would be built within a few years, it would add enormously to the value of all the property above 42d street, but steam roads or not, twenty years' time will see all of this island built upon. Hence he is a wise man who will buy and hold unimproved up-town real estate. But there are other investments, also, in real property that are highly desirable. One cannot miss it in buying property anywhere within thirty miles of the City Hall. The coming twenty years will see bridges, railroads, and innumerable other improvements, which will make all places near New York accessible and desirable for residence and business. So success to the spring trade, and may the dealers succeed in selling tens of millions of city and suburban property. This is a business in which all profit—buyers as well as sellers.

REAL ESTATE MARKET.

The past month has been one of unprecedented activity in Real Estate, and the month of February seems to be preparing to give January a total eclipse. There were recorded by the Register of the City of New York during the month of January 857 deeds conveying Real Estate to the amount of \$14,392,750. There were 75 transfers, the consideration of which was merely nominal. During the same period of 1898 there were recorded 593 deeds, representing \$7,746,210, the increase in favor of January, 1899, being \$6,646,540. There were also recorded in January of this year mortgages aggregating \$—; of this amount, \$— remained as purchase money upon property, the rest representing money obtained by loan on Real Estate, which was previously owned by the mortgagee. It is worthy of notice the small amount remaining as purchase money on property, and it indicates a very healthy market, showing conclusively that the present buyers of property are abundantly able to pay for and hold their Real Estate.

Attention is directed to our advertising columns for sales of Real Estate.

James M. Miller will sell on Wednesday next the entire block, bounded by the Seventh Avenue Grand Boulevard, Eighth avenue, and 147th and 148th streets. This is very desirable property, and will, in time, be extremely valuable. On our second page are full particulars in regard to the great sale of 64 Central Park lots, comprising the entire block between Eighth and Ninth avenues, and 70th and 71st streets. It will be noticed that an abstract of title will be furnished to each buyer. Our Brooklyn friends, Messrs. Johnson & Miller, will offer some choice pieces of property next week. We trust buyers will examine carefully the property offered for sale on our last page. No one need fear to bid freely on any of this, and we advise those looking for bargains not to neglect attending any of these sales, as it is seldom such desirable property is offered.

MARKET REVIEW.

BRICKS.—Immediately following the issue of last report—two weeks ago—a pretty liberal accumulation of stock and a slight lull in business caused a reduction of 50c @ \$1.60 per M. in the value of Jersey bricks. Since that time, however, the demand has again improved, and a firmer tone prevails, though up to the present writing no quotable reaction in prices has taken place. North river stock has held its own throughout, and closes very strong. A few parcels have come down the river within the week, probably half a million brick in all, while from Jersey the arrivals foot up something like two and a half or three millions. The open weather throughout the month of January gave us unusually liberal and continuous supplies from all points, and some little surprise has been expressed that values did not deteriorate in consequence. But the same cause that brought in stock enabled builders to work to great advantage, and they pushed forward operations with so much vigor as to require about all the receipts and prevent any material accumulation, except now and then for a day or two at a time. Very few of our dealers anticipate prices much above present extreme rates, but at the same time it is not generally believed that any decided decline can take place before Spring. Wholesale prices are now given as follows: Long Island \$14.50 @ \$15.50 per M. Jersey \$12.00 @ \$14.00 do., and North river \$15.50 @ \$16.00 do. Retail lots range from 50c. to \$1.00 per M. higher, and are working off rapidly, the current demand being largely local. Pale brick are firm at \$10.00

@\$11.00 per M., and selling very freely, in fact orders are rather in excess of the supply, and there is no stock of consequence to be found unengaged. The demand, as usual, is largely from the suburban districts, for filling in frame houses, but not a few are sold on city account, and aid materially in "backing up" the numerous rows of brown stone fronts in course of construction by speculative builders, in the northern wards, streets adjacent to Central Park, etc. Front brick are without much activity, but the supply is small, and on the few lots occasionally sold full former rates are realized. We note shipments of 80,000 bricks to New Granada.

CEMENT.—There is nothing particularly fresh or interesting to advise in this market except, probably, just a trifle more firmness on all desirable stock, few if any dealers now selling below \$2.60 per bbl. for Rosendale, and rates ranging from this up to \$2.75, according to quantity, etc. The general demand is fair, and supplies are gradually diminishing, in some cases a little faster than dealers desire. A little is taken for shipment, but the bulk of it is on local and near-by interior account. We note exports of — bbls. to New Granada.

FOREIGN WOODS.—Mahogany, lignumvitæ, etc., continue to sell from yard to the local manufacturing trade to some extent, and a few unimportant coastwise and interior shipping orders have recently been filled, in most cases at about previous rates. The wholesale market, however, is extremely quiet and to some extent nominal. The export business in particular is prostrated, all the recent advices from abroad being of a discouraging nature, and ocean freight-room costing too much to warrant the forwarding of stock for the present. Cedar continues dull, and the supply slowly accumulating, buyers having evidently fully made up their minds to refrain from operating until they can force holders to modify prices to a more reasonable level. The general asking price for Cuba cedar is 25c., but buyers at 23¢@24¢, would not be allowed to depart unsatisfied, and one or two parcels are offered at 22¢. The exports reported are 400 logs cedar, valued at \$1,264, to Liverpool. The receipts are 14 logs cedar, and 114 pieces ebony from Liverpool; 361 logs cedar from Manzanilla; 100 logs mahogany from Tahasco; and 201 logs rosewood from Bahia.

GLASS.—The Southern demand is fair but not unusually active, while from all other quarters dealers report the receipt of only a few unimportant orders, and a general want of life to the market. Sizes ranging along about 10, 12, 14 and 16 inch, however, can be sold without much difficulty, owing to the continued scarcity of this class of stock, and full prices are in all cases realized, but other grades are not wanted, and show some irregularity in value; well-known customers frequently obtaining comparatively reasonable terms. We still quote, however, at 50 per cent. off on American; 40¢@50 per cent. on French; and 35¢@40 per cent. on English.

LATH.—We hear of no important transactions in the wholesale market during the past week, owing to the absence of supplies, and rates are in consequence nominally as before, or about \$3.00 per M. It is probable, however, that had receivers been enabled to offer any lath they would have found quick customers, as a few dealers are running short on their early purchases, and are now anxious to stock up again in order to carry them through until Spring. The bids made also indicate that something higher than the above rate would be paid, say about \$3.10 @ \$3.12½; though, of course, under the circumstances this is somewhat problematical. The regular retail trade has improved a trifle, though not by any means active, and most of the orders filled are on local account at former prices, ranging from \$3.25 to \$3.62½ per M., according to quantity, quality, mode of delivery, &c.

LIME.—There is a slight improvement in the demand, and a few more cargoes of Rockland could probably be sold without much difficulty to fill up the somewhat depleted stocks of city dealers, who, as usual, give the Eastern manufacturers the preference. Northern stock, however, is too plenty and too freely offered to admit of sellers taking advantage of the situation, and prices are without alteration, closing at \$1.91 per bbl. for common, and \$2.00 do. for lump. The consumptive demand is good, nearly all on local account.

LUMBER.—At nearly all the yards visited during the past two weeks there was a very fair amount of business doing, and dealers generally appeared satisfied with the situation of affairs, particularly as at this season a light trade is, as a rule, to be anticipated. The purchases by consumers, however, were so very moderate during the Fall and early Winter, that many have completely run out their assortments and are now compelled to re-stock, in order to meet their engagements. The call at the moment is chiefly on local account, though a moderate number of coastwise and interior shipping orders are at hand, and some few goods are loading for the Pacific coast. No alteration in values worthy of notice has occurred, and our table of quotations remains as before. Stocks are working down gradually, and in a very uniform manner on Northern lumber, but of Eastern there is a growing scarcity, and dealers would be glad to find some means to make good the depletion of supplies. Hard woods are meeting with a demand fully in proportion to other styles, and prices are well sustained for all styles. In our wholesale market during the past week there has been a decided want of life, not for lack of a demand, but in consequence of the absence of desirable goods. Indeed, the inquiry is rather improving, and could buyers—who are mostly local dealers—get just what they want, any reasonable price would unquestionably be paid quite readily. This state of affairs gives the market a nominally strong tone, and those receivers who have any idea of getting cargoes here early in the Spring are indifferent about negotiating, as it is generally expected that the season will open pretty high. Eastern spruce is the grade in particular request at the moment, and one or two small cargoes that had managed to work along the coast to this port were quickly disposed of at extreme rates, say about \$21.00@22.50 per M., for nothing more than an ordinary schedule. Choice lengths,

such as 24@25 feet, however, are mostly inquired after, and taking the above rates as a basis, dealers can easily calculate what they would realize, though in the absence of actual sales, quotations would be simply useless; in fact, the whole market is a nominal one at the moment, and will remain so until stock arrives. White pine presents no new features of interest, the general demand continuing fair for the season, and prices holding their own without difficulty. Shippers operate slowly and cautiously, and with one or two exceptions no orders have been received from this class of buyers for amounts exceeding 30¢@50,000 feet as required to fill up unoccupied freight room. Local dealers and manufacturers are buying to a fair extent at full rates. We quote at \$21.00@25.00 per M. for inferior to fair box boards; \$26.00@30.00 do. for good to prime; and \$31.00 for very choice lots. Pickets dull, plenty, and nominally unchanged. Piling is quiet, in the absence of arrivals, and we can only continue previous figures, viz.: 7¢@9¢. per foot, according to length, etc. Yellow pine has not been very plenty, and the market begins to exhibit rather a stronger tone, the few lots arriving finding a pretty quick sale, and on the whole realizing a trifle higher figures than two weeks ago. The amount on the way to this port is reported as small, and but little will be shipped for the present, as most of the mills are very busy on foreign orders. Dealers, therefore, show a greater inclination to stock up, particularly as this style of wood is relatively cheaper than any other on the market. It would have to be a very common lot that could now be bought at \$30.00, good timber is worth \$32.00, and good to prime flooring boards \$33.00@35.00 p. r. M. Black walnut firm, in fair demand, and the supply of choice stuff moderate. Black walnut logs are wanted for export, but the scant stock, extreme prices asked, and continued high cost of freight-room retard operations. Pine shingles are dull at \$4.50@5.00 for No. 1 Eastern. Cypress shingles neglected and nominal.

The exports of lumber have been as follows:—

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Africa	32,000	32,000	
Argentine Republic.....	186,364	27,264	408,575
Brazil.....	12,000		175,550
British Australia.....	204,000	645,160	1,297,593
British Honduras.....	25,129		25,129
British West Indies.....			21,000

Venezuela.....			16,017
Total feet.....	1,136,033	739,294	2,951,432
Value.....	\$50,707	\$34,344	\$181,559

We also notice shipments to Liverpool of 187 logs maple, valued at \$3,170, and 215 pieces oak valued at \$1,200; to British Australia 220 pieces hickory, valued at \$612; and 1,268 bundles laths; 2 masts to Central America; to Hamburg 312 logs black walnut, value \$9,055; and 30 boxes veneers, value \$500; to British Honduras 40 bundles shingles; 32,400 staves to Hamburg; 20,400 do. to Antwerp; 15,600 do. to London; 4,200 to Glasgow; 7,000 do. to Greenock; 6,000 do. to Vigo; 12,000 do. to Marseilles; 18,950 to Peru; 38,000 do. to Brazil; 432,700 to Cadiz; 48,389 do., and 591 plank to San Francisco. Receipts reported of 4,200 staves from Georgetown, S. C., 21,250 do. from Wilmington, N. C., 100,000 feet lumber from Brunswick, Ga., 102,000 feet timber from Savannah; 15,000 feet boards from Charleston, 275,448 feet lumber from Pensacola, and 235,000 feet from Jacksonville.

A despatch from Washington says:

The Ways and Means Committee have agreed to a modification of proposed increase of duty on timber. The present tariff is twenty per cent. ad valorem. The Committee had heretofore reported in favor of duty of one per cent. per cubic foot, but have reconsidered it, and will make no change.

We have received the Lumber Circular of Messrs. Woolner & Garrick, published at Chicago, under date of January 19, 1869, and containing a general review of this branch of trade during the past year. Want of space prevents us giving their remarks in full, but we make the following extracts. After apologizing for the late appearance of their circular, Messrs. W. & G. proceed to say:

"The trade during the past year has been of unsurpassed magnitude, reaching in its receipts the enormous quantity of one thousand million feet, of which amount 927 million feet have actually been sold, and there remains on hand at present 278 million feet, which is accounted for by the stock on hand January 1, 1868, of 206 million feet. Considering such aggregates, we think ourselves justified in saying that it is a new proof of the wonderful activity in the growing West, and although the trade has not been buoyant, nor prices by any means high, or what the manufacturer had hoped and expected, it is nevertheless surprising that we have escaped the usual paralytic which has often been experienced before. Cargoes forced on the market from day to day have found ready cash buyers at figures which at least involved no loss, and in the majority of instances left a remunerative profit. The trade has been of a more even tenor throughout the whole season than in almost any former year. It was plain to everybody, with the least discernment, from the first that the supply would be large, the old cry of short crop of logs having but little or no effect, and therefore buyer and seller met more easily in their views; and although the demand was large at the opening of navigation, still the price obtained was not exorbitant, as everybody understood that each day would increase the supply materially. Through these means the trade has fluctuated but little, and a fair business has been done as well by the wholesale seller of cargoes as by the city dealer. In

giving this general review, we must call attention to the fact that one of our great avenues for exports has been closed ever since the first of July last—we allude to the Illinois river, the stage of water in which has made it impossible to use it for navigation. This has been a great drawback; much more lumber would have been sold if this had been otherwise."

This is followed by a recommendation to the State authorities to at once take action tending to improve the condition of the Illinois river, and by a tabular statement of the stock of lumber in yard—the same as published by us last week. Then follows an estimate of the value of the lumber brought to Chicago during the year 1863, as annexed:

1,000,000,000 feet @ \$14.50	\$14,500,000
560,000,000 shingles @ \$3.75	2,100,000
145,000,000 lath @ \$2.12½	308,125
Total	\$16,908,125

Speaking of the future they remark:

"We approach this subject with a good deal of diffidence, and have, of course, no more reliance upon our own judgment than upon that of any other well-posted and disinterested party. We have, however, taken great pains to get at the reality, perhaps more than many others, and our views, at present, are about as follows: It is undeniable that preparations have been made upon a much larger scale than ever before, although here and there we hear of some mill not stocking up, and also of agreements made by mill owners not to get out as much as last year; our information upon this point is too positive and varied to admit of any doubt, and we mention it as a fact, not a surmise. We and others have much feared injurious results from this cause, but it seems now that Providence has determined that this most important branch of trade in the Northwest shall not be ruined by the unguarded and impassionate enterprise of those engaged in it.

"During a residence of over twenty years in Chicago, we do not call to mind a winter so mild, so beautiful, so charming, but also so devoid of that important item for the lumberman, 'snow,' and this seems to be the case in a great many of the lumbering districts. Should this continue so, there will be no necessity of any fear that the market will be glutted; however, we look upon the rumors afloat that an actual scarcity will occur as decidedly too visionary to give it any serious consideration. Teams, men and provisions have been sent to all points, and will be used to their full capacity, even if the labor has to be performed to a great deal less advantage than otherwise would be the case; besides there is snow enough all along the northern part of Green Bay, stretching to the east, and including most of the Georgian Bay region. Much depends, of course, upon the next two months; we may still have the best of sleighing, and the logs being hauled to the main roads and skidded, will readily be transported to the rivers; one great drawback may arise from the want of spring freshets to float the logs to the booms, but in such a case it is the more probable that summer rains will compensate for the lack of snow. We shall make our usual extensive tours of observation all over Michigan and Canada, in addition to what we have already accomplished, and at the opening of navigation we shall be able to give a more reliable opinion than we can do at present."

The question of a renewal of a Reciprocity Treaty between the British Provinces and the United States is discussed at some length, and advocated under certain conditions, particularly those recommending "a free trade in all productions of the field, forest, the waters and the earth," and the circular finally concludes as follows:

"We do not share the fear of competition with Canadian lumber as some parties do; we consider the supply of timber far from inexhaustible; on the contrary, we look forward to the not far distant day when culture of timber will occupy the mind of this Government to a great extent. The American forests, once the richest inheritance that Divine Providence ever bestowed on a people, have been swept away before the march of civilization, to such an extent that it has already become a question of serious import, 'whence shall come the supply for future generations?' With the present and prospective demand and consumption of lumber, all the accessible pine timber this side of the Rocky Mountains will soon be exhausted.

"We do not think it was injurious to the trade of the Northwest to import lumber from Canada before the abrogation of the Reciprocity Treaty, and we are decidedly of the opinion that the benefits of a renewal will be at least equally in our favor. The article of firewood, especially, ought to be duty free, as we have but a limited supply."

From the West we begin to obtain a few reports in reference to the logging season, and thus far the advices are not altogether satisfactory. In a few sections of Wisconsin lumbering operations were said to be simply impossible for want of snow, while in Michigan the progress reported was small, from the same cause. Up to the date of advices—some two weeks back—very little banking of logs had been accomplished, anywhere in the Saginaw Valley and the Shore as far as Towas and the Sable river, while a few camps had been broken up. Such rumors, however, are always plenty at this time of year, and even if now well founded, there is still plenty of time before the spring freshets to materially alter this state of affairs. A letter from an old experienced lumberman to a firm in this city says the quantity got out will probably equal last year, but common stock will be plenty and upper scarce, owing to the difficulty of hauling logs to the streams. At some points, such as Chicago, Toledo, etc., trade has been rather improving, and the markets are all stiff.

It has been known for a long time that timber was being destroyed in large quantities on lands belonging to the United States in California, and a party sent out by the United States Land Department, having made a thorough inspection, reports that the destruction of timber on the public domain in the vicinity of the Pacific Railroad has become so great that measures must be taken to stop it immediately. If the timber is cut off, the land, being valueless for other purposes, will not sell at any price, and the Government will be deprived of a large revenue. Private parties

having saw-mills are cutting down timber by hundreds of millions of feet; other parties are cutting cord wood in like quantities. One contract for wood to the extent of 100,000 cords was recently let by the Railroad Company, and the parties propose to cut it on Government land. Parties are also cutting down the timber and sending it along the track for sale to private individuals; others are cutting it in the canons for hauling by teams to Virginia City, Nevada, and other places for the use of the quartz mills. Congress granted to the Pacific Railroad all the timber required for the actual construction of the road, but did not grant the right to public or private parties to cut timber or wood for the convenience and supply of towns along the route; and at the rate the work is now going on, the Government will lose millions of dollars in a very short time.

From the Eastward there is very little to advise in regard to the markets, but the papers begin to discuss the logging prospects. A recent report in a *Michigan*, Me., journal, says: "The mild weather of last week injured the logging teams very much, and they are doing comparatively nothing. The prospect is that less than an average quantity of logs will be hauled this winter."

From the *Bangor Whig*, however, we have the following: "The 'doing' is first-rate in the woods now, and if the winter 'springs out' well it is estimated 200,000,000 feet of logs will be cut, which will fill the running capacity of our mills next season."

Private advices received in this city rather tend to confirm the latter opinion, and even should the usual average run short, it is thought there is enough of old logs still uncut to keep the mills in motion a fair proportion of time, during the coming season. A despatch dated Toronto, Canada, January 26, says: The advices received from the lumbering district, north, are very unfavorable. Operations at Nottawasaga and Georgian Bay are almost suspended on account of the want of snow, rendering it impossible to get the lumber out.

Portland rates as follows:

Clear Pine.	Spruce No. 1	20.00 @ 25.00
Nos. 1 & 2.	Shingles.	
No. 3.	Cedar ex.	4.00 @ 4.25

Sugar Box Shooks, each	

Late advices from the South report firm markets and an active trade at nearly all points. The amount of stock loading on coastwise account was comparatively light, but for export large amounts were going abroad, and the mills generally running to full capacity on foreign orders.

Savannah prices are as follows:

Timber \$5.00-\$12 per M. feet for mill timber, \$10.00-\$15 for small shipping do., and \$14.00-\$20 for large do. Lumber \$20.00-\$22 for ordinary sizes; \$25.00-\$30 for difficult sizes, and \$22.00-\$23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4.00-\$5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @ \$30.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00 @ \$38.00, mill timber, \$6.00 @ \$8.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:

Pine Steam Sliced Lumber—Cargo rates—per 1000 feet.

Ordinary assortment Cuba cargoes	20 00 @ 25 00
" Hayti cargoes	15 00 @ 20 00
Full cargoes wide boards	22 00 @ 24 00
" flooring boards, rough	20 00 @ 22 00
Ship stuff as per specifications	20 00 @ 25 00
Deals, 3 by 9	22 00 @ 23 00
Prime River Flooring	15 00 @ 17 00
Shingles, contract, per M.	4 00 @ 5 00
" common,	3 00 @ 3 50

Timber per 1000 feet:

Shipping	14 00 @ 15 00
Mill prime	12 50 @ 14 00
Mill fair	10 00 @ 11 00
Mill inferior to ordinary	6 50 @ 8 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$15 per M.

Flooring, 1 1/2 x 4 to 6, \$15 to \$17 per M.

" dressed, 25 to 27 " "

Ceiling, 3/4, dressed, \$24 to \$25 per M.

Planks, 1 1/2 x 10 and upwards, \$15 to \$17 per M.

" 1 1/2 x 12 " 15 to 17 "

Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Since our last published report there has been some irregularity in copper sheathing, but the market is now steady at 33c. for new, and 22 @ 23c. for old. Yellow metal firm at 27c. Scotch pig iron meets with only a light demand, but as the supply in the hands of dealers continues small, and importers are entirely out of stock, prices hold their own closing stiff at \$40.00 @ \$41.00 per ton for ordinary, and \$42.00 do. for the best brands. American pig iron is also quiet, and at some extent nominal. Most of the companies are asking \$40.00 per ton for No. 1, but get no bids for large amounts above \$38.00, and even at this figure buyers are not plenty. It is claimed that the consumption of pig iron is no larger than last year, and that the production has increased; hence the indisposition to enter into contracts except upon easier terms. We quote at about \$39.00 @ \$40.00 per ton for No. 1; \$37.00 @ \$38.00 do. for No. 2; and \$35.00 @ \$36.00 for forge. Bar iron from store is dull, unsettled, and somewhat nominal at about \$85.00 @ \$87.50 per ton for common American and English bar; \$90.00 @ \$92.00 for refined do.; \$145.00 do. for Swedes, ordinary sizes; \$122.50 @ \$150.00 do. for ovals and half round; \$125.00 @ \$160.00 for scroll, and \$100.00 @ \$160.00 for rods 3/4 to 3-16 inch. Common sheet iron is selling slowly, and though without unusual strength, the market may be called steady at 5 1/2 @ 7c. for singles, doubles, and trebles Russia.

Sheet in very fair demand and firm at 10 1/2 @ 11 1/2 c. gold, according to number. Pig lead is dull, the business being confined almost exclusively to small job lots, as wanted by the trade. Prices unchanged. We quote 6 1/2 @ 6 3/4 c. gold. Bar lead 10 1/2 c. and pipe and sheet 12 1/2, less 6 per cent. to the trade. Tin in slabs has ruled rather quiet, but holders remain firm and full rates are insisted upon. We quote in coin at 30 @ 30 1/2 c. for English, 31 @ 32 c. for Straits, and 32 @ 32 1/2 c. for Banca. Tin plates are steadily held, but have sold less freely and close quietly. Zinc is firm and fairly active at 12 1/2 @ 13c. from store.

NAILES.—Cut nails have been quite dull, and prices are lower since last quotation. At the reduction, however, sellers are apparently less anxious to realize, and the market closes steadily at 5 1/2 @ 5 3/4 c. Clinch dull, but steady, at 6 1/2 @ 6 3/4 c. Finishing nails unsettled at 5 1/2 @ 5 3/4 c. for 6d, 8d, 10d, and 12d; 5 1/2 @ 5 3/4 c. for 5d, and 5 1/2 @ 6 1/2 c. for 4d. Other kinds steady at 15c. for zinc; 26c. for yellow metal; and 40c. for copper. The exports are 245 packages, valued at \$1,457; against 282 packages, valued at \$1,803 same time last week. Shipments to San Francisco of 500 packages.

PAINTS AND OILS.—During the past two weeks, the market, both wholesale and retail, has been gradually showing more activity, until at the close we notice quite a brisk little trade doing, both on local and country orders. Supplies generally are fair, though not over-abundant, and holders quite firm. On American white lead we note an advance. Domestic glue is dull, but foreign has continued active at full figures. Linseed Oil without any unusual excitement has continued to sell with considerable freedom, and prices have gradually improved, closing strong, with but light offerings from the hands of crushers. We quote at \$1.02 @ \$1.03 in casks; and \$1.04 @ \$1.05 in bbls., with sales for March at \$1.06, and for April at \$1.07. Exports of 255 packages paint, valued at \$2,753. 243 gallons linseed oil, value \$300; and 300 bbls. oxide zinc, valued at \$3,653.

PITCH.—There has been very little demand from shippers, and only a fair domestic trade doing, but with comparatively light supplies, holders of prime city are insisting upon and obtaining full former rates, viz.: \$3.00 per bbl. Southern has been offered a little more freely, and sales made at \$2.75 per bbl. Job lots of city range up to \$3.12 1/2 @ \$3.15 1/2, according to quantity. Receipts for the week 40 bbls. Exports for week 50 bbls.; since January 1st, 240 bbls., and for same period last year, 207 bbls.

PLASTER PARIS.—A few sales of white lump have recently been made, the contracts nearly all drawn on a basis of \$5.00 per ton or thereabouts, but business is rather dull, as a rule, and dealers generally report "nothing new" in the market. Calcedin is quoted as before, and manufacturers generally are quite steady, though favors are frequently shown to No. 1 customers; in view of dull state of trade we quote at \$2.40 @ \$2.50 per bbl. To British Australia we note shipments of 150 bbls. Calcedin; to Cisplatino Republic, 100 bbls. do.; and to San Francisco, 575 bbls.

PLUMBING MATERIALS.—The general demand is fair, with no important change in values, though all plumbers' iron pipes, etc., are very firm, at 20 per cent. off list, and show rather an upward tendency.

SLATE.—The general run of trade is still dull, and prices nominally as last quoted, with rather less depression than heretofore, however. Dealers in balancing up accounts for the year, and looking over their supplies find that though there has been no great rush for stock, there was enough taken off in small lots from day to day to finally bring the accumulation down to a comparatively small compass, and now but a few of the yards contain more than enough slate to last until Spring. As the same state of affairs is reported at the quarries and at the West, there is hopeful feeling that the coming season will open favorably. The continued firmness and rather advancing tendency of tin plates has undoubtedly been of considerable advantage in increasing the sale of slates of all kinds.

SPIRITS TURPENTINE.—Values have fluctuated considerably since our last report, and in most cases a slightly higher range was current. The difficulty of inducing

fresh speculation, however, and continued free arrivals, have given buyers the advantage, present prices showing a reduction from the highest point, with the tendency still rather downward. We quote at 57 @ 58c. for merchantable and shipping order; 58 1/2 c. in New York bbls., and 58 @ 59c. for jobbing lots. Receipts for two weeks, 3,263 bbls. Exports for week 44 bbls.; since January 1, 318 bbls., and for same period last year, 1,347 bbls.

TAR.—The arrivals are pretty liberal, but as a large portion still comes forward on contract, a good demand prevents any material accumulation of stock, and gives sellers the advantage. Prices are higher on all grades, and close with much firmness. We quote at \$2.87 1/2 @ \$3.25 per bbl. for North County, \$3.50 @ \$4.00 for Wilmington as it runs, and \$4.12 1/2 @ \$4.25 for selected lots delivered. Receipts for two weeks 1,513 bbls. Exports for week, 112 bbls.; since January 1st, 383 bbls.; and for same time last year, 1,104 bbls.

JOHNSON & MILLER, AUCTIONEERS,
AND REAL ESTATE BROKERS, No. 25 Nassau Street, corner of Cedar, New York.
City and Country Real Estate at Public and Private Sale.
Loans on Mortgage negotiated.
Auction Sales of Furniture, Stocks, Merchandise, &c.

TUESDAY, Feb. 9.
at 12 o'clock, at the Exchange Salesroom.
GREAT SALE OF VALUABLE EIGHTEENTH WARD (BROOKLYN) LOTS. Particulars hereafter.

ALSO, AT SAME TIME AND PLACE,
VALUABLE HOUSE ON HICKS AND NAVY STS., BROOKLYN.

NO. 45 HICKS-ST., BROOKLYN, between Middagh and Cranberry sts., near the proposed terminus of the East River Bridge; splendid lot, 26.11x100 with 2-story attic and basement frame house, now rented for \$600. This property is most desirably located for business purposes. Being in close proximity to the Ferry and the New Bridge, it must rapidly advance in value. Terms easy. Possession May 1.

NO. 241 NAVY-ST.—Three-story, high-stoop frame House, well arranged and in good order, very conveniently located; will readily rent for \$800 per annum. Possession May 1. Terms easy.

Maps and permits at office of the Auctioneers, No. 25 Nassau St., N. Y., and No. 157 Montague St., Brooklyn.

THURSDAY, Feb. 11.
at 12 o'clock, at Exchange Salesroom, No. 111 Broadway, New York.

SPLENDID BROOKLYN PROPERTY NEVER BEFORE OFFERED EITHER AT PUBLIC OR PRIVATE SALE.

VIEWS MAGNIFICENT. LOCATION UNEXCEPTABLE.

PEREMPTORY SALE OF PROSPECT PARK PROPERTY, BEAUTIFULLY SITUATED ON NINTH AVE., FRONTING THE PARK, ON UNION ST., RUNNING THROUGH TO THE GRAND PLAZA.

and on EIGHTH and SEVENTH AVES., DEGRAU, PRESIDENT and SACKETT STS., and more particularly described as follows:

NINTH AVE. and PRESIDENT ST., n. w. corner fronting the Park, and only about 100 feet from the GRAND PLAZA, 2 of the most valuable lots in the city, each 25x100.

UNION ST., n. s., 350 feet e. of Eighth ave., 2 splendid lots, running through to and fronting the GRAND PLAZA.

UNION ST., s. s., 300 feet w. of Ninth ave., 2 very desirable lots, one of which is 25x90, the other 34x90. Particular attention is called to the size of the latter lot, it is one of the finest locations in the city for a Palatial Residence.

EIGHTH AVE., east side, 40 feet n. of Union st., 2 full lots.

UNION ST., south side, 40 feet west of Eighth ave., 2 lots, 25x90.

UNION ST., north side, 150 feet east of Seventh ave., 2 lots, 25x95.

SACKETT ST., south side, 150 feet east of Seventh ave., 2 lots, 25x95.

DEGRAU ST., south side, 300 feet west of Eighth ave., 2 full lots.

SEVENTH AVE., west side, 50 feet north of Sackett st., 3 full lots.

DEGRAU ST., north side, 250 feet east of Sixth ave., 2 full lots and two gores in rear.

SACKETT ST., south side, 150 feet east of Sixth ave.; 4 full lots.

SIXTH AVE., east side, 75 feet south of Sackett st., 1 full lot.

SIXTH AVE. and Sackett st., northwest corner; 2 full lots.

DEGRAU ST., south side, 200 feet west of Sixth ave., 2 full lots.

DEGRAU ST., north side, 150 feet west of Sixth ave., 2 full lots.

Maps of this most attractive sale will be ready at office of auctioneer, Thursday, February 4.

TUESDAY, Feb. 16.
at 12 o'clock, at the Exchange Salesroom.

SINCLAIR & CO., REAL ESTATE AND INSURANCE BROKERS, 796 Eighth avenue, between 55th and 56th streets, New York.
Loans negotiated.
Central Park and Boulevard property made a specialty.
Office hours from 8 A.M. to 9 P.M.

ISLIP PROPERTY FOR SALE.
LOTS AT \$25 EACH, FREE AND CLEAR OF ALL INCUMBRANCES—TITLE PERFECT.
These Lots are situated in the beautiful village of Islip, opposite Fire Island inlet, and bounded by Long Island and South Side Railroads, 1 1/2 hours from New York and Brooklyn by either road.
Apply to **M. H. KEITH, 96 Wall Street,**
Lumber Merchants' Exchange.

THE attention of builders, or those who wish to make a good investment, is called to the sale by MESSRS. MULLER, WILKINS & CO., at the Exchange Sales Room, No. 111 Broadway, on Thursday, February 18, 1869, of those four choice Third avenue lots, situated on the north-east corner of Third avenue and 104th street. The corner lot is 25.3x100, and the three inside lots are 25.2x100 each, even grade with avenue. The vast improvements rapidly progressing in the immediate vicinity renders this a most desirable investment.

FOR SALE IN YORKVILLE.—A first-class frame house and four lots of ground, 100x100. Lots already graded. Good stable on premises.

Apply to **FREDERICK CREIGHTON,**
World Office.

A SUPERB RESIDENCE NEAR PROSPECT Park, Brooklyn. Large double house standing alone, built of brick, brown-stone trimmings, containing seventeen rooms, including billiard room, hot and cold water throughout, two furnace heaters. In short, strictly first-class. Splendid grounds attached, thirteen full lots, location on Macomb and Carroll streets, between Fifth and Sixth avenues. Apply to
WILLIAM B. COOPER, JR. & CO.,
98 Pine Street, New York.

100 ACRE FARM FOR SALE.—A Mountain farm, 2½ miles from Depot, on the New Jersey Central R. R. 70 acres under cultivation, 30 wood land; good house, barn, and outbuildings. Price \$6,000, terms easy. Apply to W. S. Stevens, Dunellen Depot, next station west of Plainfield.

REAL ESTATE NEWS AGENCY.

C. W. SWEET & CO., proprietors of the REAL ESTATE RECORD, have opened, in connection with their paper, an agency, through which they propose to furnish extremely valuable information for the benefit of Real Estate dealers, owners, and operators. Persons about investing in Real Estate, usually wish to be informed on these points:—

1st. Who the actual owner of any piece of property may be, and whether any incumbrance is existing against it.

2d. What the actual value of said property was at the last sale.

3d. What price the property adjacent and within same block has sold for within the past few years.

4th. An intelligent, unbiased estimate of the value of the property at the present time; the future prospects of the same; whether there are likely to be any improvements, and of what kind, in the street where property is located; and such other information as will be likely to affect the value of said property.

Real Estate dealers will at once see the immense value of the class of information we propose to furnish, particularly to those who now buy in the dark without any reliable data to guide them, but who, by means of our agency, will have every light which official records, transcripts of sales, etc., can furnish. We have peculiar facilities for furnishing this class of information, having in our possession maps, books, etc., gotten up exclusively by us, which contain every piece of property in New York and Kings counties, with the names of owners, and other information accessible to no other firm or persons in the U. S.

Titles searched, and careful abstracts made at the lowest prices. This work will be done accurately and cheaply for regular subscribers.

OFFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS. No. 32 Chambers street, New York, January 4, 1869. **NOTICE TO TAXPAYERS.**—Notice is hereby given that the assessment rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if, in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

Vol. II.]

NEW YORK, SATURDAY, FEBRUARY 13, 1869.

[No. 48.]

PUBLISHED WEEKLY BY

C. W. SWEET & CO.,

ROOM B, WORLD BUILDING, No. 37 PARK ROW.

TERMS.

Six months, payable in advance..... \$3 00
One year in advance 6 00

REMOVAL.

On Tuesday next we will remove from our present location to 106 Broadway, corner of Pine street. Our friends will please bear this in mind.

SPECIAL NOTICE.

THE REAL ESTATE RECORD AND BUILDERS' GUIDE is published every Saturday, at 106 Broadway, corner Pine street, and furnishes the following information:

1. All the Real Estate Conveyances during the week in New York and Kings counties, with the names of the buyer and seller.
2. All the mortgages recorded for the same period, for New York County.
3. A complete list of all judgments docketed in the County Clerk's office of the two counties.
4. The mechanics' liens filed against any property in New York or Kings counties.
5. A complete list of the kind and description of all new buildings to be erected in New York city.
6. A complete and accurate report of the market for lumber and all building materials.
7. A list of the recent bankrupts in New York and Brooklyn.
8. Full information respecting the local real estate market, with all items of interest bearing upon or affecting the price of real property.

The RECORD is therefore indispensable to all kinds of business men, as there are matters in it affecting all classes, particularly,

ARCHITECTS,
AUCTIONEERS,
BRICK DEALERS,
BUILDERS,
BANKERS,
CARPENTERS,
CONTRACTORS,
GAS FITTERS,
GLASS DEALERS,
LUMBER DEALERS,
LIME DEALERS,
MERCHANTS,
IMPORTERS,
IRON WORKERS,
INSURANCE INTEREST.
LAWYERS,
MARBLE DEALERS,
REAL ESTATE OWNERS AND AGENTS,
ROOFERS,
SLATE DEALERS,
PLUMBERS,

and a large number of kindred occupations.

General advertisers will see the value of the RECORD as a business medium.

[C. W. SWEET & Co.

THE AVENUE SAINT NICHOLAS—IMPORTANT REAL ESTATE DEVELOPMENT.

THIS splendid improvement is now ready for legal completion. The report of the Commissioners appointed by the Supreme Court will be submitted for the inspection of property owners in a few days. After an incubation of some two years, their labors should exhibit evidences which will justify so long a delay. Much impatience has been manifested by property owners, but it will probably be understood when the work is seen, that its complications and difficulties very much surpassed any other improvement of the kind which has been carried out for some years. Although not of the same extent as the West Side Boulevard, its course presents a variety of values and deviations of route which no other avenue of the city could include. Beginning at the Sixth avenue gate of the Park, it takes in the area of Harlem Lane, making it one hundred feet in width, continuing it to a junction with another oblique street—Manhattan street—which reaches to the North river. At the intersection of Harlem Lane and Manhattan street, the third and main avenue starts northerly about parallel with Eighth and Ninth avenues continuing at the foot of the convent grounds, along the old Kings bridge road route, and over the Breakneck Hill to a junction with Ninth avenue at 145th street. Thence along Ninth avenue it continues to 150th street, where it turns again in an oblique direction to a junction with Tenth avenue at its intersection with the Kingsbridge road. Here will be observed a scope of old roads and avenues closed or widened, new avenues made and established, or evaded, which of itself would require a legal process of much difficulty to adjust the claims and interests affected. Indeed, the most diligent and skilful work on the subject must, however expeditious, be allowed a full term of delay to develop the complicated bearings, which only a careful examination of all the interests involved could bring out. Then the scope of the report of the commissioners comprises two distinct although intersecting streets—the Manhattan and the St. Nicholas—which necessarily compels two different assessments, and the difficulty of adjusting those assessments in one report. Indeed, it is possible that upon the exhibition of the report for the inspection of property holders, this duplicate assessment along the three different routes may not be readily appreciated.

Of course, the area of assessment must be a subject of particular interest to the property owners affected. Differing from the Boulevard, the whole cost of this avenue, will be raised by local assessment. The extent of this, as to its cost, is pretty nearly determined,

and the area will be finally adopted in a few days at most. At present, it would seem, the limit will reach from Eighty-sixth street on both sides of the Park to One Hundred and Seventy-sixth street. The Fort Washington depot road; the Boulevard on the west, and the Fourth avenue (east side) to 125th st., (both sides) and Sixth avenue to Harlem river; on the west side, the Manhattan street district is carried down to the North river from 116th street to 159th street. Of course this large range will reduce the tax on each owner, as it will undoubtedly secure the confirmation of the report. We have reason to think also that the awards for lands taken will be satisfactory, although digested for quite a variety of values along its complex route.

THE MADISON AVENUE EXTENSION.

THE proposed extension of Madison avenue from Eighty-sixth street to Mount Morris Square has been inspected by the property owners concerned, as reported upon by the Commissioners of Awards and Assessments, and will now be moved for confirmation on the 17th of this month. There is every indication that an unqualified disapproval prevails in regard to, it and if confirmed, it will be entirely through the neglect of the owners affected. The commissioners have done as well as they could under the law, but by virtue of the statutes, their work is preposterous in its results. Along the route of the proposed opening, the price awarded for land taken is grossly unequal and inadequate, while the assessments for benefit are crippled and restricted, by the limitation of taxable value, to an absurd degree. It appears that the assessed taxable valuation of lots in the district of the opening is so low, that they range from four to five hundred dollars. The statute regarding the opening of streets requires that not more than one half of this taxable valuation shall be assessed for any street improvement. It has also been decided by the courts, since the last extension of this avenue, that the assessment for its cost cannot be extended beyond the half block on either side of the opening. Thus one-half of the taxable values from the tax-office books have been taken by the commissioners, but this will not afford money enough to pay the legitimate price of the lots taken for the opening. So far as the tax-books are concerned, a revision of values has been made for the present year, and the work will thus be made practicable at a future day. It would seem to be probable that the commissioners will have their report sent back, or that in its precept shape it will fail altogether.

SOME of our city fathers seem to be working themselves into a state of excitement in regard

to the Central Market, lately established on Broadway, between 48th and 49th streets, because it is owned and controlled by private individuals; and the Board of Aldermen seem to think the construction of such markets an encroachment upon the city's rights and franchises, and a resolution was lately passed empowering the Committee on Markets to inquire into the facts relating to the establishment of such public markets, together with such suggestions or recommendations as may be calculated to prevent any further interference with the corporate rights and franchises of the city of New York.

We would suggest that the best way to prevent any further encroachments would be for the city to construct a few more markets after the plan of the "Central," which is really one of the finest and best in the city, and is in striking contrast to the rickety, badly-ventilated, tumble-down concerns known as Washington and Fulton markets.

The Central Market is light, airy, and well ventilated, having one skylight 50x100, and four additional ones each 15x20. It has sixty double doors, with fan lights, and is lighted in the evening by 400 gas-burners. To judge from a recent visit, by the number of private carriages to be seen around it, we should think that our up-town citizens appreciated the difference of the management of this, compared to some of our down-town markets.

By reference to our columns, it will be seen that a Bank under the laws of this State has been organized in Harlem, to be known as the "Harlem Bank." From the great need of banking facilities in that location, and the character of the gentlemen composing its direction, its future must be a prosperous one.

OFFICIAL RECORD OF MORTGAGES
—NEW YORK COUNTY.

In the arrangement of the following mortgages, where
no description of the property follows the names, it is to
be understood that there is a corresponding transfer under
the same or nearly the same date in our columns, and the
amount set down is what remains on bond and mortgage

PROJECTED BUILDINGS.

The following plans embrace all that have been considered and approved by the Superintendent of Buildings since our last :-

ESSEX ST.—Nos. 85, 87, & 89; three 5 story and basement brick stores and tenements; 25x62; owner, John Kopp; architect, M. Coleman.
ELDRIDGE ST.—Nos. 213, 215, 217, 219, 221—FORSYTH ST.—Nos. 208, 210, 212, 214; ten 5 story brick tenement houses; 25x52; owner, W. S. Wright; architect, Michael Coleman; builder, W. F. Parsons.
FORSYTH ST.—Nos. 208, 210, 212 & 214; four 5 story brick stores and tenements; 25x52; owner, W. S. Wright; architect, Michael Coleman; builder, W. F. Parsons; 126.
HOUSTON ST.—No. 138 E.; one 5 story brick store and tenement; 25x52; owner, W. Wright; architect, M. Coleman; builder, W. Parsons.
NORFOLK ST.—No. 35; one 2 story and basement, brick ice-house; 25x22; owner, &c., Philip Ottman.
WOOSTER ST.—Nos. 72 & 74; one 6 story brick, and iron factory; 60x95; owners, Archer, Pancost & Co.; architect, Charles Mettan; builder, J. J. Riceman.
WALKER ST.—No. 58; one 5 story brick and marble store; 25x95; owner, Dr. Thomas C. Chalmers; architect, B. W. Warner; builders, Moore & Bryant.
E. 16TH ST.—No. 606; one 5 story brick store, and tenement; 25x60; owner, Thos. Cunningham; architect, J. G. Prague; builder, Thos. Sanford.
E. 16TH ST.—Nos. 573 & 575; one carpenter shop, brick 50x25; 3 stories, owners, builders, & architects, Klein Bros.
14TH ST. & 10TH AV.—N. w. cor.; one 2 story frame and cor. iron office; 15x20; owner, N. B. Cottrell.
E. 26TH ST.—No. 145; one 5 story brick tenement house; 25x52; owner, W. S. Wright; architect, M. Coleman; builder, W. F. Parsons.
8TH AV.—E. s., 24.11 n. 127th st., one 2 story frame dwelling and store, 24.11x40; owner, &c., John Prenzer.
WEST 27TH ST.—No. 226 and 228, two 5 story brick stores and tenements, 19.6x55; owner, John Farrell; architect, D. & J. Jardine; builder, Nicholas Christy.
43D ST.—N. s., 200 e. 11th av., one 4 story brick store and tenement, 25x45; owner, Louis Dorr; architect, J. M. Forster.
49TH ST.—S. s., 125 e. 5th av., two 4 story and basement brick dwellings, 25x55; owner, E. A. Livingston; architect, H. F. White; builder, John Lane.
50TH ST.—S. s., 100 w. 5th av.—5th av., w. s., 25 s. 50th st., four 4 story and basement, brown stone private dwellings, 25x60; owner, &c., J. B. Tallman.
52D ST.—N. s., 70 e. Lexington av., two 3 story brown stone front dwellings, 15x50; owner, &c., John C. Donnelly.
106TH ST.—S. s., near East river, one 1 story frame factory, 60x38; owners, D. M. Koehler & Co.; architect, Louis Burger.
119TH ST.—S. s., 339 w. 3d av., six 2 story frame and brick dwellings, 16x35; owner, J. E. Watson.
124TH ST.—N. s., 225 w. 1st av., two 1 story brick dwellings, 25x30; owner, &c., B. Euler.
131ST ST.—S. s., 100 w. 10th av.; one 2 story brick school-house; 30x48; owner, John Brum; architect, Thomas Lawlor; builders, Lawlor & Doyle.

LEXINGTON AV. & 52d st.—N.e. c.; six 4 story brown stone private dwellings; 5 (16.4x50) and 1 (19.2x50); owner, John C. Donnelly; architect, George Insee; builder, J. C. Donnelly.

1ST AV.—cor. 65th st.; six 2 story brick; one 2 story brick factory, 263x160; owner, C. C. Reed; architect, W. H. Hand; builders, Dixon & Hand.
1ST AV. AND 113TH ST.—S. e. c.; one 2 story frame store and dwelling, 248x40; owner, Henry Uhlstedt.

2D AV. No. 35.—One 5 story brick store and tenement, 20.6x39.8; owner, Patrick Durkin; architect, Julius Boelckel.

2D AV. AND 79TH ST.—N. w. c.; four 4 story brick stores and tenements, three (27x50), one (21x50); owner, J. D. Hines.

3D AV. AND 62D ST.—N. e. c.; five 4 story and basement brick tenement houses; one (25x50), four (27x50); owner, Nicholas McCool; architect, D. & J. Jardine; builder, N. McCool.

REAL ESTATE MARKET.

The past week has been an exceedingly lively one and some extremely valuable property has changed hands. The coming week also promises an abundance of business, and prospects on all sides are very flattering. We made mention in our last number of the small amount of purchase-money usually remaining on bond and mortgage, and take occasion to supply the figures which were inadvertently left out in that article. During January, 1869, there were recorded 557 deeds, representing \$14,392,750, of real estate. For the same period there were recorded mortgages amounting to \$6,569,564, but of this amount \$3,490,400 represented loans obtained on property previously owned by the mortgagee, and \$3,499,464 represents the amount which remained as part payment of the purchase-money of property recently purchased. These figures show that real estate is not held on narrow margins, but that it is our best class of investors who are now purchasing property. We hear that there exists considerable excitement among some of our West Side property owners in regard to a bill now before the Legislature in regard to the removal of the Croton Aqueduct. The matter is understood to be in the hands of John McClave, who is noted for his energy and success in carrying out any improvement he undertakes. We request particular attention to the advertising columns of the Record for this week, as it is not often one has such excellent opportunities for investment.

MARKET REVIEW.

BRICKS.—The general features of the market show no very important variations. The demand for hard brick has continued fairly active, and business shows fully as much life as could be expected at this season of the year; enough so at least to prevent any heavy accumulation of stock, and sellers still have the advantage. In a few instances odd parcels, inferior quality, &c., have sold at comparatively low figures, but as a rule, prices are sustained on all grades, and close steady. The sales now making are largely on local account, though a few shipping orders are occasionally received. The cargo rates, at the present writing, are placed at \$14.50@15.50 per M. for Long Island; \$12.00 @ \$14.00 do. for Jersey; and \$15.50@16.00 for North River; a few of the latter still on hand, and held at extreme figures. The jobbers report a good distributing demand for small lots, to finish up, &c., and are realizing the usual average over the above rates. The arrivals are now almost entirely from the New Jersey yards, and are quite regular, with dealers generally anticipating a steady supply from this time forward, and some even looking for receipts from the North River at an early day. The winter is not by any means over yet, however, and a sudden cold snap would essentially change this state of affairs. For pale brick the inquiry is without abatement, and ready buyers are found for all the cargoes offering at full former rates, the market closing firm at \$10.00@11.00 per M. The quality is a pretty fair average, with nothing very extra or very inferior. Front brick meet with a moderate demand at former figures. Exports to Cuba of 863 brick.

CEMENT.—With a continued good demand, and a steady depletion of the stock, the increased firmness noted in our last has been followed by a pretty general advance, and there is now very little, if anything, to be had less than \$2.75 per bbl. Indeed, many of the commission men would be glad to pay this figure, could they obtain a few hundred bbls. of Rosendale; and on retail parcels the rate runs up to \$3.00, with some dealers very indifferent sellers at that. Our local-consumptive wants is the main outlet, though we still hear of a few shipping orders occasionally received. Current rates, it is probable, can be maintained until navigation opens and supplies increase, though a much greater advance would probably tempt some of the companies to make an effort to work down stock by railroad. Shipments of 125 hhls. to New Granada, and 100 bbls. to San Francisco.

FOREIGN WOODS.—The foreign demand for mahogany does not improve, going and there is nothing going abroad except choice selections on positive orders. The home demand also from both local and interior jobbers is very moderate, and the wholesale market presents a continued dull and unsatisfactory tone. The stocks are fairly assorted, but too large for the present condition of trade. Lignumvitæ, is also very dull, and nominally unchanged, though a little has lately been taken for export. Cedar is still almost

at a stand-still, and values very uncertain, owing to the apparent impossibility of buyers and sellers approaching near enough to each others views to effect sales. We find, however, that there is a larger number of holders willing to operate below 25c. than heretofore, and some will accept 25c. Some foreign orders are at hand, but cannot all be filled until both the cost of the wood and freight-room are materially modified. Stocks are now pretty large, and with the ruling state of affairs, the tendency is to still further increase. The exports are as follows: and 50 logs mahogany, valued at \$7,500; and 50 logs mahogany, valued at \$694. To Liverpool 682 pieces lignumvitæ, valued at \$1,250; and 240 pieces boxwood, valued at \$220. The only receipts reported are 5 tons lignumvitæ from St. Domingo city.

GLASS.—The inquiry from all quarters has neraly died out, or has become reduced to a few small orders previously overlooked, and now found necessary by jobbers, to make their assortments complete. Prices on the general range remain as before, but the usual weakness consequent upon a dull market is noticeable, and dealers allow very reasonable discounts. We quote at 50 per cent. off on American, 40@50 per cent. on French, and 35@40 per cent. on English. The aggregate stock is pretty liberal, and according to all accounts is made up principally of the large and undesirable grades, the small sizes being reported as not only scarce now, but likely to continue so. This same story, however, has been current throughout the past season, and as all buyers were finally supplied, and no great advance in values occurred, serious results are not to be apprehended.

HARDWARE.—Builders' hardware of all descriptions is in active demand, and stocks generally are decreasing, with the tendency of prices towards a higher range. Manufacturers' rates are now 20 per cent. off on strap and T hinges, back and table flaps; 25 per cent. do. on narrow butts; and 30 per cent. do. on broad and loose joints—an advance of 5@10 per cent. Strap and T hinges are particularly scarce, and appear to be working still higher.

LABOR.—The market is well supplied with workmen, and no changes in the rates of wages have late been made. The strikers, however, are making preparations for the spring campaign, and with the opening of favorable weather for building operations, decided changes will undoubtedly be insisted upon, both in the hours of labor and the rate of compensation. During the week the master masons held a meeting at the Liberty street Exchange, for the purpose of perfecting arrangements to resist the expected strike. Several plans were suggested, all more or less good in their way, but nothing positive determined upon for the present. The employing masons have taken the matter in hand, however, with ample time and an organization large enough—embracing over fifty leading firms—to be fully prepared for any exigencies, and if they display one-half the pluck of last season, there is no reason why they should submit to any unjust demands of their journey men.

LATH.—Two or three million lath could be disposed of in this market at the present time, with very little exertion on the part of sellers, and high figures realized, owing to the reduced supplies in the hands of dealers, and a continued good distributive demand. Nothing arrives, however, and under the circumstances, the wholesale market is simply nominal on a basis of the last sales, viz.: \$3.00@3.10 per M. From dealers hands a fair business is doing on small orders, with prices ruling firm at \$3.25@3.62 $\frac{1}{2}$ per M, according to quantity, quality, mode of delivery, &c.

LIME.—No supply of Rockland from first hands has been offered, though there is probably demand enough to consume a few cargoes should they come in. Dealers, however, are not over anxious buyers, as they find that whenever stocks run low, there appears to be just a little more of that northern lime left, and indications point to a continuance of this position of affairs pretty well up to the time when the spring arrivals may be looked for. Quotations are without alteration, and we still place common at \$1.60 per bbl, and lump at \$2.00 do. The amount going into the hands of consumers is fair, though somewhat less than a week or two ago.

LUMBER.—We hear a few complaints of a slow trade at the yards, but in the majority of cases the tone continues hopeful, and our retail dealers appear to anticipate a fair amount of life during the coming spring and summer season. The sales now consummated are mostly in small lots, and do not make a heavy show from day to day, but the footing for the week displays a very respectable aggregate, and stocks are undergoing a gradual reduction. Coastwise and interior shipping orders are received to a moderate extent, and local buyers include representatives of both the manufacturing and building interests, causing a very general demand, and preventing the assortment from becoming seriously disarranged. Prices are steady on all grades and the general range of quotations requires no alteration. Considering the unsettled feeling prevailing throughout business circles generally in view of the financial position of the country and the probable action of Congress thereon, lumber is certainly doing as well as any other class of merchandise, and if present indications are verified, dealers will find the balance on the favorable side of the ledger throughout the season. The wholesale market is still almost entirely devoid of animation, and consequently presents very few features of interest. Cargoes could certainly be sold were they here, and at extreme figures, but nothing now comes in except from the southern coast, and receivers are without schedules to offer. Exporters have lately cleared out a number of old lots, and are now looking around for a fresh supply, but are not eager operators, and take nothing unless it can be bought at comparatively low figures. West India orders appear to be few and far between, and the selections are mainly from goods suited to the South American trade. Of Eastern spruce we learn of no arrivals and consequently of no sales, prices in the meantime remaining nominal, though some of the dealers talk very extravagantly of the figures likely to be paid could desirable stock be obtained immediately. Some offerings are made for future delivery and taking advantage of the ruling state of affairs sellers ask high rates, claiming also that the logging season has been had and that timber

was very great. He says

THE CENTENNIAL DOG SHOW.

This show of dogs, under the management of the
Bureau of Agriculture of the International Exhibition,
promises to be one of the more interesting of the live
stock department. Many of the notable dogs from all
parts of the country will be exhibited, and large num-
bers are expected from Canada and England, thus giv-
ing the sportsman and public generally an opportunity
of studying some of the peculiarities of the

people will

will be scarce. The latter, however, is too old a story to have much effect, particularly since the recent snow storm throughout Maine, and very few sales have been accomplished. White pine remains quite steady for all desirable assortments, and is selling to a fair extent on home account, with an occasional lot picked up by shippers, at full former rates. The stock is gradually decreasing, though as yet ample for all ordinary calls. We quote at \$21.00 @ \$25.00 per M. feet, for inferior to fair box boards; \$26.00 @ \$30.00 for good to prime do.; and \$31.00 for very choice lots. Piling is merely nominal in the absence of stock or sales. Pickets are dull, though there is some stock piled out awaiting the spring demand. Yellow pine continues comparatively scarce, and prices have rather the upward turn, both for parcels on the spot and to arrive, with an apparent speculative disposition manifested to monopolize everything immediately available, and hold until the necessities of consumers send them into the market to purchase at any reasonable rate. The movement is based mainly on the light amounts of stock in transit for this port, though all things considered yellow pine is not by any means dear at current values, and will not be likely to decline on holders' hands. According to latest sales—about 300,000 feet—hand timber is worth 36 @ 38c. per foot; and reworked do. and prime flooring boards \$30.00 @ \$35.00 per M. choice held at \$36.00. Black walnut is firm, and selling well. Black walnut logs are quiet, but firm at 1 1/2 per foot. Pine shingles in moderate demand at \$4.50 @ \$5.00 for No. 1 Eastern. Cypress shingles very quiet, and prices heavy.

The exports of lumber have been as follows:—

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Africa			22,000
Argentine Republic. 140,164	186,364	648,739	
Brazil	\$6,885	12,000	262,735
British Australia	204,000	1,297,595	
British Honduras	25,129	25,129	
British West Indies		21,000	
Central America	24,666	24,666	
Cisplaine Republic	341,906	406,240	
Cuba			1,560
Danish West Indies. 13,528		13,528	
French West Indies		14,520	
Havre		8,745	
Hayti		14,981	
Liverpool		3,010	
Mexico	9,200	9,350	\$7,000
New Granada		4,173	\$9,184
Pern		344,136	\$44,136
Porto Rico			15,000
Venezuela	2,320		36,337
Total feet	294,763	1,136,033	3,246,215
Value	\$11,264	\$50,707	\$142,523

We also notice shipments to Bremen of 67 logs black walnut, valued at \$2,300; to Liverpool, 207 pieces maple, valued at \$3,869; also 9,080 staves; 3,720 staves to London; 4,800 to Bristol; 4,500 to Greenock; 16,000 to British Guiana; 4,500 to French West Indies; 34,000 to Malaga; 6,000 to Lisbon; and 9,600 to Genoa; 24,000 staves, 914 plank; 238 pieces scantling, and 402 cases lumber to San Francisco. The only receipts reported are 130,000 feet lumber, from Georgetown, S. C., and 135,000 feet from Jacksonville. At other points we learn of recent shipments as follows: From Mobile to Barcelona 13,500 feet lumber, and 7,000 staves; from Savannah to Liverpool 117,593 feet lumber, and 367,215 feet timber; to Dundee, Scotland, 295,000 feet timber, 21,600 feet plank; to Emden, Prussia, 136,317 feet lumber, and 136,305 feet timber. From Charleston to Barcelona 55,000 feet lumber.

No additional news from the West is at hand this week, and the logging prospects are uncertain, though two or three weeks have yet to pass before anything reliable can be arrived at. From Oconto (Wis.) we learn that logs are coming out of the river at the rate of 2 @ 3,000,000 feet per day, and generally of a better average quality than last year. From a voluminous and exhaustive review of the operations in the Saginaw Valley during 1868, published in the *Saginaw Daily Enterprise*, we extract the following:

"The lumber business seems every year to be steadily improving. New mills are still being built upon Saginaw River, and the cutting capacity, by additions and by improvements to mills already in operation, was increased to a great extent during 1868.

The following is a summary of the statistics of lumber productions, &c., at the various points in the valley:

Total number of mills	89
Total number of muley saws	65
Total number of circular saws	75
Total number of gang saws	42
Total number of saws	185
Capacity	547,015,841
Lumber cut, 1868	457,396,225
On dock unsold	58,988,027
On dock unsold	12,492,990
Logs in boom	12,751,646
Men employed	2,675
Lath cut	61,478,210
Lath skipped	54,806,610
Lath on hand	7,309,400
Capital invested	\$4,082,000

The following is the amount of lumber cut on the Saginaw River and tributaries each year for the past six years:

	Feet.	Feet.	Feet.
1863	133,500,000	1866	349,767,364
1864	215,000,000	1867	423,965,190
1865	250,639,340	1868	457,396,225

The amount of lumber rafted out from the banks of the different rivers is as follows in feet:

	Feet.	Feet.	Feet.
Tittabawassee	228,871,300	Rifle	43,044,946
Cass	68,740,554	An Gies	18,800,000
Bad	15,701,142	Saginaw	950,000
Flint	4,670,000	Pine	1,000,000
Kawkawlin	17,700,000	An Sable	15,106,740

In lumber the business seems every year to be steadily improving. It is now thirty-two years since the first cargo of lumber was shipped from the Saginaw River, and the business of manufacturing lumber may not be said to have been respectfully inaugurated until ten years after that time, and not properly systematized for full twenty years from the date of its first feeble beginning. The rapid increase of the business and the immense amount of capital invested, may be appreciated when it is known that the value of the lumber manufactured during the last year was nearly \$10,000,000.

In summing up the lumber business, we find that the enormous amount of over 700,000,000 feet of pine timber has been cut and manufactured in the Saginaw Valley, including Genesee county and the Bay Shore, which, at its present value, would realize over \$15,000,000. Without enumerating staves, pickets and long timber, of which an enormous amount has been shipped, we give a resume of the business as shown by the foregoing tables.

	Lumber.	Lath.	Shingles.
Saginaw Valley	457,396,225	61,478,910	104,104,500
Genesee county	82,110,000	13,832,000	51,500,000
Bay Shore	94,887,313	30,700,000	43,000,000
Total	634,393,538	106,010,910	198,604,500

The following estimate of the pine timber now standing is given:

	Feet.
Saginaw and "the Shore" to and including	5,241,600,000
Sable River and tributaries	36,000,000
Harrisville	75,000,000
Alcona	2,850,000,000
Thunder Bay district	8,232,600,000

The gross value of this supply, when manufactured, calling lumber \$15 per M. would be \$123,339,000. Manufacturing at the rate of 500,000,000 annually, the timber would be entirely exhausted in less than seventeen years.

Commenting upon the above, the *Chicago Republican* says:

"It will be seen that the business of converting the pine forests of the northern part of the State into lumber is being conducted on so large a scale, that before many years the supply must be exhausted. The most distant limit is, we believe, placed at half a century, while the more sagacious fix the period, as in this report, at seventeen years. The *Enterprise* says:

"The value of our immense pine forests is becoming better understood. Every year their extent is more sensibly appreciated, and the foolish term 'inexhaustible,' as applied thereto, has gone quite out of use, though the practical demonstrations of practical, far-seeing business men, many of whom have given of late unusual attention to the question as to what is the best use to make of the bountiful resources vouchsafed to the people of Michigan and particularly to the inhabitants of Saginaw Valley."

"During the year, 457,396,225 feet of lumber have been cut on the Saginaw River and its tributaries. Several very large mills have been erected during the year, and judging from this, we should be inclined to place the limit of the exhaustion of the pine at eighteen or twenty years, were it not for the fact that the natural tendency of the buying and selling of pine lands is placing these lands in the hands of fewer individuals, thus making mill property worthless when the owner has no pine, and the amount of lumber manufactured each year will of course become smaller. In the report from which we have quoted, a suggestion is made which, to say the least, seems practicable; it is to plant pine trees upon the lands which have been and are being so rapidly 'cleared.'"

"In every part of the 'United States,' says the report, 'as well as on this lake shore, the white pine grows with wonderful strength. The plants are easily obtained, either from forests or seeds, are transplanted with great certainty of success, and grow to become mighty trees in less than half a century, often making an annual upward growth of three to four feet, and a diameter in proportion. From plants of six inches in length, planted on grounds in the spring of 1858, trees are now standing thirty feet in height, with a diameter of eight to ten inches, and for the last four or five years an upward growth of three to four feet.'"

The Eastern markets are moderately active, supplying some call for cargoes to the West Indies. Prices of lumber about as before, but freight room plenty and cheap. Logging prospects were rather more encouraging in view of recent favorable snow storms.

Portland rates are as follows:

Clear Pine	Spruce No. 1	20.00 @ 25.00
Nos. 1 & 2	Shingles	
No. 3	Cedar ex.	4.00 @ 4.25
No. 4	Cedar No. 1	2.75 @ 3.00

Sugar Box Shooks, each	0 50 @ 0 60

Southern markets still reported active and quite firm at full former figures. The usual reports of a short supply of logs were current, but nearly all the mills had enough for present use and were driving saws rapidly. Foreign orders meet with most attention, though an occasional cargo is sent up the coast.

Savannah prices are as follows:

Timber \$8 @ \$12 per M. feet for mill timber, \$10 @ \$15 for small shipping do., and \$14 @ \$20 for large do. Lumber \$20 @ \$22 for ordinary sizes; \$25 @ \$30 for difficult sizes, and \$22 @ \$23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4 @ \$5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @ \$30.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00 @ \$38.00, mill timber, \$6.00 @ \$8.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:

Pine Steam Sawed Lumber—Cargo rates—per 1000 feet.

Ordinary assortment Cuba cargoes	\$20 00 @ \$25 00
" Hayti cargoes	18 00 @ 20 00
Full cargoes wide boards	22 00 @ 24 00
" flooring boards, rough	20 00 @ 22 00
Ship stuff as per specifications	20 00 @ 25 00
Deals, 3 by 9	22 00 @ 23 00
Prime River Flooring	15 00 @ 17 00

Timber per 1000 feet:

Shipping	14 00 @ 15 00
Mill prime	12 50 @ 14 00
Mill fair	10 00 @ 11 00
Mill inferior to ordinary	6 50 @ 8 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchant

able, \$14 to \$18 per M.

Flooring, 1 1/2 x 4 to 6, \$15 to \$17 per M.

" dressed, 25 to 27 " "

Ceiling, 7/8 dressed, \$24 to \$25 per M.

Planks, 1 1/2 x 10 and upwards, \$15 to \$17 per M.

" 1 1/2 x 2 " 15 to 17 "

Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents

per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing is not in very active demand, the sales being confined almost entirely to job lots,

but manufacturers remain confident in view of the firmer

tone on ingot. We quote new at 33c., and old 22c. @ 23c.

Yellow metal steady, and selling moderately at 27c.

Scotch pig iron has met with a demand active enough

to about exhaust all the stock, and at the moment the

market is entirely bare of desirable goods. Fresh sup-

plies, however, are known to be about due, and buyers

quietly await the arrivals of invoices from which they can

make selections. On the best grades values have some-

what improved, and the whole range may now be placed

at \$40.00 @ \$43.00 per ton. American pig iron continues

very dull for all grades, owing to the wide margin between

the views of manufacturers and buyers, and no contracts

worthy of note have been consummated for future delivery,

while all purchases on the spot are confined entirely to the

supply of immediate wants. About former figures are re-

tained, but they must be considered as somewhat nominal.

We quote at \$39.00 @ 40.00 per ton for No. 1; \$37.00 @ \$38.00

for No. 2; and \$35.00 @ 36.00 do. for No. 3. Bar iron from

store is selling with rather greater freedom than heretofore,

the recent reduction drawing out buyers, and the tone of

the market is now quoted steady. \$5.00 @ \$5.75 per ton

for common American and English bar; \$9.00 @ \$9.20

for refined do.; \$145.00 do. for Swedes, ordinary sizes;

\$122.50 @ \$150.00 do. for ovals and half round; \$125.00 @

\$160.00 for scroll, and \$100.00 @ \$160.00 for rods 3/8 @

3-16 inch. Common sheet iron is moderately active and

steady, though the poorer and least desirable grades might

be bought a trifle off. We quote at 5 1/2 c. @ 7c. for singles,

doubles, and trebles. Russia sheet iron, and in good trade

request at 10 1/2 @ 11 1/2 c. gold, according to number. Pig

lead was in brisk demand immediately following our last,

but has since quieted down, closing steady however at 6 1/2

@ 6 3/4 gold. Bar lead 10 1/2 c., and pipe and sheet 12c. less,

6 per cent. to the trade. The business in pig tin has been

fair, but mostly from dealers' hands, the stock being well

under speculative control, and only sparingly offered. We

quote in coin at 30c. @ 30 1/2 c. for English; 31c. @ 32c. for

strails; and 32c. @ 32 1/2 c. for Banca. Tin plates are dull, but

firm at our revised figures in regular table of quotations.

Zinc is going from store in fair quantities at 12c. @ 13c.

NAILS.—Cut nails have of late met with an improved

inquiry, partly on shipping account, but largely for local

and interior consumption; and without any decided ad-

vanee, prices close firm at 5 1/2 c. @ 5 3/4 c. Clinch dull, steady,

and in fair supply at 6 1/2 c. @ 6 3/4 c. Finishing nails un-

settled at 5 1/2 c. @ 5 3/4 c. for 6d, 8d, 10d, and 12d.; 5 1/2 @ 5 3/4

for 5d., and 5 1/2 @ 6 1/4 for 4d. Other kinds steady at 15c. for

zinc; 26c. for yellow metal; and 40c. for copper. The ex-

ports are 162 packages, valued at \$1,079; against 245 pack-

ages, valued at \$1,457, same time last week. Shipments to

San Francisco of 8,525 packages.

PAINTS AND OILS.—The improved tone in the mar-

ket for paints, noted in our last report, continues, and

values on all goods are very strong. The wholesale

dealers are selling quite freely to jobbers, who in turn are

doing and distributing a comparatively liberal amount of

stock to consumers, both on local account and country or-

ders. There is also some little export inquiry. The supply of most styles is fair, though there are a few exceptions, among which may be classed Paris white. This has become very scarce, and values in consequence are increased. Our figures on prime American white lead are again advanced, and the feeling is quite firm. The Bartlett White Lead Company retain former quotations, and continue to sell at 10½¢ @ 11¢. Foreign glue has attracted less general attention, though still selling to a fair extent; and domestic stock now begins to move to a moderate extent, all at full figures. Linseed oil has further advanced about 1¢, per gallon, and is selling to local and country jobbers to a fair extent. There is some little speculative feeling, but buyers do not find parcels in just the position desired, and not much has been accomplished. The stocks are reported as moderate. We quote at \$1.03 @ 1.04 in casks; and \$1.05 @ \$1.06 in bbls. We notice exports of 63 package paint, valued at \$949, and 90 gallons linseed oil valued at \$111.

PITCH.—Receipts are still very moderate, and though there is scarcely any business doing at the moment, prices remain firm and uniform on all desirable grades, with holders displaying no anxiety to realize. The moderate demand is entirely on local or near by account. We quote Southern at \$2.75 per bbl., and prime city \$3.00 do., with jobbing lots at \$3.12½ @ \$3.18½ per bbl. Receipts for week none. Exports for week 20 bbls.; since January 1st, 260 bbls., and for same period last year 307 bbls.

PLASTER PARIS.—Lump remains quite dull, and we learn of no sales of either white or blue, though dealers are firm, and refuse to make contracts, except at full previous rates, mainly about \$4.50 @ 5.00 per ton. Calculated in fair demand, and former rates still current, though manufacturers are inclined to shade a little, when a liberal sale can be effected thereby. We quote at \$2.40 @ \$2.50 per bbl. We note shipments of 551 bbls. calculated to San Francisco.

SLATE.—We find nothing new in this market of striking importance. The demand for small parcels is fair, and quite general, causing a slow uniform reduction of stock, and giving sellers no advantage on any one line of slates. Prices, therefore, remain as before, and may be called steady.

SPIRITS TURPENTINE.—False advices per cable from Europe greatly stimulated the market early in the week; and with some excitement, prices were suddenly run up to 55 for any grade. When the reports were discovered to be erroneous, some reaction naturally took place, but light receipts were of advantage to holders, and the fall was comparatively moderate. Neither consumers or shippers are free operators, and the business may be considered largely of a speculative nature. We quote at 57½¢ @ 58¢, for merchantable and shipping order; 58½¢ @ 59¢, in New York bbls.; and 58 @ 59 in jobbing lots. Receipts for week 232 bbls. Exports for week 37 bbls.; since January 1st, 855 bbls., and for same period last year 1,667 bbls.

TAR.—There has been less inquiry from all classes of buyers during the past week, and the orders were mostly for small lots, though large enough in the aggregate to exceed the moderate supply. Holders as a rule are not offering concessions, but with the natural weakness attendant upon a dull market, previous extreme figures may be reduced somewhat. We quote at \$2.75 @ 3.00 per bbl. for North County; \$3.35 @ 3.75 for Wilmington as it runs; and \$3.37½ @ \$4.12½ for selected lots delivered. Receipts for week 193 bbls. Exports for week 16 bbls. Since January 1st 399 bbls., and for same period past year 1,262 bbls.

DOORS.

J. B. HARLOW,

No. 2 Nevins St.,

One door from Junction of Fulton and Flatbush Av., **BROOKLYN, N. Y.**

THE attention of builders, or those who wish to make a good investment, is called to the sale by

MESSRS. MULLER, WILKINS & CO., at the Ex-

change Sales Room, No. 111 Broadway, on Thursday,

February 18, 1869, of those four choice Third avenue

lots, situated on the north-east corner of Third avenue

and 104th street. The corner lot is 25.3x100, and the

three inside lots are 25.2x100 each, even grade with

avenue. The vast improvements rapidly progressing in

the immediate vicinity renders this a most desirable in-

vestment.

Lumber Merchants' Exchange

MISCELLANEOUS.

OFFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS, No. 32 Chambers street, New York, January 4, 1869. **NOTICE TO TAXPAYERS.**—Notice is hereby given that the assessment rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment, the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

THE PROGRESS OF NEW YORK.

COMMISSIONER GREEN'S COMMUNICATION.

We had purposed to present the readers of the RECORD with the interesting and highly important communication of Mr. Green of the Central Park, regarding the development of the city limits of New York in the direction of Westchester County and Long Island. Our space, owing to the crowding of advertisements and other matter, we regret will not admit of the publication. Its great interest has already secured it a wide circulation in pamphlet-form, however, and we will be glad to furnish copies in that shape to any of our subscribers, who will apply for them at our office. Mr. Green took a brief recess from his comprehensive labors last Fall, and visited the principal cities of Europe, gleaning, as will be evident from this communication, a harvest of observation and enlightened results, which must prove of great benefit here, if his suggestions are followed up. His review of the future destiny of this city, and the vast scope of its requirements for commerce and population, presents the prospect with a vigor and clearness, that is positively electrifying. When it is understood, also, that his former announcements of a like character, bearing upon the territory within the corporate limits of the city, have been so quickly followed up by practical work and more than their most sanguine aspects realized, the force of Mr. Green's pamphlet is felt even in the immediate prices and movements of the day in real property. It will give a life and activity to real estate movements, which within a year will double the area of marketable and speculative lots around the city. Public opinion is very little behind the scope of his essay, and the demand for a bridge at every avenue, from New York across the Harlem river, will compel such improvements at an early day. Indeed, the slow and stupid manner in which the grading and opening of the streets at the upper end of the island is conducted by the corporation authorities, if much longer persisted in, will force population into Westchester, and organize another new city outside of our corporate limits at that point, as extensive and solid as Brooklyn or the Jersey shore present.

OFFICIAL RECORD OF MORTGAGES
—NEW YORK COUNTY.

In the arrangement of the following mortgages, where no description of the property follows the names, it is to be understood that there is a corresponding transfer under the same or nearly the same date in our columns, and the amount set down is what remains on bond and mortgage.

February 8th.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered and approved by the Superintendent of Buildings since our last :-

AVENUE A AND 122D ST.—S. w. cor., three frame and cor. iron 2 story dwellings; 16.8x32; owner and builder, John L. Lindsay.
16TH ST.—S. s., 125 w. Avenue A, one 5 story brick store and tenement; 25x54; owner, George Lehman; architect, Julius Boeckell.
57TH ST.—S. s., 175 e. 5th av., two brown stone front, 4 story, first-class dwellings; 25x55; owners, F. Henriques and J. M. Cooper; builders, James Webb & Son.
1ST AV.—No. 367; one 2 story brick stable; 13x30; owner, C. Dugan; builder, M. Mulrein.
66TH ST.—S. s., 100 e. 2d av., eight 4 story and basement brick tenement houses; 18.9x50; owner, W. A. Juck; architect, Julius Boeckell.
4TH ST.—S. s., 36.6 e. Avenue B, one 3 st'y brick building; 34x24.6; for store, public hall, and dwelling; owner, John Otto; architect, Julius Boeckell.
46TH ST.—S. s., 100 w. 10th av., three 3 story brick dwellings; 19.93x40.2; owner, Chas. McIntyre; architect, J. M. Forster.
WEST 53D ST.—No. 346, one 2 story brick dwelling, second-class; 20x30; owner, Franz Ihringer; architect, J. M. Forster.
46TH ST.—S. s., 167 w. 10th av., one 3 story and basement, frame and brick tenement house; 33½x21; owner, C. McIntyre; architect, J. M. Forster.
46TH ST.—S. s., 100 e. 1st av., one 1 story, brick slaughter-house; 19x35; owner, Geo. Strauss; architect, J. Boeckell.
78TH ST.—S. s., 270 w. 1st av., three 3 story and basement stone front first-class dwellings; 15.7x50; owner, M. T. Gilleck; architect, W. McNamara.
41ST ST.—N. s., 175 w. 3d av., one marble mantle manufactory, 2 stories frame and wood; 19x60; owner, John Heany.
16TH ST.—S. s., 175 w. Av. C, one 5 story brick and iron front store and tenement, 25x52; owner, John McNamara; builder, M. R. Williams.
47TH ST.—N. s., 100 w. 9th av., two 4 story brown stone front first class private dwellings, 20x42, owner, Joseph Bailey; builders, Ogden & Mount.
47TH ST.—N. s., 125 w. 9th av., one 3 story and basement, brown stone front dwelling, 25x50, owner, Henry Aught; architects, Christie & Dyke.
109TH ST.—N. s., 80 e. 2d av., one 3 story and basement, brown stone dwelling, 20x45; owner, &c., John Baird.
3D AV. AND 121ST ST., s. e. c.; one wood 2 story frame store and dwelling; 25.2x74; owners, S. D. Lent & M. Braun; builder, O. D. Lent.
121ST ST., s. s., 80 & 105 e. 3d av.; two 2 story and basement wood buildings, for office, shop, and stables; 25x55; owner, O. Lent & L. S. Dewey; builder, O. D. Lent.
LEXINGTON AV., w. s., 40.5 63d st.; one 3 story brown-stone front brick first-class dwelling; 20x50; owner, Isaac Schwartzkopf; architect, Louis Burger.
56TH ST., s. s., 100 w. 2d av.; one 2 story frame and iron factory; 48x40; owner, &c., Jas. Williams.
LEXINGTON AV.—W. s., 20.5 n. 63d st., one 3 story brown stone front dwelling, 20x50; owner, Abm. Bauman; architect, Louis Burger.
1ST AV.—E. s., 33.4 n. 70th st.; one 3 story brown stone front store and dwelling, 19.11x48; owner, P. A. Duffy; builder, P. Duffy.
61ST ST.—N. s., 60 w. 1st av.; one 3 story

brick planing mill, 37x100; owner, &c., Jos. Ho-man.

3D AV.—E. s., 74.6 n. 110th st.; one 2 story frame and wood dwelling, 26.4x36; owner, H. Budellman.

2D AV.—W. s., 65 n. 2d st., one 3 story brick dwelling, 25x20; owner, Patrick Durdin; architect, Julius Boeckell.

LAWRENCE ST.—S. s., 8 lots e. of Broadway, one 3 story frame and wood hotel, 25x65; owner, John Ruger; architects and builders, Beinstert and Haye.

7TH AV.—Nos. 377 and 379, two 5 story brick and tenement houses, 24.8x55; owners, Byrnes, Brady and Mrs. Fitzsimmons; architects, A. Pfund & Thomas.

41ST ST.—N. s., 300 e. 11th av., one 2 story brick match factory, 25x50, owner, John Bauer; architect, John M. Forster.

57TH ST.—N. s., 225 w. 10th av., one 2 story frame and wood dwelling, 25x30, owner, Jesse M. Furber; Plan No. 165.

MARKET REVIEW.

BRICKS.—The market for hard brick continues comparatively dull and devoid of interest, up to the close of this report, though indications point to some changes within a few days, and the probabilities are that the turn will be in buyers' favor. The demand though fair is not by any means brisk, the supply from the Jersey yards comes forward in a regular manner, and the recent warm, spring-like weather has so cleared the river that many sailing vessels are loading, and some have already arrived, each captain naturally anxious to make the run as quickly as possible. Thus the stock is suddenly increased, and in order to secure an outlet, some inducements must be offered buyers. The demand at present comes mostly from masons requiring odd lots to complete jobs, and for various other styles of irregular work, no contracts being made for large parcels, most of the builders who would be likely to want a liberal supply having piled up enough brick to carry them through the early portion of the season. We quote per cargo a little nominally at \$14.00@ \$15.50 per M. for Long Island; \$12.00@ \$14.00 for New Jersey, and \$15.00@ \$16.00 for North River, the outside figures only to be obtained on very choice quality, of which but few arrive, though the general average condition of the stock is very good. Pale brick continue in good steady demand, cargoes finding customers upon arrival and realizing former rates, viz. \$10.00@ \$11.00 per M. We are informed that in some sections of the city it is hardly possible to fully meet the call for pale brick, so well do they pay speculators, who run them in as a hack to a remarkably thin veneer of brown stone, and thus turn out row upon row of fashionable residences, so-called. In front brick the trade is fair, and dealers are obtaining former quotations without difficulty.

CEMENT.—Supplies are still slowly but surely working down under a continued good demand, and some dealers find it necessary to use considerable discrimination in the reception of orders, to prevent running entirely out of stock, and thus disappoint regular customers. Near-by country buyers, coastwise shippers, and a few exporters are all represented to some extent, but the city trade, as before, still take the major part of the goods sold. Prices rule strong and buoyant, with a few sellers to be found at \$2.75@ \$2.90, but not many below \$3.00 per bbl. Some hopes are entertained that the production will commence earlier this season than usual, in view of the probable quick disappearance of the ice from the river.

FOREIGN WOODS.—A few shippers have found a bare margin for profit on certain grades of mahogany, and one or two lots are about going forward on receiver's account, but the general export demand is still light, and stocks decrease slowly. Jobbers are not buying except occasional-

ly through necessity, for a special style of goods, while the retail consumptive demand continues small and uncertain. Lignumvita is in ample supply for all immediate wants, and good quality wood only reaches quoted rates. Cedar has sold to a moderate extent, in one or two instances, hotb on local and shipping account, and at prices said to be much in buyers' favor, though most holders remain firm and appear to gain confidence from the continued unfavorable condition of political affairs in Cuba. Foreign orders are still very difficult to execute at current values of the wood and of freight-room, but it is intimated that exports will be made direct from owners' hands, if the full prices asked cannot be obtained in this market. The returns show no shipments this week, but about 500 logs mahogany are going aboard for Liverpool. Receipts as follows: from St. Jago, 37 pcs. cedar; from Havana, 271 logs do.; from Wanks River, Nic., 104 logs do. and 35 logs mahogany; from Minatitlan, 440 logs mahogany; from Jacmel, 80 logs and 173 pcs. do., and from St. Domingo City, 386 pcs. lignumvita.

GLASS.—We find no improvement in this market, importers of both French and English reporting a very dull trade in all kinds of window glass, and some irregularity in values. The small sizes are not abundant but in ample supply for immediate wants, and in one or two instances a slight accumulation has taken place. American window is plenty and dull. We quote at 50 per cent. off on American; 40@50 per cent. on French, and 35@40 per cent. on English.

HARDWARE.—The business in builder's hardware continues quite active, all the leading articles going out in quantities nearly equal to the receipts from manufacturers, and prices are still quoted very firm. Out-of-town orders are dropping in to a fair extent; the export trade is good for the season, and local jobbers are commencing to stock up. Cast Butts have recently been advanced 10 per cent. A larger supply of strap and T Hinges has come to hand during the week, but wrought Butts are still in very short stock, and additions are wanted.

LATH.—Since our last report a cargo of 700,000 Eastern arrived, and as we have previously intimated would be the result of such an offering, they quickly changed hands at a material advance, realizing to the seller 3.30 per M., the only dissatisfaction expressed being by those buyers who were unable to secure the parcel. A few more just such lots could be sold to advantage, as many dealers are nearly and a few entirely out of lath, and in order to meet their regular trade would gladly re-stock even at the advanced figures. Too heavy a supply, however, is not wanted, and would soon break down the market. City dealers report a good consumptive trade and occasionally an out-of-town order to supply some jobber whose stock is running low, and on all retail lots values have been advanced to \$3.50@ \$3.60 per M., and in certain cases even as high as \$3.75 per M.

LIME.—Finding the weather fair and open and a number of vessels lying idle, with the captains anxious to make a trip, Eastern manufacturers started up their fires, and turned out a considerable quantity of stock which was immediately loaded, and shipped to this point. A few cargoes would have done well enough, and in all probability sold at full previous figures, but as we noted last week, dealers were not over anxious for a supply, and the fleet that came in was entirely too large for current wants. Receivers, therefore, had but one course to pursue, and that was to reduce the price sufficiently to draw out a demand, and common lime, of which the bulk of the offering was composed, fell off to \$1.25 per bbl., a decline of 30c., lump remaining steady at \$2.00 per bbl. It is estimated that in the aggregate about twenty-five or thirty thousand barrels arrived, pretty much all working off at the decline and nothing of importance now remains afloat unsold. Northern lime has, of course, been obliged to follow, but is offered rather sparingly, owners being hopeful of a reaction. The market for Rockland closes with more steadiness, the result of the recent shipments having shut off the kilns, and suspended the production for the present, the rates obtained being anything but satisfactory to manufacturers. Our city dealers have adjusted their prices to conform to the wholesale market.

LUMBER.—Trade at the yards does not improve, in fact in most sections of the city has rather fallen off during the week under review, but this is attributed more to temporary causes, than to any general withdrawal of buyers, and dealers continue to express a fair amount of satisfaction, with the result since the opening of the year. A few Southern orders are being filled, and one or two lots of desirable goods are wanted by near-by country dealers, though the demand as before is mainly local. A few large contractors and builders are reported as looking around the market, with the intention of making preparations for the coming spring and summer, but as yet have entered into no engagements. In a few isolated cases we bear of assortments being a little broken, but as a rule the stocks are ample and well distributed, and held at former rates. In many cases predictions are being made of an unusually early opening of the Hudson to Albany; but, though the recent weather has favored the idea, one or two sharp cold days and nights—and it is not too late to expect them—would soon shut off navigation until nearly, if not quite the usual time for the final breaking up of the ice. At wholesale we find the same stagnation heretofore noted, buyers and sellers having nothing upon which to negotiate, whatever may be their desires in regard to operations. All accounts agree, however, that stock is wanted to a certain extent, and if right here on the spot, could be sold at full figures for choice goods. The demand is mainly from local dealers and manufacturers, though shippers appear to be buying with rather more freedom than last season, and in many cases on direct orders, instead of for the purpose of filling up freight-room as heretofore. Eastern spruce remains nominally at \$20.00@ \$25.00, the figures based upon last sales, but they could, without doubt, be again realized, were anything of respectable quality offered. One small cargo we understand came in last week on special order, and it is thought a few more may possibly arrive should the weather continue encouraging, but from the regular ports nothing can reasonably be looked for at present. For delivery during the early spring some en-

gagements have been made, but they are kept very secret, and we are unable to give the particulars. White pine is doing very well, all things considered, and values are fully and easily sustained. Several assortments are making up for export purposes, and on home manufacturing account there is small but steady outlet. We quote at \$21.00@ \$25.00 per M. feet for inferior to fair box boards; \$26.00@ \$30.00 for good to prime do.; and \$31.00 for choice selections do. Piling, in one or two small lots has sold from second hand at 8c., but there is no regular market for this class of goods at present. Yellow pine has been rather more plenty, and though a large proportion of the arrivals come in on contract, they have their effect, and produce some little depression. No actual decline, however, can be quoted, as really choice stuff would still command outside figures. The amount on the way is still reported small, and a large portion already sold. We quote hewn timber at \$36@38c. per foot; resawed do. at \$30.00@ \$32.00 per M., and good to prime flooring boards \$33.00@ \$35.00. Black walnut planks, etc., are selling fairly, but not actively, at full former rates, particularly on choice seasoned stuff, which is scarce. Black walnut logs moving moderately for export at 7½¢ to 7¾¢, but mostly on positive orders. Pine shingles dull and nominal at \$4.50 @ \$4.75 per M. Cypress shingles quiet, with no buyers above \$16.00@ \$20.00 per M., except for very extra size.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Africa.....	60,256	—	92,256
Argentine Republic.....	64,655	140,164	613,394
Brazil.....	97,135	86,555	359,570
British Australia.....	—	—	1,291,595
British Honduras.....	—	—	25,129
British West Indies.....	57,200	—	78,200
Central America.....	16,500	24,666	41,466
Cisleptine Republic.....	—	—	406,340
Cuba.....	—	—	1,560
Danish West Indies.....	—	13,525	13,525
French West Indies.....	2,791	—	17,811
Havre.....	—	—	8,745
Hayti.....	—	—	14,981
Liverpool.....	—	—	3,010
Mexico.....	—	9,200	57,600
New Granada.....	—	—	59,134
Peru.....	200,000	—	544,136
Porto Rico.....	—	—	15,000
Venezuela.....	—	2,320	36,337
Total feet.....	408,837	294,763	3,745,052
Value.....	\$14,214	\$11,264	\$157,037

We also notice shipments of the following: to London, 74 logs maple value \$1,650, and 50 logs black walnut, value \$2,500; to Brazil 23 spars; to Central America 160 bundles shingles; to Rotterdam 3,000 staves; to Antwerp 5,000 do.; to Glasgow 3,600 do.; to London 12,725 do.; to Cadiz 81,100 do.; to Malaga 124,900; to Valencia 10,000; to Tarragona 54,120; and to Peru 6,500. The receipts reported are as follows: From Wilmington, N. C., 41,606 staves; from Washington, N. C., 74,905 shingles and 18-200 staves; from Newbern 70,000 shingles; from Pensacola 316,000 feet lumber; and from Jacksonville 395,000 timber and lumber most of the latter previously sold.

The logging prospects at the West are still reported as gloomy, but the advices are too meagre to admit of any reliable opinion being formed as to the probable amount cut or likely to reach the banks of the rivers. At most of the leading depots a good local distributive trade was doing, and supplies working down. This is particularly the case at Chicago, where the stocks of some of the most desirable grades are greatly reduced and prices advancing.

The following represents the imports from Canada at the points named:

AT CHICAGO.			
	Lumber.	Lath.	Shingles

1567.....	11,691,000	—	10,315,000
1568.....	9,566,000	—	14,412,000

At the Northward and Eastward there is a little business doing, but only in small parcels on local or near-by account, with the exception, probably, of a few cargoes shipped from St. John, N. B., and vicinity, coastwise (Portland and Philadelphia), and an average amount going to the West Indies. The loggers are hard at work, and with much more favorable prospects than heretofore, owing to the snow storms, particularly through the Ottawa district.

From Portland we have the following:

The lumber trade has been fair, there being but a small stock remaining on hand at the end of the year. The abrogation of the reciprocity treaty has greatly decreased the trade in Canadian lumber. The amount of lumber exported during the year was 9,867,745 feet long lumber, 327,000 shingles, 27,000 laths, 850 bundles laths, 50,081 pieces lumber, 6,020 pickets, 142 spars, 210 spruce piles, 40 bundles planed boards.

The importations of lumber this year amount to 1,044,569 feet long lumber, 53,000 laths, 500,000 shingles, 602 ship knees, 523,000 feet pine boards, 825 spruce piles, 66,575 railroad sleepers, 9,250 clapboards, 224 bundles palings.

Portland rates as follows:

Clear Pine.		Spruce No. 1.....	20.00@25.00
Nos. 1 & 2.....	\$55.00@60.00	Shingles.....

The Southern markets are without change to note. At the principal points trade is good, and everything ready for market works off easily at about former rates. Freight-room in most cases was in fair supply, and terms comparatively reasonable.

From the Norfolk, Va., Journal the following is taken: "We took occasion to mention a few days ago the rapid growth of this trade, particularly in shingles and saved lumber. Staves, owing to the oaks having nearly been exhausted in Eastern North Carolina, are being brought from the interior by the railroads, though the quantity coming by canal exceeded 3,500,000. Previous to the war the quantity exceeded 8,000,000.

"In consequence of the scarcity of oak, other woods have of late been in some cases substituted. Cypress has been found well adapted to sugar and molasses shoos, and considerable trade has been done in that kind of staves. A few years ago none but oak staves were shipped, but the demand for cypress has become so great that more than 500,000 were brought through the canals the past year. We hope to have the pleasure of announcing the establishment of additional shoo factories here before another season. Certainly no place offers greater inducements to this particular branch than the "twin cities by the sea." Here we have the raw material in close proximity to navigation. We are constantly exporting staves to Portland, Maine, where they are being made up into shoos for the West India market, and after taking such a long voyage to Portland are returned past our very doors to the West Indies.

"It is in pine lumber, however, we expect Norfolk to become the emporium.

"Situated on an arm of the sea, we are in position to ship to any part of the globe, while the logs may be brought from any of that portion of Virginia or North Carolina whose waters flow into the sounds of North Carolina or that magnificent inland sea, the Chesapeake Bay.

"Mills located in Norfolk may be stocked from two States, and in addition to the yellow pine, we have an abundant supply of oak, cypress, poplar, maple, beach, gum, and other woods, usually found in this latitude."

Savannah prices are as follows:

Timber \$12 per M. feet for mill timber, \$10@ \$15 for small shipping do., and \$14@ \$20 for large do. Lumber \$20@ \$22 for ordinary sizes; \$25@ \$30 for difficult sizes, and \$22@ \$23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4@ \$5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @ \$30.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00@ \$38.00, mill timber, \$6.00@ 8.00; and shipping, \$11.00@ \$12.00.

Wilmington quotations as follows:

Pine Steam Sawed Lumber—Cargo rates—per 1000 feet.	
Ordinary assortment Cuba cargoes.....	\$20 00 @ \$25 00
" Hayti cargoes.....	18 00 @ 20 00

Mill fair.....	10 00 @ 11 00
Mill inferior to ordinary.....	6 50 @ 8 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.

Flooring, 1½x4 to 6, \$15 to \$17 per M.

" dressed, 25 to 27 " "

Ceiling, ¾, dressed, \$24 to \$25 per M.

Planks, 1½x10 and upwards, \$15 to \$17 per M.

" 1½x2 " 15 to 17 " "

Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—For copper sheathing there has been a very good demand at full prices, and for small parcels manufacturers have advanced their figures, the general market closing strong. We now quote new at 33@35c., according to quantity, and old 22@23c. Yellow metal unchanged but firm, and a trifle buoyant. Scotch pig iron is not abundant, though more plenty than last week, and with only a fair demand sellers gain no further advantages.

The feeling, however, is pretty steady, and there is an absence of any undue pressure to realize. Quotations stand at about \$40.00@ \$43.00 per ton. American pig iron remains at an almost complete standstill, neither buyers nor sellers evincing any disposition to make the concessions necessary to bring about business, and the market for the present is merely a nominal one. We quote at about \$39.00@ \$40.00 per ton, for No. 1; \$37.00@ \$38.00 do. for No. 2; and \$35.00@ \$36.00 for forge. Bar iron from store has again become quiet, and we hear of little business beyond a few jobbing lots required by buyers for some special purpose. Prices unchanged, and we still quote at \$85.00@ \$87.50 per ton for common American and English bar; \$90.00@ \$92.50 for refined do.; \$145.00 do. for Swedes, ordinary sizes; \$122.50@ \$150.00 do. for ovals and half round; \$125.00@ \$160.00 for scroll, and \$100.00@ \$160.00 for rods ½ to 3-16 inch. Common sheet iron has been in rather better demand at former rates, closing steady. We quote at 5½¢ to 7c. for singles, doubles, and trebles. Russia sheet has sold quite freely, and with a greatly reduced supply, prices are decidedly better, showing much strength at the improvement. Nos. 9 and 10 are particularly scarce, and at the moment a few invoices would command extreme figures. We quote at 11½¢ to 13c. gold, according to number. Pig lead is slowly attracting attention, and the sales from day to day show a fair aggregate. Prices steady at 6½¢ to 6¾¢ gold. Bar lead 10½¢, and pipe and sheet 12c. less, 6 per cent to the trade. Pig tin has been quiet, and the desire for investment at ruling rates is apparently growing weaker. Holders, however, express great confidence, and no important concessions have been granted. We quote in coin at 30c for English; 31@31½c for Straits; and 32@32½c for Banca. Tin plates, immediately following our last, were active, but were again become dull, prices showing no alteration. Zinc is no higher, but in good demand, and very firm at 12½¢ to 13c from store.

PAINTS AND OILS.—No further important changes in values have taken place, but for nearly all grades of paints, &c., there is some demand at the moment; and the markets, both wholesale and retail, show a strong uniform tone. The business is largely on domestic account, though a few export orders are occasionally received. American glue in fair demand; and of English and German there has recently been a number of sales, all at full prices.

Linseed oil has been in very good demand, entirely from the trade, but the average of business is nothing unusual, prices remain as before, and the market presents few features of interest. We quote at \$1.03@ \$1.04 in casks; and \$1.05@ \$1.06 in bbls. We note exports of 306 packages paint, valued at \$2,383; and 128 gallons linseed oil, valued at \$185.

PITCH.—Quite a large amount of stock has recently gone abroad. The local demand is good, and with light supplies of desirable grades, the market shows much strength closing a little buoyant. We quote at \$2.75@ \$3.00 for southern; \$3.00@ \$3.12½ for city; and \$3.25 per lb. for jobbing parcels. Receipts for the week 32 bbls. Exports for week 324 bbls.; since January 1st, 584 bbls.; and for same period last year 317 bbls.

SPIRITS TURPENTINE.—The market has been fairly active in small parcels, but not enough so to give business much general life; and with a pretty liberal stock, daily receiving some additions, the turn has been downward, buyers gaining an advantage for the week 1½c. per gallon. Exporters are still without profitable margins, and the demand comes entirely from the local and interior jobbing trade. We quote at 26@26½ for merchantable and shipping order. 27@31½ in New York bbls.; and 55c. in jobbing lots. Receipts for the week 751 bbls. Exports for week 3 bbls.; since January 1st 253 bbls.; and for same period last year 2,783 bbls.

TAR.—At the reduced figures noted in our last the feeling has been very firm, and a pretty large business done both in parcels on the spot and to arrive, nearly, if not all the contracts being made with domestic buyers, exporters finding no advantage in operations at this point. The stock is small and poorly assorted, and we find a pretty firm feeling at the close. We quote at \$2.75@ \$3.00 per bbl. for North

JAMES M. MILLER, Auctioneer.

OFFICE, 28 PINE STREET, BETWEEN NASSAU AND WILLIAM STS.

GREAT SALE

—OF—

Broadway and 35th Street Property!

JAMES M. MILLER

WILL SELL AT AUCTION,

ON TUESDAY, FEBRUARY 23d, 1869,

At 12 o'clock, at the Exchange Salesroom, 111 Broadway,

UNDER THE DIRECTION OF

DANIEL P. INGRAHAM, Jr., Esq., Referee,

Nos. 1299, 1301, and 1303 Broadway, with the 4 Lots adjoining in the rear on 35th Street.

This property has a front of 73 feet 8 inches on Broadway, and of 103 feet 10 inches on 35th Street, and runs back from Broadway on the North line about 191 feet.

THE WHOLE PROPERTY WILL BE SOLD IN ONE PARCEL.

The Store and Basement of 1299 Broadway are leased until May 1, 1871, at \$1,000 per year. The Stores 1301 and 1303 Broadway are leased until May 1, 1869.

The residue of the buildings, 1299, 1301, and 1303 Broadway, are leased until May 1, 1871, at \$6,000 per year.

A part of the purchase money may remain on Bond and Mortgage for a term of years.

For MAPS and particulars, apply to the Auctioneer, No. 28 PINE STREET, NEW YORK.

A REAL ESTATE EXCHANGE PLAN.

THE aspect of the Real Estate Exchange room in this city now presents a daily scene of activity unsurpassed either by the Gold room or the Stock Exchange. The crowd and the clamor appear, perhaps, a little more staid and sober, but the life and vigor manifested are proportioned to the fact that the greatest fortunes and the surest path to affluence may now be found in the legitimate operations of real property in this city. The fluctuating activity of former years appears to be well outgrown here, and real estate business, organized in the ablest hands, promises to present a permanent body of transactions quite as regular and settled as money or produce on 'change. There are certain disabilities, however, which obstruct the rapid transfer of real property. These mainly grow out of the two points, the embargo which the lawyers and their searchers make on every change of ownership, and the difficulty of fixing a positive value for rapid exchange on each parcel of property. Until something can be accomplished which will obviate these obstructions, the bulk of sales must remain greatly disproportioned to the vast body of values tied up in real estate. So far as the lawyers and their searchers are concerned, it would be very easy to suggest a change, but perhaps difficult to persuade so powerful a body to see that it would be for their interest. Our laws, modelled upon the old English common laws, inherit a great deal from that policy of the feudal time which contrived every obstruction to hamper the transfer and disintegration of estates. At this day even, it is at least a month's job and a *quasi* lawsuit for a person to transfer a piece of real property in the ordinary manner. The same amount of value in corn, or gold, or railway shares, could be sold a thousand times in that period, and can have a market as wide as from London to San Francisco. With the rising importance of real property as an article in our daily markets, it becomes a great question to solve whether any plan can be devised for releasing it and placing its movable value in some more convenient and marketable form than the usual deed. As we have observed this effort, successfully put into shape lately in the case of certain large bodies of real property, and in a form which it seems to us could be extensively applied, we will submit it here for the examination of our real estate men.

There is owned in this city a property worth over a million of dollars in the hands of one of the most active business concerns. The use of this property is indispensable to the business of the house in question, yet to have so large an amount of their capital tied up had always hampered their business operations. Lately they hit upon a plan, the practical result of which has released at least half a million of this capital, and has placed the whole amount in their hands for current business purposes, yet leaving them the free control of the estate. They selected two or three of the most responsible and best known men in the city, and made a mortgage to them in trust of the entire real estate for a sum safely within its value. This mortgage they divided and issued in bonds of one thousand dollars each in the manner of railroad bonds, and holding these in their safe with title searched and certified, they had their real estate capital as readily at their disposal as if it were ordinary railway collateral. Calling it in, they had no interest to pay; putting it out as security, they only paid interest on their loans, which they could borrow at low rates on a "first class real estate security." Why should not this plan be more generally adopted? Why can it not be elaborated and brought to bear in a general manner, so as to enable owners of real property and business men to mobilize their capital? Look at the result! It would place a thousand millions of solid securities in the market at an early day, in addition to the credit facilities now available. It would relieve the operations of real estate dealers of the incubus which now bears them to the wall and ties up their enterprise by the red tape litigating obstructions of the lawyers. It would effect ten transactions in this business where one is now made. The demands of the time indicate the necessity for releasing real property from the unnecessary disabilities which affect it at present. When this can be accomplished, one of the grandest strides which the material interests of the country can make will be realized. We will recur to this topic again and at an early day we will have the satisfaction to announce a practical organized plan for testing these suggestions.

PROJECTED BUILDINGS.

The following plans embrace all that have been
considered by the Superintendent of Buildings since
our last:—
THIRD st., No. 74; one 5 story brick store and
tenement; 26x50; owner, Jos. Ohmies; archi-
tect, Louis Burger.

E. 15TH st.—No. 513; one 5 story brick store
and tenement; 25x4; owner, Louise Tasshauer;
architect, Julius Boeckell.
16TH st., s. s., 264 w. av. A.; one 5 story brick
store and tenement; 25x5½; owner, Wm. Schultz;
architect, Julius Boeckell; builder, Wm. Schultz.
21ST st.—N. s., 200 e. 11th av.; one 4 story
brick factory; 50x60; owner, Charles Koehler;
builder, John Davis.
46TH st.—S. s., 160 e. 1st av.; one brick and frame
slaughter house, and stable; 50x16; owner, Julius
Strause; architect and builder, J. L. Potter.
W. 49TH st.—No. 146; one 3 story brick cabinet
maker factory; 25x40; owner and architect, J. H.
Andereya; builder, John Scharer.
W. 53D st.—No. 441; one two story frame and
wood tenement; 25x28; owner, Christian Jordan;
builder, Andrew Heit.
81ST.—S. s., 80 w. 2d av.; one 4 story brick ten-
ement; 24x50; owner, Boehm & Fay; architect,
J. D. Valentine; builder, Boehm & Fay.
81ST st.—N. s., 250 e. 4th av.; two frame and
corrugated iron, first class dwellings; 25x30; own-
er and architect, Wm. Tallon; builder, W. Pep-
per.
92D st.—N. s., 250 e. 4th av.; two 3 story brick
private dwellings; 12.6x30; owner, John Ryan;
architect, Wm. Graul.
105TH st.—N. s., 240 e. 2d av.; one 2 story frame
and wood dwelling house; 25x30; owner, Philip
Hinman; architect, M. Hass; builder, M. Hass.
120TH st.—S. s., 200 e. 1st av.; one 2 story frame
and wood dwelling; 25x38; owner, Mary Hillen-
brand; architect, G. Schweiker; builder, Same;
Plan No. 184.
LEXINGTON av.—W. s., 60.5 n. 63d st.; one 3
story brown stone front private dwelling; 20x50;
owner, Solomon Froelich; architect, Louis Bur-
ger.
LEXINGTON av.—W. s., 80.5 n. 63d st.; one 3
story brown stone front private dwelling; 20x50;
owner, Morritz Kellner; architect, Louis Burger.
2D av. and 120th st.—S. e. cor.; five 4 story brick
stores and dwellings; 20x48; owner, N. Terpen-
ny; architect, J. F. Wells; builder, N. Terpen-
ny.
2D av.—W. s., 75 s. 27th st.; one 3 story brick
dwelling; 25x25; owner, Ellis Parry; architect,
John A. Gannon.
6TH av. and 49th st.—S. W. cor.; one 4 story
basement and French attic; Ohio stone; front
store and dwelling; 25x60; owner, Jos. Grafton;
architect, Rogers & Brown; builder, J. H. Mas-
terton.

REAL ESTATE MARKET.

THE past week has been one of exceeding interest in the
auction market, and a large amount of property has
changed ownership at prices satisfactory to both buyer
and seller. Each week greater interest seems to be at-
tached to the movements in Real Estate, and people seem
to be just beginning to realize the vast growth of New
York and vicinity. Quite a variety of property was offered
this week, consisting of Broadway property, Boulevard
lots, Water fronts, Westchester County, Brooklyn, New
Jersey, and Staten Island property. The most valuable
piece sold was the land and buildings, Nos. 1299, 1301,
and 1303 Broadway, having a front on Broadway of 73.8,
on 35th street, of 103.10, and runs back on Broadway on
the North line 191 feet. This property was sold by Mr.
JAMES M. MILLER for \$219,000. Mr. CHAS. JOHNSON was
the purchaser. The property on which St. Thomas' church
formerly stood, now occupied by a clothing store, on the
north-west corner of Houston and Broadway, subject to a
lease of \$35,000 per annum, lot 51.10x125 was sold by
Messrs. E. H. LUDLOW & Co. to Mr. J. S. RICE for
\$290,000. Mr. JAMES M. MILLER also disposed of a large
amount of improved New York and Brooklyn property.

On the same day Messrs. A. J. BLECKER, SON & Co.
sold some property, among which was the 2 story frame
house and 4 lots n. e. cor. Av. A and 119th st.; lots,
each 25x98, together, to Mr. J. F. SUYDAM for \$23,100.

The 3-story basement and attic brick front house and
lot, No. 71 6th av., lot 20x80, was sold to Mr. G. Chester-
man for \$18,000. The nine lots on 15th st. s. s., 94 c. of
1st av., each 16.8x100, realized \$15,500. The other pieces
sold we have no space to chronicle.

MESSRS. MULLER, WILKINS & Co. disposed of a large
number of vacant lots situated in the neighborhood of
the Boulevard, Madison av. and 109th st.

The lot n. e. cor. of 81st st. and Boulevard brought
\$15,100, the one adjoining \$19,000, and the two adjoining
that \$9,000 and \$9,200 respectively. The lot n. w. cor. of
Madison av. and 109th st., 25.5x75, brought \$4,750; the 3
lots adjoining on Madison av., each 25.2x75, realized \$3,200
each. The lot s. e. cor. of Madison av. and 110th st., 20x
100.11, was sold to Mr. Francis Blessing for \$4,950. A
large number of other lots were disposed of on the same
day.

MESSRS. JOHNSON & MILLER sold the lot on Church st.,
e. s., 42.5 s. of Walker st., 21.2x51, for \$19,500. The same
firm disposed of 112 lots situated in Westchester County.

The 3 lots s. e. cor. of Central avenue and Boulevard, and 3d st., Fordham, each 25x100, for \$760 each; one lot on Central av., e. s., 300 ft. n. of 8d st., brought \$500. A number of others situated on Railroad av. and Wetmore st., and Washington av., realized from \$250 to \$650 each.

On Wednesday Mr. JAMES M. MILLER disposed of the remainder of the Brooklyn property which he was forced to postpone from Tuesday.

By A. J. BLECKER, SON, & Co.—1 lot, n. e. cor. of 7th av. and 58th st., 25.5x100, H. Friend, \$18,150. 1 lot adjoining, on 7th av., 25x100, H. Friend, \$13,000. 1 lot adjoining, 25x100, H. Friend, \$13,350. 1 lot, n. e. cor. of 11th av. and 67th st., 25.5x100, H. Aaronson, \$3,650. 2 lots adjoining, on 11th av., each 25x100, S. Pearce, each \$2,950. 2 lots adjoining, each 25x100, H. Aaronson, each \$2,990. 2 lots adjoining each 25x100, H. Aaronson, each \$2,925. 2 lots in rear of above, 1 on 67th st., and 1 on 68th st., each 25x100.5, H. Aaronson, each \$3,000. 16 lots on bulkhead line, 67th and 68th sts. and 12th av., Robert Maclay, \$20,000. 16 lots on bulkhead line 68th and 69th sts. and 12th av., Robert Maclay, \$16,000. 1 lot, n. e. cor. 2th av. and 67th st., 25.5x100, J. S. Gilmore, \$720. 3 lots adjoining, 12th av., each 25x100, James Taylor, each \$525. 3 lots adjoining, each 25x100, S. L. Leyon, each \$550. 1 lot adjoining, s. e. cor. 12th av. and 68th st., 25.5x100, A. Hay, \$800. 4 lots adjoining, on 68th st., each 25x100.5, Aaron Jacobs, each \$510. 4 lots adjoining, 3 of them 25x100.5, and 1 on Hudson River R. R., 25x101.3, R. Appleby, each \$550. 9 lots in rear of above, on 67th st., each 25x100.5, James Taylor, each \$735. 2 lots, e. s., 68th st., commencing e. s. Hudson River Railroad, 25x100.5, Charles H. Grude, each \$1,175. 4 lots adjoining, each 25x100.5, J. Kastner, each \$1,400. 1 lot adjoining, s. w. cor. 11th av. and 68th st., 25x100, Max Wiel, \$3,750. 5 lots adjoining, cor. 11th av., each 25x100, N. Walsh, each, \$2,025. 1 lot adjoining, 25x100, N. Walsh, \$2,925. 1 lot adjoining, n. w. cor. 11th av., N. Walsh, \$2,525. 1 lot n. e. cor. 12th av. and 68th st., 25.5x100, Allan Hay, \$650. 6 lots adjoining, on 11th av., each 25x100, S. Haight, each \$460. 1 lot adjoining, s. e. cor. 69th st., 25.5x100, S. Haight, \$950. 7 lots adjoining, 6 of them 25x100.5 each, and 1 irregular, James Kelly, each \$645. 8 lots in rear of above, on 68th street, 7 of them 25x100.5 and 1 irregular, B. P. Fairchild, each \$500. 7 lots s. s. 69th st., commencing e. s. Hudson R. R., 6 of them 25x100.5 and 1 irregular, James Devlin, each \$1,260. 4 lots adjoining, each 25x100.5, Wolf & Grishaber, each \$2,000. 4 lots adjoining, each 25x100.5, N. Walsh, each \$2,575. 1 lot adjoining, s. w. cor. 11th av., 25.5x100, Conrad Michaelis, \$4,400. 2 lots adjoining on 11th av., each 25x100, W. R. Rowland, each \$3,025. 3 lots adjoining, each 25x100, Wm. Richards, each \$2,750. 1 lot adjoining, 25x100, George King, \$2,900. 1 lot adjoining, n. w. cor. 68th st., 25.5x100, A. S. Duncomb, \$4,000. 1 lot adjoining, n. s. 68th st., 25x105.5, George Faber, \$1,825. 3 lots adjoining, each 25x100.5, N. Walsh, each \$1,550. 3 lots adjoining, each 25x100.5, John B. F. Gallity, each \$1,225. 3 lots adjoining, each 25x100.5, Isaac Meyer, each 1,025. 4 lots adjoining, each 25x100.5, Benj. P. Fairchild, each \$900.

By E. H. LUDLOW & Co.—8 story house and lot No. 163 w. 36th st., bet. Broadway and 7th av., lot 20x93.9, F. Kipinski, \$16,750. 1 lot n. e. cor. 75th st. and 11th av., 25.5x100, H. Arrison, \$3,650. 2 lots adjoining, each 25x100, H. Arrison, each \$2,950. 2 lots adjoining, each 25x100, H. Arrison, each \$2,990. 2 lots adjoining, each 25x100, H. Arrison, each \$2,925. 1 lot n. s. 67th st., and 1 lot s. s. of 68th st., 100 ft. e. of 11th av., H. Arrison, each \$3,000.

By JOSEPH MCGUIRE.—Five story brick house and lot No. 665 3d av., 40 ft. n. of 45th st., 19.10x45, Warren Foote \$22,500.

Messrs. JOHNSON & MILLER distinguished themselves by the great success of their sale of Brooklyn property, where they feel themselves to be perfectly at home. The property sold was bounded by Fulton, Vanderbilt, and Clinton avenues:

2 3 story brick stores and dwellings, and lots Nos. 130 and 123 Atlantic st., s. w. s., 137.6 ft. w. Henry st., stores each 12.6x70, lots each 12.6x90, together, \$15,000. 2 3 story brick stores and dwellings and lots Nos. 126 and 124 Atlantic st., adjoining above, and same size, together, \$14,700. 2 1 story, attic and brick basement cottage houses and lots Nos. 218 and 220 Atlantic st., 142 e. Court st., lot 53.5x73.5, together, \$11,500. 1 gore lot, s. e. cor. Fulton and Vanderbilt avs., 40.11 front on Fulton av., 89.6 front on Vanderbilt av., and 80 ft. deep, \$15,000. 1 lot adj. on Fulton av., 20x80, with gore of 8 ft. front on Vanderbilt av., \$7,250. 1 lot adj., 20x80, with gore of 16.6 front on Vanderbilt av., \$8,350. 2 lots adjoining, 20x80, each, \$6,500. 1 lot adjoining, 20x95, \$7,200. 1 lot adjoining, 20x97, \$7,400. 1 lot adjoining, 20x88, \$7,000. 1 lot adjoining, 20x79, \$6,975. 1 lot adjoining, s. w. cor. Clinton av., 18x61x46.9x74.9, \$13,100. 1 lot e. s. Vanderbilt av., 114 s. Fulton av., adjoining above in the rear, 18x78.6, \$2,500. 1 lot adjoining, on Vanderbilt av., 18x78.6, \$2,200. 5 lots s. s. Fulton av., 220.4 e. Classon av., each 20x117, each, \$5,150. 3 lots adj. on the e., each 20x117, each, \$4,500. 2 lots adjoining, each 20x117, each, \$4,250. 1 lot adjoining, 20x117, \$4,300. 1 lot adjoining, 20x117, \$4,350. 1 lot adjoining, 20x117, \$4,400. 3 lots adjoining, each 20x117, each, \$4,300. 1 lot adjoining, 20x117, \$4,250. 1 lot adjoining, 16x117, \$3,225. 2 lots, s. s. Fulton av., one 81 w. Classon av., and one 151 w. said av., each, 20x105, each, \$5,500. 4 lots, n. s. Lefferts st., 112.10 e. Classon av., each 20x125, each, \$2,400. 1 lot, s. s. Fulton av., each 20x125, each, \$2,250. 1 lot, s. s. Fulton av., 120 w. Albany av., 20x100, \$2,450. 1 lot adjoining on the w., 20x100, \$2,400. 6 lots adjoining, each 20x100, each, \$2,300. 1 lot adjoining, 20x100, \$2,275. 3 lots adjoining, each, 20x100, each, \$2,300. 6 lots adjoining, each 20x100, each, \$2,275. 3 lots, n. cor. Atlantic av., Boulevard and St. Andrew's pl., each, 20x99, each, \$1,200.

By JAMES M. MILLER.—3 story basement and brick house and lot, No. 33 Richardson st., n. s., 117.1½ w. Herbert st., lot 22.4½x50, Mr. Jorammon, \$3,375. 3 story and basement brick house and lot, No. 37 Richardson st., lot 22 x50, Mr. Martin, \$3,125. 1 lot, w. s. Walton st., s. w. cor. Marcy av., 21x100, Mr. Griffin, \$1,475. 4 lots adjoining on Marcy av., each 23x100, Mr. Martin, \$1,020. 4 lots, w. s. Boerum st., between Lorimer st. and Broadway, each 25x100, Mr. Martin, each, \$1,025.

MARKET REVIEW.

BRICKS.—Hard brick have been in very good demand, mostly in small parcels, but the aggregate business has not been large enough to counteract the increasing arrivals, and as we anticipated last week, stock has materially accumulated. Receivers, in consequence, have found it necessary to offer more favorable terms, and values are reduced \$1.00 per M, closing somewhat unsettled, with the tendency if anything still slightly in buyers' favor. The supply is now coming in almost exclusively from the North River, the Jersey and Long Island brick having become exhausted, or near enough so to render their wholesale market value merely nominal, and we omit quotations as simply useless. North River stock, according to latest sales, is worth \$14.00@\$15.00 per M, the general average of quality running very good. The trade as a rule hold to the opinion that the present depression is merely temporary, and attributable solely to the early rush of stock upon the market, consequent upon the opening of navigation, when manufacturers, and captains, are naturally anxious to be on hand among the first, and secure top prices. The unusual facilities afforded for transportation during the past winter, has brought down the river a great many brick, all of which were sold, so that now we have little or no old goods on hand, and many of the up-river yards are already nearly cleaned out. This position, with the impression that builders will commence early, leads to the belief that a reaction will eventually take place, or that a material falling off in price at least can be prevented until the new crop makes its appearance. Much depends on the weather, however, and should we have a continuation of storms postponing building operations, as was the case last spring, there will probably be more sellers than buyers, at any where near ruling rates. A number of new brick yards are to be started during the coming season, and manufacturing preparations are extensive, which, if not over-done, will undoubtedly result favorably. Pale brick are still selling with great rapidity, in fact, the demand is in excess of the arrivals, and dealers frequently find an accumulation of orders, with no stock to fill them. Priors have advanced 50c@\$1.00 per M, and are firm, buyers not complaining of the price as much as they do at their inability to secure a sufficient supply to meet pressing wants. Rather more have been wanted of late in the lower section of the city, but Yorkville, Harlem, and the suburban towns still call for the largest quantities. We quote at \$10.50@\$11.50 per M, nothing but very inferior selling at the inside rate. Front bricks are not very plenty, and though the demand is moderate, holders are pretty steady, and have not as yet made any quotable modifications in prices.

CEMENT.—We still find a very strong market for all the best brands of Rosendale, and not many dealers are now to be found who are willing to operate, except at full outside figures. The demand to be sure is not remarkably active, and calls for only just such parcels as the immediate wants of buyers require, but the stocks in all quarters are greatly reduced, and the owners of the remaining stock, naturally take advantage of the position to obtain high figures. About \$3.00 per bbl. may be considered as the average price, with a few sales made above this, and occasionally some slight modification to accommodate regular customers, &c. We note shipments of 100 bbls. to New Granada.

FOREIGN WOODS.—The wholesale market for mahogany remains quite dull, jobbers requiring no additional stock at the moment, and the export demand still footing up too small to infuse any life into trade. Prices are quoted nominally as before, but are barely maintained, the outside figures seldom being reached except on very choice grades. The arrivals at the moment are not large, but there is an ample supply here. The distributive demand from yard is fair and values steady. Lignumvita has met with some export inquiry and a moderate home demand at previous quotations. Rosewood is firm and the stock has recently been somewhat increased. The internal troubles of the Cuban government and the consequent prostration of all or nearly all industry has of course prevented any very large receipts of cedar from that direction, and dealers in this class of wood continue to ask about 25c. or thereabouts, though sellers can be found at 23c. and even lower. These rates, however, nearly cut off the demand in all directions, and at the same time have a tendency to draw out supplies from hand to mouth with the hope of an early decline. A few lots have gone abroad, but as a general rule, there is no margin for export, except on direct shipment from first hands. The exports for week are as follows: To Rotterdam, 1,000 logs cedar, valued at \$875; to Liverpool, 1,321 pcs. lignumvita, valued at \$2,000, and to Oporto, 99 logs mahogany, valued at \$639.00. Receipts as follows: From Rio Janeiro, 594 logs rosewood; and from Bahia, 409 logs do.

GLASS.—The general demand for foreign window glass continues quite moderate from all sections of the country, and though the arrivals at the moment run small, they exceed the sales, and supplies slightly accumulate, particularly the undesirable large sizes. There is a few exceptions to the above, however, among which may be noted a quick sale at full rates for 8x10, and 16 inch, the latter nearly out of the market, and a fair number of orders for 9x12, 9x13, and 10x12, all the last three sizes in comparatively small stock. Discounts are unchanged, ranging at 40@50 per cent. off on French, and 35@40 per cent. off on English. American glass is not very active, but rather larger quantities of the small grades could probably be sold to advantage.

HARDWARE.—Most of the houses dealing largely in builders' hardware are doing a good steady business, not only on local account, but on increasing orders from both the West and South. Stocks, as a rule, are fair, but not liberal, and prices rule quite firm. A few new price-lists have appeared, but the changes are unimportant.

LATH.—With nothing additional offering, the wholesale market has remained dull and can only be quoted nominally, on the basis of the last sale, viz.: \$3.30 per

M. The demand, however, is good enough to consume a pretty large amount of stock, and were receivers in possession of cargoes they would unquestionably find a ready market. Jobbing dealers continue to find a good demand, and buyers willing to pay full prices, sales ranging at \$3.50 @ \$3.75 per M, according to circumstances. The orders are not unusually heavy but regular enough, and in sufficient number to cause a pretty rapid reduction of supplies.

Since writing the above, and as we go to press we learn of the recent arrival and sale of about 750,000 Eastern lath at \$3.37½ per M., with this and even higher figures bid for more. A few cargoes are en route and wanted by several buyers, but receivers refuse to name a price until the goods come to hand.

LIME.—There has been no further arrivals of importance, and the market remains as last quoted, viz., \$1.25 per lb. for common, and \$2.00 for lump. There appears to be rather a firmer feeling, however, and while no additional decline is to be immediately anticipated, an improvement seems not improbable. Many dealers now begin to run out of stock, and finding a continued steady call from consumers, are anxious to fill up again, in order to keep trade moving along smoothly. A few more cargoes are due, but nearly all have been sold previous to arrival, at full rates. The Northern lime is not offered with freedom, but regular first-class customers get all they want at market rates. The business doing from jobbers is comparatively active, and at proportionate prices.

LUMBER.—The rather dull tone of the retail trade noted last week, still continues to some extent, but at nearly all the yards we find a little business doing, and some dealers report enough activity to require constant daily attendance. Our city manufacturers and builders constitute a large percentage of the buyers, though country orders are not by any means a rarity, and a number of odd parcels are still going Southward. Prices remain very firm, with a tendency in some cases to stiffen up from inside figures. Contractors are apparently willing to engage stuff to a moderate extent, and several parcels are in treaty with one or two already sold. The supplies as a rule hold out very well, and there will probably be enough to last the season through, though we occasionally hear complaints of a growing scarcity of nicely cured lumber of all grades. Spruce plank 1½ inch is mentioned in particular as in small supply, and considerable quantities could easily be sold if offered. The prospects of an early opening of the river are still good, but our dealers appear to look upon this with indifference, or else express a wish that the event may be postponed, until they have sold out a little more stuff. At Albany trade has not as yet commenced, but preparations are being made, and the prospects are that the market will open at very full figures. The Albany dealers have had their views stiffened very materially, by the presence already of a great many Eastern buyers, and until this demand is satisfied we may look for extreme rates, particularly as the supplies on hand are not abundant. The wholesale market up to the present writing has remained comparatively quiet, but the prospects are decidedly more encouraging, and dealers generally are predicting a greater amount of life from this time forward. This does not arise from any particular increase in the number of buyers, as a great many have been in want of stock for several weeks, but from the fact that desirable supplies are known to be moving in this direction, and there will at last be something with which the demand can be met. The export inquiry has of late been less active, and mostly for parcels of less than 100,000 feet each, though a few quite liberal foreign orders are on hand, and will be filled whenever suitable assortments can be found. Eastern spruce is now eagerly sought after, and at very full figures, it having been discovered that quite a respectable amount is in transit for this port and may be expected in at any moment, in fact a portion is already at hand. This has not only raised the hopes of buyers who have for some time been regretting their inability to secure stock, but has drawn out a number of others and develops the fact that supplies of certain grades of timber have run down pretty low. There is a disposition to preserve as much secrecy as possible as to the amount likely to arrive, and we are unable to glean full particulars, but have good reasons for stating that fourteen or fifteen cargoes at least may be expected, about one-third of which are already sold to local dealers. As to the prices paid no definite information is vouchsafed, though we know that \$22.00@\$23.00 per M. was refused on a very ordinary specification, and buyers express a willingness to pay \$25.00 quickly for the most desirable stock, such as 23@25 foot lengths, &c., the market closing with a buoyant feeling. This may be called the opening of the season, and the result fully verifies the predictions made in this column some five or six weeks ago. White pine is in good steady demand from dealers, hands on local account, and fair average taken for export, but the general market presents few important features at the moment. Prices steady, and we still quote at \$21.00@\$25.00 per M. feet, for inferior to fair box boards. \$26.00@\$30.00 for good 40 prime do., and \$31.00 for choice selections. Piling is merely a nominal article for the present. There has been a few irregular inquiries for pickets, but without resulting in sales as yet, and values are too uncertain to warrant quotations. For yellow pine quotations still stand at 36c@38c. per foot for heavy timber; \$30.00@\$32.00 per M. for resawed; and \$33.00@\$35.00 do. for good to prime flooring boards, and within this range about 450,000 feet have sold on the spot, and 500,000 feet to arrive. The demand is active enough to exhaust about all the stock now offering, and sellers consequently are enabled to sustain the market with comparative ease, particularly as the advices from the South are still. The supply in yard, however, is pretty liberal, and it would not require a very heavy accumulation, though overstock our market, with ordinary schedules, though overstock grades are scarce and wanted. Black walnut in reduced supply and firm. Black walnut logs for shipment quiet, owing to high freight room, but still firmly held at \$4.50@7½c. Pine shingles selling in small lots at \$4.50@5.00 per M. for No. 1 Eastern. Cypress shingles have met with a little inquiry from yard, at \$16.00@\$20.00 per M, according to size.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. II.]

NEW YORK, SATURDAY, MARCH 6, 1869.

[No. 51.]

PUBLISHED WEEKLY BY

C. W. SWEET & CO.,

106 BROADWAY, COR. OF PINE STREET.

TERMS.

Six months, payable in advance.....\$3 00

One year in advance..... 6 00

REAL ESTATE.

THE very great activity in real estate surprises every one. It was supposed that the excitement in Government Bonds would interfere with the investment of money in real property, and that the enhancement of the Five-Twenty Bonds would in effect reduce the prices paid for improved real estate. But such has not proved to be the case, notwithstanding the very great enhancement of the price of Government Bonds and the reduction in the price of gold, real estate in this city has advanced very greatly. We are now in the midst of a very lively real estate speculation. This shows the elasticity and hopefulness of the American people. There are, of course, special reasons why property should advance in this city and neighborhood. The extraordinary growth of the metropolis, and the opening of the Pacific road, which will take place in June at the furthest, the projected ship-canal, the extending commerce in every direction, the new railway lines pouring in their freights from the country, the increase of the business of the old lines, all tend to enhance the commercial importance of the metropolis. Let all who are fortunate enough to have a little money invest in real estate at the present prices. Let every man then buy his lot, the best possible investment for money. The very surest outlay which any body can make is to obtain enough to build him a house somewhere within twenty miles of the City Hall.

Although there are a good many houses to rent in New York and Brooklyn, we do not hear that there has been any material decline in prices. Somewhat less is asked for certain vacant stores on the West Side of the town. There is a slight recession of prices in the First and Second wards in this city. There is no advance of prices in Brooklyn. In the centre of the city between 12th and 23d sts., there has been a slight advance. Murray Hill property has also advanced somewhat in the rental. On the whole, we should say from a careful estimate, that the increase of rents in New York and neighborhood will range from 3 to 10 per cent.

We do not see as there is any prospect of a reduction of the prices of houses. With labor, lumber, lath, and bricks at very high rates, as high as any period during the war, it is non-

sense to talk about any reduction of the prices of houses. Houses will never be sold cheaper, until new ones can replace those at present built, at cheaper rates.

PROJECTED BUILDINGS.

It is marvellous to contemplate the architectural developments of this great metropolis which daily transpire and demonstrate themselves to our pleasurable gaze: but it is infinitely more so, when an infinitesimal view is taken of the ingredient avidity of our enterprising capitalists and land owners, who can daily be seen at the office of the Inspector and Superintendent of Public Buildings, laying before him their intentions and plans of new structures for his approval. We record weekly, an accurate and succinct sketch of Projected Buildings, with their dimensions, materials, owners, and builders, and in a reference to past numbers, our patrons will find a useful and valuable fund of information, which, in years to come, will so accumulate as to render our REAL ESTATE RECORD a valuable and historical acquisition to any private or public library.

During the past week, from the 23d ult. to the 3d inst. inclusive, there were 44 projected buildings. The more prominent buildings are herein described, with such other important information concerning them as may be of interest to the public.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last:

42D ST.—N. s., bet. 5th and 6th av.; four 4 story and basement brown stone buildings, 75x60; owners, S. W. & S. M. Andrews; architect J. W. Ritch; builders, Dollinger & Platt. These buildings will have all modern appliances and conveniences.
 27TH ST.—S. s., 200 w. 10th av.; one 4 story brick dwelling, 25x46; owner, John Morris; architect, J. G. Prague; builder, Andrew Morris.
 83D ST.—S. s., 300 w. 3d av.; two 4 story and basement Ohio stone front brick dwellings, 12.9x50; owner, W. R. Morgan; architect, Chas. Wright; builder, Henry B. Johnson.
 47TH ST.—N. s., 150 w. 1st av.; one 2 story brick stable, 25x25; owner, Michael Fogarty; builder, Patrick Smith.
 73D ST.—N. s., 100 e. Madison av.; one 2 story brick church with basement and galleries; owner, James Lenox; architect, W. W. Gardner; builder, John J. Tucker; size, 25x92.
 W. HOUSTON ST.—No. 160; one 2 story brick stable, 25x59; owners, Acker & Merrall; architect, D. Burgess; builder, Wm. Beard.
 WEST ST.—Nos. 213 and 214; two 2 story brick stores; 20x60; owners, Pollock & Van Wagner.
 E. BROADWAY—No. 150; one 5 story brick store and tenement; 25x50; owner, Jacob Bennet; arch. Julius Boekell.
 HESTER ST.—No. 72; one 5 story brick store and tenement; 20x50; owner, Alex. Litterst; arch't., Julius Boekell.
 LEXINGTON AV. and 62d st., n. w. cor.; six 3 story first class brick dwellings; 20x33; owner, architect, and builder, John O'Neil.
 HOUSTON ST.—S. s., 125 e. Forsyth st.; one German Evangelical Church, for temporary use; 17x 45; frame and wood material.
 W. 36TH ST.—Nos. 125 and 127; one 5 story brick store and tenement; 30x70; owner, John Larkin; arch't., Lawrence O'Conner; builder, Jno. Graham.
 W. 57TH ST.—No. 515 rear; one 2 story frame stable; covered with cor. iron; 25x20; owner, etc., E. Herb.
 2D AV.—W. s., 27 s. 123d st.; three 1 story frame and wood factories; owner, John Haul.
 52D ST.—N. s., 200 w. 5th av.; one 4 story and basement, brown stone front brick dwelling; owner, Jno. P. Hage; arch't., J. B. Shook; builder, L. N. Crowe.
 PEARL ST.—N. s., 25 w. Broad st.; three brick buildings with brown stone trimmings, to be occupied as three stores on the first story, and the upper stories as offices; owner, E. O. Cole; arch't., Mundell & Peckritz; builder, L. Hennessy.
 THIRD ST.—Nos. 74 and 76; Jos. M. Ohmeis, owner; Louis Burger, architect; 25x68. Two 5 story tenements and stores of brick.
 CHRISTIE ST.—Nos. 187 and 189; Jos. M. Ohmeis, owner; Louis Burger, architect; 25x68. Two 5 story tenements and stores of brick.

46TH ST.—S. s., 166 w. 10th av.; Chas. McIntyre, owner; Jno. M. Forster, architect; 16.7½x22; 2 story and basement. Two second-class dwellings of wood frame.

MADISON AV. and 53d st.—N. e. cor.; G. J. Hamilton, owner; Jas. W. Pirsson, architect; G. J. Hamilton, builder; 20x52; 4 story; being seven houses, first-class, of brick and brown stone fronts.

10TH ST.—N. s., 275 w. Av. A; John Dremel, owner; Julius Boeckell, architect; 25x54. Two stores and tenements, five stories of brick.

16TH ST.—S. s., 275 w. Av. A; Nicholas Seger, owner; Julius Boeckell, architect; 25x54; one store and tenement, five stories, brick.

BOWERY, Oak, and Chestnut sts.—Mrs. Ellen Kent, owner; Wm. E. Waring, architect; Moore & Bryant, builders; 54 ft. on Bowery, 38 on Oak, and 44 on Chestnut st.; a 5 story factory, brick.

38TH ST.—N. s., 175 e. Madison av.; Chas. E. Butler, owner; Wm. P. Easterbrook, architect and builder; 28x57.9; 3 stories, basement and attic first-class dwelling of brick, Ohio stone front.

43d ST.—N. s., 250 e. 11th av.; Geo. Richard, owner; John M. Forster, architect; 25x55; a soap factory of brick, one story.

58TH ST.—S. s., 325 w. 10th av.; John Auch, owner; John M. Forster, architect; 25x50; a store and tenement, 3 stories of brick.

NORFOLK ST.—N. s., 707 s. Houston st.; M. B. Ochs & S. S. Schuster, owners; John M. Forster, architect; 29.5x25; a brick store & tenement; 5 stories high.

NORFOLK ST.—W. s., 100 s. Houston st.; M. B. Ochs & S. S. Schuster, owners; John M. Forster, architect; 25x62; two 5 stories brick, store and tenement.

ATTORNEY ST.—Nos. 160 and 162. Mrs. Rafina Reis owner; Thos. J. Beir architect; 25x54; two stores and tenements of brick; five stories and basement.

GRAND ST.—No. 361. Benedict Flamm owner, Louis Burger architect; 17.10x66; 4 stories brick, brown stone front, being a store and dwelling.

MOTT ST.—No. 225. P. Macnamara owner, John O'Brien builder; 25x52; a store and dwelling of brick; 2 stories.

51ST ST.—S. s., 325 w. 8th av. S. W. Haley owner, J. C. Thompson architect and builder; 20x42; five first-class dwellings; 3 stories and basement of brick.

LEWIS ST.—No. 120. Valentine Hall owner, Jas. Moore builder; 25x14; a 2 story brick stable.

42d ST.—N. s., 325 e. 11th av. Michael McCormack owner, Thos. Thomas architect; 25x50; a store and tenement; 5 stories, brick.

2D AV.—W. s., 75 s. 27th, rear. Mr. Parry owner, Geo. D. Hylliard builder; 25x25; a second-class dwelling; 3 stories, of brick.

68TH ST.—S. s., 425 w. 11th av.; Thos. O'Brien, owner; Thos. Thomas, architect; 24x40; a second-class dwelling frame and wood, 3 stories and basement.

ORCHARD and Stanton sts.—S. e. cor.; Geo. Herdtfelder, owner; Herdtfelder & Finckle, builders; 25x50. Two stores and tenements, 5 stories, of brick.

E. 25TH ST.—No. 326; Ann Smith, owner; John Walsch, architect; 25x58; a brick tenement, 5 stories.

WILLIAM ST.—No. 119, rear; Slote & Woodman, owners; John M. Hoffmire, architect and builder; 11x17; a factory of brick, 2 stories.

51ST ST.—S. s., 250 e. 9th av.; Robert Auld, owner, architect and builder; 12.6x50; two first class dwellings, 3 stories and basement, of brick, with stone front.

GANSEVOORT ST.—No. 20, a brick tenement, 5 stories; 25x55; owner, Wm. M. Gyles; architect, Chas. Mettan; builders, Hennessey & Gibson.

AV. A & 120TH ST.—S. w. cor.; a store and dwelling 4 stories high, brick & brown stone front; 20.5½x55; owner, August Schluter; arch't, John Sexton; builder, James McGrath.

STANTON ST.—No. 126 rear; a 4-story brick cabinet factory; 24.8x30; owner, A. Zeigler; architect, J. F. Wells; builder, Louis Houser.

141ST ST.—N. s., 200 w. 8th av.; a 3-story wood and frame tenement; 30x50; owner, Fust Capallaman; builder, Wm. Kniffin.

REAL ESTATE MARKET.

The past week has witnessed a daily crowding of the Exchange Salesroom, every one seeming to be intent upon securing a good bargain, and procuring something tangible for himself or children, which they can point to and call their own. Quite a large amount of both improved and unimproved property has been put upon the market, all of which was greedily taken at current prices, with the tide of speculation still running upon the unimproved portion. So far this season every sale of any large tract has proved an immense success, and paid handsome profits to the original investors. It is impossible to tell how long

or how high the tide will rise. Investors seem to be confident of their purchases paying them good round dividends, and that an extra one of eighty per cent., *à la* New York Central, will yet be declared. The sale of the sixty-four plots on Tuesday was a decided success. The lot on the corner of Sixty-fourth St. and Ninth Avenue, facing the Boulevard, brought \$29,500; the one adjoining, \$21,000; and the one adjoining that, \$17,000. The lot on the southeast corner Sixty-fourth Street and Tenth Avenue brought \$5,800; and the lot fronting Tenth Avenue, adjoining, \$5,300; and the one adjoining that, \$4,750.

A large variety of other property was disposed of during the week by the various auctioneers, all of which will be duly chronicled in the Record when the deeds are handed in to the Register's Office.

MARKET REVIEW.

BRICKS.—The rather weak tone noticeable in the market for hard brick during the past fortnight has not only disappeared, but we note an entire recovery from the decline established at the date of our last report. This is due almost entirely to the shutting off of nearly all supplies from the sudden change to the most severe weather of the season, and the consequent reclosing of the Hudson. Vessels had just commenced to get into working trim, and several million brick had already been brought down, piling up a pretty good stock here, but now, with the river probably effectually shut up for a week or two at least, and no Long Island or Jersey yards to fall back upon, wholesale dealers do not think the accumulation by any means excessive, and are naturally unwilling to part with their goods except at just as high rates as circumstances will warrant. Restoring the \$1 per M. deducted last week, we now quote North River, hard, at \$15@16 per M., the quality, as shown by the close range of prices, running very uniform. A few parcels have changed hands at something above our rates, but the transactions were made under peculiar circumstances, and afford no real criterion of the market. The general demand has been fair, if any thing rather more active, but very few lots were taken except to supply current necessities, particularly since values have again taken the upward turn. For pale brick there is no abatement in the demand, every thing desirable finding a market whenever offered, and easily realizing full former rates. Indeed some of the best lots have sold at an advance, and we alter our figures to conform thereto, quotations now standing at \$10.50@11.75 per M., though figures are in a measure nominal, in view of the absence of stock. Front bricks are rather dull at the moment, the few small parcels selling bringing about former rates. The supply, however, of both Crotons and Philadelphia is small, and jobbing dealers, who are the only holders, talk confidently of their ability to sustain ruling prices until the new manufacture arrives.

CEMENT.—Rosendale at \$3 per bbl. is still about as low as any thing is selling, and a few dealers, with supplies almost exhausted, insist upon even higher figures; but the general demand, though active as compared with the aggregate stock, is not in reality any larger than usual at this season, the extreme rates causing all classes of buyers to confine themselves to absolute necessities. A little is wanted on positive orders for shipment, but the bulk of the business is on local account. Dealers are commencing to negotiate for their spring supplies, and several of the companies have already been tendered pretty liberal orders. Thus far, however, manufacturers have refused to name a rate, and it is thought the opening figure will be high, many predictions placing it at \$2 per bbl.

FOREIGN WOODS.—We still find a little doing at the retail yards in nearly all styles of woods, on local and interior shipping account, and for choice stock—buyers at present wanting nothing else—full former prices are obtained with comparative ease. The wholesale market, however, is without animation, and values uncertain. Of mahogany there is a supply more than sufficient for all calls, and being very well assorted, buyers are naturally fastidious in making selections, besides insisting upon pretty reasonable terms in order to induce them to operate. Some export orders are here, but there appears no anxiety to fill them at present. Cedar continues dull, but still very firmly held, the position of affairs in Cuba apparently growing worse every day, and shutting off hopes of any immediate receipts from that direction. Some holders declare positively their determination to refuse all bids below 25c., but lots are to be found here and there at 22c. @23c., and from these a few purchases have been made, both on home and shipping account. The cigar-box manufacturers occasionally use a little cedar, but are working largely on basswood and sycamore, both of which offer a good substitute as to quality, and a decided improvement as to price. Other woods without features of interest. Exports for week, 45 logs mahogany, valued \$1,050, to London. Receipts as follows: From Mansanilla, 705 pieces cedar and 800 doz. granadilla; and from Swan Island, 146 logs satinwood.

GLASS.—The large sizes of foreign window glass have continued very dull, and the already pretty liberal supply has been further increased, causing importers to offer at the full discounts, with the hope that enough buyers may be drawn out to work off the surplus, though thus far without success. The small grades, on the contrary, have sold with a little more freedom, and the arrivals running very light, some of the most desirable have entirely disappeared from importers' hands, such as 14 and 16 inch, with 8x10, 9x12, 9x13, &c., working down rapidly. No alterations have been made in price list, and discounts still stand at 40@50 per cent. off on French, and 35@40 per cent. off on English. American glass in fair demand, and steady at 50 per cent. discount. The heavy discounts are never allowed except on the larger sizes.

HARDWARE.—The local demand for builders' hardware continues very good, and a number of small parcels are daily going into the hands of jobbers and consumers.

From the South there is also a steady inquiry, but Western orders have almost ceased, and some already here have been countermanded, owing to the increased cost of transportation consequent upon the settlement of the controversy between the railroad freight lines. Prices remain firm, particularly on butts and hinges, which are again becoming scarce.

LABOR.—Two or three small strikes among the plasterers and slate roofers have recently taken place and been settled without any great difficulty, but no general rupture between employers and journeymen in the various trades connected with building operations can as yet be reported. That a great many inferior workmen—mostly single men—who can obtain about as much money through the charity of the trades unions as from their own exertions are anxious to inaugurate a strike as soon as the weather is warm enough for them to lay around all day in the sunshine, there is no doubt, but we learn that a goodly proportion of the more cool-headed operatives are disposed to canvass all the points at issue very thoroughly and if possible settle matters amicably with employers, each side to make such honorable concessions as will insure uninterrupted work throughout the season. Although labor conventions and trade unions have, during the winter, passed a great many bombastic resolutions pledging themselves to demand eight hours as a day's work, an increase of wages, and to assume other dictatorial positions towards the "bosses," yet there is evidently a growing dislike among workmen to resort to a strike, and but few first-class journeymen will engage in any movement of the kind except through sheer force of circumstances. The firmness of the master masons last season has probably shown employees that there is a point at which employers will assert their right to privileges heretofore surrendered for the sake of peace, and the question now presents itself whether a strike might not result in the loss of many advantages at present held by the workmen, particularly as the "bosses" are in most cases well organized for resistance.

LATH.—The market has remained at a stand still since our last report, simply for want of stock, and prices of course are merely nominal, on basis of latest sales, viz., \$3.3½ per M. There is a strong demand, however, and free sales could be made without difficulty at the above, and even higher figures. We learn of some cargoes expected as soon as vessels can make the trip, but consignees flatly refuse to accept any bids on the stock previous to arrival, knowing that the daily reduction of supplies in dealers' hands is rapidly enhancing values, and that much more remunerative rates are likely to be obtained when the lath can be offered for immediate delivery. From jobbers' hands the amount of stock going into consumption is increasing, and prices hardening with nothing desirable now to be found lower than \$3.60, and many dealers insisting upon, and realizing \$3.75 per M.

LIME.—The market is without new features of importance during the week, and wholesale prices still remain nominally at \$1.25 for common, and \$2.00 per bbl. for lump or Rockland, with retail dealers obtaining proportionately higher figures. No unsold cargoes have come in, and none are expected immediately, manufacturers being much dissatisfied with the result of the recent shipment, and expressing a determination to forward stock only when they can be assured that the demand will be active enough to prevent prices from falling below the cost of production. The consumptive trade is very good, though met with greater ease than heretofore, owing to the recent additions to the stock in the hands of dealers. Of the Northern limes, the Glenn's Falls Company still hold a little stock, but none can be bought below \$1.50, and this figure it is claimed will soon be paid by dealers who are short of supplies and must restock without awaiting arrivals from any other point.

LUMBER.—At a great many of the yards we have found dealers complaining of a slow dragging business, but the number in this position appeared to be more than balanced by those who report trade as pretty good for the season, and taken as a whole the retail market may be considered as in a very healthy condition, particularly as full former prices are sustained on all grades. The local demand naturally continues to monopolize the bulk of the stock moving out into consumption, but now and then a near-by interior order drops in. Some calls are made from the Eastward, and Southern shipments are kept up to a very fair extent. The lumber piles show the effects of the winter's drain upon them, but at the present rate of diminution supplies will probably hold out well up to the opening of navigation, on all except the very choice qualities, and even these are not disappearing with sufficient rapidity as yet, to cause any serious alarm. A few dealers hold a very good supply of black walnut, but none an extra quantity of first class wood, and all really prime lots are consequently considered too valuable to part with except at very extreme figures, particularly as the prospects for the coming season indicate that mainly common lumber will be marketed. We hear nothing very definite from Albany, except a reassertion, that considerable stock has been disposed of during the winter, that the spring trade is sure to open on comparatively small stocks, and full prices, and that dealers generally look upon the prospect as cheering. The wholesale market remains much the same as last week, though the arrival of a few cargoes has given a little life to trade not heretofore noticeable since the close of last season, and led some of our city dealers to hope that they are to have more liberal supplies henceforth from which to make selections. Several lots are yet to come in, but at this season it is simply useless to count upon any regular arrivals, as none of the principal ports of supply are open, most of the stock coming from Portland. The general demand from the trade is good for choice lots and the disposition is to pay full figures when suited; exporters are looking around with rather more freedom, the demand running mainly on South American assortments, the West India trade having subsided particularly for Cuba, where, owing to the war in progress, the lumber market has become completely prostrate. For Eastern spruce the demand continues very active, but only for choice length, such as 23x25 feet, and as there is none of these here or likely to arrive immediately buyers intimate that they would pay full as

much as previously bid, say about \$24.00@25.00 per M. Of the recent receipts there is nothing left unsold, receivers finding customers almost as soon as the cargoes were offered, but as the specifications contained a number of common lots, extreme rates could not be realized. About 700,000 feet were disposed of, at \$22.00@23.00 mostly, though one sale reached \$23.50. Ordinary grades are not wanted, and though they might work off with the upper qualities, they would soon be sorted out and thrown aside until later in the season. White pine is selling with rather more freedom and the assortment is broken to a considerable extent, though not enough so as yet to enable sellers to obtain any greater advantage than to refuse to accept inside figures, except on very poor lots. The sales are about balanced at the moment between local dealers and shippers. We quote at \$22.00@26.00 per M. feet for inferior to fair box boards; \$27.00@31.00 do. for good to choice do., and selections at higher figures—no supply of piling in first hands, and values uncertain. The inquiry for pickets referred to in our last has resulted in the sales of about 80,000 old stock wintered over, $\frac{3}{4}$ inch at equal to \$8.00@8.50 per M., taken by a dealer to break up into small parcels. Yellow pine has been scarce, and we learn of no further sales of importance. Most dealers, however, have a very fair supply in yard, and there is not much anxiety to secure stock, except probably in the way of special lengths of timber, for warehouse use, &c. Prices are still quoted at 36c.@38c. per foot for hewn timber; \$30.00@32.00 per M. for resawed; and \$33.00@35.00 for good to prime flooring boards. At these figures the market may be called steady, though at present it would be difficult to obtain an advance. Black walnut logs are moderately active on export account, and prices rule steady at 74c.@75c. per foot. Pine shingles selling from yard at about \$5.00 per M. Cypress shingles dull and somewhat irregular at \$16.00@20.00 per M.

The exports of lumber have been as follows:

	This wk. Feet.	Last wk. Feet.	Since Jan. 1, '69. Feet.
Africa	198,400	26,500	118,756

We also notice shipments of 107 logs black walnut, valued at \$3,606, to Bremen; 2 spars, value \$220, to French West Indies; 168 bundles shingles valued at \$300, to Hayti; 18,750 shingles value \$105, to Argentine Republic; 6,000 staves to Bremen; 6,000 do. to Liverpool; 8,820 do. to London; 4,800 do. to Glasgow; 8,000 do. to British Guiana; 11,600 do. to French West Indies; 84,497 do. to San Francisco; 200 pcs. hickory to do.; 511 pcs. plank to do.; and 2 logs lumber to do. The receipts reported have been small, and we have only to record 79,213 staves from New Bern, N. C.

We have nothing of striking interest from the West this week. At most of the leading points the demand was good and full prices current, though bad roads interfere somewhat with the local distributive trade. Some few contracts had been made on Eastern account, but not of character likely to have any important bearing upon the market. Supplies were slowly diminishing and assortments breaking up. A Chicago report says, a late fall of snow has assisted the operations of loggers materially, and the prospects for larger receipts during the coming season were more encouraging.

The Eastern markets are without change to note, and we retain former quotations. The information from the woods is still quite meagre, though the few reports at hand assert that very little timber was being cut. There is reason to believe, however, that logs are plenty, and if the

snow is not too deep to prevent them being banked a liberal supply may be looked for in the spring, as the prospects of a fresher are now good at all points.

The Southern markets are doing well, and buyers find it impossible to obtain any important concessions except on the commonest kind of stock. The demand for export was the largest, though coastwise orders were plenty enough to take up all the available freight-room. We note recent exports as follows: From Mobile to Barcelona, 46,763 staves, and 51,700 feet lumber; from Savannah to Liverpool, 535,402 feet timber; to Bristol, Eng., 10,948 feet P. P. plank, 359,329 feet timber, and 4,320 feet poplar; to Glasgow, 391,588 feet timber, 11,480 feet plank, and 17,420 beam filling; to Queenstown, 519,629 feet timber, 47,470 do. deals, and to Genoa, 45,105 feet timber.

Savannah prices are as follows:

Timber \$8@12 per M. feet for mill timber, \$10@15 for small shipping do., and \$14@20 for large do. Lumber \$20@22 for ordinary sizes; \$25@30 for difficult sizes, and \$22@23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4@5 per M.

Charleston prices remain as follows: Steam sawed \$7.50 @ \$30.00 per M.; boards and scantling, \$24.00 @ 25.00 per M.; flooring boards \$35.00@38.00, mill timber, \$6.00@8.00; and shipping, \$11.00@12.00.

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to 1 1/2 x 4 to 6, \$15 to \$17 per M.	
Flooring, 1 1/2 x 4 to 6, \$15 to \$17 per M.	
" dressed, 25 to 27 " "	
Ceiling, 7/8 dressed, \$24 to \$25 per M.	
Planks, 1 1/2 x 10 and upwards, \$15 to \$17 per M.	
" 1 1/2 x 2 " " 15 to 17 " "	
Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.	

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

50 to 90, 15 to 15 cents and upwards.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing is meeting with about the usual trade demand, and manufacturers insist upon previous rates notwithstanding the dull and weak market for ingot. As sheathing did not materially improve, however, during the excitement in ingot, it is hardly to be expected that any other than very decided causes would now bring about a decline. We quote new at 33c.@35c. according to quantity, and old 22@23c. Yellow metal selling rather slowly and firm at 27c. Scotch pig iron is still selling small parcels and mostly to regular buyers who require small parcels for particular styles of work. The demand is active enough, however, to nearly exhaust the moderate receipts and prevent any increase of stock, thus giving tone to the market and sustaining prices. We quote at \$40@43 per ton.

American pig iron has of late been rather dull owing to the withdrawal of a great many of the leading manufacturers, and the consequent difficulties experienced in finding desirable parcels. The demand, however, is good and buyers are willing to pay full previous rates, though few have as yet advanced their bids except on small parcels required

for immediate consumption. We quote at \$40@42 per ton for No. 1, and \$38@40 do. for No. 2, and \$37@38 do. for No. 3. Bar iron from store continues flat and lifeless, about the only sales being small retail lots on local account. Former figures are retained, but the feeling is irregular. We quote at \$55.00@57.50 per ton for common American and English bar; 90.00@92.50 for refined do.; \$145.00 do. for Swedes, ordinary sizes; \$122.50@150.00 do. for ovals and half round; \$125.00@160.00 for scroll, and \$100.00@160.00 for rods 3-8@1-1/4 inch. Common sheet iron is without important variation in price, and still moving in retail parcels, with a fair supply in the hands of dealers. We quote at 5 1/2@7c. for singles, doubles, and trebles. Galvanized sheet 25 per cent. off list. Russia sheet has sold with a trifle more freedom and the terms were in buyer's favor, though the general range of prices is without alteration, and we still quote at 11 1/2@13c. gold, according to number. Pig lead has been comparatively dull, but there is no pressure to realize, and holders in fact express a little more confidence in view of the advance in foreign markets. We quote at \$6.30@6.87 1/2 gold. Bar lead 10 1/2 and pipe and sheet 12c. less 6 per cent. to the trade. Pig tin has entirely recovered from the dullness noted in our last, and has shown much excitement owing to the stimulating news from Europe. Large speculative purchases were made, prices rapidly advancing and closing buoyant with very little desirable stock offering. We quote in coin at 8 1/2c. for English, 8 3/4c. for Straits, and 8 3/4c. for Banca. Tin plates have not materially changed, but holders are confident in view of the advance in pig, and prices are strong. The general demand is fair. Zinc has met with considerable inquiry, and the stock being much reduced prices are better, closing firm at 13@13 1/2c. from store. The latest importations are 915 tons pig iron, 885 tons R. R. bars, 9 tons sheet iron, 681 iron tubes, 4,845 pigs of lead, 8,187 hxs. tin, 1,424 slabs do., and 115,760 lbs. zinc.

NAILES.—The reduction in price appears to have drawn out a very fair demand for cut nails, and though the market is not unusually active a good steady business is doing and the feeling quite uniform. Shippers have been the principal buyers, though local dealers occasionally call for a good sized invoice. We quote at 5@5 1/2c., and retail lots in proportion. Clinch are fairly active and steady at about 6 1/2@6 3/4c. according to quantity. Finishing nails unsettled at 5 1/2@5 3/4c. for 6d. sd. 10d. and 12d.; 8@8 1/2c. for 5d. and 5 1/2@6 1/2c. for 4d. Other kinds steady at 18c. for zinc; 27c. for yellow metal; and 46c. for copper. The exports are 308 packages, valued at \$2,216; against 1,186 packages, valued at \$7,025, same time last week. Shipments to San Francisco of 2,675 pkgs.

PAINTS AND OILS.—A better and more general wholesale demand has again suddenly sprung up, and the market for paints shows considerable animation, with much strength and some little buoyancy to prices. This is particularly the case on white leads, most of foreign and domestic marks being in small supply and commanding higher figures; though the Bartlett Company are still selling at old rates. The retail distributing demand is also improving and jobbers as a rule have a fair amount of orders on hand. Glues are quiet, but a trifle firmer for choice grades. Linseed oil has met with a better demand, both on local and shipping account, and the general market, though somewhat irregular at times during the past week, may be called pretty steady. It certainly would be difficult to incall crushers to name any important concession, and stocks as a rule are not offered with any unusual freedom. We quote at \$1.00@1.03 in casks; and \$1.04@1.05 in bbls. with job lots in proportion. The exports are 48 pkgs. paint, valued at \$1,596, and 450 gallons linseed oil, valued at \$300.

PLASTER PARIS.—There has been some inquiries in reference to lump during the week, not altogether from parties wanting to contract, but in the main to ascertain about the position of sellers for the coming season. Nothing positive was arrived at, however, and values as yet are somewhat problematical. Calcined is fairly active, and steady at full former rates. We note shipments of 300 bbls. to Cuba.

PITCH.—The market has continued comparatively dull, and though the supplies do not increase with unusual rapidity some dealers find the accumulation larger than they desire to carry, and have in consequence forced sales. The result is easier prices on all grades, with some irregularity and rather a nominal feeling at the close. We quote at \$2.75@2.90 for common Southern from wharf; \$3.00@3.50 for very choice do. delivered; and \$2.87 1/2@3.00 for city, with retail parcels 12 1/2@25c. per bbl. higher. The receipts for the week are 120 bbls. Exports for week 71 bbls; since January 1st, 655 bbls.; and for same period last year, 688 bbls.

SPIRITS TURPENTINE.—The demand has been moderate from all directions, speculators having entirely withdrawn, and the wants of consumers calling for only small job lots. This, in connection with fair arrivals and quite a liberal accumulation of stock in yard (6,500 bbls. on 1st inst.) has had a depressing influence and values are again reduced, closing without any general strength, and sellers are more anxious to operate than buyers. We quote at \$4@4 1/2c. for in-rechutable and shipping order; 55@56c. for choice parcels; and 56@57c. in a retail way. The receipts for the week are 782 bbls. Exports for week, 5 bbls; since January 1st, 405 bbls.; and for same period last year, 2,787 bbls.

TAR.—The supply has been larger, but a great many of the arrivals have been previously disposed of on contract, and with a continued good demand the market remains firm for all grades. Strictly prime assortments are not plenty and command full figures. The stock in yard on the 1st inst. was 8,700 bbls. but a portion is held for higher figures. Export orders are received occasionally, but the home trade still monopolizes the bulk of the business. We quote at \$3@3.50 per bbl. for North County; \$3.62 1/2@4 for Wilmington, as it runs; and \$4.12 1/2@4.25 for selected lots delivered. Exports for week, 164 bbls.; since January 1st, 575 bbls.; and for same period last year, 1,493 bbls. Receipts for week, 1,549 bbls.

INWOOD LOTS

At Auction, to close Partnership Interests.

A. J. BLEECKER, SON & CO.,

WILL SELL AT AUCTION,

WEDNESDAY, March 10, 1869,

At 12 o'clock, at the Exchange Salesroom, 111 Broadway, N.Y.,

110 BUILDING PLOTS,

Beautifully situated on CENTRAL, GERARD, and WALTON AVENUES, FINDLAY, CLARKE, and ARCULARIUS PLACES, &c., and 27 Lots on the MACOMB'S DAM ROAD, and INWOOD AVENUE, comprising the finest situation, and the most commanding views of the whole of the INWOOD PROPERTY, about five-eighths of a mile from Macomb's Dam.

Sale absolute, and unlimited. TERMS LIBERAL. Title Perfect.

Titles carefully searched; having had 15 years' experience.
Charges very moderate and satisfactory.

B. F. McCAHILL, ATTORNEY AND COUNSELLOR-AT-LAW AND COMMISSIONER OF DEEDS, 692 Third Avenue and 454 Sixth Avenue.

Titles carefully examined, and Law business in general attended to.
Loans negotiated, and Mortgages bought.

MISCELLANEOUS.

OFFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS, No. 32 Chambers street, New York, January 4, 1869. **NOTICE TO TAXPAYERS.**—Notice is hereby given that the assessment rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment, the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

BUILDING vs. ARCHITECTURE.

THERE is a far greater difference between the terms "Building" and "Architecture" than people generally are aware of. The mere act of building, or construction, will be found to exist in various degrees of excellence among all nations, and to an extent, even among the barbarous and uncivilized. If mere construction were the beginning and end of architecture, the beaver and the bee might lay their claims to be reckoned perfect little Palladios and Michael Angelos in their way. But architecture is far more. When a nation has arrived at that degree of luxury and opulence in which architecture may truly be said to exist, when we find it brought into a system based upon certain undeviating laws of proportion, and upon rules deduced from a refined analysis of what is suitable in the highest degree to the end proposed, then is architecture not only a fine art, but the noblest of the fine arts, an art to which her sisters, painting and sculpture, become mere tributaries; an art, which often when Literature, and even the dim outlines of Traditions have faded away, has proved the method, the only method, of transmitting to posterity the majesty and importance of nations long buried in the past; an art which may justly be pronounced one of the noblest and most fascinating studies which can engage the intellect of man. That New York has long since arrived at that stage of luxury and opulence cannot be denied; when we see such wealth lavished everywhere, both in public and private; and individual citizens expending their millions of dollars upon private residences. Never, indeed, was a wider and more magnificent field opened to the artists and architects of this great and expanding metropolis, or offered to those of any country, than is now presented to our own. In France, under the present Emperor, it is true that a fine career has for years been opened to artistic genius; it is equally true that under the late King Louis of Bavaria, the fine arts found noble patronage and protection, and the same may be said of other exceptional cases. So in England and other European nations, there is always more or less encouragement for first-rate professional talent, because the wealthy and privileged classes are more generally educated to a knowledge of the beautiful in art, and are disciplined into a love of its manifesta-

tions. But the vast difference in our condition, as compared with that of others, lies in the boundless future before us. In the old world, generally speaking, most of their great works have already been accomplished in times past, and in many cases better than their modern artists could have effected them. Our works, not only of the same nature, but of all others necessary to keep pace with the rapid growth of our population and our marked civilization, have yet to be accomplished. Rome for instance with her four hundred churches, can scarcely need more at present, nor can Venice require many more dwellings, when comparative paucity is already living in her once gorgeous palaces. Here we are on a boundless continent—with every variety of climate, and material—inhabited by nearly forty millions of people, and daily adding to their numbers; those millions forming new communities, and planting innumerable new cities, all needing their court-houses, churches, halls, asylums, banks, prisons, reformatories, railway stations, and manifold other structures; millions of energetic and intelligent people, all ambitiously struggling in the race of progress and luxury, already awaking to the glories and excellences of true architecture, and rapidly discriminating between good and bad examples. We shall defer further remarks on this subject to our future issues, as our present limited space forbid further trespass.

OFFICIAL RECORD OF MORTGAGES —NEW YORK COUNTY.

In the arrangement of the following mortgages, where no description of the property follows the names, it is to be understood that there is a corresponding transfer under the same or nearly the same date in our columns, and the amount set down is what remains on bond and mortgage.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last:

FORSYTH ST.—No. 212; a brick store and tene-
ment, 5 stories, 25x32; Jacob Miller, owner; Theo.
F. Bear, architect.

WOOSTER ST.—No. 28; A brick store and second-
class dwelling, 4 stories, 27x18; F. Schuchardt,
owner; Geo. W. Hendricks, builder.

EAST 18TH ST.—Nos. 220, 222, 224 and 226; four second-class brick dwellings, 4 stories and basement, 18x53; Thos. J. O'Connor, owner; Julius Boeckell, architect.

25TH ST.—S. w. cor. 2d av.; brick store and tenement, five stories, 24.8x50; John H. Holneck, owner; Wm. Jose, architect.

46TH ST.—S. s., 50 e. 1st av.; a frame and wood stable and slaughter-house, 2 stories, 40x50; Geo. Strause, owner.

2d AV.—W. s., 102 n. 51st st.; a brick store and tenement, 5 stories, 25x60; Nicholas Hoffman, owner; Wm. E. Waring, architect; Peter Johnston, builder.

WEST 46TH ST.—No. 539, rear; wood and frame tenement, 2 stories, 25x32; F. C. Hackenfort, owner; Jacob F. Blandfeldt, builder.

EAST 9TH ST.—Nos. 742 and 744; two brick stores and tenements, five stories, 25x60; D. A. Loup, owner; Peter Fosteani, architect.

WEST 37TH ST.—No. 435; brick stable and tenement, 4 stories, 25x52; Joseph Stern, owner; John M. Forster, architect.

61ST ST.—N. w. cor. Lexington av.; first-class dwelling brick and brown stone front, 3 stories, 20x46; John McCool, owner; John Sexton, architect; John McCool, builder.

ELIZABETH ST.—Nos. 226, 228, 230 and 232; four brick stores and tenements, five stories, 54x25; Rabold & Fosteani, and John Hock, owners; Peter Fosteani, architect; Rabold & Fosteani, builders.

BEDFORD ST.—No. 70, rear; brick factory, 3 stories, 23.14x70; Philip Freitag, owner; Julius Poerschel, builder.

9TH AV.—E. s., 75 s. 55th st.; brick store and second-class dwelling, 3 stories, 25x45; Henry Wingert, owner; Geo. Smith, builder.

52D ST.—S. s., 100 w. 3d av.; a factory, frame, and cor. iron, two stories 20x60; Joseph E. Redman, owner; architect and builder.

51ST ST.—S. w. cor. Beekman place; three first-class dwellings, of brick and brown stone, front, 4 stories, 33.5x21.6; Thomas Beattie, owner, architect and builder.

30TH ST.—N. s., 75 w. 1st av.; four brick tenements 5 stories, 25x55; Henry J. Burchell owner, architect and builder.

25TH ST.—S. s., 100 e. Madison av.; brick coach house; brown stone front, 2 stories, 20x37; F. L. Berroad owner; Carl Pfeiffer architect; James Rue builder.

3d AV.—W. s., from 109th to 110th sts.; two brick-stores and second-class dwellings, four stories, 20x50; Walter Bowne owner; J. M. Field architect & builder.

110TH ST.—50 feet w. of 3d av.; two brick stores and second class dwellings, 20x21 and 20x40 four stories; Walter Bowne owner; J. M. Field architect and builder.

25TH ST.—S. s., 100 e. Madison av., rear; a brick stable, two stories, 32x35; F. L. Berroad owner; Carl Pfeiffer architect; James Rue builder.

BROOKLYN PROJECTED BUILDINGS.

CLASSON AV. AND MUNROE ST., n. w. corner.—Architect, M. J. Morrill; mason builder, True Rawlins; carpenters, Ryker & Co. A Presbyterian church, of free stone; 75x100, with galleries. We learn that there is a remarkable feature in this structure, i. e., that the pulpit, unlike any other church in the United States, is situate at the side of the church. Black walnut furniture interiorly; it has a large tower, and one smaller with belfry.

DEGRAU AND CLINTON STS., s. e. cor.—Three houses; Philadelphia brick; brown stone fronts; of a first-class character; each 25x55, with all modern appliances; owner, E. Childs; architect, M. J. Morrill; mason builder, Wm. Ashfield; carpenter builder, Mr. Platt. Interior fittings are of a superior nature, chiefly of black walnut.

WILLOW ST., n. s., betw'n Pierrepont and Clarke sts.—24x65; one first-class dwelling; brick rear, and brown stone sides and front; owner, George Meade; architect, M. J. Morrill; first-class fittings.

GRACE COURT, s. s.—Two buildings; one 17x50, and the other 24x50; Philadelphia brick fronts; plate-glass windows; black walnut trimmings; owner, Mr. Olcott; architect, M. J. Morrill.

BOERUM W. s., near Fulton avenue and Livingston st.—Three stores, tenements above; each 22x45; owner, Frederick Franz; architect, M. J. Morrill; mason builder, John Anderson; carpenter, Peter Vorhes; plain structures, of an ordinary character.

ST. MARK'S PLACE, n. s.—A frame building; 40x40; owner, Adolphe Lippmann; architect, M. J. Morrill; builder, Samuel Drew; all modern improvements.

STAGG ST. AND BUSHWICK AV., n. e. c.—100x125; cost \$125,000; Williamsburgh Armory; owners, the Company; architects, Mundell & Teckritz; builders, James Duffey and Bernard Gallagher; brick, and Dorchester stone trimmings.

ON THE CONEY ISLAND ROAD.—A club-house and sundry other buildings; cost \$85,000; 50x100; owners, Prospect Park Fair-Ground Association; architects, Mundell & Teckritz; builders, Wright & Brooks. This club-house possesses a very handsome feature in the ballustrade and observatory, 22x18, and 32 ft. above the roof; all of frame and brick, with a curved mansard roof.

FLATBUSH.—Additions to the Lunatic Asylum; 400x40 deep, being for cells and dormitories; of brick, with all modern improvements; cost \$80,000.

Workshops for Penitentiary; 250x45; of brick; architects, Mundell & Teckritz; builders, Pat. Mullen and Norton & Bros.

"Poppenhusen College," College Point; 85x65; owners, villagers; cost \$80,000; architects, Mundell & Teckritz; day work. A dwelling also, owned by John H. Rauch; 40x36; cost \$15,000; architects, the same.

New Depot and Machine Shop and Engine-house for the "North Side" R. R. Co., at Flushing Depot; 90x25; machine shop, 240x62; architects, Mundell & Teckritz; day's work.

COURT AND LIVINGSTON STS., s. w. cor.—Two brick stores, 50x90, and two brown stone dwellings, 22x40; cost \$75,000; architects, Mundell & Teckritz; owner, Felix Campbell.

MYRTLE AND CARLTON AVS., n. e. cor.—29x64; owner, Peter Allsgood; architects, Mundell & Teckritz.

HICKS ST., w. s., near Atlantic st.—Store and dwelling, of brick; 4 stories; 25x50; owner, Geo. Bast; architects, Kundell & Teckritz; builder, C. Dedrich.

HICKS ST., e. s., near Fulton st.—Two stores and dwellings; 21x36 each; owner, George Tummel; architects, Mundell & Teckritz; builders, Jas. F. Rhodes and Jacob Hart.

CARLTON ST., e. s., near Lafayette av.—25x45; 3 story first-class dwelling; brick; brown stone front; owner, Wm. A. Mundell; architects, Mundell & Teckritz; builders, Raymond & Son and Young & Kemp; cost, \$21,000.

WYCKOFF ST., n. s., near Court st.—22x50; a smoke and packing house; brick; 2 stories; cost \$7,000; owner, Wm. Young; architects, Mundell & Teckritz; builders, Bradbury & Lincoln.

PACIFIC ST., s. s., near Vanderbilt av.—Extension, of brick; 18x46; 3 stories; owner, Rev. Edward Cochran; architects, Mundell & Teckritz; builder, Hennessy.

List of buildings in course of erection by Wm. H. Willcox, architect, cor. Myrtle av. and Fulton st., Brooklyn:

Four first-class dwelling-houses, for O. F. Hawley, in Rodney st., near Bedford av.; Dorchester stone fronts; cost about \$20,000 each.

Three English basement houses, for C. Fisher, Willoughby st.; Philadelphia brick fronts and stone dressings; cost \$30,000.

One first-class dwelling, for I. T. Russell, New York av.; Philadelphia brick, brown stone dressings; cost \$23,000.

Two first-class dwelling-houses, for Wm. Parratt, in South 5th st., near 8th st.; Dorchester stone fronts; cost \$15,500 each.

One dwelling-house, for Chas. Summers, in Bedford av., near Harrison; Philadelphia brick and brown stone.

Kings County Savings Bank, cor. Broadway and 4th st.; Dorchester stone; cost \$110,000.

Armory for 16th Ward, cor. Bushwick av. and Stagg st.; Philadelphia brick and Dorchester stone; cost \$100,000.

Several others are being projected.

REAL ESTATE MARKET.

No matter what can be said of other markets, it cannot be said that Real Estate is dull. During the past week the Exchange Salesroom daily exhibited scenes of great activity, and buyers were out daily in full force constantly on the alert to secure something in the shape of a bargain. Prices are very steady and the large advance lately made is fully sustained. With the spring season now opening, when nature puts on her most attractive appearance comes a large quantity of suburban property, and a choice variety of Westchester county and Long Island lots will be sold within the next ten days. We hear also of activity in New Jersey property, particularly that situated along the line of the New Jersey Central road. It is estimated by good authorities that fully sixty thousand people are driven out of New York annually by the frightful increase of rents. We observe a large number of houses situated in different parts of the city with the sign "to let" hanging upon the outer walls. It is simply impossible for any person on a moderate income to occupy a house by himself situated anywhere within reasonable distance of business, and the difficulty seems to increase with every year. We trust the builders will this year give us some relief. During the month of February, 1869, the transfers

amounted to \$17,823,542; for the same period of 1868 they aggregated \$8,889,50, showing an increase for the month of February, 1869, of \$8,933,592. The amount of mortgages recorded for February, 1869, aggregates \$8,336,545, which is but \$53,405 less than the total conveyances for February, 1868. Of this amount \$4,878,845 represents the amount left as purchase-money on the transfer of property, and \$3,957,700 the amount raised by loans on property previously owned by the mortgagee.

MARKET REVIEW.

BRICKS.—The demand has continued active for all grades of hard brick, full former prices being obtained without difficulty, and the market throughout the week has shown as strong a tone as at any time during the winter. The unexpected length and severity of the cold "spell" has completely shut up navigation on the Hudson, and prevented any receipts from the only points at which there is available supplies; and though receivers had on hand a very respectable number of cargoes ten days ago, these are all disposed of, and there is a continuous call for more, buyers asserting that price would be no object if goods could be secured. As it is simply impossible to obtain any brick, however, up to the present writing, the extravagant bids made amount to nothing, and retaining previous figures, at which the bulk of the sales have been consummated, we call the market entirely nominal. During the recent warm weather, our city retail dealers, encouraged by the free arrivals, very naturally anticipated a pretty liberal reduction in values, and refrained from restocking to any extent. The consequence is that they now hold less brick by many thousands, than during the period of the winter scarcity, and are dealing out to their customers the smallest possible quantities, at prices too irregular, however, to admit of reliable quotations being given. The enhanced cost and scarcity of brick has, as usual, almost entirely shut off the out-of-town demand, but has quite the contrary effect on the local trade. This is owing to the fact that most of the buildings in progress in this city are under contract to be completed by the first of May, while many are already rented, and of course builders will not let the high cost of the few parcels of brick required to finish out with, prevent them from keeping their engagements. In the suburban towns buildings are seldom rented until completed, and as a rule it is cheaper to allow operations to be suspended until brick again decline, particularly at this season, when the reaction cannot be long delayed. Pale brick as a matter of course are equally scarce with other grades, and in the absence of any late sales upon which to base quotations, prices must be considered nominal. Front bricks are quoted as before, and we hear of no features in either style worthy of special note.

CEMENT.—The demand is still quite brisk, and with gradually decreasing stocks, and the prospect of early supplies dissipated by the reclosing of the river, the market remains very firm, with rather a more buoyant tone at the close. All good brands of Rosendale command \$3.00 per bbl. without difficulty on the small lots wanted, no buyer operating beyond immediate requirements at current rates, though were the inquiry never so heavy, large parcels could not be supplied at the moment. A few companies intimate that their opening price will be \$2.00, but no positive or general action has as yet been taken on the subject.

FOREIGN WOODS.—The retail trade is fair—about evenly divided between the various grades of wood; and the general range of prices shows no variation worthy of notice. In the wholesale market we have learned of nothing of interest during the week, the general volume of trade running small, and prices irregular, according to the necessity of buyer or seller. A few parcels have been picked out for stock by local jobbers, and some country demand met, while exporters execute their orders whenever a cheap lot of wood, and an opportunity for securing low freight accommodation presents itself. Mahogany is coming in less freely, but the accumulation already on hand is good; ample, at least, for all present calls. Cedar rather nominal, owing to the continued wide margin between the views of buyers and sellers. We note exports as follows: To Liverpool 1,255 logs mahogany, valued at \$4,000; 204 pieces lignumvitæ, value \$75; 4 logs satinwood, value \$140; and 1,237 pieces boxwood, value \$1,200. To London, 80 logs mahogany, value \$950; and to Havre 200 logs cedar, valued at \$1,225. From Boston to Liverpool 81 tons lignumvitæ, and 49 logs satin wood. Receipts as follows: From London 320 pieces ebony; from Port-au-Platt 70 pieces lignumvitæ, 2 logs, and 453 crotches mahogany; and from Havana 50 logs cedar.

GLASS.—The sizes of foreign window glass previously referred to, viz.: 9, 10, 12, 13, 14, and 16 inch, continue very scarce; indeed, so low has the stock of some grades become reduced as to make them almost fancy, and prices are naturally strengthening in proportion, particularly as rumors are current that the imports are not likely to prove any more liberal than last season. Large measurements continue plenty, with a tendency towards a heavier accumulation, though just at the moment the receipts are small. For desirable stock sellers are not willing to allow more than 40c. @ 42½c. per cent. discount on French, and 35 per cent. on English, but on common grades their terms are more liberal, reaching 47½c. @ 50c. per cent. off on former, and 40c. per cent. on the latter. American glass 50c. per cent. discount.

HAIR.—We make a few slight alterations in figures, and now quote at 45c. per bushel for cattle, 60c. for mixed, and 70c. for goat. At these rates the demand is quite active, and the market firm, with moderate supplies of all kinds on hand, probably more so than usual at this season of the year. The supply of goat hair is particularly small, and on this the tendency is rather more towards a higher range than all the other descriptions, as but little stock can be prepared or properly dried, until the weather becomes settled. The local trade is good, but country orders are plenty, and Southern buyers increasing, with a very liberal inquiry on California account.

LATH.—Rather unexpectedly a cargo of some 350@400,000 was offered to arrive, but did not wait long for a customer, being almost immediately snapped up at \$3.50 per M., an advance of 12¢ over the previous sale, with the buyer inclined to congratulate himself upon having secured the parcel, without paying a still higher figure. As a rule, however, receivers who are expecting cargoes remain very quiet, and are generally inclined to allow the goods to reach port before placing them on sale, with a view of securing much more liberal terms. With nothing now offering, therefore, either on the spot or to arrive, it is impossible to give the market a fair test, but it is an undisputed fact that our city dealers are sadly in want of stock, and to secure enough to carry them along until receipts can be depended upon with more certainty, will not hesitate to pay very extreme figures, some estimates placing the cargo rate up to \$4.00 per M. The consumptive demand at the jobbing depots continues active, in fact appears to increase, and in some cases dealers refuse to supply other than first-class, regular customers. For retail lots \$4.00 is in most cases demanded, with sales to the trade, etc., in proportion.

LIME.—Two or three cargoes have arrived from Rockland since our last, and were either previously disposed of or sold immediately upon receipt, without any change taking place in prices, however, common realizing \$1.25, and lump \$2.00 per bbl. Most dealers appear to be in want of stock, the demand is reported as brisk, and to follow the natural law of trade, an advance might reasonably be looked for, particularly as current rates are said to be below the cost of production and delivery at this point. The only explanation of this anomalous condition of affairs, that we can arrive at for the present, is the usual competition between the agents of the Eastern and the Northern styles of limes, to control the bulk of the business, and as consumers gain all the advantage of the strife, there is certainly no occasion for complaint. In the hands of jobbers a fair amount of stock still remains, but is selling out with considerable freedom at prices in consonance with the wholesale market.

LUMBER.—We learn of few if any new features in the retail trade during the past week. The general volume of business appears to be very fair and pretty evenly divided throughout the various sections of the city, with now and then a dealer somewhat dissatisfied, and a few reporting about as much as they can conveniently attend to. Stocks sold out well on all grades, and selections can still be made without difficulty, except in the case of certain choice lengths of spruce. Even of the latter, however, there is no general scarcity, and those dealers holding the stock in question ask little if any more than the nominal cargo rates. In many cases where lumber piles have worked down low, the odds and ends have been closed out at a slight reduction, but as a rule, prices remain as before, and are quite steady. The wholesale market has continued to show a little life, as a few schedules have again been offered both on the spot and to arrive, and receivers still find plenty of ready buyers for anything desirable they may have to offer, full former prices being sustained easily. We hear rumors of an additional number of cargoes afloat for this port which are, in all probability, well founded, as the present demand and current rates warrant the bringing forward of considerable stock, and with the few points at which supplies are available there is little danger of the market becoming burdened with a heavy accumulation. City dealers and contractors are the most eager seekers after the fresh arrivals, while assortments suited to the wants of shippers are attracting more attention, and bids are solicited by exporters upon several very heavy orders, the South American trade, as before, having the largest number of representatives. Eastern spruce has remained very firm in price, and attracted a liberal share of attention, several new specifications selling as soon as customers were solicited, particularly if containing a large average of long timber. Some 250@300,000 feet on spot and to arrive have been taken at \$23.00, quality good, and \$24.00 is bid freely for anything in the way of extra grade. Common assortments have sold at \$22.00 but were bought chiefly on account of the few upper qualities contained in the bills. White pine is in good demand and firm at full previous rates. Local buyers are operating to a fair extent, but shippers are more plenty than last week, and they find goods suited to their wants pretty stiffly held. We quote at \$22.00@26.00 per M. feet for inferior to fair box boards; \$27.00@31.00 for good do., and selections at higher figures. Piling is nominal in the absence of stock. Pickets have been quiet in a wholesale way though the accumulation of old stock here is freely offered on easy terms, say about \$8.00 per M. for 3-4 inch. Yellow Pine has been more plenty, part coming in on contract, for wharf and warehouse use, but a portion to find a market. For the latter there was not much competition but nearly all was sold and former prices obtained. One or two cargoes of timber brought \$30.00 on common, and \$32.00 on good; and flooring boards sold at \$33.00@35.00 per M., according to quality. Just at the moment the amount in transit for this port is said to be small, and with the present indifference of buyers very few lots will probably be shipped, except upon special agreement. Maple is in very good export demand and firm. Black walnut logs in small lots continue to sell to a moderate extent for foreign markets and former prices are current, viz., 1½¢@7½¢. The weakness in freights gives shippers a better margin. Pine shingles are moderately active at \$5.00. Cypress shingles still neglected and without any fixed value, though for want of better quotation, holders continue to give old figures, viz.: \$16.00@20.00 per M.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Africa	—	—	118,756
Argentine Republic ..	—	198,400	811,794
Brazil	63,676	16,000	489,546
British Australia	184,000	—	1,481,595
British Honduras	—	—	25,129
British West Indies ..	23,657	—	101,857
Central America	—	—	41,466
Chili	—	—	35,717
China	48,284	—	43,284
Cisplatine Republic ..	13,790	—	420,180

Cuba	15,000	22,498	39,058
Danish West Indies ..	—	—	13,523
French West Indies ..	—	—	17,811
Havre	—	—	8,745
Hayti	—	36,242	51,223
Liverpool	—	—	3,010
Mexico	25,000	13,690	125,750
New Granada	—	—	151,894
Peru	—	—	579,442
Porto Rico	—	—	15,000
Venezuela	—	—	44,225
Total feet	368,407	286,890	4,568,460
Value	\$14,878	\$11,737	\$191,349

We also notice shipments to Liverpool of 20 logs maple, value \$524; and 90 logs black walnut, value \$3,100. To London 25 logs black walnut, value \$950. To Havre, 54 hickory butts, value \$450; and 132 logs maple, value \$2,714; to San Francisco, 742 pieces plank, and 9,100 staves; to Bremen 5,000 staves; to Antwerp 6,000 do.; to Rotterdam 2,970 do.; to Liverpool 4,000 do.; to London 7,500 do.; to Glasgow 3,600 do.; to Havre 43,600 do.; and to Cadiz 70,560 do. Receipts as follows: From Jacksonville 478,000 feet lumber; from Savannah 126,268 feet do.; from Darien, Ga., 100,000 feet do.; from Little Rivers, S. C., 22,000 feet do.; from Georgetown, S. C., 97,000 feet; and from Wilmington, N. C., 104,000 feet.

The Western markets are firm, the demand good, old stocks gradually disappearing and dealers generally well satisfied with the position. A few Eastern buyers were occasionally making their appearance, and securing such desirable lots as offered at full prices. Accounts from the woods were encouraging, though a great many lumbermen predict a short crop. The Saginaw Enterprise says:

There is considerable inquiry in the lumber market just now, and we hear of quite a number of sales, although none of any large amount. We bear of sales of dry lumber at \$7, \$14 and \$40; green at \$6.50, \$13 and \$38, and some coarse lots at \$6, \$12 and \$35. The indications thus far are favorable to the market. The lumbermen now have plenty of snow, but the dry weather during January and a part of February put them back considerably, and the stock cannot be otherwise than short.

Chicago quotations as follows:

First clear, 1 to 2 in. $\frac{3}{4}$ M.	\$52.00@55.00

A Muskegon, Michigan, correspondent, in writing to the *Chicago Tribune*, says that there are at that point twenty-eight mills, which manufactured during the year 1868 two hundred and seventy million feet of lumber (270,000,000). This is a good showing for Muskegon, and we hope that the enterprising mill-owners at that point will largely increase the amount during the coming season.

At the majority of the Eastern markets there is not much activity, dealers, quietly awaiting the opening of navigation and the regular trade of the season. The feeling steady at all points, and nothing can be negotiated below previous figures. From the woods we learn that operations have been entirely suspended, camps are breaking up and lumbermen are trying to come out, solely because the snow is so deep as to entirely prevent work. In some sections the snow is reported seven feet on a level, and the men in working out were obliged to throw the horses on the sleds, and drag them through with the aid of snow shoes.

Portland rates as follows:

Clear Pine	Spruce No. ...	20.00@25.00
Nos. 1 & 2	Shingles	4.00@4.25

Sugar Box Shooks, each	0 50 @ 0 60

A recent Boston report says:

The market continues without any material change. There has been less activity at the yards, owing to the severity of the weather, but the stock is no more than sufficient for the demand. Prices of all descriptions are firm, and an advance on some kinds of coarse lumber is anticipated with the opening of the season.

Shipments have been made from Boston as follows: To Bombay 56,219 feet lumber; to Aspinwall 61,504 feet do.; to Turks Island 19,134 feet do., and 20,000 shingles; to Port-au-Prince 180,825 feet lumber, and 25,000 shingles; to Grand Cayman 22,000 feet lumber; to St. John, N. B., 2,500 feet of black walnut; to Valparaiso and Callao 258,482 feet lumber; to Montevideo and Buenos Ayres 84,524 feet lumber, and 64 spars; to Kingston, Jan., 1,265 feet lumber; to Yokohama 33,540 feet boards, 15,504 house frame; to other foreign ports 336,150 feet lumber, and 9,600 staves; to San Francisco 4,831 pieces, and 11 bundles lumber, and 4,200 staves.

Southern markets continue firm, the production rather less rapid, owing to a scarcity of logs, and a good general demand prevails at all points. Northern orders light. We learn of exports from Charleston to Barcelona 152,000 feet lumber, and 7,166 white oak staves; from Baltimore to Port Spain 20,000 feet lumber; to St. Lucia 26,000 feet do.; and to Porto Rico 14,800 do.

Savannah prices are as follows:

Timber \$5@12 per M. feet for mill timber, \$10@15 for small shipping do., and \$14@20 for large do. Lumber \$20@22 for ordinary sizes, \$25@30 for difficult sizes, and \$22@23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4@5 per M.

Charleston prices remain as follows: Steam sawed \$5.00 @ \$30.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00 @ \$35.00, mill timber, \$6.00 @ \$8.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:

Mill fair	10 00 @ 11 00
Mill inferior to ordinary	6 50 @ 8 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.
Flooring, 1½x4 to 6, \$15 to \$17 per M.
" dressed, 25 to 27 " "
Ceiling, ¾, dressed, \$24 to \$25 per M.
Planks, 1½x10 and upwards, \$15 to \$17 per M.
1½x2 " " 15 to 17 "
Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.
80 to 90, 13 to 15 cents per foot.
90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing is without new features, former prices being asked and obtained, and a fair demand prevailing on local and interior account. We quote at 38¢@35¢ for new, and 22¢@23¢ for old, according to quantity. Yellow metal steady at 27¢. Scotch pig iron continues to arrive in moderate quantities only, and this enables sellers to retain the advantage, notwithstanding an unusually light inquiry from all quarters. Small sales have been made at \$40.00@43.00 per ton, the latter rate to consumers. American pig iron has been offered with rather more freedom, and the market in consequence has shown greater activity, buyers apparently only wanting desirable stock to induce them to operate. Prices on all grades remain very firm, at full previous figures, the companies not having been able to establish an advance except on small parcels. A number of liberal contracts have been made for future delivery on a basis of current rates. We quote at \$40@42 per ton for No. 1; \$38@40 do. for No. 2; and \$37@38 for forge. Bar iron from store has sold more freely in small lots, at about previous rates, but the general tone of the market is still rather

LAWYERS.

J. PECARE,
Attorney and Counsellor-at-Law,
229 BROADWAY, ROOM 15.
Titles carefully searched; having had 15 years' experience.
Charges very moderate and satisfactory.

**B. F. McCAHILL, ATTORNEY AND COUN-
SELLOR-AT-LAW AND COMMISSIONER OF
DEEDS,** 692 Third Avenue and 454 Sixth Avenue.
Titles carefully examined, and Law business in general
attended to.
Loans negotiated, and Mortgages bought.

MISCELLANEOUS.

**SUPREME COURT—COUNTY OF NEW
YORK.**—Daniel Davison, Plaintiff, against Samuel
T. Davison et al., Defendants.

In pursuance of the judgment of the Supreme Court of the State of New York, made and entered in the above entitled action, I, the undersigned, Referee, appointed in and by said judgment, will sell at public auction, at the Exchange Salesroom, 111 Broadway, New York City, on Thursday, April 1, 1869, at twelve o'clock noon, through A. J. Bleeker, Son & Co., real estate auctioneers, "All that certain lot, piece or parcel of land, with the buildings thereon, situate, lying and being in the Fourth Ward of the City of New York, and bounded and described as follows: Beginning at a point on the southerly side of Chatham street, distant two hundred and thirty-eight feet and eleven inches easterly from the corner formed by the southerly side line of Chatham street, with the easterly side line of Frankfort street; and running thence easterly along the said side line of Chatham street thirty-one feet and five inches, more or less; thence southerly ninety-two feet and ten inches, more or less, to the northerly side of North William street; thence westerly along the northerly line of North William street, twenty-five feet and four inches; thence northerly and parallel with the above-mentioned side line one hundred and nine feet and seven inches to the southerly side of Chatham street; said lot being bounded northerly in front by Chatham street, southerly in rear by North William street, easterly by land now or late of Widow Burger, and westerly by land late of John Moore, be said several dimensions and distances more or less; being the same premises now occupied by John Simpson, and now known by the street numbers 25 and 27 Chatham street."

Also, all that other piece or parcel of land, situate on the northerly side of Water street, in the Second Ward of the City of New York, beginning at a point on the northerly side of Water street, distant twenty-nine feet and four inches easterly, more or less, from the corner formed by the easterly side of Maiden lane, with the northerly side of Water street; and running thence along Water street, easterly, twenty-five feet, more or less; thence northerly and nearly at right angles with Water street, twenty-one feet and eight inches, more or less; thence westerly and nearly parallel with Water street, twenty-five feet; thence southerly and parallel with the above-mentioned side line, twenty-one feet and two inches, more or less, to Water street, be said several dimensions and distances more or less; being the same premises now occupied by Robert Merrill & Sons, and known by the street number 156 Water street.

Terms made known on the day of sale.
Dated the 16th day of February, 1869.
THOS. C. FIELDS, Referee,
117 Nassau st., City of New York.
GLEASON & BARCOCK, Plaintiff's Attorneys, 114 Nassau.

**OFFICE OF THE COMMISSIONERS OF
TAXES AND ASSESSMENTS,** No. 32 Chambers
street, New York, January 4, 1869. NOTICE TO
TAXPAYERS.—Notice is hereby given that the assess-
ment rolls of the real and personal estate of the City and
County of New York for the year 1869 will be open for
inspection and revision on and after Monday, January
11, 1869, and will remain open till the 30th day of April,
1869, for the correction of errors and the equalization
of the assessments of the aforesaid real and personal
estate of the City and County of New York. All persons
believing themselves to be aggrieved must make
application to the commissioners during the period above
mentioned, in order to obtain the relief provided by law.
The act of 1859 provides "during the time the books
shall be open to public inspection, as hereinbefore pro-
vided, application may be made by any person consider-
ing himself aggrieved by the assessed valuation of his real
or personal estate, to have the same corrected. If
such application he made in relation to the assessed
valuation of real estate it must be made in writing, stating
the ground of objection thereto, and thereupon the Com-
missioners shall examine into the complaint, and if in
their judgment, the assessment is erroneous, they shall
cause the same to be corrected. If such application be
made in relation to the assessed valuation of personal es-
tate, the applicant shall be examined under oath by the
said Commissioners, who shall be authorized to administer
such oaths, or any of them; and if in his or their judg-
ment, the assessment is erroneous, they shall cause the
same to be corrected, and fix the amount of such assess-
ment as they may believe to be just, and declare their de-
cision thereon within thirty days after such application
shall have been made to them. No reduction on real or per-
sonal estate imposed under this act, unless it shall appear,
under oath or affirmation, that the party aggrieved was
unable to attend within the period prescribed for the
correction of taxes, by reason of sickness or absence from
the city."

A NEW VOLUME.

As our readers will notice by the title-page, the present number commences the third volume of the REAL ESTATE RECORD. Our success so far has proved that there was a real need for such a paper as this. The daily press cannot give the real estate news with the fullness and accuracy of a hebdomadal especially devoted to such records. For the building interest this paper is equally indispensable, as it is the only one which pretends to give full market reports of the price of building materials.

The year 1869 promises to be a busy and important year for these great interests in this city, and the RECORD, to all who wish to transact business, has got to be a necessity.

Our motto is "Excelsior." We expect to do far better for the building and real estate interest for the coming than we did for the past year, and we are equally confident that their interest will do better for us.

A GREAT deal of just indignation has been excited by the attempt of the Common Council to interfere with the Broadway market on 47th street. The RECORD was the first paper to call attention to this outrage, and now the daily press has taken the matter up. The Common Council have been so criminally remiss in their management of the public markets that whatever rights the old charter may have given them have practically become obsolete.

REPORT OF THE SUPERINTENDENT OF BUILDINGS.

THE annual report of the Superintendent of Buildings, Mr. James M. Macgregor, compiled for the year 1868, was issued last week. It is an interesting document of 439 pages, containing valuable information arranged and written in a manner interesting to the general reader. Mr. Macgregor enjoyed the advantage of a trip to Europe last summer, and during his absence had ample opportunities of studying the manner in which similar trusts are administered in the chief cities on the other side, and this, coupled with his experience, renders his suggestions and ideas doubly valuable.

The Superintendent complains, with reason, of the unsatisfactory working of some of the clauses of the building law as it stands at present, and cites illustrations of the manner in which speculators and others, by taking advantage of the loop-holes in the law, can com-

pletely defeat him from carrying out his intentions.

In regard to the erection of frame and wooden buildings, it appears that owing to the carelessness of the wording of a clause in the law, the Superintendent has really no authority or power to prohibit the erection of such buildings within that section of the city lying north of 83th street and west of 8th avenue, so that portion of the city is totally exempted from the benefits to be derived from a proper enforcement of salutary building laws. Mr. Macgregor suggests that the law be altered in regard to fire-escapes, particularly that portion giving the Superintendent the power to determine the kind to be used, as it gives rise to much dissatisfaction and embarrassment.

Attention is called to the fact that although a house may be provided with proper fire-escapes, it may be rendered inoperative from the fact that the alarm of danger fails to reach the parties in time. This fact has given rise to the invention of methods for alarming the inmates of a house in which the fire occurs, and a few remarks are given by the Superintendent in relation to a mechanical, self-acting fire detector, which has received the approval of Mr. Macgregor. The machine is self-acting, and acts upon the principle of the expansion of metals, and gives warning of the location of a fire in any building.

Valuable suggestions in regard to heating and ventilation are worthy of notice. Mr. Macgregor does not approve of the present system of ventilating tenement houses, and does not consider himself responsible in any way for it.

NEW BUILDINGS.

The following represents by wards the number of buildings commenced during the year 1868, of which number one thousand eight hundred and seventy-four were finished during the year.

Two thousand one hundred and twelve new buildings have been commenced during the year, in the following wards:

First Ward, 5; Second Ward, 2; Third Ward, 5; Fourth Ward, 14; Fifth Ward, 23; Sixth Ward, 17; Seventh Ward, 11; Eighth Ward, 19; Ninth Ward, 43; Tenth Ward, 11; Eleventh Ward, 31; Twelfth Ward, 387; Thirteenth Ward, 17; Fourteenth Ward, 19; Fifteenth Ward, 31; Sixteenth Ward, 36; Seventeenth Ward, 48; Eighteenth Ward, 67; Nineteenth Ward, 875; Twentieth Ward, 85; Twenty-first Ward, 103; Twenty-second Ward, 273.—Total, 2,112.

The buildings proposed to be erected are classified and divided as follows:

First-class Dwellings.—The number of this class provided for in the plans submitted was 879, which was 309 in excess of those contained in the plans of last year. Five-eighths

of this number were to be erected in the three wards north of Fortieth-street. The specifications for many of these private residences provide for materials of the most substantial character and workmanship, the cost varying from \$50,000 to \$140,000. The most costly private dwelling proposed was the one owned by W. B. Astor, situated on the north-west corner of Madison avenue and Thirty-fourth street. It is a corner house, four-story, basement, and cellar, 37x90; front of Ohio stone; mansard roof; cost \$140,000.

Of Second-class Dwellings, intended for two or three families each, 353 were submitted, being 119 less than the previous year. This class of dwellings includes buildings occupied in part for business purposes, frame buildings.

Tenement Houses for four or more Families.—Plans for 394 of this class of structures were received, being fifty less than in 1867.

First-class Stores.—Plans for eighty of these buildings were submitted, a decrease of five from the previous year.

Second-class Stores.—Plans for second-class stores presented during the year embraced but fourteen buildings, being seven less than were proposed for the previous twelve months. This class includes a variety of buildings, but principally for roughly-constructed storage houses, small stores, etc. But thirty-one of these structures were proposed to be erected, twenty-four less than last year, most of them being located in that part of the city north of Twenty-sixth street, and consisting for the most part of one-story brick structures, or frame buildings for temporary use.

Factories and Workshops.—A most notable falling off in this description of buildings also is presented in this report. During the year 1867, plans for 169 were received, while the past twelve months only 129 were submitted, a difference of forty in favor of the previous year.

Stables.—Plans for ninety stables were submitted, being twenty-three less than last year.

School-houses.—Eight of these structures were proposed, two less than in 1867.

Churches.—Fifteen buildings of this class were provided for, three more than last year's plans.

Public Buildings.—Plans for eighteen buildings of this character were proposed, about one-half the number submitted for last year. The report is in every way valuable, and would be a valuable addition to any library.

STATEN ISLAND.

MUCH complaint is made in the public prints of the want of sufficiently ample and rapid means of communication between New York and Staten Island, and of sufficient arrangements for drainage; and the opening of new,

wide, and convenient roads and avenues on the Island itself is urgently demanded.

A recent issue of the *Commercial Advertiser* says: "This 'sea-girt isle' ought to be the favorite resort of Gothamites. Its fourteen miles of agreeably diversified surface should be dotted from Quarantine to Tottenville with villages and cottages. With its vigorous sea breezes, charming scenery, and easy accessibility, it certainly ought to be more attractive for our citizens than any other place around New York." And another contemporary says: "Already the hills that a few short years ago were bare and desolate, are fast being dotted with smiling villas. Streets are in course of construction on every quarter, the gas and water pipes are everywhere climbing to the highest localities, churches and schools are springing up and projected in spots hitherto appropriated by wandering cattle, and, in a word, there is every indication that Staten Island is destined to augment greatly in population, in cultivated beauty, and general attractiveness. The rapidity and permanent value of this growth will, however, depend in a great measure on those who hold property and control public improvements. Perfect drainage, good roads, and unexceptionable communication are, we repeat, the three great desiderata of Staten Island; and we hope they will speedily receive the energetic attention they deserve."

Although inconveniences may not be removed as fast as they should be, nor improvements made on the Island as fast as a due regard for individual and public interest requires, yet Staten Islanders may be assured that the intrinsic value of their land is constantly and rapidly increasing. For the permanent investment of capital, with full assurance of profitable return, it is difficult to find a more inviting field than Staten Island, if, as we see stated, the prices of fifteen or twenty years ago still to a great extent prevail. As purchases have hitherto been almost wholly confined to those for immediate use only, the intrinsic value of most of the land is far beyond its market value. When purchases begin to be made for *investment* there will be a change; the tide of population and improvement is advancing, and with its progress both intrinsic and market values must surely be enhanced. If the Staten Islanders wish to realize more promptly and profitably, let them push on unitedly for better drainage, new and wide roads and avenues, bridges and railroads, and other means of prompt and easy communication—and all these are as much in the interest of New York as of Staten Island.

Indeed, it is clear that Staten Island has become substantially a suburb of New York, and this city, in its own interest, should see to it that *all its* suburbs are made easy of access, and improved and beautified and rendered healthful and salubrious, for the benefit of its own citizens, whose desire to find accommodation near the city it is the interest of the latter to gratify.

MECHANICAL LABOR.

THE industries in mechanism, like those in agriculture and other branches of labor, form an important feature in the material branch of political economy, termed "*reproduction*."

He who is non-reproductive is like a canker on the social vine, which saps and undermines everything that is vivacious, thrifty, noble and exalting. No one doubts that labor is honorable, and the mechanic or artisan well knows that he belongs to that class of the community which are said to be "the bone and sinew of the body politic." We are led to these remarks, having heard from those who profess to know something regarding the alleged threatened collapse in mechanical labor which is likely to seize our tradesmen in the coming spring. These parties prognosticate a serious strike early in May or June, a prognostication which we are not prepared to say has or has not some foundation on fact; or if on the contrary, it be but the emanation of a morbid brain or over-excited imagination. We have sought reliable information as regards the state of the labor market, and we proceed to lay the result of our research before our readers, deeming the present time most opportune, and the *prices* being adequate and just, for the return received by the master builders; and at the same time we think that, all differences might be equitably arranged on the great principle of supply and demand. The following prices are paid, irrespective of the ability of the workman. Stone cutters get \$5.00 per day; bricklayers \$5.00; brick carriers \$2.75; carpenters from \$3.50 to \$4.00; and one firm informs us that they have always paid \$4.00, and would employ none who are not worth that sum; and that the wages of the several trades are likely to remain as they now stand, until the latter part of May. Lathers now receive \$4.50; plumbers \$2.50; cellar-diggers \$2.25 to \$2.50; and laborers engaged in carrying earth get \$2.00; granite cutters receive \$4.50; plasterers \$4.50; moulders get \$3.00, but just at this time, business is very slack in this branch of mechanical labor. Stair-builders command from \$4.50 to \$5.00. We learn that the German cabinetmakers on Saturday last demanded an increase of 15 per cent. on their present rates of wages, which vary from \$18.00 to \$20.00 per week, but they have not as yet received answers from all the bosses. Those who have replied, do not seem disposed to acquiesce in the demand. Nothing can operate more detrimentally to the progress of our building operations, than these incessant volcanic eruptions, which seize our tradesmen's cupidity so soon as the spring-time sets in; and it is certainly ungraceful, if not actually ungrateful, that advantage by them should be taken in that season when buildings and builders make a fair start for the year, having benefited their employees during the most trying season of winter. This subjects commends itself, on the grounds of honor and justice.

SOME very fine work in Tennessee marble mantles has just been finished, and is now on exhibition at McGrayne's, No. 163 Flatbush av., Brooklyn.

AMONG the regulations of Manchester, England, Trade Unions, are the following proscribing free labor and discouraging invention.

BRICKMAKERS.

No person is allowed to make bricks by machinery.

BRICKLAYERS.

1. No bricklayer is allowed to set machine-made bricks.
2. No master bricklayer to have more than three apprentices.
3. No bricks to be used in Manchester that are made beyond an arbitrarily fixed boundary line, averaging about three and a half miles from the Exchange.
4. No bricks to be wheeled in a barrow.
5. Laborers not to go up one ladder and come down another.
6. Masters must employ men resident in Manchester, at all their works within fifteen miles of the city.
7. Every bricklayer to have one laborer to attend upon him, whether there is work for the latter to do or not.
8. All foreman bricklayers to be members of the union.

MASONS.

1. No quarry-worked stone allowed to come into Manchester.
2. No ashler (walling stone) to be worked by machinery.
3. All masons, bricklayers, and plasterers (whatever they are worth) are to have the same rate of wages according to their respective trade.
4. No piece work allowed.
5. Masons not to work overtime on any consideration.

OFFICIAL RECORD OF MORTGAGES
 —NEW YORK COUNTY.

In the arrangement of the following mortgages, where no description of the property follows the names, it is to be understood that there is a corresponding transfer under the same or nearly the same date in our columns, and the amount set down is what remains on bond and mortgage.

REAL ESTATE MARKET.

During the past week the market has been active at steady prices, particularly for Westchester County property. That of James M. Miller on Monday realized prices sufficient to satisfy all concerned. Messrs. Johnson & Miller, also on Thursday, met with a very decided success in their disposal of lots at Mott Haven and East Tremont. The sale of 125 lots by Messrs. Muller, Wilkies & Co., attracted a large number of buyers and active bidding was manifested. The sales of improved property by A. J. Bleeker, Son & Co., and the various auctioneers, during the week, were all highly satisfactory.

For the coming week the only sale of prominence to take place of unimproved property is that of Messrs. Johnson & Miller, for particulars of which see first page of the Record. Many operators are anticipating a tight money market about the latter part of the month, as in previous years, owing to the preparations of the National Banks for their quarterly statement. A severe stringency has always occurred about 1st of April. This year the banks cannot anticipate their statement, but must await a call from the Comptroller, which may make a vast difference.

MARKET REVIEW.

BRICKS.—The heavy rain storms and warm weather of last week rotted the ice, and again opened the river, the result of which has been a more liberal supply of hard brick, and a better defined market. The demand has continued very fair, and taken off a goodly quantity of the arrivals, but consumers were the principal buyers, dealers finding stock coming forward once more with comparative freedom, withdrawing orders, except for such amounts as were necessary to meet their regular trade. The sales, therefore, have scarcely been large enough to prevent some accumulation, and as we write, with a little dullness and considerable unaid stock, the feeling is just a little heavy, though not materially lower than late figures, and cargo rates may still be placed at about \$15.00 a \$16.00 per M, with a few very choice lots, occasionally ranging 25c. @ 50c. per M higher. Among the trade generally, we find a pretty confident feeling, and though with the present rush of supplies prices may recede somewhat, it is believed that very full values can be sustained well up to the opening of the new season. This is based on depleted stocks at all points, and the very reasonable supposition, that as spring advances the wants of consumers will increase. The sales of brick during the past winter were larger than ever before known, some estimates making the amount taken as double that of any corresponding period, and all at a very high average price. Pale brick are firm, in good demand, and scarce, most of the receipts being small lots coming in with hards, though latterly a few full cargoes have arrived, and more are expected at an early day. Croton fronts are in request, but of late the wants of buyers have been more easily met, owing to arrivals from the river yards, and cargo rates may now be quoted at \$21.00 a \$23.00, the outside for very fine. Philadelphia fronts are selling from jobbing dealers' hands at about previous figures. We note shipments of 25,000 bricks to New Granada.

CEMENT.—No fresh supplies have as yet come to hand, and the business is still necessarily entirely of a retail character. Some dealers are entirely out of stock, and the balance hold only a few small parcels which of course enables them to control prices, and we do not learn of anything desirable to be had below \$3.00, and a few sales have reached \$3.10 per bbl. From manufacturers we learn that their orders on local account are very liberal, and that there is also a pretty good call for coastwise shipment, and that it will require several weeks after the opening of navigation to meet present engagements. In most cases, however, they are well prepared for work, having quarried large quantities of stone during the winter, and this now lies ready for grinding as soon as they can obtain the facilities for shipping to this city. It is now pretty generally understood that the opening rates will be \$1.90 delivered at Roundout, and \$2.00 per bbl. for Rosendale delivered here. Exports of 12 bbls to British West Indies, 30 do. to Mexico; and 150 do. to New Granada.

DOORS, SASH, AND BLINDS.—A few country and Southern orders are occasionally dropping in, but the shipping trade at the moment is comparatively dull. On local account, however, there is good, steady, and very general demand, and some of the leading manufacturers are working full force. Prices are sustained, and the whole tone of the market is steady and quite healthy, with more apparent confidence than last spring.

DRAIN AND SEWER PIPES.—With the open winter a pretty steady trade has been done in nearly all the ordinarily-used sizes, and though not by any means heavy, the demand still continues fair. Stocks as usual at this season are large and well-assorted, and buyers can make their selections without much difficulty. In prices no change from previous figures can as yet be quoted, but an impression prevails among the trade that considerable sharp competition is likely to take place among the large manufacturers, and that many of the smaller producers will be anxious to realize quickly on their accumulation during the winter, and as all this tends to give the buyer an advantage, more liberal discounts will, in all probability, be allowed ere long.

FIRE BRICK.—The demand at the moment is moderate, and mainly for small jobbing lots to fill positive orders, and with a pretty large accumulation of supplies buyers are seeking some concession. Manufacturers, however, refuse to recede from former figures, as the cost of production is increasing, and a larger business is looked for within a few weeks.

FOREIGN WOODS.—Most styles are selling to a very fair extent from jobbers' hands at former prices, the demand being mainly on local manufacturing account, and with a good assortment, buyers experience no great difficulty in making selections. In the wholesale market there has been some activity, both on home and foreign account, though shippers have to calculate pretty closely for margins, and seldom operate until they can see their way clearly as regards freight, &c. Cedar is quoted nominally as before, but in a quiet way both buyer and seller occasionally make concessions, and a fair trade is doing. Mahogany is selling well, if of choice quality, partly for export. Mexican woods are in very good supply, but Cuba stock continues scarce, in fact there is scarcely any in first hands, and values are uncertain. We note exports from this port to Liverpool of 117 logs satinwood, valued at \$1,200; from Boston to Halifax 1,850 feet mahogany; and from New Orleans to Liverpool 46 sticks cedar. The only receipts reported at this port are 2 sticks mahogany from Zagaz; 6 logs rosewood, and 1,203 pieces ebony from Liverpool.

GLASS.—There is no change in the general features of this market. Any of the small sizes when offered can be sold without difficulty at full prices, with the supply, both present and prospective, running very light, while the large and undesirable grades are irregular, though the turn is generally in buyers' favor. The extreme range on discounts is 40@50 per cent. off on French; and 35@40 per cent. off on English. American in moderate request, and steady at 50 per cent. discount.

LATH.—Another cargo has been offered on the spot; was taken by the very first person to whom the tender was made, and 25c. per M. advance paid without hesitation, the sale embracing 450,000 lath or thereabouts, at \$3.75 per M, the market again closing strong, with many anxious buyers, who say they must have stock whenever they can find it. From all we can learn, however, it would appear that the demand cannot be met at the moment, as nothing is positively known to be on the way to this port, except the remainder of the cargo from which the sale reported in our last was made, though there may be stock close at hand, as it would be to receivers' interest to keep the matter secret until the latest possible moment. Dealers still report a good demand from consumers, and though a few still hold a good supply, by far the largest number are running stocks very low, and some are entirely out. At retail nothing can be bought lower than \$4.00 per M, and some sales have reached \$4.15@4.25 per M. About 200,000 hemlock lath were sold at \$2.50 per M.

LIME.—Nearly every day since our last has brought in one or more cargoes, and though all have been worked off within a short time after arrival, the demand has at no time been active enough to cause an advance in prices, and we still quote at \$1.25 for common, and \$2.00 per bbl. for lump. Dealers are all in want of lime to some extent, but the season is getting too far advanced for them to fear more than a temporary scarcity, and few are inclined to purchase beyond the probable necessities of a week or two. Common is selling to the largest extent, though a few lots of lump have been ordered, and are in transit. A great many of the Rockland kilns have recommenced burning, and manufacturers shipping, and there is now on the way to this port, we understand, a very respectable fleet, made up, however, mostly of small cargoes, few exceeding 800 bbls. Of the Northern lime there is still some to be found, but the sales are not very rapid, owing to the better opportunities buyers now have, for making selections. From dealers' hands an average trade is doing on local account, with a few shipping orders occasionally to be filled.

LUMBER.—The amount of trade at the yards has shown some falling off during the past week in most localities, and the general tone of the retail market at the moment is quite dull. Aside from this, however, there is no change to advise prices remaining steady on all desirable qualities, the assortment, as a general thing, holding out well for the season, and dealers seemingly as confident as before of a good time to come. We hear a few complaints from dealers of a scarcity of well-seasoned lumber, but as others have a fair supply buyers are enabled to make selections without much shopping around. A few foreign shipping orders are being filled from the stock of hard woods, and some contracts have been made with exporters for further supplies when freight-rates can be obtained. City builders and contractors have engaged summer supplies to a moderate extent, mostly on a basis of current rates. In the wholesale market we find a uniformly firm feeling and an increasing demand for most styles of goods, as every day tends to deplete the stocks, while the small and irregular arrivals are quickly exhausted at extreme figures. Orders have been forwarded to all points from whence desirable goods can be obtained to forward cargoes with as much rapidity as possible, but as yet the amount afloat is not large enough to warrant the hope that our market can obtain any great relief for several weeks to come. The demand for goods is very general, dealers, shippers, and a few speculators all being in the market in search of such stock as may be suited to their respective wants. Eastern spruce may still be quoted at full \$22.00@24.00 per M, and within this range there have been a few moderate sized and fairly assorted cargoes disposed of, though the supply is entirely inadequate to the demand. Some buyers complaining that they have not even had an opportunity to make a bid, much less to secure stock. It is very plain that considerable timber is wanted just at present, and with no heavy rush of supplies upon the market current rates can probably be maintained for several weeks to come. White pine continues to sell quite freely for export, the general aggregate footing up large, though most of the purchases are made in small lots. There is also a very fair local trade, and in all cases full prices are obtained. Dealers are canvassing the probabilities of next season's supply, and though the majority incline to the opinion that the amount will be smaller than last year, it is generally conceded too early to arrive at any positive conclusion. We quote at \$22.00@25.00 per M. feet for inferior to fair box boards; \$27.00@31.00 for good do.; and selections frequently ranging higher. Piling still nominal. Pickets are meeting with some little

demand for shipment into the country, this being the season when farmers are in want of stock for repairing and building fences, and as no other chance to effect sales is likely to occur, dealers are all anxious to find customers. This is particularly the case with those who have had stock piled out for over eighteen months, and are now becoming tired of paying storage, insurance, &c. &c. We learn of some 60,000 3-4 inch sized at \$8.50@9.00, the latter on a small parcel newly arrived to fill up on a lath-laden vessel. The previous sales of pickets at \$7.50@8.00 per M. were made subject to winter charges. Yellow pine remains steady at former prices, with a fair demand, easily met by cargoes either on the spot or to arrive. Assortments for yard use are not wanted, and desirable timber would meet with the most ready sale. We quote at \$30.00@32.00 per M. for timber, and \$33.00@35.00 do. for flooring boards. Black walnut logs are less active at the moment, but are held with much confidence and cannot be bought below 1 1/2 @ 1 3/4 c. per foot. Pine shingles unsettled. Cypress shingles have sold to a limited extent in small lots, at about former rates, and we still quote at \$16.00@20.00 per M.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Africa	118,756	—	922,342
Argentine Republic..	110,548	—	537,748

Porto Rico.....	—	—	15,000
Venezuela.....	—	—	44,225
Total feet.....	411,477	368,407	4,979,987
Value.....	\$13,184	\$14,878	\$204,488

We also notice shipments of 224 pieces oak, valued at \$15,000, to Amsterdam; 15 logs holly, valued at \$60, to Liverpool; 27 spars, valued at \$140, to Brazil; 15,200 staves to Amsterdam; 7,200 do. to Antwerp; 6,450 do. to London; 8,400 do. to Bristol; 32,680 do. to Gibraltar; 1,560 do. to Seville; 109,500 do. to Cadiz; and 20,000 do. San Francisco. The receipts reported include 96 sticks of hickory from San Francisco; 13,000 shingles, and 16,350 cypress staves from Washington, N. C.; 100,000 feet lumber from Wilmington; 6,700 staves from Beaufort; 30,926 feet lumber from Charleston; 170,000 feet do. from Savannah; 195,000 feet do. from Jacksonville; and 262,000 feet from Pensacola.

At the West business is good on local account, and contracts are occasionally making for shipments to take place at the opening of navigation. Prices hold their own well, and the majority of dealers are reported as feeling very confident. A few weeks ago lumbermen were complaining of a want of snow, but now they appear to be troubled with too much of the article. A letter from the Michigan lumber district says: "Owing to the great depth of snow in the woods, the lumbermen in this section of country have been obliged either to materially contract their operations or suspend altogether. The snow in many parts is from four to five feet deep on the level, and it is found impossible to get through the woods with teams. The result is that nearly all teams, except those owned by the lumbermen themselves, have been discharged."

OUR "TOM."

OUR "Tom" having read the regulations of the Manchester (England) Trade Unions, published in the RECORD last week, suggests the following to the New York journeymen:

WORKMEN IN GENERAL.

That the day be divided into three equal parts, viz., eight hours for sleep, eight hours for mental improvement and pleasure (at least one sixty-fourth of this division to be given to the mental improvement), and eight hours to business. The eight hours for business in all cases to be understood to include one hour to get from residence to place of employment, one hour to return home; one hour to get ready to commence; one hour to put away tools, take off aprons, etc., after finishing work; one hour for lunch; one hour to canvass as to possibility of getting up a strike to force further concessions from the "bloated" bosses, "who should be made to understand that the poor workman cannot longer be abused;" and the balance of the time to be devoted strictly to the work in hand.

MASONS AND BRICKLAYERS.

Bricklayers working by the day to set as few bricks as possible, and to reduce the number every time an advance in wages is obtained.

No master-mason to set bricks on his own job, under penalty of forfeiture of the building.

No master mason to examine or find fault with the work of his journeymen, either before it is commenced, while under way, or after it is finished; for are not "the free and independent workingmen of this great city entirely too proud to submit to any surveillance," no matter how inferior their ability? Of course they are; and all employers are expected to do is to have wages ready, and meekly hand them over when pay-day arrives.

No master-mason to be allowed to pass within twenty-one feet six inches of a brick pile, or to look at a brick, while building is in progress.

No member of a master-bricklayer's family to have red hair, and where pale brick are used, auburn hair will be considered objectionable.

No more apprentices to be allowed master-masons.

No master-masons' sons to know that such a thing as a brick ever existed.

No son of a master-mason be allowed to live in a brick house.

No master-mason's son be allowed any privileges that his father enjoyed, under any consideration.

No master-mason be allowed to have a son.

No journeyman to go to and from work in his carriage or on his velocipede, as it will at once show employers who realize the largest profits at current rates of wages.

Foremen will direct employers when, where, and how to purchase supplies, and will audit all bills, charging only a moderate commission therefor; the same to be divided among the journeymen.

Laborers carrying bricks and mortar not to be expected to move slower than one mile per diem.

No laborer to be compelled to stop work for the purpose of lighting his pipe more than sixty times an hour.

In ascending and descending a ladder no laborer to go out of his turn, if he has to wait all day for the man ahead of him to move.

All hod-carriers in future to be known as masons' clerks.

No bricks to be dumped from carts, but to be taken out singly.

In preventing non-society men from earning a living, care should be taken not to make too free use of knives, pistols, cudjels, etc.

In all cases bosses must be given to understand that their interests are secondary to those of the workmen, and that no journeyman can engage himself until he is assured that the would-be employer has a good recommendation from some trade union, or his last lot of workmen; and that after buildings are completed they are to be sold, and the amounts realized to be divided equally between employer and employee.

By observing the above rules the master masons would probably be enabled to prevent strikes until an approaching election induced the politicians to start some new bug-a-boo of horrible wrongs imposed upon the workmen, and then by promising to legislate against the supposed injustice, secure votes from men who "are determined no longer to submit to the tyranny, injustice, oppression," and so on for about a yard—of capital! Poor fellows!

THE valuable residence of Hamilton Fish, Secretary of State, 116 ft. on East Seventeenth st., fronting on Stuyvesant square, the same number of feet on East Eighteenth street, and 184 feet on Second avenue, is for sale. It is one of the finest houses, and the grounds thereof make one of the largest lots of unoccupied land, to be purchased in the lower part of the city.

OFFICIAL RECORD OF MORTGAGES
—NEW YORK COUNTY.

In the arrangement of the following mortgages, where
no description of the property follows the names, it is to
be understood that there is a corresponding transfer under
the same or nearly the same date in our columns, and the
amount set down is what remains on bond and mortgage.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last :

BROOME ST.—Nos. 472 & 474; one store; brick; marble front, five stories; 49.9x94; estate of Moses Morrison, owner; architect, Griffith Thomas, 472 Broadway; builders, Moore & Bryant. The entire building will be occupied by stores, it not being laid out for offices. When complete, it will have a very prepossessing appearance from its chaste style and uniformity.

BROADWAY.—No. 425; one five story and basement brick store; iron front; 25.1½x100; Le Boutillier Bros., owners; Griffith Thomas, architect; J. T. Conover, builder. The entire building is to be occupied for stores exclusively. The roof will be flat and covered with tin. The floors will be of Georgia pine—and these stores connect with those in Canal st., forming the letter T; \$45,000 estimated cost.

DIVISION ST.—Nos. 267 & 267½; one store and tenement; brick; four stories; 26x48.8; S. Gardner, owner; Robert Mook, architect.

ELIZABETH ST.—No. 157; one 5 story and basement brick store and tenement, 25x50; Patrick Lavelle, owner; W. E. Waring, architect.

ELDRIDGE ST.—No. 213; one store and tenement, brick, 5 stories, 24.8x52; owner, architect, and builder, W. S. Wright.

FORSYTH ST.—No. 208; one store and tenement; brick; 5 stories; 24.8x52; owner, architect, and builder, Charles S. Wright.

NORFOLK ST.—No. 33; rear; one factory; brick; 3 stories; 25x27; owner, George Bolheimer; architect, Julius Boekel.

ORCHARD ST.—No. 141; one store and tenement; brick; 5 stories and basement; 25x60; owner, George Schaeffer; architect, Julius Boekel.

RIVINGTON ST.—Nos. 206 & 208; two stores and tenement; brick; 4 stories and basement; 25x60; owner, James M. Cromwell; architect, D. Burgess; builder, John Day.

SHERIFF ST.—E. s., 150 n. Stanton st.; two 5 story and cellar brick stores and tenements, 26x60; owner, Chas. E. Loew; architect, F. S. Barnes; builder, Wm. P. Parsons.

VARICK ST.—No. 179; one store and tenement, brick, 5 stories; 24.10x70; owner, B. Clarke; architect, Charles Mettam.

WALKER ST.—No. 49; one store, brick, iron front, basement and 5 stories; 23.1½x90; owner, R. H. L. Townshend; architect, J. F. Duckworth; builder, John E. Sidman.

WOOSTER and AMITY STS.—N. w. cor.; one 1 story brick wagon-house; owner, A. T. Stewart; architect, W. R. Stewart; builders, Stewart & Smith.

FIRST ST.—No. 55; one store and tenement, brick, 5 stories; 25x60; owner, A. Dooper; architect, T. J. Beir.

5TH ST.—Nos. 305 and 307, rear, one 4 story brick factory; 50x27; owner, architect, and builder, Geo. S. Miller.

9TH ST.—No. 329, one second-class dwelling, brick, 4 stories and basement, 16½x50; owner, John Theiss; architect, Wm. Graul.

17TH ST.—N. s., 100 ft. w. Ave. B; one 2 story office and dwelling, frame, covered with cor. iron; 25x50; owners, F. & S. E. Goodwin.

22D ST.—N. e. cor. 9th ave.; one 1 story office of brick; 12x11; owner and architect, James Condie; builder, Robert Kennedy.

25TH ST.—S. s., one tenement, brick, 5 stories;

25x58; owner, Mrs. Ann Smith; architect, John Walsh; builder, Henry Johnson.

30TH ST.—N. s., 300 ft. w. 6th ave.; one 4 story brick carriage factory; 25x71.6; owner, Martin McIntosh; architect, D. & J. Jardine; builders, R. C. McLane & Son. This structure will be something superior to the ordinary run of carriage factories, as many original improvements have been adopted.

32D ST.—N. s., 550 w. 6th av.; one 4 story brick building for storage of furniture; 25x45; Edward Martin, owner; D. and J. Jardine, architects; Ab. Ackerson, builder.

WEST 32D ST.—No. 436; Cabinet factory, brick, 3 stories, 25x28.6; owner, Henry Zenner; architect, John Schary.

37TH ST.—S. w. cor. 10th av.; one 4 story brick factory, 50x125; F. E. James, owner; S. D. Hatch, architect; Wm. McBurnie, builder.

WEST 44TH ST.—No. 15; one stable, frame and cor. iron, one story, 25x40; C. Wills, owner, architect, and builder.

WEST 45TH ST.—No. 553; one 2d class dwelling, brick, 2 stories, 20x30; G. Yost, owner; G. A. Zimmerman, builder.

45TH ST.—N. w. cor. 2d av.; 2 stores and tenements, brick, 5 stories, 25x70, 25x50; owner, Thos. Geraty; architect, James Sexton.

45TH ST.—N. s., 125 w. 5th av.; one 2 story brick and brown stone front dwelling, with coach-house and stable, 30x70; James G. Clark, owner; A. Pfund, architect; I. C. Miller, builder.

WEST 45TH ST.—Nos. 547, 549 and 551; one kindling-wood factory, brick, one story, 25x80; owner, G. Yost; builder, Gustave A. Zimmermann.

49TH ST.—N. s., 172 e. 10th av.; one 2 story brick dwelling, 18x25; Wm. McGrath, owner, architect and builder.

WEST 49TH ST.—No. 15; one first class dwelling four stories and basement, 25x46; owner, Samuel Lynch; architect, John Lawrenson; builder Sam'l Lynch.

49TH ST.—S. s., 300 w. 5th av., three first-class dwellings; brick; brown stone fronts; 4 stories and basement; owner, J. M. Smith; architect, W. Wheeler Smith; builder, Geo. D. Hyliard.

The architect informs us that these buildings will be something out of the general run, but as the plans and designs are as yet incomplete, nothing of their minutiae can be stated.

50TH ST.—N. s., between 5th and 6th avs., two first-class dwellings; brick, and brown stone fronts; 4 stories and basement; 39x55; F. T. Luquer, owner; Renwick & Sands, 88 Wall street, are the architects; builder, Frank Lyons.

51ST ST.—N. s., 100 w. 2d av., one stable; brick; 2 stories; 25x42; Edward Bolge, owner; F. W. Hadden, architect; Cornelius Callahan, builder.

51ST ST.—N. w. cor. Lexington av., one 3 story and basement, brick, first-class dwelling, with all modern appliances of convenience; 20.11x50; Thos. Hunt, owner and builder; D. & J. Jardine, architects.

WEST 52D ST.—No. 335, two 4 story, frame, and cor. iron stores and tenements; 18x50; J. Alexander Striker, owner; J. N. Donovan, architect and builder.

52D ST.—N. w. cor. 6th av., foundation only to be built; no description; 25x5; Jas. Rowe, owner; Thos. C. Aston, architect.

55TH ST.—N. s., 62 e. Avenue A, two brick and brown stone front, 4 story, first-class dwellings; 18x50; Walter Roche, owner; W. E. Waring, architect; Moore & Bryant, builders.

55TH ST.—S. s., 295 e. 6th av., five first-class dwellings; brick; brown stone fronts; basement and 4 stories; 30x50; owners, John W. Stevens & Bro.; architect, Griffith Thomas; builder, J. W. Stevens.

74TH ST.—N. s., 100 e. 4th av., one church; blue and brown stone; cellar, basement, and 1 story; 44x100; owners, the Trustees of the "Holy Sepulchre Church" of the Protestant Episcopal denomination; architects, Messrs. Renwick & Sands; builders, Frank Lyons, and Duke & More. We are informed that this church, though plain, will be neat, and comfortably compact; and the exterior will present a highly attractive appearance. The edifice will have a massive tower at the side, but no steeple or galleries; and the organ will be situated on the level of the floor, there being no organ-loft. There will be a centre aisle and two side alley-ways. The chancel will be occupied by stalls, and sedilia and credence. It will cost about \$15,000.

74TH ST.—S. s., 125 ft. e. Madison av., eight first-class dwellings, brick, brown stone and Nova Scotia stone fronts; 4 stories; 22x54; owner, architect and builder, R. H. Coburn. These dwellings will have all the modern improvements and appliances; each will cost about \$32,000.

76TH ST.—S. s., 375 w. Ave A; one 2 story frame

dwelling; 25x35; owner, architect, and builder, John Conway.

77TH ST.—N. s., 80 e. Boulevard, four second-class frame dwellings; 3 stories; 12½x30; owner and architect, J. W. Dominic; builder, J. Whitemacht.

78TH ST.—N. s., 155 e. 3d ave., three first class and dwellings; brick, brown stone front, basement, 3 stories; 20x45; owner, Patrick Kelly; architect, James Sexton; builder, Edward Fitzgerald.

79TH ST.—S. s., 150 w. 3d ave., four first class dwellings, brick, and brown stone fronts, 3 stories and basement; 18½x50; owners, Jackson & Steinmetz; architect, F. S. Barnes; builders, Jackson & Steinmetz.

105TH ST.—N. s., 260 e. 2d ave., one 2 story frame second class dwelling; 20x26; owner, Ludwig Hally; architect, L. Hally; builder, A. Hally.

105TH ST.—N. s., 285 e. 3d ave.; one 2 story frame and wood front dwelling, 20x30; E. H. Treadwell, owner, architect and builder.

107TH ST.—S. s., 100 w. 10th av.; six second-class frame dwellings, 2 stories and basement, 22x31; Wm. D. Morgan, owner; L. B. Valk, architect.

119TH ST.—N. s., 223 e. Av. A; one first-class dwelling, brick, basement and 3 stories, 20x45; owner, Robert McChristie; architect and builder Robert McChristie.

122D ST.—S. s., 100 w. 2d av.; three second-class dwellings, frame and wood front, 2 stories and basement, 16.8x30; Taylor and Johnston, owners, architects and builders.

124TH ST.—N. s., 225 w. 1st av.; one second-class dwelling, cor. iron front, 2 stories, 25x35; owner, architect and builder, B. Euler.

1ST AV.—E. s., 22 s. 77th st.; one store and tenement, brick, four stories, 30x48; owner, John D. Tienken; architect, H. J. Ford; builders, Johnston & Bro.

2D AV.—No. 483; one tenement, brick, 4 stories, 25x27; owner, Mr. Parry; builder, John Gan-non.

4TH AV.—No. 59; one 5 story, brick store or offices; 25.4x96.5; H. A. Cassebeer, owner; J. Boekel, architect.

4TH AV.—N. w. cor. 41st st.; one 4 story brick stable and shop, 30x90; Charles Duggin, owner, architect, and builder.

4TH AV.—N. e. cor. 71st st.; five first class dwellings, brick, brown stone front, basement and 3 stories; Wm. Coburn, owner and builder; Wm. McNamara, architect.

BROOKLYN PROJECTED BUILDINGS.

FULTON AV., near Hoyt st.—Two 3 story and basement stores, of New Brunswick stone; 38x75; cost \$30,000; owner, Josiah T. Smith; architects, Glover & Mumford; mason, J. W. Johnston; carpenter, W. N. Rae.

FULTON AV., near Hoyt st.—One 3 story and basement store, of Belleville & Ohio stone; 26x90; cost \$20,000; owner, H. Hudson; architects, Glover & Mumford; mason, J. H. Stevenson; carpenter, Wm. N. Rae.

COR. WASHINGTON & CONCORD sts.—Mansard roof & refitting interior; architect, Glover & Mumford; mason, Wm. Marvin; carpenter, Jessie Carley; owner, John S. Howard; cost \$10,000.

FULTON AV., near Smith st.—One 4 story and basement store; 28x140 of New Brunswick and Ohio stone; owner, T. K. Horton; cost \$50,000; architects, Glover & Mumford; mason, Abraham Allen; carpenter, Joseph Platt.

MACON ST., near Marcy av.—Five 2d class dwellings, frame; 20x36 each; 3 story, basement and under cellar, no stores underneath; architect, T. F. Thomas, 341 Fulton st.; mason builder, George Phillips; carpenter builder, D. Fowler; owner E. Z. Lawrence; cost \$8,500 each.

WILLOW PLACE near Jerolemon st.—Two 1st class stables, brick and brown stone trimmings; 25x60 each; owner, J. L. Morgan; architect, T. F. Thomas; builders, P. M. Ambleman & John Hayes; cost \$7,000 each.

FRANKLIN AV., w. s., 1st house north of Gates av., large extension; 20x20 wood & frame; architect, T. F. Thomas, owner, John Griffith, New York; estimated cost \$35,000.

MYRTLE AV.—No. 680, new store, wood and plate glass; 20x50; owner, A. Altmayer; architect, T. F. Thomas; builder, Hems & Ford; cost \$1,400; and several others.

HICK ST., e. s., No. 7; owner, Jas. F. Rhodes; builder Jas. F. Rhodes; 3 story tenement, and office on first floor, brick & frame; 32x45; the office is occupied by Mr. Rhodes.

COLUMBIA ST., near Meddie st.—Two first-class brick dwellings, brown stone front, basement and three stories; 25x50; owner & builder, James F. Rhodes.

REAL ESTATE MARKET.

"You pay your money and you take your choice." Opinions differ as they always have done, and always will do in regard to the future course of the real estate market, and one is as likely to be right as the other. We all know that numbers have made fortunes during times like these, and we further know that numbers have lost them. The only advice we can give is the quotation at the head of this article. There seems to be a combination among some of the leading speculators for a decline in the market, and all sorts of reports are put into circulation, in hopes of inducing holders to part with their property, but so far as we can judge, the cry has not yet produced any concessions in prices. Money at present is tight, and likely to remain so until after the first of April, and during this time, if any bargains can be picked up, there are plenty who have the money ready.

MARKET REVIEW.

BRICK.—The general demand has not materially improved, but with less liberal arrivals has been active enough to nearly or quite exhaust all the cargoes offering, and we now find scarcely any accumulation of desirable stock in receivers' hands. Sellers also appear to have gained some advantage, and late transactions have been at an advance of about 50c. per M., bringing the range of values on North River hard up to \$15.50@16.50 per M., and at the improvement the market shows a pretty strong tone. The ice has interfered to some extent with the regular course of receipts during the past week, and low tides have also left many loaded vessels aground, but we see some evidences of a desire on the part of manufacturers to hold back stock as long as possible, in hopes of gaining still larger margins for profit by thus producing a scarcity of brick, and an advance in the views of buyers. At this season of the year builders are frequently placed in a position where a few bricks are an absolute necessity at almost any price, and in order to secure enough to complete contracts by May 1st submit to extreme figures without cavil, and hence if present moderate supplies can be continued for a few weeks there is a fair prospect of carrying the season out without allowing values to become modified; in fact some dealers are sanguine enough to predict a still greater advance before the new crop arrives. The manufacture of the North River brick will probably commence about the 1st of April, but it will require unusually fine weather to admit of many being burned and marketed before the middle or latter part of May, and by that time it is thought all the old stock now on hand will have been worked off. Many of the dealers have of late procured a rather better supply of hard brick, but are unwilling to part with it except to regular customers, though this demand keeps them quite busy, as nearly every consumer on their books requires at least a few thousand bricks. Just at the present time we understand a few contracts for the new crop have been made, but the particulars were kept secret and the amount was too small to have any important effect. Pale brick are also scarce, in good brick demand, and prices higher, closing with some contractors bidding even above our quotations, as they say work will have to be suspended until they can procure stock. Wherever well-cleaned old brick can be procured they are eagerly bought up, in many cases at prices well up to the cost of pale. Croton fronts are firm, in very fair demand, and the quantity offering small. Philadelphia fronts unchanged.

CEMENT.—The demand continues in excess of the supply, and the market very firm at full former figures, but no higher. An advance is prevented by a few lots brought in per railroad, and as these can be, and are sold with just a moderate margin of profit at \$3.00, dealers are unable to successfully compete with this influence, and the above figure may for the present be considered the regular price, with not much prospect of anything higher being established this Spring. The business is largely of a local character, though a few positive foreign and coastwise shipping orders are occasionally filled. Manufacturers report a continued accumulation of orders and predict busy times with the opening of the regular season. Shipments of 45 bbls. to British West Indies.

FOREIGN WOODS.—The general position of the market remains much the same as before. Nearly all the retail dealers report a fair home demand in most grades, and are realizing pretty full prices, though outside figures are only current for extra fine selections. As the majority of jobbers, however, have a very well-assorted and good sized stock they are not obliged to call upon the importer to any extent, and the wholesale market is quite dull, with prices quoted nominally as before. Of late the arrivals have been small, and any movement of cargoes has tended to reduce the stock, though there is said to be still an ample supply for all probable calls. Some shipments have been made to Europe when reduced exchange, very cheap freight accommodations, and low-priced wood have all happened to be offered together, and a few lots still occasionally go forward on owners' account, but the foreign markets at the moment offer very few inducements for free export operations. Cedar is still held at about 25c., but now and then money becomes tight, it is necessary to realize, and 20c. is accepted. Cigar box makers begin to find substitutes for cedar, work nearly as well and are cheaper, and many now use nothing but sycamore and basswood, and some are trying whitewood. Exports for week of 212 logs cedar to Liverpool, valued at \$1,300. Receipts for week, 84 logs cedar from Havana, and 70 pieces rosewood from Rio Janeiro.

GLASS.—For foreign window glass we still find a comparatively dull market, but rather more general trade than last week. The local wants appear to be larger, and a few Western and Southern orders are again dropping in, and though all for moderate invoices, the aggregate makes a very fair week's work. Some of the large grades were called for, but the demand as before runs mainly on small

sizes, and but few importers have any accumulation of the latter, particularly 8x10 to 9x13, 14 and 16 inch. Prices as before, but lack strength on all but choice grades. We quote at 40¢@50¢ per cent. off on French, and 35¢@40¢ per cent. off on English. American in fair demand, and discount still placed at 50 per cent.

LABOR.—As spring approaches the labor question assumes importance, and both employer and employee are naturally anxious to learn something in regard to the probable rates of wages during the coming season. As yet, however, the market is—in commercial parlance—too feverish and uncertain, to arrive at any positive conclusion. As a rule, masons, builders, etc., do not find any good reasons to warrant them in paying higher wages than last year, but are in most cases taking the precaution to make all contracts subject to strikes. On the other hand the workmen appear to have employed the dull winter season in making their trade unions as strong as possible, and now talk boldly of insisting—through their combinations—upon pretty much just such terms as they may choose to dictate, and we notice at a recent workmen's meeting that the few speakers who proposed conciliatory measures in dealing with employers received much less encouragement than those who advocated violent action. Recently a number of laborers engaged in digging foundations for buildings at Yorkville, struck for higher wages, and when other men were found, willing and anxious to work at the old rates, the police had to guard them from the attacks of the strikers. The painters have recently passed resolutions to insist upon eight hours as a day's work on all jobs. The Gas and Steam Fitters' Association have notified their employers, that on and after April 5th, 1869, they will demand \$4 per day. The Wood Carvers' Association at a recent meeting decided by a large vote to strike for an increase of 10 per cent. over present wages, which range from \$16.00@24.00 to \$30.00 per week. We have frequently, of late, referred to an evident growing disposition on the part of the more sensible workmen to settle all difficulties with employers, by arbitration, and this feeling is penetrating to the very fountain head of strikes, as witness the following from the *Cork Examiner* of March 4:—"An important conference was held at Darlington yesterday, between the ironmasters of the north of England and representatives of the workmen. The object of the conference was to discuss the desirability of establishing courts of arbitration in the northern iron trade district, and so prevent the periodical disputes and strikes which have been so disastrous to both masters and men. A claim for an advance of wages consequent on an improvement in the iron trade has lately been made by the men, and the men in one or two instances, we believe, suggested courts of arbitration. The chief manufacturers, at a meeting held at Newcastle a week since, fell in with the idea; in fact, made a proposition for the present meeting. There was a pretty full meeting, most of the works in the north of England being represented. The increase of wages asked for was refused for the present. A joint committee of masters and men was appointed to draw up rules for establishing courts of arbitration and conciliation."

LATH.—The demand has been good, and with more liberal supplies. We have to record quite an active market at full former prices. The sales on the spot and to arrive, include about 1,650,000 spruce lath at \$3.75 per M., the market closing quite firm. Most dealers are still willing to purchase to some extent, and will pay the above rate, but no higher, and it is evident that values have reached about the top point, for the present at least. This change from the very buoyant tone of the past two or three weeks, is not at all surprising, as the extreme rates reached have had the very natural result to draw out supplies from all points, from which immediate shipments hither could be made, and now with receivers offering cargoes quite freely on spot and to arrive, buyers are less dependent, and requiring some little solicitation to induce them to operate. All goods sell, however, and more are wanted, and though values may recede ere long, there is no probability that stock will be piled out for want of buyers. The jobbing trade from dealers' hands is in most cases reported as good, and little stock is accumulated at any point. Prices firm at \$4.00 per M. and upwards, to \$4.15, according to quantity, made of delivery, &c.

LIME.—The arrivals have been quite liberal during the week, mostly of small-sized cargoes, as we intimated they would be in our last report, and with a good brisk demand nearly all have found a quick market. We learn of nothing now here afloat unsold, but there is still a very good supply coming down the coast, most of the kilns are producing, and there is apparently no prospect of an immediate scarcity. Prices up to the close of our report have undergone no change, and we still quote at \$1.25 for common, and \$2.00 per bbl. for lump. While most of the Eastern manufacturers (who now control the market), acknowledge that above figures barely give them a profit, they seemed disposed to place a good supply into the hands of dealers without advancing rates, in order to compete as strongly as possible, with the Northern or Western companies, who are as yet unable to offer much stock, in view of the lack of means for transportation. The next change, however, will probably be upward, as the demand must improve as the season advances. The consumptive trade from yard is good, and daily increasing, and some dealers who lately bought freely, are again in want of stock.

LUMBER.—We still find a dull and dragging market at most of the retail yards, the small orders executed from day to day being largely on local account, and not of sufficient magnitude in the aggregate to make any perceptible impression upon the stocks. Manufacturers' wants are small, builders generally have nearly or quite closed up old jobs, and are not yet ready to commence upon new work, and the season is approaching when lower freights are likely to help the interior and coastwise trade. All these causes combined naturally greatly retard business and account in a great measure for the prevailing stagnation. All pine and spruce stock remains firm at full former figures, and though the general assortment holds out pretty well for the season, owners do not exhibit any anxiety to force off goods. Hard woods generally are

OUR ARCHITECTS, AND ARCHITECTURE.

In the old world, modern architects, surrounded as they are by the great works of antiquity, are so insensibly trammelled by the powerful web of orthodoxy and conventionality, that a man of true genius feels himself not unfrequently fettered in his thoughts and unwilling to venture into any new and original path—a something that shall work out what Emerson so strenuously advocates as his own "individuality," lest his ideas should run counter to the generally received notions. We recur to this matter, in continuance of our previous remarks, believing that it is of vital interest to the builder and professional draughtsman. In ecclesiastical architecture this is especially so; and few are the young aspirants to fame, who feel bold enough to launch out, dreading the responsibility, into any unbeaten path, in fear of the adverse and haply fatal criticism which awaits them. Here, on the contrary, genius in art is submitted to no such trammels. Except that healthy restraint which no man of real merit ever felt to be derogatory, that voluntary self-restraint which induces him modestly to study and thoroughly to investigate the wonderful works of taste and wisdom handed down to us by the great of past ages, the architect here acknowledges no impediment, but relying solely upon the natural talent and ability he may possess, can strike out boldly into new and untrodden fields of imagination, in which there is no one to oppose his progress. That our architecture has hitherto not kept pace with the magnificent opportunities afforded it for display can scarcely be doubted, while there is satisfactory evidence that a new era has now dawned upon us, and that no limit can be prophesied to the exhibition which New York will speedily present of gorgeous and stately edifices. Many things have tended to hold back the spread of genuine architecture among us—impediments that are not to be met with in any of the other fine arts. The sculptor or painter, yet unknown to fame, if inspired by any new and striking feature or thought, has comparatively little trouble in advancing the fruit of his genius to the gaze and knowledge of the world. In the quietude and retirement of his studio, he conveys it to his canvas, or moulds it into a plastic clay, as the exigence of the case may demand, and then boldly challenges mankind to pronounce upon his merit.

On the other hand, the architect has no such resource. No matter what amount of knowledge or experience, aided by his natural talents, which he may possess to an ample degree—no matter how capable he may be of producing works that would add lustre to the period in which he lives, having no means whatever of making his capacities and capabilities known, he must be content to pass, and often does pass, a whole life in obscurity for the lack of the one accidental circumstance, a far-seeing patron, who shall first invite his talents and ability into energy, which introduces him into active and public notice, leading to the portals of the Temple of Fame. The result of this is to place by far the largest proportion of architectural works in any great city in the hands of the comparatively few, who, through sheer luck, or the efforts of an incessant stream of influential friends, have been able to emerge from dismal obscurity; and as this is usually determined by mere accident, not necessarily by merit, it is as uncertain as a lottery whether the moulding of the public taste, for generations to come is entrusted to skilful or incompetent and unskilful hands. No city in the world illustrates this more clearly than our own Manhattan Isle, and the handiwork of many an architectural adept or blunderer is as plainly recognizable in stone or marble at the first glance, all over the city, as would be their respective written signatures at their respective banks. While we have a few architects of consummate taste, ability, and skill among us, who have dotted the city here and there with works that can rival those of any capital in the world, there can be no doubt that, on the other hand, in proportion to their pretensions and assumptions, with the enormous amount of money lavished on them, few cities can show more lamentable architectural failures, both in public and private residences. We do not on the present occasion propose to enter into any profound analysis of individual buildings, or to enumerate such as have fallen short of public expectation, least we should be considered invidious or personal; but there are those that will at once suggest themselves to every reader.

56TH st.—S. s., 60 ft. w. 3d av.; one 1 story brick carriage house and stable, 15x15; owner, Peter Point; builder, Peter Menderheider.

73d st.—S. s., 163 ft. e. 1st av.; one 2 story frame and wood dwelling, 20x24; owner, architect, and builder, Nicholas Hopkins.

78TH st.—S. s., 154 ft. e. Madison av., one 3 story and basement brick and brown stone front, first-class dwelling; owner, Sam'l B. Haines; architect, Rob't Mook; builder, Geo. D. Hilyard.

105TH st.—N. s., 260 ft. e. 3d av.; one 3 story frame and wood second-class dwelling, 20x33; owner, architect, and builder, Thos. Chadwick.

112th st.—N. s., 80 ft. e. 4th av.; four 2 story and basement, brick and frame, second-class dwellings, 18.9x36; owner, John Lander; architect, Geo. W. Hughes; builder, R. Anld.

113TH st.—S. s., 120 e. 1st av.; frame and wood; second-class dwelling; basement and 2 stories; 25 x25; owner, Mr. Ryan; builder, J. J. Caddy.

127TH st.—S. s., 70 e. 8th av., one 3 story, brick store and dwelling; 30x25; owner, Mrs. L. Unglich; architect, A. Spence.

153d st. and 10th av.—S. w. c., a 2 story brick church; 56x84.6; the owners are the trustees of the "Washington Heights M. E. Church;" architect, Rembrandt Lockwood; builder, Isaac Hopper. The architect informs us that the cost of this edifice will be \$35,000. In the basement are the lecture and class rooms, with school accommodation, and the upper floor will be the public auditorial hall. The chancel will be plain and recessed, and the rostrum of pine wood; also the other furniture. It has an end gallery for organ and choir accommodation. The steeple is very handsome, and well proportioned; and the tower is also a fine feature on the exterior of the building. There is a parsonage also, containing thirteen rooms, contiguous to the church. The present pastor is the Rev. Browning.

ALL ABOUT STREETS.

Below we give in a condensed and convenient shape, a list of all bills involving an appropriation of money, and relating to the streets, introduced and now pending before the Common Council of the city of New York. This will be found invaluable to property owners and contractors.

REAL ESTATE MARKET.

CONSIDERABLE anxiety has been manifested by the nervous holders of real estate during the past fortnight, regarding the future course of the market, and a great sense of relief has been imparted to that class by the firmness, and better state of feeling which has prevailed for the past few days. Some very good bargains were quietly picked up during the scare, and there are plenty yet with money ready, should anything cheap offer. Money has been scarce, and is still very close, and heavy commissions have been paid for its use, but the worst is now over, and from this time forward easier times are looked for. The sbrewder class of speculators anticipated all this, and were prepared, consequently do not feel discouraged, but having given the market a breathing spell, they are ready to again enter into operations. There is considerable inquiry for country property, and it would not be surprising if the tide of speculation should run in that direction for a time. The auction sales during the week were well attended, and next week an active market is looked for.

MARKET REVIEW.

BRICK.—At this season of the year the weather is too uncertain for building operations to be carried on with much regularity, and hence the demand for brick as well as other material is somewhat fitful. There has, however, during the past week, existed a call heavy enough to take off about all the desirable stock offering, and give sellers still greater advantages, prices showing an improvement of at least 50c. per M. on the most desirable grades. The market closing quite firm, with very few cargoes immediately available. The supply has been very fair and comparatively regular, but as we noted last week, manufacturers are greatly inclined to hold back their goods as long as possible, and of late have been greatly strengthened in their views by the action of speculators, and some dealers, who, fearful of a scarcity before new brick come in, have visited the yards and offered rates nearly equal to those current here, say \$14.50@15.50 per M. This looks something like an attempt to "corner" the market, and if successful, it is difficult to predict how high the value of hard brick may be forced. At the moment the quotations stand at \$15.00@17.00 per M., making a rather wider range than heretofore, but this is owing to the variable quality. The general condition of the stock is good, as the weather last fall was very favorable for the production, but as many of the yards are closing out, a number of odds and ends come down in poor order, and have to be sold low. According to a close estimate by a leading receiver of this city, the production of common brick last season will approximate very closely to seventy-five million for the Long Island and New Jersey yards; and three hundred and fifty million for the North River yards, and according to present indications the number is likely to be materially increased the coming season. A great many new yards will be started, and manufacturers generally are prepared to commence work as soon as the weather permits. From the New Jersey yards new stock is looked for within two or three weeks. Retail dealers are doing a good steady business, with their regular customers, but in most cases are not restocking except as immediate wants require, the current high rates, and lateness of the season engendering a spirit of caution. Pale brick are in the same position as hars, prices showing an advance, and the supply barely meeting the requirements of trade. Croton frouts are rather dull, at about former figures. Phila-

delphia fronts nominally unchanged. Certain daily and semi-weekly journals published in this locality evidently have the highest confidence in our brick report, and we assure them they have only to continue copying our figures, and they will always be perfectly correct in their quotations.

CEMENT.—The demand continues good, but buyers are holding off for a day or two in momentary expectation of a more liberal supply, and there is no decided market value at the present writing. In some cases it has been absolutely necessary to purchase a little stock, and of course dealers obtained the best rates possible under the circumstances, but nothing will now reach \$3.00, and in fact considering that new stock is already here, and may be looked for now with much regularity, we reduce our figure to the regular manufacturers' rate, viz. \$2.00 per bbl. delivered. Our local trade will probably monopolize the bulk of the arrivals for some little time to come, but agents report a large number of shipping orders on their books both Eastern and Southern, more particularly the latter, and a few lots will be exported.

FOREIGN WOODS.—The general market is dull and without any new features. In a wholesale way very little stock changes hands except where an unexpected reduction of supplies sends retailers and consumers into market, or when a positive shipping order has to be filled; while the distributive trade from jobbers' hands remains at about the usual average. Prices are without alteration, but probably a little stiffer in view of the smaller arrivals of late, though the general assortment is fair and the stocks ample of all except the Cuba woods, and these are already held at such a figure as to shut off buyers, and preclude the possibility of any further advance. The only exports embrace 25 logs satinwood, value \$366 to London. The receipts are 26 logs cedar from Havana; 845 pieces ebony from Liverpool; and 100 logs rosewood from London.

GLASS.—The demand for foreign window glass, as far as the small and scarce sizes are concerned, is fair and at pretty full prices, but otherwise the market is excessively dull, and the tone quite heavy, with more desire on the part of sellers to operate than for some time, the stringency of the money market having some effect. On the general range, however, discounts are as before, and we still quote at 40@50 per cent. off on French, and 35@40 per cent. off on English. American is quite dull at 50 per cent. discount. For two weeks the imports have been 43,125 boxes glass, valued at \$53,033; and 539 glass plate valued at \$75,215.

HARDWARE.—For all styles of builders' hardware the demand, though less active than two or three weeks ago, is still very fair, and dealers generally appear satisfied with the state of trade. Local jobbers are very well stocked, and the call is mainly on country orders. Prices are unchanged but firm, and the assortments are becoming reduced somewhat.

LABOR.—The preamble and resolutions recently adopted by the Master Masons have been so well circulated by the daily press, it is useless to reproduce them here in full, but we give place to one paragraph, containing the gist of all the rest.

Resolved, That we will pay the industrious a full remuneration for their services, whether they be members of a Union or not, and will not submit to any arbitrary rules or dictations as to the manner in which we, as employers, shall conduct our business, or whom we shall employ.

Among the workmen the only items of importance coming to our knowledge is a determination on the part of the painters of this city to demand \$4.00 a day for eight hours work. The Paterson, N. J., masons are asking for \$5.00 per day. One of our daily journals, a few days since, referring to trade difficulties in England, and the numerous collisions between employers and their workmen, winds up by saying: "The remedy for all this kind of thing is emigration;" meaning, we take it for granted, that the workmen are to be the emigrants. All right; let them emigrate if they desire, but we hope none will come in this direction. Our city is bountifully supplied with "strikers" already, and a great proportion of the leaders are imported artisans who have come over here and destroyed the hitherto kindly relations existing between employer and employee by instilling into the heads of inferior and indolent workmen, false ideas of their worth and importance, and at the same time have, through the medium of silly Trade Union regulations, materially checked the advancement of pains-taking and industrious mechanics.

LATH.—The inquiry from dealers has been good throughout; but except where it was actually necessary to purchase they refused to pay former extremes as insisted upon by receivers, and during the early portion of the week only about 350,000 were bought at \$2.75 per M. The arrivals in the meantime continued liberal, causing a rapid and undesirable accumulation of supplies, and after testing the market thoroughly, sellers finally succumbed to the pressure, dropping their views 25c. per M, and selling out some 1,200,000 at \$3.50 per M. Up to the present writing there has been no change from this rate, but the market is rather uncertain, and buyers think the unsold stock large enough to warrant them in expecting a still further reduction. Receivers, however, predict that even should the rate be lower, it will be only a temporary matter, and that a reaction is likely to carry values as high as before. Their views are based on the supposition that recent extreme prices have drawn out everything available and caused the present rush of stock, which being disposed of, there will be nothing to come forward until the new production, and the saws are not likely to be set in motion inside of five or six weeks. The jobbing trade from dealers hands is a little slack, but fair for the season.

LIME.—The position is unchanged, and the sales of Rockland lime are still at \$1.25 per bbl. for common, and \$2.00 for lump. Receipts have been fair and pretty regular, but about equalled by the demand, receivers supplying the out of town trade when local dealers were not prepared to accept stock immediately. The amount in transit is very fair, but is still made up mainly of small cargoes, over which there is some complaint, as one cargo is hardly enough to fill up the available room at the disposal

of our dealers, and two make the quantity larger than the majority of the trade care to handle for the present. In other styles of lime there does not appear to be much movement at present, and values are a little uncertain, though holders are asking very full figures. The retail demand from yard is fair, but supplies are sufficient for all calls, and consumers experience no great difficulty in obtaining immediate delivery for such goods as they may desire.

LUMBER.—As a rule, our retail dealers are not particularly enthusiastic over the amount of trade doing, and some still insist that the market is horribly dull, but we find a little better tone than last week, and a few more goods changing hands. Prices have remained at the same general range, but are supported without difficulty, and will probably undergo no material alteration until business is fully resumed at points from which our supplies are drawn. The current demand is mostly from city buyers, though orders are at hand from the Eastward, from Jersey, and from the South. The stock of pine wood is pretty fair as yet, and the assortment keeps up very well, though complaints begin to be made of a scarcity of common 1½ inch stuff, and any heavy call for this style would run up the price. Most of the large consumers, however, have a supply at Albany, and as there is a fair prospect of an early opening of the river, they refuse to purchase any thing here, except in such small lots as absolute necessities require. Ash, oak, maple, &c., are rather dull, the only demand being a few small shipping orders, with outside quotations representing values seldom reached unless by extra fine assortments of wood. Black walnut continues to meet with a good demand, and very largely on local account for building purposes, the disposition to trim houses with this class of wood appearing to increase with every season. Prices, of course, hold their own under the circumstances, and dealers, who make walnut a specialty, predict a still higher range ere long on the best grades. The general impression prevails that interior means of transportation will be available at an early day, in partial confirmation of which we learn from Buffalo that "recent rains have pretty well cleared off the snow, very little ice remains in the canal at this point, and navigation will probably open early." In our wholesale market we find about as much life as can be expected, with the moderate aggregate of supplies offering and the poor assortment of goods. As far as the sales go, however, prices have been fully sustained and in some cases, specified below, a higher range was established. Local dealers and manufacturers take a large proportion of the cargoes arriving, but we learn of a few reshipments to coastwise ports without breaking bulk. The inquiry from exporters is good, and whenever suitable stock can be found, it is bought at full rates, though the opportunities for selections are naturally small at this late, or early, portion of the season, whichever our readers choose to call it. The foreign wants, however, will probably be large, and five or six million feet pine have already been sold to South American buyers at rather better figures than last year, shipments to be made direct from the mills (Canadian) during July and August. Eastern spruce has been in moderate supply; sold pretty well up to arrival, and about former rates obtained; but buyers, though not neglecting to secure such lots as offer, still appear dissatisfied, and are continually calling for something longer and of more desirable quality, intimating that high figures would be paid if the right kind of stock were found. As very little, if any, choice was wintered over, however, and the mills have not as yet commenced sawing, there is no prospect of immediate relief in the ordinary course of events, though extreme values often draw out goods from unexpected quarters. Sales have been made on the spot and to arrive of some 200,000 feet at \$22.50@23.25 for ordinary average of schedules, and \$23.50@24 for choice, in a small way. For future delivery contracts are making at full rates. White pine is scarce, in good demand, and firm; but, with a prospective increase of the supply within a few weeks, buyers are unwilling to submit to any advance. It has been intimated that some considerable contracts were made for manufacturing purposes, but we cannot learn particulars. We quote at \$22@26 for inferior to fair box and shipping boards, and \$27@31 for good do., and selections still higher. Piling remains nominal, in the absence of a supply. Pickets are selling slowly, in job parcels, and generally are quite steady at \$5.75@9 for ¾ inch, though on common lots some shading occasionally takes place. Yellow pine has been in rather better demand, and, with most of the recent receipts already sold, buyers have operated in parcels to arrive, a portion being taken on speculation. Prices are fully sustained, and close firm; indeed they could scarcely be otherwise, in view of stiffness at the South, the millmen having had a very lucky year, and now feeling independent enough to insist with much tenacity upon extreme figures. We quote at \$30@33 per M. for timber, and \$33@35 for flooring boards, with re-sales to go to Boston at \$36. Black walnut logs for export are in light request, and steady at 1½c. @ 1¾c. per foot. Pine shingles selling only from yard at our figures. Cypress shingles are quoted at \$16@20 per M., but some 250,000 are said to have sold recently at a very low figure.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.
Africa.....	60,654	97,383	276,793

Venezuela.....	—	—	44,225
Total feet.....	285,876	187,750	5,458,563
Value.....	\$25,596	\$6,917	\$236,996

We also notice shipments of 61pes. ash valued at \$710 to Antwerp; 40,000 shingles value \$200 to Africa; 3,600 staves to Glasgow; 3000 do. to British Guiana; 225,180 do. to Cadiz, and 37,400 do. to Antwerp; and 6,000 feet lumber to San Francisco. The only receipts reported are 130,000 feet yellow pine from Pensacola.

At a few points West trade is improving somewhat, but the general tone is still rather dull, and all our late advices are absolutely without items of interest.

Chicago quotations as follows:

First clear, 1 to 2 in., ¾ m.....	\$52.00@55.00

The Eastern markets all remain firm and a few changes necessary in our figures below are in buyers' favor. The trade doing thus far has all been in old stock, none of the mills commencing operations at this early portion of the season, though the saws will in all probability be started just as soon as circumstances will admit. A great many orders have already been sent in, and manufacturers feel much encouraged by the prospective position of the market. Some fine timber was cut early in the season, and the spring drives will probably bring down many very desirable logs, though not an abundance by any means.

Boston prices are as follows: Clear pine \$50.00 for No. 1; \$70.00@75.00 for No. 2; \$60.00@65.00 for No. 3; \$40.00@45.00 for No. 4; and \$30.00@35.00 for No. 5. Coarse pine \$20.00@22.00 for No. 5; and \$14.00@16.00 for refuse. Shipping boards \$22.00@23.00. Spruce \$15 @ \$17.50 for Nos. 1 & 2; and \$9.00@12.00 for refuse. Hemlock boards \$15.00@15.50 for Nos. 1 & 2; and \$8.00 @ \$10.00 for refuse.

Sugar Box Shooks, each.....	0 50 @ 0 60

From the Southern markets we learn of nothing fresh. Throughout the Virginia and North Carolina districts trade is very dull and values depressed, but in South Carolina, Georgia and Florida, millers have been and are still doing a tip-top trade, and feel very confident at full former rates. The largest amounts are going abroad, though coastwise orders were fair.

Savannah prices are as follows:

Timber \$8@12 per M. feet for mill timber, \$10@115 for small shipping do., and \$14@20 for large do. Lumber

BROOKLYN PROJECTED BUILDINGS.

The following embrace the buildings which have been projected since our last:

BOERUM ST.—N. e. cor. of Fulton av., a magnificent brick building, with stone front and trimmings, for the owners, "The Long Island Savings Bank," at present situate cor. of Fulton and Adams sts., near the new Court House. The new bank will be an attractive structure, of 4 stories, a basement and sub-cellar; and extending 81 feet on the avenue, which is to be a grand boulevard when Prospect Park is finished, and 52 feet on the street. It will be 71 feet from the street level. The approximate cost is \$25,000. Messrs. Mundell & Teckritz are the architects. The first floor will be for banking purposes exclusively, with a main porch entrance on the avenue; the basement and two upper stories will be let as offices, and the third story as janitors' rooms and offices, studios, &c. The entire furniture, we learn, will be on a grand scale. The President informs us that they calculate to have a first-class fire-proof vault in the cellar, extending up to the basement, with granite roof and massive surroundings.

President, J. M. Seabury; Treasurer, John S. Mackey; Secretary, E. B. Fowler. The contracts not yet decided on.

WEST BALTIC ST.—Near Smith st., a brick store and dwelling 25x20, four stories, extension; Leopold Schindler, owner; Mundell & Teckritz, architects; cost \$4,000.

JORALEMON ST.—Near Hicks st., two brick first-class dwellings, 4 stories, with brown stone front, 20x40, with all modern improvements; owner and builder, E. H. Day, of State st.

LEFERTS ST., between Grand and Classon avs., four 3 story brick first-class dwellings, 45x21, brown stone front; owners and builders, E. & J. Whelan. Estimated cost, \$20,000. There are seven other such buildings on the same block to be commenced, but the particulars are, as yet, *in statu quo*.

There seems to be an indisposition on the part of some of the architects, builders, and others in Brooklyn to give any information relative to projected buildings in that city, but there need be no fear from an *expose* of legitimate real estate transactions, for they must necessarily be based on principles of honor and law. Jealousy may have something to do with this.

OFFICIAL RECORD OF MORTGAGES —NEW YORK COUNTY.

In the arrangement of the following mortgages, where
no description of the property follows the names, it is to
be understood that there is a corresponding transfer under
the same or nearly the same date in our columns, and the
amount set down is what remains on bond and mortgage

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last:

NORFOLK st.—No. 48, rear; one 2 story brick stable; 25x15; Washington Allen, owner; W. H. Palmer, builder.

EAST 50TH st.—No. 324; two first-class dwellings, brick, with brown stone front, 3 stories and basement; 12 $\frac{1}{2}$ x54; Mr. Krohuthal, owner; Louis Burge, architect.

54TH st.—N. s., 250 w. 11th av.; one 1 story wooden second-class dwelling; 37x32; Andrew Distrell, owner; Andrew Hind, builder.

54TH st.—N. s., 150 w. 11th av.; one 1 story wooden second-class dwelling; 21x26; Henry Myhoff, owner; G. Becker, builder.

61ST st.—N. s., 235 w. 9th av.; four 4 story and basement first-class dwellings, brick, and brown stone front; 20x52; R. M. Clarke, M. McCarty, and M. Foram, owners; Andrew Spence, architect.

4TH av.—E. s., 50 s. 84th st.; one 2 story second-class dwelling with store; 30x36; James Houldsworth, owner; John B. Worldsworth, architect; Edward Fitzgerald, builder.

3D av.—No. 586; one 3 story brick second-class dwelling; 18.6x28; John Komareus, owner; Wm. E. Waring, architect.

25TH st.—N. w. cor. 7th av.; one 1 story brick stable; 10.8x20; Geo. Abendschein, owner; Jas. Potterton, builder.

105TH st.—N. s., 360 e. 3d av.; one 3 story wooden tenement; 30x55; Mich'l Nolan, owner; Geo. Devoe, architect.

WEST 30TH st.—No. 10; one 5 story brick, first-class dwelling; 21x65; J. T. Metcalfe, owner; Thos. R. Jackson, architect.

2D av.—W. s., 75 n. 42d st.; one 2 story cor. iron second-class dwelling; 13x35; Dan'l Campbell, owner and builder; Wm. McNamara, architect.

EAST 15TH st.—No. 613; one 2 story brick second-class dwelling and store; 19x24; Patrick Burns, owner; P. Mooney, architect and builder.

WEST 24TH st.—No. 363; one 2 story brick stable; Valk & Niblo, owners and builders.

UNIVERSITY place.—S. e. cor. 11th st.; one 1st-brick shop; 37x35; Thomas Sternberger, owner; Marc Eidlitz, builder.

6TH st.—Rear, No. 620; one 3 story and basement, brick stable; William Gildersleeve, owner; Peter Fostevin, architect; Lane & Shapter, builders.

NORTH MOORE st.—No. 62; one 3 story brick second-class dwelling and store; 25x24; Jacob La Wall, owner and builder.

EAST 25TH st.—No. 227 rear; one 2 story brick stable; 20x32; John Slawson, owner; Michael Martin, builder.

EAST 17TH st.—No. 530; one 5 story and basement, brick tenement; 23.9x50; Thomas Galligan, owner; Peter Fostevin, architect.

49TH st.—N. s., No. 102, 7 feet e. 6th av.; four 4 story and basement, first-class dwellings brick and brown stone fronts; 17x50; Jacob & James E. Miller, owners and builders; T. S. Barns, architect.

1ST av.—Nos. 49 and 51; two 5 story brick stores and tenements; 24.1x65; Henry Eisner, owner; Louis Burger, architect.

41ST st.—N. s. e., 8th av., rear of cor. lot, one 3 story and basement, brick dwelling; 22x24.8; Thomas Ryan, owner; John M. Foster, architect.

WEST 25TH st.—No. 352; one 2 story stable, brick with cor. iron, covering front and rear; 20x20; Richard Brown, owner; Samuel Lowden, architect.

63D st.—S. s., 150 feet, 9th av., two 2 story and basement, wooden dwellings; 25x38; Wm. Johnston, owner and builder.

EIGHTH av.—W. s., 50 n. 131st st., three 1 story, wooden stores and dwellings; 16.8x50; J. C. Craddock, owner; Townsend & Davis, builders.

118TH st.—N. s., 180 w. 2d av., two 3 story and basement, brick and brown stone front, first-class dwellings; 15x50; Brettelle & Bro., owners; James J. Howard, architect; Brettelle & Bro., builders.

ALL ABOUT STREETS.

ERRATA. In last week's issue, under heading of M'Gonegal wooden pavement, were placed 63d, 66th, 68th, 69th sts. They should have been under head of "Street Openings."

REGULATING, GRADING, ETC.
56th street, 5th avenue to 9th avenue.
56th " 10th " to 11th "
57th " 10th " to 11th "
58d " 8th avenue, to Public Drive.
56th " 5th " to 9th avenue.

BELGIAN PAVEMENT.

57th " 6th avenue to Broadway.
57th " 10th " to 11th avenue.
58th " 10th " to 11th "

REAL ESTATE MARKET.

The market is beginning to show signs of animation, and holders are daily gaining fresh courage, and it would not be surprising within a short time to see every thing again booming, with the current running more upon improved property than it has heretofore. Money is still very close, and operators are all anxious. Holders of railway stocks and like securities do not seem in the least dismayed, but are confidently paying $\frac{1}{2}$, $\frac{1}{4}$, and 3-16 per cent. extra, as commission for getting their securities carried over for even one day.

These high rates affect real estate by making it difficult to obtain loans, for there are few who are willing to loan money at 7 per cent. per annum on houses and lots when they can safely step down to Wall street and realize for the present at the comfortable rate of over 100 per cent. per annum. It is expected, in the natural order of things, that there must soon be a let-up, although the banks are all poor, and the bears are, as usual, predicting tighter times still to come.

Messrs. Muller, Wilkins & Co. will sell, on *Wednesday next*, 159 valuable west side lots; for particulars of which, attention is directed to our first page.

James M. Miller will sell, on Monday, 80 lots, including some water fronts, which some day will realize a small fortune to the purchasers. See the advertisement.

MARKET REVIEW.

BRICKS.—Almost immediately following the writing of our last report, the arrivals were quite free, and with no corresponding increase of the demand the accumulation of unsold stock was comparatively liberal at all the principal depots, and the market has continued well supplied throughout the week. The result was rather a slow tone, and some slight modification from previous extreme figures, though as a rule the advantage gained by buyers have been small, and the confidence of wholesale dealers and manufacturers appears to be unshaken. Few, if any sellers are forcing business, and when cargoes arrive for which there is no immediate market, they are quietly held until an outlet presents itself, which is almost sure to be the case within two or three days. There has been some call for stock from Newark, and other points in that vicinity, and shipments have been made to the eastward, the latter at rates which really seem extravagant, though apparently paid without hesitation, some of the best lots reaching \$21.00 per M. Our own local consumers and dealers are compelled to purchase to a certain extent, and in the ordinary course of trade must do so, throughout the balance of the time intervening between this date and the appearance of the new manufacture; but now that the river is fully opened, and no danger of supplies being suddenly shut off, the disposition is to take no more stock at current rates than will be actually required for immediate use. Even this restricted demand, however, it is claimed, will consume pretty much all the brick that can be brought to this point; and if this is so, lower prices are not to be looked for until the production of 1899 begins to be marketed. The aggregate of stock still in yard up the river is problematical, though generally claimed to be small, in view of the open weather and the number of runs made during the winter. We quote at \$15.00@ \$16.50 per M., as to quality. Pale brick are in very active demand, both on local and shipping account, and the supply is exhausted as rapidly as received, full former prices being realized without difficulty. We quote at \$12.00@ \$13.00 per M., with very few except of the most common sorts selling at the inside figure. Croton fronts, without any unusual activity, are selling to a fair extent, and rule firm at \$21.00@ \$22.00 per M. for ordinary styles, and \$23.00 do. for choice. Philadelphia fronts are in light demand at previous rates, with a very small stock on hand.

CEMENT.—Since our last the first regular cargo arrivals of Rosendale have occurred, and as usual there was a general scramble among dealers to obtain a portion of the fresh supplies, and even up to the present writing the demand is still very brisk, every barrel coming in finding a quick and ready sale. A large proportion is taken on local account, but several eastern orders have already been filled, and some five hundred barrels are loading for Mobile. Notwithstanding the present very general activity, however, we notice a feeling of considerable caution on the part of many dealers, who think the opening price too high, and that it can only be sustained for a few weeks, during the first call for the new production. Be this as it may, the market is now certainly quick and strong at \$2.10 per bbl. by the cargo, and \$2.25@ \$2.50 do. from dealers' hands to the country trade and consumers.

FOREIGN WOODS.—Trade, both wholesale and retail, continues quite dull, but the market appears to be growing a trifle firmer, particularly on the fine and choice grades of mahogany and rosewood, of which the arrivals have been small and the supply is reduced. The largest portion of such demand as prevails is from the home trade, though a few export orders have been received and are awaiting the offering of more desirable stock at a modification in the views of sellers sufficient to make shipments profitable. A little cedar is selling, but where other woods can be substituted they have the preference. In the jobbing yards the stocks are fair in the aggregate, and in most cases very well assorted. The exports are 411 logs cedar, valued at \$2,026 to Liverpool. Receipts, 20 logs cedar from Havana; 8 do. from Darien; and 56 pcs. mahogany from Cienfuegos. Shipments to San Francisco of 92 sticks lignumvita.

GLASS.—Foreign window glass of all kinds has become very quiet, and the general market presents about as dull an appearance as at any time during the past seven or eight months. The local inquiry has almost entirely subsided, while the out-of-town orders received are mainly for a few odd boxes previously overlooked but now required to make assortments complete. The recent importations have been large, are pretty well distributed, and nearly all the leading dealers can now meet an ordinary call for almost any size, though the small lights are not plenty enough to stand an extraordinary run. Price lists remain as before, but the discounts are more liberal. French 40 @ 50 per cent. off list, and English 35 @ 40 per cent. off, with the inside rates seldom insisted upon. American is selling along slowly in job lots at 50 per cent. off.

HAIR.—Since our last article, the local demand has fallen off materially for all grades, the supply has increased and prices are 5@10c. per bushel lower, closing still somewhat weak, particularly on good, though both cattle and mixed could not readily be sold except at a concession from present quotations. Usually from the middle of March up to this time, and even later, the demand on city account is quite brisk, but builders have been so much favored by the weather during the past winter, that they have been enabled to work along gradually and get their contracts pretty well completed without any unusual rush before the 1st of May. The shipping demand continues very good, and fair amounts are going out both on Southern and California account. We quote at 40c. per bushel for cattle hair; 55c. for mixed; and 60c. for goat.

LABOR.—Up to the present writing, everything appears to be quiet in the various branches of labor, and we have no important movements to record. The workmen, however, are evidently preparing to demand an increase of wages and a reduction in the hours of labor, and strikes are to be looked for at any moment. As an exception to the general rule, we note that the House-smiths, having first resolved to demand 50c. per day, on and after May 1st, subsequently rescinded the resolution, with the intention of trying the system of a co-operative society. The very just and honest decision of the Secretary of the Navy, that eight hours' work is worth only eight hours' pay, has created great excitement among the employees at the various Navy yards throughout the country, as the workmen there engaged are directly affected. Letters are pouring in upon Congressmen from all directions from these mechanics, &c., asking to have the law so arranged that ten hours' pay (modesty forbids them to say twelve hours *as yet*) be given for eight hours' labor. With so many other "rings" and combinations formed to rob the Government, the workmen evidently are unwilling to be left out in the cold.

LATH.—The turn of the market has been decidedly downward since our last report was written, and the feeling just a little bit demoralized, though under the circumstances it was hardly possible to expect anything but a reduction in values. All the most needy buyers had supplied their wants while the recent advance was in progress, and the balance of dealers, though wanting laths, had enough on hand to last for some little time; and finding cargo upon cargo coming forward, and receivers anxious to sell, the natural disposition was to hold off until concessions had been named. This plan was adopted, and proved entirely successful, prices first declining, as noted last week, then to \$3.25, and finally to \$3.00 per M., with additional sales of some 2,300,000 spruce lath. At \$3.00 the market appears to have come to a stand, receivers being unwilling to go any lower thus early in the season, and dealers, &c., still hoping for more reasonable terms. There is a fair amount still on the way, understood to embrace everything that could be put in shipping order, at certain points of production, and little or none left to come forward until the sawing commences. Wholesale dealers have given up the idea of a reaction for the present to anything like the figures current early this season, but generally look for something higher before the new crop arrives. The jobbing trade is quite dull at the moment, and most of the stock going out of yard on orders is to meet a light irregular country demand.

LIME.—The supply of Rockland lime has been more moderate, and the cargoes arriving, large or small, have found a fair demand at former rates, very few parcels remaining afloat unsold more than twenty-four hours at the longest after arrival. As we close, there is apparently a stronger tone, with some indications of improvement in values, though as yet the quotations stand at \$1.25 per

bbl. for common, and \$2.00 do. for lump. The inquiry has proceeded in part from local jobbing dealers, and partly from neighboring cities, but all the most eager buyers appear now to be fully supplied, and it requires some little search to find desirable customers. The kilns are burning moderately, and some have deemed it advisable to stop until values assume a level at which there is a margin for a small amount of profit. For the Northern lime there is a fair, though not by any means active request, and the stock vintured over here sells off slowly, notwithstanding a continued pressure from owners, and a modification in their views to conform to the price of Rockland, and in some cases even lower by 5@10c. per bbl. There is some accumulation of lime at Albany and Troy intended for this market, which will probably come down immediately now that the river is open; and as the boats are likely to enter the canal at an early day, dealers are naturally anxious to work off all the old stock, even at a loss, before the new make arrives.

LUMBER.—The yard trade, so far as our observation goes, though not unusually active, and probably in some quarters less than the average of last month, is, on the whole, very fair, and stocks are now down low enough to show almost daily the gradual reduction taking place. Country orders are here and there to be heard of as quite plenty in a small way, while on local manufacturing and building account, a pretty good trade—for the season—is doing. Assortments are becoming poor, but this gives less general uneasiness, in view of the fact, that the river is open, and with one or two exceptions, stock can be replaced, if necessary at comparatively short notice. Prices hold their own on all grades, with rather a tendency to advance on rough 1½-inch spruce plank, of which there is a very small supply here, and none unsold at Albany. Most hard woods are dull, and though generally quoted steadily, they are partially nominal in the absence of testing sales. Black walnut, however, if anything, is rather better for prime qualities, and closes with a continued buoyant tone, the western markets opening strong at an improvement over last year of \$10 @ \$15 per M., and the supply either very small, or already under the control of some eastern dealer. The event of the week has been the opening of navigation to Albany, the river being now almost entirely free of even floating ice, and in a condition to permit the moving of cargoes. The Albany market opens very strong, but, as far as sales go, quiet on New York account, the prices asked rather frightening of buyers. Still, of old purchases, there is considerable stock moving aboard, and supplies will soon begin to reach this point with comparative freedom. The circular of Mr. John P. Patton, of recent date, says: "Our Albany market opens with a stock of about ninety million feet, which is a small excess over the stock on hand upon the opening of navigation in 1868. This stock is very well assorted, particularly with reference to pine lumber. An unusually large amount of lumber has been sold during the months of February and March, including everything in the way of spruce boards, and spruce 1½-inch plank in the rough. Black walnut is in short supply, and the price is firm at present quotations, with every indication that it will be high throughout the season, as the additional cost in the west is greater than the advance here over last fall's prices. The winter has been very favorable for logging, and the stock of pine from Canada and Michigan will be fully equal to that of last year. It is, however, generally conceded that the percentage of clear lumber will be much less than that of any former season. Dealers are now moving into the District, and a lively time may be looked for until the lumber now sold shall have been shipped. Freight will probably be about the same as last year, though no rates having as yet been agreed upon figures cannot be given." We learn that about thirty million feet is a fair estimate of the stock sold and awaiting shipment to New York and the eastward, and that the supply of vessels is fair. Clear pine was quoted at \$50.00@ \$63.00 per M.; fourths, \$55.00@ \$58.00; and selections, \$50.00@ \$63.00 per M. Spruce boards, 2½c. each; do. plank, 25c. Black walnut, good, \$80.00@ \$85.00; second quality, \$70.00@ \$80.00, and ¾-inch, \$70.00@ \$75.00 per M. feet. Our wholesale market, from necessity, is quiet, the general arrivals during the week have been too small to cause any great competition, in fact nearly all were sold previous to receipt, and buyers had no opportunity to bid. The demand, however, is good for all descriptions, and almost any respectable schedule could be disposed of with comparative ease at full former rates. Most of the stock now called for is wanted on local dealers' account, exporters having either filled orders and awaiting opportunities for shipment, or concluding to withdraw for the present, except in the way of small lots wanted immediately frequently to fill up on vessels going to West Indies or South America. Contracts of considerable magnitude have been made for goods to be delivered here during the summer months, and in nearly every case, prices have ranged at \$1.50@ \$2.00 per M. higher. Of eastern spruce a few cargoes from the Maine coast have arrived and quickly disappeared, buyers standing ready for anything desirable that may come in, and as a rule, paying full former rates without question. The demand is almost exclusively from local dealers who, as the season advances, are rapidly using up stocks, and in some cases parties who secured timber from the early arrivals this spring are again in the market. The quality of the cargoes offering is quite irregular, owing to the general scrapping together of stuff at the Eastward to make shipments for the market, and a few first-class specifications would be very acceptable. We quote the whole range at \$22.00 @ \$24.00 per M., closing steady, with little offering on the spot, though we learn of several parcels nearly due. White pine continues in good steady demand, and is very firm, in view of the greatly reduced stocks, though with the opening of navigation and the probability of getting some supplies forward, dealers scarcely look for an immediate advance here. At the mills, however, the feeling is very strong, and values materially higher than last year, notwithstanding which, there is a good business doing, and several large contracts have already been made. In one case we learn of 1,500,000 feet run of the log, Ottawa lumber, at an advance of \$1.50 per M. over last spring, and some engagements have been made at \$2.00 per M. improvement. We still quote at \$22.00@ \$26.00 for inferior to fair box and shipping boards; \$27.00@ \$31.00 for good do. and selections

at higher figures. Piling has arrived to a moderate extent, and sold without difficulty at the full rates of last season, extra-sized sticks bringing 8c. per foot, and from this the range was down to 7½c. for ordinary. Pickets are fairly active and quite steady. Some of the old stock is occasionally sold at \$8.75 and under, but fresh arrivals are held with firmness at full \$9.00, and receivers generally appear quite confident, as it is understood the production this year will be materially curtailed, in view of the low rates current. Yellow pine continues in fair steady request, and the market is quite firm, owing to the recent advance in the South, though a decline in freights prevents any corresponding improvement here. One or two sales have been made of parcels to arrive, and cargoes just in have been turned over here at a fair profit on the original cost, the purchases having been made some time ago at lower rates. We quote at \$30.00/\$33.00 per M. for timber; and \$33.00/\$36.00 for flooring boards. Black walnut logs are dull for want of stock, and somewhat nominal at 7½c. per foot. Shingles are dull and prices somewhat uncertain on all styles.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '09.
	Feet.	Feet.	Feet.

Total feet.....	190,548	285,876	5,644,111
Value.....	\$15,881	\$25,596	\$252,877

We also notice shipments of 3 cases maple valued at \$231, to Palermo; to Venezuela 3 spars, valued at \$195; to Bremen 12,000 staves; to Liverpool 6,360 do.; to Bristol 4,000 do.; to Glasgow 3,600 do.; to British Guiana 5,000 do.; to Malaga 53,400 do.; to San Francisco 41,000 do.; 24 pieces walnut, and 547 pieces plank. The receipts are: 180,000 feet lumber from Jacksonville; 423 pieces lumber and 13,500 feet boards from Pensacola; 233,502 feet lumber and 101,854 feet boards from Charleston.

The western markets, without exception, are reported as firm for all pine lumber, and though trade has not as yet fully set in, the buyers on hand evince a desire to operate with freedom. Some fair assortments of old stock are occasionally to be found, but the general supply is naturally somewhat small at the moment. Mills are being put in order for the summer's work, and there is said to be logs enough to turn out stock for all probable calls. In the black walnut districts the tone is decidedly buoyant; the ideas of sellers not only being from \$5.00 to \$10.00 per M., and on very choice \$15.00 per M. above last year, but many contracts for stock to come east have been made on a basis of this advance. Coarse and inferior grades appear to be plenty enough, but there is a great scarcity of good to choice stuff suitable for working up for house-fitting purposes, etc. Other hard woods are rather dull.

At the Eastward dealers continue to talk pretty stiff—a good trade last year and the prospect of a repetition this year inducing them to look for full figures. In some sections contracts have already been made—a few at an advance, mainly for domestic shipment, though some lots engaged are intended for export. From all accounts the prospects for securing a supply of logs are encouraging enough, and there will in all probability be an average crop harvested.

Boston prices are as follows: Clear pine \$50.00 for No. 1; \$70.00 for No. 2; \$60.00 for No. 3; \$40.00 for No. 4; and \$30.00 for No. 5. Coarse pine \$20.00 for No. 5; and \$14.00 for No. 6 for refuse. Shipping boards \$22.00 for No. 5; Spruce \$15.00 for No. 1 & 2; and \$9.00 for No. 3 for refuse. Hemlock boards \$15.00 for No. 1 & 2; and \$8.00 for No. 3 for refuse.

At the South the markets continue very active, the demand as heretofore coming largely from exporters, the shipments being both to Europe and South America, with an occasionally small order from the West Indies. Prices, in many cases have been advanced somewhat, owing to a scarcity of logs, and the general tendency appears to be in sellers' favor. About the usual average of coastwise orders were at hand, the improvement in values not checking operations to any extent, owing to a counteracting influence of a decline in freight charges. Many of the mills were complaining not only of scarcity of logs, but of labor, many of the workmen having been drawn off by the better inducements offering at the commencement of the planting season.

Savannah prices are as follows:

Timber \$8.00/\$12.00 per M. feet for mill timber, \$10.00/\$15.00 for small shipping do., and \$14.00/\$20.00 for large do. Lumber \$20.00/\$22.00 for ordinary sizes; \$25.00/\$30.00 for difficult sizes, and \$22.00/\$23.00 for flooring.

Mobile rates are as follows:

Pine lumber \$16.00 per M. for large lots; flooring, seasoned, \$25.00; cypress, \$35.00 per M.; shingles, cypress split, \$4.00/\$5.00 per M.

Charleston prices remain as follows: Steam sawed \$5.00/\$30.00 per M.; boards and scantling, \$24.00/\$25.00 per M.; flooring boards \$35.00/\$35.00, mill timber, \$6.00/\$8.00; and shipping, \$11.00/\$12.00.

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.

Flooring, 1½x12 to 6, \$15 to \$17 per M.

dressed, 25 to 27 " M.

Ceiling, ¾, dressed, \$24 to \$25 per M.

Planks, 1½x10 and upwards, \$15 to \$17 per M.

1½x2 15 to 17

Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing has been quite dull during the week, buyers only handling such lots as immediate wants call for, but manufacturers ask and obtain full former rates notwithstanding a slightly downward tendency to ingot. We quote at \$33.00 for new, and \$22.00 for old, according to quantity. Yellow metal remains dull at 27c. Scotch pig iron remains in a very quiet condition, the scarcity of stock preventing dealers from supplying even the few small orders received, and in fact there is no actual market for this class of goods at the moment. Quotations are placed at about \$41.00/\$43.00 per ton, though all figures under the circumstances are simply nominal. American pig iron appears to have come to a complete standstill, and the market is in rather an unsettled condition, though with no sales making there is nothing upon which to base an alteration in figures. The offerings for present and future delivery are fair, and in some cases manufacturers have expressed a little anxiety to effect sales, though the concessions allowed were not liberal enough to produce any response from buyers. We quote nominally at \$40.00/\$42.50 for No. 1; \$38.00/\$40.00 for No. 2; and \$37.00/\$38.00 per ton for forge. Bar iron from store is without quotable change in price, but remains very dull, nothing hit the very smallest lots suited to pressing necessities being taken by buyers, while large wholesale invoices are entirely neglected. We quote at \$55.00/\$57.50 per ton for common American and English bar; \$90.00/\$92.00 for refined do.; \$140.00 do. for Swedes, ordinary sizes; \$117.50/\$122.50 do. for ovals and half round; \$120.00/\$150.00 for scroff, and \$97.50/\$155.00 for rods, 5-8x9-16 inch, all less 5 per cent. Common sheet iron remains in a dull and lifeless condition, scarcely the ordinary retail trade demand prevailing and supplies suffering no reduction. Prices are rather uncertain, though the extremes cannot be altered. We quote at 5½¢ for singles, doubles, and trebles. Galvanized sheet 25 per cent. off list. Russia sheet is not in remarkably large sup-

ply, but the supply is fully equal to all present calls, and to sell easily holders would have to accept lower rates, though as yet the market may be written steady. We quote at 11½¢ for 13c. gold, assorted sizes. Pig lead is dull, and scarcely a sale has been consummated during the week. We quote at 6¼¢ for 6½¢ gold. Bar lead 10½¢, sheet and pipe 12c., less 6 per cent. to the trade. Pig tin immediately following our last advanced materially, and has since ruled very strong with none of the large holders offering their stocks, but the tight money has prevented free operations, and the general tone is quiet. Foreign markets are all advancing and generally excited. We quote in coin at 32¢ for 32½¢ for English; 34c. for Straits; and 35¢ for Banca. Tin plates are more firmly held, but no higher, and sell slowly. Zinc remains quiet and values are modified somewhat, closing at 12¼¢/13¼¢ from store.

NAILS.—Cut nails continue quiet, and the tone of the market heavy, with a few forced sales made at lower rates, though as a rule all agents appear disposed to modify their views somewhat if large parcels could be moved. The demand from shippers just now is mainly for small parcels, and local dealers appear to want nothing. We quote at 4¼¢ for 5c., the latter on job lots. Clinch are also dull and easier in sympathy, though not pressed for sale at inside figures. We quote at 6¼¢ for 6½¢. Finishing nails are in moderate demand, at about 5½¢ for 6d., 8d., 10d., and 12d.; 5½¢ for 5d., and 5½¢ for 6d. for 4d. Other kinds steady at 18c. for zinc; 27c. for yellow metal; 44¢ for copper. The exports are 527 packages, valued at \$8,242; against 232 packages, valued at \$1,221, same time last week. Shipments to San Francisco, 3,014 packages.

PAINTS AND OILS.—We learn of no important change values on paints, either in a wholesale or retail way, but most dealers are insisting upon outside figures, and the general tone of the market is very firm. A fair demand prevails on local account, and quite a fair show of country orders is made every mail, but for export or coastwise shipment there is not much doing at the moment. Stocks and assortments are broken somewhat and inquiries begin to be made for parcels to arrive. Glues, both domestic and foreign, are dull and somewhat nominal. Linseed oil is quite dull, and values very uncertain, the business being mostly in outside lots held by speculators, and prices fixed according to the necessities of buyers or sellers. Crushers generally are making no alteration in their rates and sell at \$1.00/\$1.03 in casks; \$1.03/\$1.05 in bbls., with job lots in proportion; but other sellers are occasionally to be found at 95¢/99¢, and again they crowd buyers up to \$1.07, according to circumstances. Exports of 79 packages valued at \$587.

PITCH.—The position of the market is much the same as last week, prices showing no quotable change, and the general volume of business running small. Local and nearby country dealers are calling for a few small lots, and some export orders have been filled, but the impression on the stock is moderate. One or two small parcels, Southern on pier have been used as a means to raise funds, and necessarily sold low, say \$2.50/\$2.75, but from yard former rates are still insisted upon. We quote at \$2.75 for \$3.00 for city; \$2.87 for \$3.25 for Southern; \$3.37 for \$3.50 for fancy grades do.; and retail parcels in proportion. The receipts for the week are 50 bbls. Exports for the week 330 bbls. Since January 1st, 1294 bbls.; and for same period last year 1,063 bbls.

PLASTER PARIS.—The market for lump is still devoid of animation, and prices somewhat uncertain, though the rates, it is thought, will not vary materially from those current last fall. We note the first arrival of the season, embracing 620 tons white Nova Scotia, a direct importation by a manufacturer. Calcein is in good demand, the supply fair and prices steady at \$2.40/\$2.50 per bbl.

SPIRITS TURPENTINE.—We have again to record a very unsettled market, and a comparatively small amount of business on advance to current rates, being considered by legitimate buyers as uncalled for, and inducing a reduction of purchases to just such small lots as will suffice for immediate wants. The stocks on hand are large, the receipts fully equal to the sales, and likely to continue so until the new crop arrives, and the range of prices appears to be supported solely by speculative combinations. At one time, sales were made 1c. over our last figures, but subsequently there was a reaction, and the class is somewhat unsettled at about 50¢/51¢ for merchantable and shipping order; 51c./51½¢ for New York bbls.; 52c./54c. for small parcels to jobbers, and retail lots from store, in proportion. Receipts for the week, 660 bbls. Exports for week 9 bbls.; since January 1st, 958 bbls., and for same period last year, 3850 bbls.

TAR.—A fair amount of stock is still being exported, but mainly on purchases made some time ago, the demand at the moment coming almost entirely from local and nearby interior dealers buying in job lots for immediate wants. The pressure for money has caused some holders to force sales, and this with pretty fair arrivals gives the market a weak tone, and most grades can be bought at 25¢/50¢ per bbl lower. We quote at \$2.75/\$3.00 per bbl. for North Country, as it runs; \$3.00/\$3.50 do. for Wilmington do.; and \$3.75/\$4.00 for selected parcels delivered, though the latter rate is only reached on the small retail lots. Receipts for week, 1526 bbls.; exports for week, 1508 bbls.; since January 1st, 8225 bbls., and for same period last year, 1841 bbls.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. III. No. 5.]

NEW YORK, SATURDAY, APRIL 17, 1869.

[WHOLE No. 57.]

PUBLISHED WEEKLY BY

C. W. SWEET & CO.,

106 BROADWAY, COR. OF PINE STREET.

TERMS.

Six months, payable in advance.....\$3 00
One year in advance..... 6 00

WE shall be happy to collect bills for any of our customers, at the usual percentage. We keep a competent and honest collector, and will be personally responsible for the returns of all moneys paid. A good responsible collecting office is a desideratum in this city, and we propose to try and supply it.

WE are still in a fog about the steam roads to be authorized in this city by the Legislature. We want these agencies sorely, and no doubt some one or more of the many schemes will be put through. The elevated road in Greenwich street seems to hang fire by reason of the unwillingness of capitalists to invest in a venture so novel. We hope, however, it will be tried. The east side road, it will be remembered failed, because of the backwardness of capitalists to come forward. But we want some steam roads badly, and hope the Legislature will give us a few.

THERE are some queer specimens of lawyers who do business in the Register's office. A few days since a deed was sent in to be put upon file in which there was neither the grantor's nor grantee's name. The property involved amounted to upwards of \$20,000, but it was deeded by nobody to nobody. That was a smart lawyer, that was.

THE Second Avenue Railroad Co. have opened the labor campaign by moving directly upon the enemy's works. The car-drivers can't see the matter in the same light as their employers, and the consequence is another strike. There is a good opening now in the brick-laying business, and we recommend the car-drivers to the study of that science. The members of the Bricklayers' Union, who have such a regard for the rights of labor, may be induced to let a few more workmen into that close corporation, and then again they may not, for there is a slight difference 'twixt "tweedle dum," and "tweedle dee."

OUR readers will confer a favor on us by directing our attention to any error or errors which may appear in the RECORD. Our conveyances are furnished to us officially, and we try to get them as perfect as possible.

MECHANICS' LIENS AGAINST BUILDINGS IN NEW YORK CITY.

April.

OFFICIAL RECORD OF MORTGAGES
—NEW YORK COUNTY.

In the arrangement of the following mortgages, where no description of the property follows the names, it is to be understood that there is a corresponding transfer under the same or nearly the same date in our columns, and the amount set down is what remains on bond and mortgage.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last :

42D ST.—S. e. cor. 2d av.; seven 5 story tenements and stores, brick and iron fronts, 25x54; N. J. Burchill, owner, architect and builder.
 WEST 22D ST.—No. 101; one 2 story brick dwelling and store, 14.9x28.9; Alexander Lyle, owner; Burgess, architect; Brown & Harper, builders.
 113TH ST.—N. s., and Harlem River; one 2 story wooden dwelling, 22x25; Francis A. Jackson, owner, architect and builder.
 127TH ST.—N. s.; 275 w. 9th av.; two 2 story wooden dwellings, 34x35; George Smith, owner, architect and builder.
 43D ST.—Nos. 532 and 534; two 5 story brick tenements, 25x60; George A. Pfeiffer, owner; John M. Forster, architect.
 45TH ST.—N. s., 110 e. 5th av.; one 4 story first-class brick dwelling and stone front, 40x50; Rev. L. S. Howland, owner; John Correja, architect; W. W. Owens, builder.
 WEST 25TH ST.—No. 432; one 4 story brick tenement, 22.6x41; John Geagan, owner and builder; D. & J. Jardine, architects.
 42D AND 43D STS.—Between Lexington and 4th avs.; one 2 story brick market "The Croton Market," 150x200; Weston & Co., owners; Carl Pfeiffer, architect; Marshall & Riker, builders.
 89TH ST.—N. s., 184.5 e. 4th av.; one 2 story wooden dwelling, 20x27; Jacob Pulvermacher, owner; John M. Forster, architect.
 51ST ST.—S. s., 211 e. 6th av.; one 4 story brick first-class dwelling brown stone front, 21x55; Martin & Fehlimmer, owners; D. & J. Jardine, architects; Samuel Cochran, builder.
 45TH ST.—N. s., 200 e. 5th av.; one 4 story and basement brick first-class dwelling, brown stone front, 25x60; Rev. Thomas S. Hastings, owner; D. & J. Jardine, architect; G. N. Williams, builder.
 W. 45TH ST.—No. 551; one 2 story brick kindling wood factory; 30x30; G. Yost, owner; G. A. Zimmerman, builder.
 THOMPSON ST.—W. s., 40 s. Grand st., one 2 story brick dwelling and store, 30x24; Henry Carston, owner; C. A. Pruiss, architect and builder.
 77TH ST. & BOULEVARD.—N. w. cor.; eight 3 story second-class brick dwellings; 118.8 n. 77th st. x106.6 on Boulevard; J. W. Dominick, owner; J. H. Whitenack, architect and builder.
 4TH ST.—Nos. 116 & 118; two 2 story and basement brick tenements and stores; 25x70; Michael Bouillon, owner; Wm. Jose, builder.
 E. HOUSTON ST.—Nos. 111, 113, 115 & 117; one 6 story brick factory; 100x75; L. H. Mace, owner; E. Sniffin, architect and builder.
 AVENUE A.—E. s., between Norfolk and Houston sts.; one 4 story brick tenement; 25x84; A. Attenkirch, owner; Louis Burger, architect.
 3d AV.—No. 600; rear one 3 story brick second-class dwelling; 25x30; P. Tierney, owner; Sam'l Dey, builder.
 W. 26TH ST.—No. 383; one 1 story brick carriage house; 8.8x25; Hane & Meinken, owners; Edward Harlow, builder.
 WASHINGTON ST.—No. 559; one 2 story brick first-class dwelling; 17.6x52; Timothy Connolly, owner; Thomas Prendeville, builder.
 31ST ST.—S. s., 125 w. 1st av.; two 5 story brick tenements; 25x52; Nath. Burchell, owner, architect and builder.
 MAIDEN LANE.—Nos. 9 and 11; one 5 story and basement brick store; iron front; 29.10x47.4; S. V. Hoffmann and R. L. Livingston, owners; John B. Snook, architect; Michael Gehagan, builder.
 113TH ST.—N. s., 168 w. Av. A; one 2 story and mansard roof wooden dwelling; 22x32; Dennis McGown, owner, architect, and builder.
 AVENUE A.—E. s., 42 n. 74th st., one 2 story frame dwelling; 20x25; Geo. Eidal, owner, architect, and builder.
 24TH ST.—N. e. cor. 11th av., one 1 story brick office; 15x15; John Trimble & Son, owners; M. Gehagan, architect, and builder.
 1ST AVENUE.—W. s., 25.6 n. 53d st., seven 5 story brick tenements and stores, iron front; 25x58; Christian Schwarz, owner.

ALL ABOUT STREETS.

BELOW we give in a condensed and convenient shape, a list of all bills involving an appropriation of money, and relating to the streets, introduced and now pending before the Common Council of the city of New York. This will be found invaluable to property owners and contractors.

BELGIAN PAVEMENT.

Deshroses street, Greenwich to Hudson.

 1st avenue, Houston to 34th street.
 5th " 59th to 86th "

REGULATING, GRADING, ETC.

99th street, 5th avenue to Public Drive.
 122d " Mt. Morris Square to 9th avenue.
 113th " 3d avenue to East River.

REAL ESTATE MARKET.

The market has been very steady during the past week, and holders are very firm in their determination to hold on for better prices and more active times. Money has eased up, very much to the satisfaction of borrowers, as the severe stringency which has existed during the past three or four weeks was beginning to give rise to a very uneasy feeling. The month of April so far has been one of exceeding dullness. At the County Clerk's and Registers' office business is reported very dull for the time of year. The principal searching done is against property on which loans are to be made. The Exchange Salesroom has been well attended during the week, and the two principal sales made of unimproved property were reported to be quite satisfactory to the owners. With the approach of fine weather, considerable activity is looked for in country property.

MARKET REVIEW.

BRICKS.—Nothing has occurred since our last report to disturb the general position of the market for hard brick, wholesale dealers insisting upon and obtaining about previous rates, and as far as the sales go values may be called steady. The amount of stock changing hands, however, is quite small, all classes of buyers adhering to the policy of restricting their operations to just such small quantities as will suffice for immediate wants, and though the arrivals are less rapid than during the first few days of the month, the quantity coming forward exceeds the demand, and supplies accumulate. It is evident, therefore, that sellers are as yet strong, and will carry current values up to the latest possible moment, in fact, some do not entirely give up hopes of an improvement before new brick come in, basing their views on the fact that nearly every day brings news of some yard entirely cleared out, and at this rate the supply must soon be exhausted. If stocks should run out and the consumptive demand increase, these expectations may be realized; but as the market now stands it would be difficult to sell more than a few thousand brick at a time, and any attempt to realize freely would undoubtedly result in a decline. The limited business doing is still firmly divided between the local trade, near-by cities, and shipments eastward. The average of quality as a rule keeps up very well, but with the clearing out of the yards a great many odd lots of poor stock come down the river, though these can be readily sold if offered low enough to act as substitutes for pale brick. From present indications we think there is no doubt that new stock may be looked for fully as early as usual. The production is being pushed forward with great vigor, and the amount manufactured and ready for the kilns daily increases. At some points one and two arches have already been set, burning must soon commence, and the first cargoes will, if no unforeseen trouble arises, begin to make their appearance here within three or four weeks. We quote at \$15.00 @ \$16.00 per M., with now and then a very desirable cargo reaching \$16.50 per M. Pale brick continues to sell upon receipt, and the market is kept almost constantly bare of stock, prices of course holding their own without difficulty, and closing firm at \$12.00 @ \$13.00 per M. Croton fronts are steady and in fair request. Philadelphia fronts are scarce and somewhat nominal, though it would be difficult to purchase any of the stock now here lower than \$50.00 per M. We notice shipments of 22,500 bricks to British North American colonies; 10,000 to British West Indies; and 600 to Brazil.

CEMENT.—Nearly if not quite all the companies are now receiving stock regularly, but as a rule they report the supply as inadequate to the demand, and complain of the almost utter impossibility of giving satisfaction to the numerous applicants for the various cargoes as they come in. Under this state of affairs prices naturally remain firm, and all wholesale contracts are still made at \$2.00 delivered here, and \$1.90 do, at Rondout. A great many positive orders are here from the eastward, and from along the Southern coast, and to these is attributed a large proportion of the activity, as city dealers though taking a

liberal quantity in the aggregate, are individually operating only for immediate wants, under the impression that a few weeks will bring about a reduction in cost.

DOORS, SASH AND BLINDS.—Nearly all manufacturers report a comparatively dull trade, with some little weakness and irregularity in values. As yet we make no alteration in quotations, but a revision of price lists to be ready in a few days will probably show a few modifications. From the suburban villages within a radius of fifty or sixty miles, there has been during the last two months a fair demand, but there is very little stock now moving in that direction, while, with few exceptions, city builders here as yet refuse to enter into large contracts. Southern orders increase a trifle, and a few lots have been taken for San Francisco, but the latter trade, as well as the call for export is largely monopolized by Boston dealers without any great complaint from our own manufacturers.

DRAIN AND SEWER PIPE.—There is a very fair though not active business doing on Southern and coastwise orders, and occasionally some little call for stock on near by and local account, but as a whole the market presents a dull tone. As far as the price lists go prices remain as before, though there is much irregularity as to actual cost, manufacturers allowing discounts varying from 10 per cent. to 30 per cent., according to the status of the buyer, the amount and kind of goods in treaty, mode and time of delivery, &c., &c., with a general tendency to be as liberal on terms as circumstances will admit of. This disposition is most marked among certain of the smaller producers, who have considerable money locked up in stock made during the winter, and are now quite anxious to realize. Some of the large sizes are rather scarce, but otherwise the assortment is good, and selections can, in most instances, be easily made. We find a number of dealers sanguine of doing a good summer trade, particularly with the neighboring cities, where it is thought a great amount of sewerage will be ordered as soon as the weather permits.

FOREIGN WOODS.—The wholesale market for all kinds continues very quiet, not altogether for want of a demand, as this has improved to some extent lately, but mainly for lack of goods of a desirable quality. There is some cedar here, but it is held at such extreme figures as to be virtually out of market, and one or two lots of mahogany recently received, have not been offered in a manner calculated to induce buyers to operate. Prices on the above goods are without quotable alteration, though they have a hardening tendency, particularly on selected parcels. Exporters are to be found looking around the market occasionally, though latterly their operations have been somewhat interfered with by the difficulty of negotiating exchange, and most of the demand has proceeded from the regular local and interior city dealers. Of rosewood the stocks are reduced to a very low figure, the demand is good, and prices have decidedly improved, in some cases on very choice wood equal to nearly one hundred per cent., the effect of which has been to cause the reimportation of some stock from Europe. At the jobbing yards there is a trifle more life, mainly with local manufacturers, and prices show the same fluctuations noticeable in the wholesale market. The exports are 221 logs mahogany, valued at \$2,400 and 403 logs Granadilla wood, valued at \$200, all to Liverpool. Receipts of 290 logs rosewood from Hamburg; two cords lignumvite from Los Palmas, Canary Islands; 315 logs mahogany from Minatitan; and 436 pcs. cedar from Havana.

FIRE BRICK.—There is no demand worth speaking of at the moment, and an excessively dull feeling pervades the market. In most cases stocks are liberal, and though not attempting to force business with unusual freedom, sellers are willing to entertain any reasonable bid. Prices are in consequence somewhat unsettled, and we modify wholesale rates to \$50@55 per M, delivered, for arch, wedge, key, &c., and \$40@45 do. do. for No. 2, split and soap, with very small lots occasionally higher.

GLASS.—The supply and assortment of foreign window glass continue quite large, the general demand moderate, and with some importers rather anxious to sell, it is not difficult for buyers to obtain easier terms than heretofore. Sizes ranging from 9, 10, 12 up to 16 inch, arc, as heretofore, in smallest proportion, but even of these, with the present inquiry, there is a comparatively good sized stock, while of the larger measurements there is simply an abundance. We quote nominally at 40@50 per cent. off list, for French, and English 35@40 per cent. off. Such demand as there is came from country dealers, with a few calls for Southern shipment. Last week's imports were 11,344 pkgs, value \$27,356; and 331 plate, value \$45,600.

LABOR.—The mechanics and laborers directly connected with the building interests have made no open demonstrations of discontent as yet, and contractors are enabled to push forward such work as they have in hand with considerable speed. The operative painters, however, are on a strike, and the result thus far has been so unsatisfactory, that the workmen's union have deemed it necessary to call a mass meeting for mutual admiration and condolence on the subject. The painters, about a year ago, were getting \$4.00 for ten hours, and struck for eight hours, agreeing to accept \$3.50, if that reduction in the number of working hours was allowed them. The employers consented, and as they might have anticipated, their workmen have now broken faith, and demand \$4.00 for eight hours. The varnishers and polishers earn from \$15.00 to \$20.00 per week, according to ability, and have decided to demand an increase of twenty per cent. The journeymen packers, and box-makers of Philadelphia, are on a strike, and the employers have sent on to this city for workmen to replace them. The Staten Island carpenters are again at work, but the builders and laborers are still idle, with no prospect of immediate settlement. The western people are evidently not anxious to be troubled with strikers, and a Chicago paper naively advises workmen who may leave New York during the coming season on account of the prevailing strikes, to avoid the large cities in the West, as they are already overcrowded with mechanics, and to give the preference to the country districts, where the demand for labor is abundant. A despatch

from Washington says: "The Chairman of the National Labor Union is disgusted with the action of the Senate on the eight hour law, and insists that President Grant and his heads of departments shall adopt the *workingmen's* construction of the law—namely, eight hours and no reduction of pay." Modest, is it not?

LATH.—Immediately following the publication of our last report a fair wind brought in several cargoes together, and caused an apparent undesirable accumulation of stock, infusing at the same time, an unsettled, nervous feeling into the market. Some holders were in considerable doubt as to what disposition to make of their supplies, while a few others, determined to realize immediately, forced business and sold out something like one million lath at \$2.75 per M. It was soon discovered, however, that a large proportion of the receipts had already been disposed of, and that a number of the vessels brought accounts of exhausted supplies at the mills, and those receivers who had refrained from selling out at the decline or had since obtained consignments were enabled to again realize at \$3.00 without much difficulty, though city dealers were not buyers, and the cargoes had to be sent frequently some little distance, to find a market. Most of the stock recently sold here has been made during the winter from small, light sticks cut near the mills, and with this now about exhausted, no free receipts are anticipated until the summer cutting commences. This appears to strengthen holders, and though none have as yet talked of piling out, few if any are willing to part with their lath below \$3.00 per M., and at this figure the market may be called steady with aggregate cargo sales for the week of 4,200,000 laths. From city dealers' hands the business is moderate, and stocks rather tend to increase than otherwise. Prices range at about \$3.12½@3.37½ per M.

LIME.—There has been some increase of the supply of Rockland owing to more favorable winds, but the majority of the cargoes were either sold previous to, or immediately after arrival, at full former rates, viz.: \$1.25 per bbl. for common, and \$2.00 do. for lump, and at these figures the market still continues very steady and uniform. City dealers are not very anxious buyers at present, having pretty well loaded up at current rates, which are generally considered low, and more the result of competition between manufacturers than from any actual depressing influences, though the consumptive trade this spring runs light, and this outlet not taking the usual quantity has undoubtedly helped keep figures down to their present level. Only a few cargoes are reported as en route, and not many likely to be sent forward immediately, as manufacturers, though burning along steady, and holding a fair amount of stock, begin to think it about time for some reaction, and hope by reducing the supply to increase the bids. Several lots have been sent to New Jersey, &c., and shipped to near-by country dealers. The Northern lime is also dull, and quite irregular, though judicious management will enable buyers to operate on very reasonable terms.

LUMBER.—At the various yards throughout the city business continues to be reported as moderate, and confined mainly to such small, odd parcels as the immediate and pressing wants of buyers require, though with very few exceptions dealers do not appear at all discouraged, and many think they have reason to congratulate themselves that matters are no worse. The opening of the river has checked the demand from country dealers to a great extent, as they are now preparing to make their purchases direct from Albany, though the high prices at the latter point engenders a feeling of caution, and a great many small orders are still filled here, the difference in cost being so small as to scarcely warrant the delay and trouble that would naturally ensue in bringing stock down the Hudson. From the cities of Philadelphia, Baltimore, etc., there has been considerable call during the last two months, but this has now nearly ceased, and shipments along the "Sound" are also smaller. From local manufacturers there is some demand, and occasionally a sale to builders, but the latter class of buyers, appears unwilling to enter into any large contracts for future delivery owing to the danger of interruption to building operations, by strikes of workmen. Prices remain quite firm on all grades in sympathy with the ruling state of affairs at the points of supply, but as most dealers, notwithstanding their reduced stocks, have enough to meet the present light wants, no advance has taken place. Clear pine is considered very desirable, and held with great confidence, as the advices from all the lumber regions indicate that a large percentage of the stock taken out last winter was of common quality. Black walnut continues scarce, in good demand, and values very firm. Several parcels of lumber have arrived from Albany since our last, mostly of goods stored there by our local dealers during the winter, or of lots purchased before the opening of navigation, though to complete cargoes, or to meet pressing exigencies, further small bills have been taken on New York account. The majority of our dealers, however, express a determination not to be forced into operating with any freedom at the rates asked "up the river," and from the present position of affairs New York is not likely to afford an outlet immediately for the stock now concentrated at Albany. In our wholesale market we find very few features of much interest since our last report was made up, the arrivals of unsold timber continuing small from all points, and dealers being unable to offer anything particularly desirable either on the spot or for early future delivery, though a great many contracts are closed for goods to come forward during the summer months. Exporters are still very indifferent operators, the reduced assortments here, and preparations for pretty free shipments from the vicinity of the mills making them cautious, though even those who are willing to purchase prefer to await more liberal arrivals, when some modification of terms is hoped for. Eastern spruce has continued to sell as fast as received, though this does not signify that the market has been active, as the arrivals were too small to admit of such a state of affairs. Prices remain firm and range from \$22 for very common to \$24 for prime, with some dealers confident they could realize \$25 for choice sizes had they the stock to offer. The prospect of getting more liberal supplies at an early day is improving, the Penobscot River

being open to Bangor, and some mills on the Maine coast having already commenced sawing. White pine in demand both for present and forward delivery, and the general tone of the market still very strong, with only common grades offered with any freedom, and not many lots of these. We quote at \$22.00@26.00 for inferior to fair box and shipping boards; \$27.00@31.00 for good do., and selections at higher figures. Piling continues in very fair demand, and most of the arrivals are easily disposed of at full former rates, particularly the long heavy sticks, of which a goodly number appear to be wanted this spring. We quote at 7c@8c per foot, according to quality. Pickets are rather dull, but still there is an occasional call, and with prospective small supplies, holders remain steady at \$9.00 for ¾-inch, though when buyers bid this rate they obtain plenty of stock, particularly such as has wintered over and is accumulating expenses of storage, strings breaking, &c. Yellow pine has been more plenty, the demand not over brisk, and the general market just a little dull and heavy, though not enough so to cause any actual reduction in values. Most of the local retail dealers have an ample stock, and unless cargoes are very desirable it requires considerable offering to effect sales. We quote at \$30.00@33.00 per M for timber; and \$33.00@36.00 do. for flooring boards. Black walnut logs quiet at about 7½c@8c per foot. Of Eastern shingles there have been a few arrivals, and one or two small parcels sold, but the demand is not active, and buyers ask easier terms. We quote at about \$5.00@5.50 for No. 1 pine, and \$6.00@6.50 for clear do. For Southern shingles there is scarcely any market at present, and values are depressed, dealers finding no consumptive demand, and being unwilling to purchase, owing to the large stock here and at the point of production. We quote nominally at \$16.00@18.00 for 7-inch and 2-foot cypress, and \$22.00@25.00 for same size juniper. Among the sales for the week we note about 500,000 feet Eastern spruce at \$23.00@24.00, part to arrive; 150,000 feet yellow pine at \$32.00; 170,000 pickets at \$8.50@9.00; 500 pieces piling, and 75,000 Eastern shingles on private terms; and by auction 100,000 feet black walnut at an average of \$30.00.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '69.
	Feet.	Feet.	Feet.

We also notice shipments of 2,301 pieces plank, and 59,300 staves to San Francisco; 2,850 staves to Rotterdam; 6,600 do. to Antwerp; 12,800 do. to London; 3,000 do. Glasgow; 6,400 to British North American colonies; 109,800 do. to Cadiz; 96,600 do. to Malaga; 7,200 do. to Bilbao; 18,000 do. to Oporto. The receipts reported include 655,000 feet lumber from Jacksonville; 304,733 do. from Savannah; 24,000 do. from St. Mary's, Ga.; 148,845 do. from Georgetown, S. C.; 18,000 do. from Little River, S. C.; 16,600 staves, and 33,400 shingles from Washington, N. C.; 47,600 pickets, 300,000 lath, and 327 spiles from St. John, N. B.; 457 spiles from Seely Basin, N. B.; ten cargoes lath, eight do. lumber, and seven do. spiles from the Maine ports.

The Albany market is reported by the *Argus* as follows:

The sales of the week have been unusually large for the season. The market is cleaned of all best 10-inch boards; also 10-inch pine plank, spruce boards and 1½ inch siding, common. All desirable lots of any kind are getting scarce, and old stock will about be gone when the Canal opens. The district has been shipping largely during the week. We quote good lumber \$60@65 per M.; 10-inch boards, each, 25@32c; 10-inch plank, each, 40@45c; 12-inch boards, 16 ft., 3 M., \$25@32c; 10-inch do. do., \$27@30; 1½ inch siding, common \$35@38; do. selected \$45@48; inch siding, common, \$35@37; do. selected \$44@47; Hemlock boards, each, 18c.; do. joist (all out) 19@22c.; Spruce boards 22c.; ¾ inch plank (all out) 26c.; 2 inch do. 37@40c.

A recent Chicago report says:

At the Lumber Exchange, there were several cargoes offered for sale, and the demand from city dealers was active, sales being readily effected at prices considerably higher than those obtained last fall. Good strips and boards were quotable at about \$16@18; common lumber at \$13@14.50. The demand for shingles was good, and \$3.50@3.75 was obtained. Lath sold without difficulty at about \$2.50.

Messrs. Woolner & Garrick of Chicago in their regular monthly circular, publish the following:

After a careful and much extended survey of the whole field, we are confident that the crop of logs secured in Michigan, Wisconsin, and Canada is considerably larger than anything heretofore obtained, and the same is a fact in regard to that large territory which seeks its outlet by

the way of the Mississippi river. We can scarcely call to our mind a single point at which there will be no increase, and many manufacturing establishments have enlarged their capacity for sawing. During the early part of the winter, and in fact as late as the middle of February, we have heard from many sources and read it in papers, that it would be next to an impossibility to get a sufficient quantity of logs to supply the pressing demand, and that the total result for the winter would not only fall far short of the anticipations of manufacturers, but they would show a reduction from last year's operations, variously estimated at 20 to 30 per cent.; these statements were made by parties immediately interested in spreading such a belief and general feeling, but was not generally accredited by well informed parties, and when we wrote in January, we entered our protest against the likelihood of such results. It is a fact that the early part of winter was extremely mild, and manufacturers had to contend with serious obstacles, for want of sufficient frost and snow, to operate to the usual advantage, but men, teams, provisions and stores were laid in at the different points, all of which had to be used, so the loss would have been too severe; for this reason we have never doubted that nearly the same quantity would be secured as in 1868. The quality of logs will, in many instances, prove inferior to the last, and this is brought about by the same cause above alluded to, the lack of a hard winter; loggers were obliged to curtail the limits of their operations, and remain close to the rivers, with short hauling, as it was, in many places, an impossibility to cross openings or sloughs; thus they were compelled to chop over ground previously culled of the best timber, and which, under other circumstances, would not have been touched. Real first-class logs are more an exception than a rule in many places from whence we generally look for the upper grades, and such logs have been secured only from pineries newly opened in the immediate vicinity of the banking ground. Since the latter part of February the winter has been remarkably good for loggers, and what was lost in the early part of the winter, has amply been made up since. The snow has been general throughout all pineries during the whole month of March, and instead of a very early opening of navigation, it looks more like winter now than we generally expect at this time. The complaint has been more on account of too much snow, which especially has been the case on the upper peninsula of Michigan, and along the coast of the Georgian Bay. The views as to the probable price of lumber for the coming season differ considerably; during January and February sellers had the advantage, and prices at Saginaw, and for delivery here, ranged higher than last year; most of the dry lumber held at Saginaw was disposed of upon favorable terms, and logs were sold at higher figures; the increase of the stock since then has made buyers more cautious. The proportion of first-class lumber will be smaller than usual, and the chances are that the article will command a price equal to former years; the demand from the East is very great, and contracts for upper grades are eagerly sought after; one conclusive proof of this is, that large quantities of this kind have been and are now being sold from our yards to go as far as Philadelphia and other points, so that the stock here is getting very light.

At the eastward trade is improving somewhat, and the general tone of the market is steady and uniform. A large proportion of the old stock has been worked off, but there is still some for which as yet there has been no means of transportation, and this will be shipped coastwise as soon as practicable. The Penobscot river is open, and navigation to Bangor uninterrupted, and the ice in the Kennebec has moved, though as yet, the river is not clear. A few steam mills are working, and at East Machias, Me., sawing has commenced by water-power. Freight-room has lately been a trifle scarce.

Boston prices are as follows: Clear pine \$80.00 for No. 1; \$70.00 for No. 2; \$60.00 for No. 3; \$50.00 for No. 4; and \$40.00 for No. 5. Coarse pine \$20.00 for No. 5; and \$14.00 for No. 6. Shipping boards \$22.00 for No. 5; and \$14.00 for No. 6. Hemlock boards \$15.00 for No. 1 & 2; and \$8.00 for No. 3 & 4 for refuse.

The Southern markets are without new features, the general demand continuing good, supplies rather small, and dealers quite firm at full former figures. About the ordinary average of coastwise orders were at hand and filled without much difficulty, owing to a good supply of cheap freight-room.

Savannah prices are as follows:
Timber \$8 @ \$12 per M. feet for mill timber, \$10 @ \$15 for small shipping do., and \$14 @ \$20 for large do. Lumber \$20 @ \$22 for ordinary sizes; \$25 @ \$30 for difficult sizes, and \$22 @ \$23 for flooring.

Mobile rates are as follows:
Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4 @ \$5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @ \$30.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00 @ \$38.00, will timber, \$6.00 @ \$6.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:
RIVER—Last sales:

Wide Boards.....	7 M ft.	\$12 00 @ 15 00
Scantling.....	7 M ft.	10 00 @ 12 00
Flooring.....	7 M ft.	15 00 @ 17 00
CITY STEAM SAWED—		
Ship Stuff, resawed.....	7 M ft.	23 00 @ 25 00
Rough Edge Plank.....	7 M ft.	21 00 @ 22 00
West India Cargoes, according to quality.....	7 M ft.	18 00 @ 20 00
Dressed Flooring, seasoned.....	7 M ft.	29 00 @ 35 00
Scantling and Boards, common.....	7 M ft.	15 00 @ 20 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.
Flooring, 1 1/2 x 4 to 6, \$15 to \$17 per M.
" dressed, 25 to 27 " "
Ceiling, 3/4, dressed, \$24 to \$25 per M.
Planks, 1 1/2 x 10 and upwards, \$15 to \$17 per M.
" 1 1/2 x 2 " 15 to 17 "
Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.
80 to 90, 13 to 15 cents per foot.
90 to 100 and upwards, 14 cents and upwards.

METALS.—The demand for copper sheathing is still rather moderate, buyers wanting only small lots for manufacturing purposes, though a few shipping orders have been filled. Prices remain steady and sellers are not pressing business. We quote at 33 @ 35c. for new, and 22 @ 33c. for old according to quantity; yellow metal 27c. Ingot copper is moderately active and steady at 23 1/2 @ 23 3/4. Scotch pig arrived with more freedom immediately following our last report, but such lots as had not already been disposed of were almost immediately taken by willing buyers at full prices, and the market is again nearly bare of stock. The feeling is very firm at the close, and for the choice brands higher figures are bid. We quote at \$40.00 @ \$44.00 per ton. American pig iron continues quite dull and somewhat nominal in the absence of any important sales, though holders generally are asking full former figures in view of the small accumulation of supplies. No contracts are making for future delivery. We quote at \$40.00 @ \$42.00 per ton; \$38.00 @ \$40.00 do. for No. 2; and \$37.00 @ \$38.00 do. for No. 3. Bar iron in invoices is without movement and nominal, while the trade from store continues to be of the most moderate description, buyers selecting only just such quantities as immediate wants require. We quote at \$55.00 @ \$57.50 per ton for common American and English bar; \$90.00 @ \$92.00 for refined do.; \$140.00 do. for Sweden, ordinary sizes; \$117.50 @ \$122.50 do. for ovals and half round; \$120.00 @ \$150.00 for scroll, and \$97.50 @ \$155.00 for rods, 3/4 @ 3-16 inch, all less 5 per cent. Common sheet iron has been very greatly neglected, the supplies more liberal, and some holders becoming anxious to realize; prices are reduced, closing unsettled. We quote at 5 1/2 @ 6 1/2 c. for singles, doubles, and trebles. Galvanized sheet is still quoted at 25 per cent. off list. Russian sheet is dull, and the supply exceeding the demand, extreme rates are modified, though at the concession holders are steady. We quote at 11 1/2 @ 12 1/2 c. gold, assorted sizes. Pig lead is lower, but the reduction has drawn out a better demand, and comparatively liberal sales were effected. We quote at 6 1/2 @ 6 3/4 c., and 6 3/4 c. for choice. Bar lead 10 1/2 c.; sheet and pipe 12c. less 6 per cent. to the trade. Pig tin is lower and holders more anxious to operate in view of the unfavorable condition of the foreign markets. There is not however, any undue pressure to realize, as the advance here was scarcely equal to that abroad, and the stocks are slowly decreasing. We quote in coin at 8 1/2 @ 8 3/4 c. for English; 8 3/4 @ 8 3/4 c. for Straits; and 8 3/4 c. for Banca. Tin plates have become very dull, even the usual jobbing sales showing a falling off, and prices are unsettled. Zinc dull at 12 1/2 @ 13c. from store. The latest reported importations are 63 tons iron hoop; 405 tons pig iron; 12,546 B. R. bars; 75 tons sheet iron; 2,600 iron tubes; 11,194 pigs of lead; 32,660 boxes tin; 2,450 slabs do.; and 92,355 lbs. zinc.

NAILS.—Cut nails are quoted at former figures, but dealers differ as to the tone of the market, some claiming that further concessions would be necessary in order to sell easily, while others report that current rates are obtained without difficulty, and an advance not improbable at an early day. On local and country orders there is not much stock moving, but some shipping going on, with indications that exporters increase their operations on a very slight modification from current values. We quote at 4 1/2 @ 4 3/4 c., according to quantity. Clinch moderately active at former rates. We quote at 6 1/2 @ 7 c. Finishing

nails are in moderate demand, at about 5 1/2 @ 5 3/4 c. for 6d., 8d., 10d., and 12d.; 5 1/2 @ 5 3/4 c. for 6d., and 5 1/2 @ 5 3/4 c. for 4d. Other kinds steady at 18c. for zinc; 27c. for yellow metal; 40 @ 46c. for copper. The exports are 882 packages, valued at \$1,911; against 527 packages, valued at \$3,242, same time last week. Shipments to San Francisco 2,838 packages.

PAINTS AND OILS.—Nearly all kinds of paints are selling to some extent, and though the demand is not unusually active, the movement is liberal enough to give the market an air of considerable life, and impart a generally healthy tone to trade. In some cases dealers report a scarcity of desirable goods, but the depletion of stocks is not large enough as yet to cause any alarm, particularly as prospective importations are fair. Prices, both wholesale and retail are sustained and close firm. Domestic glue is steady and fairly active, but foreign is quite irregular and rather depressed in view of an accumulation of stock from recent arrivals. Linseed oil remains very quiet, and the market in the same unsettled condition noted last week. Crushers ask former rates, and refuse to sell unless they get them, but from outsiders the offerings are comparatively liberal, and at 1 @ 2c. below the regular market figures, or about 99c @ \$1.00 per gallon. Crushers quote at \$1.00 @ \$1.03 in casks; and \$1.03 @ \$1.05 in bbls., with job lots in proportion. Exports 716 pkgs. paint, valued at \$3,388; 260 gallons linseed oil, valued at \$309; and 100 bbls. oxide zinc, valued at \$1,600.

PITCH.—For strictly prime parcels the market continues quite steady and uniform at full former rates, but recent slightly increased arrivals have contained considerable undesirable stock, and receivers offering quite freely, rates were irregular, though the advantage lay largely with the buyer. The export demand is not active, but all things considered is fair, while on home account there has been a slight increase in the purchases, the general market closing steady. We quote at \$2.75 @ \$3.00 for city; \$2.50 @ \$3.25 for Southern; \$3.37 1/2 @ \$3.50 for fancy grades do.; and retail parcels in proportion. The receipts for the week are 233 bbls. Exports for the week 310 bbls. Since January 1st, 1,604 bbls.; and for same period last year, 1,063 bbls.

PLASTER PARIS.—For lump the inquiry begins gradually to improve, and manufacturers evince some desire to make the necessary arrangements to obtain a fresh supply. Several contracts have of late been made for stock, for spring and summer delivery, at prices not made public, though understood to be in the vicinity of \$4.50 @ \$4.62 1/2 per ton for white. The market, however, is less active than last year, owing in part to numerous direct importations by manufacturers. Calced fairly active and firm, at former figures. We note the arrival of 400 tons lump, (part sold at \$4.75), and shipments to San Francisco of 520 bbls.

PLUMBERS' MATERIALS.—Some new price lists have appeared, but the alterations are few and unimportant, confined mainly to one or two styles of brass cocks, copper ware, etc. The leading manufacturers retain former lists, and alter discounts to a moderate extent, mainly in sellers' favor. At the moment the general trade is quite dull, very few deliveries being made on city account, and the country and shipping demand running small. The coalition of manufacturers of both iron and lead pipe continues without interruption, and prices are steady at 20c. per cent. off for the former, and 12c. per lb. less, 6 per cent. to the trade for the latter. Solder is firm and in fair demand at 23c. for No. 2; and 25c. for No. 1. There has been introduced this spring a valuable improvement in water-closets, known as Carr's No. 2 A, and Cistern Pan Water-Closet. It is so arranged with removable section, that the pan can be taken out and replaced without disturbing either seat, bowl, or pipes. The advantage of this will at once be evident to plumbers.

SPIRITS TURPENTINE.—The export and consumptive demands have been moderate throughout the week, but speculative movements have increased the business, and at times the market presented quite an animated appearance. Prices have fluctuated considerably at one time running down fully one cent below our last, with a few holders apparently anxious to realize at 49c., but from this figure there was some recovery, and as we write the feeling is a trifle buoyant. Our jobbers do not hold very large stocks, but they refuse to operate beyond immediate wants, considering the supply in first hands large enough to warrant the hope of a concession ere long. The receipts equal the actual sales, and the accumulation remains about as before. We quote at 49 1/2 @ 50 1/2 c. for merchantable and shipping order; 50 1/2 @ 51c. for New York bbls.; and 51 @ 52c. for small parcels, with retail lots from store in proportion. Receipts for week 986 bbls. Exports for week 50 bbls.; since January 1st 1,008 bbls., and for same period last year 3,699 bbls.

STONE.—Freestone, and brown stone, are comparatively dull as yet, there being nothing to operate with, except such small lots as come through by rail. Quarrying will commence this week. The blue stone trade is very active indeed, and the full opening rates of the season are still current. Supplies are coming forward with freedom, but they do not as yet meet all wants, which are mainly local, the export not having commenced, though there is a fair amount moving coastwise.

TAR.—Continued large arrivals and free offerings from the pier have given buyers still greater advantage, and we note a further decline of about 25c. per bbl., most decided on the common grades. The concession, however, has enabled shippers to fill a few orders, and we learn of one or two large sales on European account, though it is noticeable that as yet there is almost an entire absence of speculative feeling, and local dealers take nothing unless offered very cheap, the rapidly accumulating stock giving hopes of a still greater falling off in values. We quote at \$2.50 @ \$2.75 per bbl. for North County as it runs; \$3.00 @ \$3.50 for Wilmington do.; \$3.50 @ \$3.75 for rope; and occasionally \$4.00 for something very choice in a small way. Receipts for week 2,923 bbls. Exports for week 255 bbls.; since January 1st 8,519 bbls., and for same period last year 1,522 bbls.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. III. No. 6.]

NEW YORK, SATURDAY, APRIL 24, 1869.

[WHOLE No. 58.]

PUBLISHED WEEKLY BY

C. W. SWEET & CO.,

Six months, payable in advance\$3 00
One year in advance..... 6 00

IN the Board of Alderman on Monday, a resolution was offered, authorizing the Street Commissioner to remove the gas lamps on the easterly side of Park Row, from the lower end of the Park to Centre street, and place them inside the railing. Their present close proximity to the curb stone, renders it dangerous to the life and limb, particularly of passengers who are daily in the habit of getting on and off the street-cars at this point.

THE quickening step and anxious countenance evinced as an upward look is taken by a passer-by when moving under the vast blocks of granite or iron, which are being raised for building purposes, has suggested the idea, that something should be done for the protection of those who are obliged to pass these dangerous places. Mr. John W. Kennion, of this city, has invented a movable hoist and screw, which seems to be admirably adapted for the purpose. We understand Mr. Macgregor has given a very favorable opinion of it.

OUR remarks in last week's RECORD, in regard to a deed having been handed in at the Register's office and which did not contain the name of either grantor, or grantee, referred to a deed sent to that office in February last, and which was immediately returned to the Lawyer, and of course was not placed on record until the omission was made good.

OFFICIAL RECORD OF MORTGAGES —NEW YORK COUNTY.

In the arrangement of the following mortgages, where
no description of the property follows the names, it is to
be understood that there is a corresponding transfer under
the same or nearly the same date in our columns, and the
amount set down is what remains on bond and mortgage.

7TH AVENUE.—No. 359 rear; one 2 two story milk depot of brick; 37.2x92; S. W. Canfield, owner; W. F. Edmundstone, builder.

7TH AVENUE.—W. s., 30 n. 58th st.; one 1 story brick saloon, attached to Central Park Garden; Goesche & Thomas, owners; M. McDermott, architect and builder.

7TH AVENUE.—Nos. 117 and 119; one 1 story brick factory; 45x95; P. J. Hardy, owner; Louis Burger, architect.

10TH AVENUE.—E. s., 50 s. 39th st.; one 1 story store; 25x25; Jas. Scallan, owner; Jas. McNally, architect; H. Kuchler, builder.

3D AVENUE.—Nos. 512, 514, 516, 518, 520; five 5 story brick stores and dwellings; 23x62; Andrew Kennedy & Sons, owners and builders; J. G. Prague, architect.

3D AV.—W. s., 50 s. 113th st.; four 4 story brick stores and second-dwellings, 18.9x50; Jas S. Dale, owner; O. S. Schoonmaker, architect.

WHITE ST.—No. 62; one 5 story and basement first-class store of brick, with massive iron front, 23x103; Estate of D. C. Williams, owner; Wm. W. Gardiner, architect; Alexander M. Ross, builder. This store will present a most attractive appearance by its elegant and commanding front.

WHITE ST.—No. 60; one 5 story and basement, first-class store of brick, with iron front, 23x103; Estate of Jasper Grosvenor, owner; William W. Gardiner, architect; Alexander M. Ross, builder. This store will be similar in all respects to No. 62.

WHITE ST.—Nos. 64 and 66; one 5 story and basement brick double store, with iron front, 46.3x103; Estate of Jasper Grosvenor, owner; William W. Gardiner, architect; Alexander M. Ross, builder. This store will be similar to Nos. 60 and 62.

ALL ABOUT STREETS.

BELOW we give in a condensed and convenient shape, a list of all bills involving an appropriation of money, and relating to the streets, introduced and now pending before the Common Council of the City of New York. This will be found invaluable to property owners and contractors.

BELGIAN PAVEMENT.

STREET OPENINGS.

104th st., 5th av. to Harlem River.

EXTENSIONS.

Varick st., extending in a straight line to its intersection with West Broadway.

MARKET REVIEW.

NEARLY all articles of merchandise directly connected with the building interest are selling to an unusually moderate extent for consumption, and the principal is confined to the purchases of jobbers, stocking up for the summer trade. Prices with few exceptions are unsettled, though the tendency appears rather in buyers' favor. The stagnation is attributed almost entirely to the agitation of the labor question by discontented mechanics, as contractors and builders are unwilling to commence operations until they can ascertain with some degree of certainty whether they or their workmen are likely to reap the bulk of the profits.

BRICKS.—The number of arrivals from "up-river" have almost daily fallen off since our last, and the stocks here have decreased in consequence, and though the actual demand has not in reality been as brisk as heretofore, the sales as compared with the supply give the market an appearance of considerable activity. Of really prime hard brick there is only a limited amount in either wholesale or retail dealers' hands, and with no possibility of any quantity of sufficient magnitude to meet even the prevailing moderate call coming forward before free arrivals of new manufacture commence, prices rule very firm, and have even in some instances sold at a slight improvement. We still quote, however, at about \$16.00@16.50 per M. as the cargo rate, with jobbing parcels in proportion. The great bulk of the stock, however, is made up of odds and ends, including medium, common, and inferior quality, and selling at from \$15.50 down to \$14.00 and even lower, dealers not operating with any regularity, but generally making the best bargains possible in order to work off undesirable goods before the opening of the new season. This affects the market for pale brick to some extent, and buyers have evinced less anxiety, though when purchases are made about former rates are given, and we find it unnecessary to alter quotations. The business doing is still mainly of a local character, though a few out-of-town dealers occasionally find themselves obliged to take a few small parcels to meet current wants. Ruling prices, with the market in its present position, can probably be sustained until the North River yards begin to send forward their new production, and then we may look for a decline, the rapidity of which will, of course, depend much upon the freedom with which stock arrives. It is very generally conceded, however, that the average rate during the present season will be lower than last year, many indications pointing to a consumption not exceeding that of 1898, while the production will undoubtedly be materially increased. It is estimated that fully fifty new brick yards are going into operation this spring, and as they will probably commence on a basis of late high prices, it is feared that many will be likely to find the business decidedly unprofitable. From the New Jersey yards the first arrivals are reported, but nothing can be looked for from the Hudson quite yet. We understand, however, that fires have been lighted at some points, and that manufacturing operations will soon become quite general. Croton fronts are in light demand at the moment, but there is very little stock to be influenced thereby and dealers are unconcerned. We learn that preparations are making for a liberal production, and stock will be plenty. We modify quotations to conform to fixed cargo rates, and now quote at \$20.00 per M. for brown; \$21.00 do. for dark; and \$22.00 do. for red. Philadelphia fronts are quiet, but the small supply gives holders an advantage, and the general asking rate is still about \$50.00 per M.

CEMENT.—The demand for Rosendale is active from all sources, and the market continues strong and uniform at full former rates. Local dealers have lately come forward with more freedom, and are piling up a very fair supply in view of early future wants, as the large number of shipping orders here makes it not improbable that stock will be comparatively scarce for a couple of months to come, and prices will undergo change until manufacturers begin to experience difficulty in disposing of their production. A great many cargoes have of late gone south and east, mostly loaded at Rondout, at \$1.90 delivered, but small parcels are bought here for shipment at \$2.00 per bbl., and the same rate is paid by the regular trade. The demand from consumers is moderate, and mainly for very small parcels. We note exports of 350 bbls. to New Granada.

FOREIGN WOODS.—There is some little trade doing, but not enough to excite more than ordinary interest, and the market is without new features of importance. One or two odd lots of soak have arrived, but the amount coming forward is not by any means liberal, and supplies in most cases are decreasing somewhat. This is particularly the case with prime to choice selections of mahogany and all grades of rosewood, and on the latter prices continue to show a strong and slightly buoyant tone, though the figures now current have a tendency to render buyers very cautious. Very choice cedar is also doing pretty well for certain manufacturing purposes, and several calls have been made from boat builders, &c., but cigar box makers as a rule cannot afford to pay the extreme figures still insisted upon. The demand is mainly local, though foreign shippers have operated to a moderate extent. The exports are 668 logs cedar valued at \$5,392 to Rotterdam. The receipts are as follow: from Rio Janeiro 187 logs rosewood; from Havre 8,716 pees. Sandal wood; from Asira, St. Domingo, 2,090 pees. lignum-vite, 144 logs and 2 crotches mahogany; from Havana 31 logs cedar; and from Bermuda 4,000 pees. lumber.

GLASS.—All kinds of foreign window glass meet with a moderate uncertain demand, and the tone of the market is

quite unsettled. The large and undesirable styles are offered without hesitation on easier terms, but on the small grades importers still desire to realize the extreme figures of last season, and have not as yet made up their minds fully to accept the concessions necessary in order to draw buyers out. The trade doing such as it is, is in the main with local and near-by country retailers, with now and then a small order on Western and Southern account, and very rarely an export inquiry. We quote at about 40¢.50 per cent. off on French, and 35¢.40 per cent. on English. American dull and nominally 50 per cent. off list. Last week importations were 10,514 pkgs. glass, valued at \$24,626; and 198 pkgs., valued at \$25,226.

HAIR.—The inquiry from the California coast and from the Southern States may be called fair; in fact, if anything, is a trifle more active, but on local accounts there is scarcely anything going from dealers' hands, and as a whole the market is extremely dull. This, in connection with constant addition to the already pretty liberal accumulation of supplies, has had a depressing effect, and all styles are again lower still, closing unsettled, though with the tendency, in buyers' favor. The supply of goat hair predominates at the moment, and on this is probably the greatest depression, though their is a large amount of cattle hair in course of preparation which will be thrown upon the market as soon as properly dried, and undoubtedly cause a still further decline. Under the circumstances we can only quote nominally at about 38¢.40c. per bushel for cattle; 50c. do. for mixed; and 56c. do. for goat.

HARDWARE.—The amount of business doing in the various styles of builders' hardware is very moderate, and dealers generally appear dissatisfied with the result of trade thus far this spring. Full former prices, however, are in most cases asked, and there is very little pressure to realize. The supplies and assortments in the meantime are slowly increasing and selections can now be made without much difficulty.

LABOR.—A sparsely attended and lukewarm "mass" (?) meeting of workmen was held at the close of last week, to give aid and comfort to the painters on strike for eight hours, and at which the usual assortment of trashy and unmeaning resolutions was passed, the speakers following with the average amount of steam and buncombe, pledging themselves and the societies they represented, to do almost any thing except the adoption of such a course as would be likely to bring about an amicable adjustment of the difficulties between employers and employees. The painters, however, did not it appears place implicit confidence in the promises made, and have wisely ended the strike by going back to ten hours, and \$4.50 per day, with eight hours on Saturday. Let all other mechanics who are preparing to insist upon the eight-hour system take warning by the result of the movement above referred to, and our word for it they will find themselves much richer in pocket at the end of the season, and prevent a deal of hard feeling between themselves and the bosses. At Albany the painters are striking for \$3.50 per day, previous wages \$3.00; and the carpenters for \$4.00, formerly receiving \$3.50. The Newark carpenters have been partially successful in a strike for \$3.75 per day, an increase of 50c., and the painters in the same city, now getting \$3.50, want \$4.00. At Orange, N. J., a demand of the carpenters for \$4.00 per day has thus far met with no success.

LATH.—The market has been very active, but values uncertain from day to day according to the necessities of buyers and sellers. Early in the week a large fleet came in and overloaded receivers, causing another break in prices to \$2.75 per M. From this there was a partial recovery to \$3.00, followed by a reaction to \$2.75@2.87½, and finally as we write, the views of all wholesale dealers here again crept up to \$3.00 with indifferent buyers at \$2.75, and those compelled to operate taking rather small lots at \$2.87½@3.00 per M. City jobbers appear to have nearly all obtained a sufficient supply for immediate wants, and a large proportion of the cargo sales are now made to out-of-town buyers. Sawing has commenced in some sections, but we can hardly look for any new stock for two or three weeks yet. Once more it is claimed that nearly all the lath-laden vessels have arrived, and that the market will now rule firm, but anything like a decided advance can hardly be looked for, as it would entirely shut off the inquiry, and made it necessary for receivers to pile out stock. The cargo sales amount to about 5,000,000 spruce lath at \$2.75@3.00 per M., on the spot and to arrive. The consumptive demand from yard is light, and mostly for small job lots, prices ranging at about the usual average above the wholesale rate.

LIME.—About the time we went to press last week the arrivals of Rockland lime were pretty free, and for a few days the supply exceeded the demand. Everything, however, was subsequently disposed of, the receipts have fallen off, and no unsold stock now remains afloat at this port at least, and we are informed that very little is en route. Prices have undergone no variation, and we still quote at \$1.25 per bbl. for common, and \$2.00 do. for lump, with dealers generally looking for an early advance, nearly all agreeing that the next turn will be upward. Jobbers and retailers in this city and vicinity have all obtained a pretty good supply of stock this spring at comparatively low figures, owing to the competition between manufacturers, and as soon as the consumptive trade (now dull) fairly sets in there will undoubtedly be a strong effort made to advance the market. It is reported that a number of kilns have suspended operations for the present, awaiting a margin for profit on their production. The Northern limes are comparatively dull, but pretty firmly held on a basis of the above quotations, and by good management the agents have succeeded in working off the greater portion of the stock held here through the Albany and Troy. Dealers express some fears that this wintered stock may be air-sick, and refuse to handle it freely, but as yet we learn of no serious complaints on the subject. The suburban demand for lime is fair, and a number of cargoes have been sent to near-by cities and villages.

LUMBER.—There has nothing new developed itself in the retail market since our last review, except probably

a little more activity in certain quarters, where dealers have been enabled to get in a supply of desirable stock from up the river, though even this increase of life was mainly in deliveries on back orders, the fresh demand showing but little animation. The principal movement at present appears to be in the coarse grades, and as the stock here is pretty low, and no accumulation at any point to draw from until the canals open, prices rule quite firm, and in some cases have a slightly upward tendency. Clear pine, however, though attracting just now only a moderate share of attention, is looked upon as very desirable stock, it being generally conceded that the proportion produced this year at all points will show a considerable falling off from last season, and dealers holding any are content to allow it to lie quiet and await an improving demand. Several barge loads of stock have been received from Albany, mostly made up of odd lots required by dealers for a specific purpose, but the bulk of the shipments from that point are not coming to this city by any means, their destination being to various towns and villages throughout the country, to the eastward in particular. In the Albany lumber district about everything at all desirable has been sold out, or where there are any parcels left they are held at such high figures as to preclude the possibility of purchases being made for ordinary yard use, and New Yorkers seem they can with present stocks, until the canals open and larger supplies afford them an opportunity to buy on more reasonable terms. A few Southern buyers have also found it impossible to operate to any advantage up the river, and have again made their appearance in our market, though naturally they call for nothing exceeding pressing exigencies. On black walnut prices remain very strong notwithstanding a lull in the demand at the moment, and leading dealers think that present appearances indicate a further advance when the season fully opens. No one ventures to predict, however, the actual amount of improvement, owing to the very unsettled condition of affairs at the West, the manufacturers there being just a little nonplussed, and having their ideas greatly excited by the extravagant bids of a few "down East" buyers, who are evidently determined to obtain stock at any price. After this not over heavy demand has been supplied, however, trade will undoubtedly settle down into a more regular channel, and then values can be calculated upon with some degree of accuracy. With larger quantities of stock coming in coastwise, our wholesale market has shown more animation during the week ending with this report, prices undergoing no very decided alterations, though such few changes as did occur were mostly in buyers' favor. For regular standard goods the demand has continued very brisk, and sellers experienced no difficulty whatever in disposing of such lots as they had to offer, but styles which only sell well when there is an active and continuous consumptive inquiry have accumulated to some extent, and are now held to await a market. Local jobbing dealers have been the principal buyers, and a number appear now to have supplied their immediate wants, though as compared with the arrivals the outlet for good stock is still large. Exporters are buying moderately, but begin to look around in view of future wants, and many report considerable difficulty in finding good dry lumber either here or at the mills. Eastern spruce immediately following our last report came forward quite freely, and for a day or two the accumulation was pretty large, but a great many cargoes had been previously disposed of, and those on sale soon found buyers, leaving the market again bare of stock. The general demand, though not as active as a week or two ago, is still very fair and the seller retains the advantage, prices ruling steady and uniform at \$22.00@24.00 per M feet. The number of cargoes now afloat is said to be small, but will be increased as soon as shipments can be made from the sources of supply recently opened by the disappearance of the ice from rivers along the Maine coast. White pine remains firm on all grades, and is as active as the supplies will admit of local manufacturers, &c., being the most liberal operators, though we hear of one or two parcels taken by exporters to complete cargoes. For future delivery further contracts have been made, in all cases at an advance over last year. We quote at \$22.00@26.00 per M for inferior to fair box and shipping boards, \$27.00@31.00 for good do. and selections at higher figures. Pilings was in fair demand for a short time after our last, but the arrival of cargo upon cargo so greatly increased the supply that buyers soon became loaded up and receivers now find themselves with considerable unsold stock on hand and no outlet. Prices are less firm and at the close rather unsettled at say about 7½¢. per foot, 7½¢ for choice, and now and then an extra heavy and long stick reaching six pickets are dull and more plenty, causing some weakness in prices, particularly on small parcels coming in to fill up cargoes, and sales range anywhere from \$8.00 up to \$9.00 per M, according to circumstances though in one or two instances we hear of even higher figures paid mainly by out of town buyers. Yellow pine has been plenty, a great many lots coming in on contract, but the few that were offered met with only a light demand and the market appears to be in dull and rather unsatisfactory condition just at the moment. Still, with no great pressure to realize, prices are pretty well sustained and we still quote at \$30.00@33.00 per M for timber, and \$33.00@35.00 do. for flooring boards. Black walnut logs dull and nominal at 7½¢.@8c. per foot. Eastern shingles gave been more active, but at inside rates, and we do not quote at above \$5.00 for No. 1, and \$6.00 for clear. Southern shingles neglected, the supply large, and prices nominal. We notice that the Secretary of the Treasury has received a petition from prominent citizens of Western New York, asking the department to recognize saw-logs and other species of round timber as "articles raw or unmanufactured, not provided for, 10 per cent." as set forth in section twenty-four of the act approved March 21, 1861, instead of 20 per cent., as heretofore collected.

Sales during the week of 550,000 feet Eastern spruce on spot and to arrive at \$23.00@24.00; a few parcels at \$25.00 per M; 200,000 feet yellow pine at \$32.00@34.00 do.; 65,000@75,000 pickets at \$8.50 and \$9.00; 1,700 pieces piling at 7c.@7½¢; 500,000 Eastern No. 1 pine shingles at \$5.00, and 150,000 cypress shingles on private terms.

The exports of lumber have been as follows:

We also notice shipments of 169 logs black walnut valued at \$5,760 to Hamburg; 11 masts, value \$1,532, to Canary Islands; 192 spars, value \$714, to do.; 60 bundles shingles, \$87, to British Honduras; 4 spars, \$600, to British North American Colonies; 6 do., \$51, to British West Indies; 3 do., \$52, to British Honduras; 3,000 feet mouldings to British West Indies; 20,000 shingles, \$130, to New Granada; 1,057 pcs. plank, 63 pcs. lumber, and 111,196 staves to San Francisco; 6,480 staves to Hamburg; 9,900 to Antwerp; 14,400 do. to Rotterdam; 10,500 do. to London; 3,600 do. to Glasgow; 4,800 do. to Seville; 6,000 do. to Vigo; 15,600 do. to Lisbon; 8,600 do. to Venezuela; and 8,400 do. to Chili. The receipts reported are as follows: From Savannah 230,000 feet lumber; from Brunswick, Ga., 74,000 feet do., from Pensacola 220,000 feet do.; from Charleston 60,114 do.; from Washington, N. C., 150,000 shingles; from St. John, N. B., 369 pcs. piling, 52 sleepers, and 150 knees; from St. George, N. B., 1,050 pcs. piling, and 134,000 feet timber; from Musquash, N. B., 855 pcs. piling, and from the Maine coast twelve cargoes lumber, two do. lath, and three do. piling.

There is not a very heavy trade doing at the Western markets in stock for immediate removal, but a brisk inquiry from Eastern buyers, for deliveries a few weeks hence, and all accounts agree that pretty full prices are being obtained, particularly on clear lumber. The prospects for an early opening of navigation are encouraging, and shipments will undoubtedly take place at an early day. There is considerable difference of opinion as to the probable supplies during the coming season. Last week we published an extract from the well-known circular of Messrs. Woolner & Garriek, of Chicago, in which not only a full crop of logs is predicted, but in some instances an increase, and below we give an article from the *Saginaw Enterprise*, taking rather opposite grounds. As both the above sources of information are deemed first-class authority, it is difficult to arrive at any definite conclusion, and we await further developments with interest. The *Enterprise* says:

"The lumbering season has now closed in the woods, and it will be no doubt interesting to the public to learn the extent of the operations, and the prospect of getting the logs to market. Last fall was very favorable for making roads and skidding logs, and lumbermen went into the woods much earlier than usual in consequence, and made preparations for getting out a larger amount of stock than on any previous year. The fine fall weather, the number of men employed, the early start into the woods, and the indications of an early winter, all favored the idea that our market would be overstocked with logs this spring. Winter did certainly set in very early; that is, we had a fall of snow in December that fell on unfrozen ground, and which only lasted a very short time. All through January we had springlike weather, which had the effect of materially checking operations. Many lumbermen had to suspend altogether, especially such as had long hauling, and those who had the good fortune to have a little short hauling gave up cutting and skidding at any great distance from the rivers from the fear that the season would be so short as to render it impossible for them to bank what logs they had already cut. February opened with no better prospects of snow than in January, and the weather kept dry and warm until about the 14th, when abundant snow fell, but there being no frost in the ground made it a very slow and arduous task of getting logs from the skidways to the main roads. Notwithstanding this, a very fair amount of logs was banked in February. March is the month when lumbermen think of winding up, and taking advantage of their shortest hauling which they have reserved, as snow cannot be, at this season depended on. Instead, however, of short hauling in March, there had been such an amount of logs cut on long hauling that was not got in before March, that up to the very day of breaking up they had hardly succeeded in getting them hauled; consequently the amount of stock got in in March is not so great as might be expected. On the whole, the stock of logs got in on the rivers, creeks, and their tributaries in the Saginaw Valley, will not exceed that of last year, which amounted to about 450 million.

"The prospects of getting down the stock was favorable till the first of this month, but the soft, rainy weather of the latter part of March has been succeeded by dry, cold weather, which has, till now, prevented the railways being broken in on most of the northern streams; the ice even has not yet gone out, and the water is falling rapidly. If this weather continues for a few days longer, the water at the headwaters of our streams and tributaries will be so low as to render log-running impossible. To-day, on most of the creeks, lumbermen have given up all hopes for the

present of being able to run their logs on the headwaters, tributaries and creeks, where log running is at the best of times doubtful. There are this year over 100 million feet of logs banked, which it will be impossible to get out unless we get a perfect deluge of rain; and provided any considerable amount of this stock should be hung up, as there is every reason to expect, the stock of logs in the market this spring will fall very far short of that of last year; and should every single log now banked find its way to market, we will not have any excess over last year's stock; and if lumbermen have not got out the amount of stock they anticipated, they have at least the prospects of disposing of what they have got out at remunerative figures. The demand is now active and the market healthy, and a large amount of lumber has already been contracted for by Eastern parties.

"The above statement represents the views of all our leading lumbermen. In regard to dry lumber on the river, there is but very little, if any, unsold. The market has been made, and made, too, at remunerative figures. Rafting will probably commence next week, as the booms are filling up, and many of the mills will also be in operation at the same time.

From the Eastern and Northern markets, the reports are all quite strong, and active preparations are making to commence operations at the mills as soon as practicable. At many points the streams have commenced rising, and, as was to be anticipated, from the immense quantity of suow on the ground, the freshet has been very heavy, carrying away dams, &c., and doing considerable damage, but we have not heard whether logs have commenced running in any considerable quantities. From coastwise ports, opened early in the season, there is nothing desirable now to come forward, but fresh sources of supply have lately been developed by the disappearance of the ice from all the principal rivers, and cargoes will be made up for shipment in this direction as speedily as possible.

Boston prices are as follows: Clear pine \$50.00 for No. 1; \$70.00 for No. 2; \$60.00 for No. 3; \$40.00 for No. 4; and \$30.00 for No. 5. Coarse pine \$20.00 for No. 5; and \$14.00 for No. 6 for refuse. Shipping boards \$22.00 for No. 5; Spruce \$15.00 for No. 1 & 2; and \$9.00 for No. 3 for refuse. Hemlock boards \$15.00 for No. 1 & 2; and \$8.00 for No. 3 for refuse.

The Southern advices report a continued firm and uniform market for most grades, but otherwise contain no features worthy of special notice. Labor was a trifle scarce, but no serious difficulties had as yet arisen from this fact.

Savannah prices are as follows:

Timber \$5 @ \$12 per M. feet for mill timber, \$10 @ \$15 for small shipping do., and \$14 @ \$20 for large do. Lumber \$20 @ \$22 for ordinary sizes; \$25 @ \$30 for difficult sizes, and \$22 @ \$23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$20; cypress, \$25 per M.; shingles, cypress split, \$4 @ \$5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @ \$30.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$25.00 @ \$35.00, mill lumber, \$6.00 @ \$8.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:

River—Last sales:					
Wide Boards.....	P M ft.	\$12 00	@	15 00	
Scantling.....	P M ft.	10 00	@	12 00	
Flooring.....	P M ft.	15 00	@	17 00	
CITY STEAM SAWED—					
Ship Stuck, reasawed.....	P M ft.	23 00	@	25 00	
Rough Edge Plank.....	P M ft.	21 00	@	22 00	
West India Cargoes, according to quality.....	P M ft.	15 00	@	20 00	
Dressed Flooring, seasoned.....	P M ft.	20 00	@	35 00	
Scantling and Boards, common.....	P M ft.	15 00	@	20 00	

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.
Flooring, 1½x4 to 6, \$15 to \$17 per M.
" dressed, 25 to 27 " "
Ceiling, ¾, dressed, \$24 to \$25 per M.
Planks, 1½x10 and upwards, \$15 to \$17 per M.
1½x2 " 15 to 17 "
Scantling, 2x4 to 8x10, 16 to 80 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.
80 to 90, 13 to 15 cents per foot.
90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing has met with an improved inquiry, both on local consumptive account and to fill country orders, imparting a firmer and more uniform tone to the market, though on the general range of values there is no alteration to advise. The supplies are fair and equal to any ordinary call. We quote at 33¢ @ 35¢ for new, and 22¢ @ 23¢ for old, according to quantity. Yellow metal firm at 21¢. Ingot copper has been in better demand, and is rather higher, closing firm at 23¢ @ 24¢. Scotch pig iron could be sold to a very considerable extent, but dealers have no stock to supply the prevailing demand, and business remains quiet. Buyers, as a rule, are unwilling to contract for parcels to arrive, preferring to await the offerings of goods on the spot, when they can regulate their purchases by their necessities. Prices naturally are firm, and may safely be advanced \$1.00 per ton, say about \$41.00 @ \$45.00. American pig iron shows no change in value worthy of notice. The supplies now here and coming forward are not large, but are fully equal to, if not in excess of, the demand, and sellers gain little advantage. We continue to quote at \$40.00 @ \$42.00 per ton for No. 1; \$35.00 @ \$40.00 do. for No. 2; and \$37.00 @ \$38.00 do. for No. 3. Bar iron from store is extremely dull and prices unsettled, though no important changes are made as yet. We quote at \$85.00 @ \$87.50 per ton for common American and English bar; \$90.00 @ \$92.00 for refined do.; \$140.00 do. for Swedes, ordinary sizes; \$117.50 @ \$122.50 do. for ovals and half round; \$126.00 @ \$150.00 for scroll, and \$97.50 @ \$135.00 for rods, 3-8 to 3-16 inch, all less 5 per cent. Common sheet iron remains quiet, the reduction in values noted last week failing to draw out buyers, but holders are offering with less freedom, and the market may be called steady. We quote at 5½¢ @ 6½¢ for singles, doubles, and trebles. Galvanized sheet 25 per cent. off list rates. Russia sheet has been more active, and some of the most desirable sizes are in reduced supply, particularly No. 9, giving the market a firmer tone. We quote at 11½¢ @ 13¢ good assorted sizes. Pig lead is pretty steady, and holders do not appear anxious to force business, but, at the moment, the demand is very moderate from all sources. We quote at 6½¢ @ 6¾¢, and 6¾¢ for choice. Bar lead 10½¢; sheet and pipe 12¢, less 6 per cent. to the trade. Pig tin has been very quiet during the week, buyers hoping for more favorable terms in view of the unsettled condition of affairs abroad; but holders refuse to make any decided concessions, and values are very well sustained. We quote in coin at 31½¢ @ 31¾¢ for English; 33½¢ @ 33¾¢ for Straits; and 35¢ @ 36¢ for Banca. Tin plates are steady, but dull. Zinc is still in very light request, and prices weak at about 12½¢ @ 12¾¢ from store. The latest reported importations are 1,754 tons pig iron; 20,135 R.R. bars; 220 tons sheet iron; 406 iron tubes; 10,955 pigs of lead; 40,590 boxes tin; and 444,017 lbs. zinc.

NAILS.—Cut nails have been very fairly active and the market has assumed a more settled form, nearly all dealers and agents now quoting a firm feeling and manifesting very little desire to force trade. The demand for home consumption has increased during the week, and a liberal aggregate of sales is reported to fill export and California orders. This, with moderate arrivals, has reduced the accumulation of supplies, and the stock immediately available is small. We quote at 4¼¢ @ 5¢ in a wholesale way, and ½¢ @ ¾¢ better for job parcels. Clinch firm and selling with a trifle more freedom. We quote at 6½¢ @ 6¾¢. Finishing nails are quoted at about 5½¢ @ 5¾¢ for 6d., 8d., 10d., and 12d.; 5½¢ @ 5¾¢ for 5d., and 6½¢ @ 6¾¢ for 4d. Other kinds steady at 15¢ for zinc, 27¢ for yellow metal; 40¢ @ 42¢ for copper. The exports are 1,315 packages, valued at \$7,335, against 882 packages, valued at \$1,911 same time last week. Shipments to San Francisco 5,506 packages.

PAINTS AND OILS.—We find no occasion to make any important alterations in our table of quotations for the various grades of paints, dealers asking about former figures, and buyers meeting them without much hesitation, giving the market at steady uniform tone. The local consumptive demand is rather on the increase, and jobbers find it necessary to purchase to a very fair extent. The country trade continues good, and a few moderate calls are made on export orders. On most goods the stocks are about equal to the prevailing wants, recent arrivals having made good previous deficiencies, and where supplies are small, the demand running light enough to prevent sellers gaining any great advantage. Glues are quiet with some irregularity on foreign; but a steady feeling on domestic, particularly prime grades. Linseed oil has been held pretty steadily at about former rates by the majority of crushers throughout the greater portion of the week, but there has proved to be too many outside sellers at easier rates, and signs of weakness are now very noticeable; in fact it is generally acknowledged by the regular trade that concessions are necessary in order to secure a proportion of the very moderate demand. There is no speculative feeling noticeable and buyers appear to be simply operating in view of immediate necessities. We quote somewhat nominally at \$10.00 @ \$10.12 in casks, \$1.02 @ \$1.04 in bbls., and outside parcels at 95¢ @ 99¢, according to anxiety of sellers. The consumptive trade from jobbers' hands is fair. Exports of 86 packages paint, valued at \$1,234; 50 gallons linseed oil, valued at \$60; and 269 gallons paint oil, valued at \$250.

PITCH.—With a continued good demand largely for interior shipment, the firm tone noted in our last has increased, particularly on the finer qualities, and prime city shows an advance, closing with higher offerings and the feeling still a little buoyant. The general supply has become reduced and there is no prospect of any material in-

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. III. No. 7.]

NEW YORK, SATURDAY, MAY 1, 1869.

One year in advance..... 6 00

THE *New York Herald* makes a great ado and evidently thinks the world should stand still a little while and give people a chance to express their wonder and admiration for such an enterprising paper, which is compelled to issue daily triple sheets, and occasionally quadruple ones, and one would think, to read its editorials, that it is the only paper in the United States great enough or prosperous enough to stand such a pressure. Now, the fact is, the RECORD can lay claim to have issued proportionally as great a number of triple and quadruple sheets as any journal in the city, or outside of the city of New York. We started originally as a sixteen-page, single-sheet paper, but owing to our desire to give fuller and more complete news of our kind than any other paper, we have been compelled to issue frequently, double, triple, and quadruple sheets, but we have been so modest about mentioning it that many have failed to properly appreciate our enterprise. Out of fifty-nine numbers of the RECORD already issued, twenty-seven of them have been of twenty pages each, and thirteen of eighteen pages each, two of twenty-four, and only seventeen have been sixteen pages, so that we can lay claim to more than forty-one triple sheet numbers. Now let the world stand still, and give the RECORD due credit for its liberality and enterprise.

OFFICIAL RECORD OF MORTGAGES
—NEW YORK COUNTY.

In the arrangement of the following mortgages, where
no description of the property follows the names, it is to
be understood that there is a corresponding transfer under
the same or nearly the same date in our columns, and the
amount set down is what remains on bond and mortgage.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last:

EAST 20TH ST.—No. 336; one 1 story brick factory, 14x15; owner, C. T. Schroener.

WEST 48TH ST.—No. 9; one 4 story brick brown stone front first-class dwelling, 25x76.6; owner, David Solomon; architect, Thos. R. Jackson.

56TH ST.—N. s., 250 w. 5th av.; one 4 story brown stone front, first-class private dwelling, 25x60; owner, Ferdinand Mayer; architects, D. & J. Jardine; builder, John Laimbeer.

DOMINICK ST.—Nos. 48 and 50; one 4 story brick store, mansard roof, 40x82; owner, A. Lowenheim; architect, Louis Berger.

141ST ST.—N. s., 60 w. 8th av.; two frame and wood 2 story dwellings, 20x35; owner, Jacob Rudolph; architect, L. E. Duenkel; builder, Christopher Quinn.

74TH ST.—N. s., 198 e. av. A; one 2 story and basement, second-class dwelling, 25x28; owner, W. Monahan; architect, G. P. Schaff; builder, Matthew Quinn.

64TH ST.—N. s., 150 e. 3d av.; one 1 story cor. iron wheelright shop; owner, Edward Collins; builders, Henderson & Manson.

76TH ST.—N. s., 350 w. 1st av.; one 2 story and basement frame dwelling, 25x32; owner, Mary Robinstein; builder, Frank Werling.

LUDLOW ST.—No. 133; one 2 story brick store and second-class dwelling, 16x25; owner and architect, Chas. Lange; builder, G. W. Crawford.

7TH AV. AND 49TH ST.—N. w. cor.; one building, 3 story brick, for store, dancing, reading, and drill room, 25x96; owner, Jas. Wallace; architect and builder, Jas. Jackson.

CAROLINE ST.—No. 8; one 5 story brick store and second-class dwelling, 28x50; owner and builder, John Hankerson.

WEST 53D ST.—No. 438; one frame and wood 2 story dwelling, 25x25; owner, H. Tremer.

25TH ST.—400 w. 10th av.; one 1 story brick factory, 53x100; owners and builders, J. B. & W. W. Cornell; architect, G. T. Powell.

25TH ST.—250 w. 10th av.; one 1 story brick factory, 49.4x100; owners and builders, J. B. & W. W. Cornell; architect, G. T. Powell.

AV. C.—No. 58; one 2 story brick stable, 12x15; owner, — Gundesheimer; builder, Chas. Trouser.

1ST AV. AND 4TH ST.—S. w. cor.; three 5 story brick store and basement, 24x50, 24.1x75, 26x45; owner, Herman Bruns; architect, W. E. Waring.

1ST AV.—No. 284; one 2 story brick stable, 23x46; owner, J. Deikel; builder, E. Masten. Plan No. 449.

MARKET REVIEW.

BRICKS.—The market appears to have lost even the nominal activity of last week, and taken as a whole the tone is decidedly dull and unsatisfactory. For full cargoes there is scarcely any demand, and though dealers are selling in small parcels to great many customers, the aggregate business from day to day foots up small, and is nearly equalled by the odd arrivals, still occasionally dropping in from various points. The accumulation of stock is not very large, but here and there throughout the city a goodly number of brick can be found piled up on dock unsold, and for which owners would unquestionably be pleased to find customers, particularly as the quality in most instances runs from poor down to inferior. Really prime and choice grades are daily growing less plenty and held pretty well up to former rates, say about \$16.00 per M., but all the common qualities are very unsettled, though undoubtedly tending downward, and may be quoted from \$13.00 for the worst, to \$15.00 per M. for very good. The existing demand comes almost entirely from the city consumptive trade, the jobbing dealers buying nothing unless forced to, in order to meet pressing calls, while from out of town buyers nothing has been heard for several days, every one naturally refraining from laying in stock, when it is admitted on all sides that only some very unusual and unlooked for occurrence can prevent a material falling off in values within two or three weeks. A few parcels of new stock have come in from Jersey, and we understand one cargo from Verplanck's Point, mostly of poor and undesirable quality, badly pressed, &c., owing to the haste used to get them in before the market declined. It shows, however, that manufacturers are at work, and with anything like good weather, we shall soon begin to obtain new brick pretty freely. The strike of the workmen at Haverstraw may cause a temporary inconvenience, but as brickmaking does not require skilled labor, it is probable that the difficulties will soon be settled, or new laborers be hired in place of the strikers. Pale brick are in some cases quoted as before, but with scarcely any demand, and common hard crowding them very closely, we learn of offerings at full \$1.00 decline, with some of the poorest showing even still greater weakness, closing nominally at about \$10.00 @ \$12.00 per M. Croton fronts are being ordered to some extent by dealers, but the sales to consumers are very moderate and the general market dull. We quote at \$20.00 @ \$22.00 per M., according to quality. The papers who are in the habit of copying our quotations, should note the above figures; they evidently overlooked the alterations made last week. For Philadelphia fronts there is no market at the moment, the few small lots changing hands still realizing about \$50.00 per M. To British West Indies 15,000 bricks were shipped.

CEMENT.—There has continued a good active trade in Rosendale throughout the week, and all the manufacturing companies find it an easy matter to dispose of their production as rapidly as prepared for market, prices in the meantime remaining strong on a basis of \$2.00 per bbl. delivered here. The demand is still pretty general, but many of our city dealers have accumulated enough for present wants, and shippers are now enabled to secure stock for their back orders with comparative ease. The wants of the South and East are said to be large this spring, and until they are well supplied, ruling rates will be sustained. The city consumptive trade is improving and in one or two cases dealers have made their second appearance as buyers, their early purchases having been too small to meet any extra demand, but even now orders are not in excess of probable immediate wants owing to the general feeling that the season opened too high, and some modifications must be made when business slackens up. It generally requires about six weeks to two months to meet the first call, and after this some dullness is to be looked for. Shipments of 50 bbls. to Brazil.

DOORS, SASH, AND BLINDS.—Most of the dealers still complain of a little dullness, though the tone has slightly improved within a week or two, and now and then a very respectable order is received. The demand is largely local, though Southern buyers are on hand to a fair extent, and this trade appears to be slowly increasing. Prices have in some instances been modified, and we alter our figures to conform to the changes, remarking, however, that price lists are not in every case strictly adhered to, particularly if a good customer is to be secured. In fact, there appears to be a great deal of sharp competition between the leading manufacturers, much to advantage of buyers, and as we can learn of no great difference in the quality of goods produced, we can simply say to consumers "you pay your money and take your choice."

FOREIGN WOODS.—Retail dealers report some improvement in the demand for the leading styles mainly for cabinet and other manufacturing purposes, though in a few instances small orders from the country have been received and filled. Prices show no change, but the tone is very strong, and buyers appear to pay the figures asked without any unusual hesitation. The wholesale market is rather dull, owing in the main to the lack of desirable goods, as there appears to be some call for choice parcels of all the kinds imported, many of our local dealers desiring to replenish stocks, and shippers having a few orders on hand. For the European market, however, it requires something very acceptable, the dull tone abroad, and the cost of freight-room giving exporters a very small margin, and requiring close negotiation on exchange in order to permit the forwarding of stock. Rosewood, mahogany, and cedar are particularly sought after, and holders of the latter are again rather crowding prices up to extreme figures. The supplies arriving at the moment are comparatively small, though a slight increase is hoped for at an early day. No exports reported. The receipts are as follows: From Havana 3,735 bundles cedar; from Chiltepec 227 logs mahogany; from Rio Janeiro 976 pcs. rosewood; from Port-au-Platt 417 crotches mahogany; from Port-au-Prince 13 pcs. cedar, 1,010 crotches mahogany, and 144 pcs. lignumvitæ; and from Manzanillo and Cienfuegos 414 logs cedar.

GLASS.—We learn of no improvement in the general features of this market, and many importers and dealers call it worse, if possible, than before. The arrival all this spring have been quite liberal, and there is now accumulated here a large and well-assorted stock, awaiting sale. Buyers, however, are decidedly scarce, and about the only sales making are such small lots as the wants of local and near by country jobbers require. Some western trade generally begins to develop itself at about this time, but thus far there has been hardly an order received, while from the south the demand has pretty much all subsided. Prices are quoted nominally as before, but the feeling is irregular and first-class cash buyers can frequently obtain very reasonable terms. We quote at about 40¢ @ 50¢ per cent. off on French, and 35¢ @ 40¢ per cent. off on English. American is selling moderately, but feels the effect of the dull market for foreign, and is a little unsettled, though still quoted at 50¢ per cent. off list.

HAIR.—The market is extremely dull, the only outlet presenting itself at the moment being a light call for southern shipment, and with large and increasing supplies, prices are again lower on all grades, closing unsettled, though certainly without much strength. The weather this spring has been unusually fine for drying hair, and the consequence is a large accumulation of stock, and coming in as it does, when building operations are slow, dealers are somewhat anxious to work off the surplus, offering concessions noted in order to facilitate, though as yet without success. We quote still somewhat nominally at 35¢ per bushel for cattle; 45¢ do. for mixed; and 51¢ do. for goat.

LABOR.—Rumors of strikes intended are plenty, but no open demonstration of importance has taken place in this city since our last. All the different classes of workmen engaged in building operations are credited with active preparations to insist upon the enforcement of the eight hour rule, but there is reason to believe these reports are somewhat exaggerated. Many things indicate that there will be a material falling off in the number of buildings erected this season, the tendency of which will be to cause a surplus of labor, and this being well understood by the better class of workmen, who as a rule are never the leaders in a strike, they are quietly and in a measure successfully endeavoring to impress upon their constitutionally dissatisfied fellow craftsmen the importance of taking such action as will preserve friendly relations between themselves and employers. The painters evidently appreciated the position, when they gave up the strike last week, and their action has without doubt had its effect upon other classes of mechanics. Should a strike take place it will, in all probability, be inaugurated very soon, and in that case, every employer likely to be similarly affected should give all the support in his power to those who have come to an open rupture with their journey-men. Last year the little but plucky association of Master

Masons alone and unaided, successfully combated one of the most formidable strikes ever known; many of the members, as may be supposed, suffering considerable pecuniary loss thereby; and they fought the battle not only for themselves but the whole country at large, as it is a well-known fact that had the workmen carried their point, trade unions in every city throughout the United States were prepared to strike for eight hours as a day's work. But is not to be supposed that one small body, such as the Master Masons, let them be ever so strong and determined, will feel justified in standing out alone against the immense number of trade organizations now in existence, and if employers really mean to resist the absurd eight hour law, they should at once perfect some plan by which all can work together to gain the object aimed at. They should also take pains to secure legal protection to such mechanics as desire to cut loose from the influence of trade unions, and this alone, we think, would be one of the most effectual influences that could be brought to bear against strikes. The fear of personal violence from society men alone prevented many bricklayers from resuming work on employer's terms last summer. The brickmakers at Haverstraw have struck for a reduction of the hours of labor, and instead of presenting their grievances in a manly way, have become so unruly that the sheriff asks the Governor to send him some militia to preserve the public peace. Employers of course resist, particularly as skilled labor is not a necessity, and are rapidly getting a supply of workmen from this city and other points. The varnishers and polishers' strike still continues, but it is probable a compromise will be effected ere long. The Newark carpenters have gone to work at 25¢ advance, instead of the 50¢ demanded. The Operative Plasterers of the City of Churches, had a pow-wow last week, and of course introduced the usual string of resolutions. We select the two following as specimen bricks:

Resolved, That the Society of Plasterers of the city of Brooklyn regret exceedingly the action of the Secretaries of War and the Navy of the United States, in ordering a deduction of wages from the employees of their Departments, contrary to the spirit and tenor of the act of Congress.

Resolved, That the plasterers of Brooklyn respectfully request the President to dismiss from office those worthless old fogies, Mr. Borie, Secretary of the Navy, and General Lawlins, Secretary of War, and that the President will call to office men of "unquestionability" and honesty.

The phrase "worthless old fogies" was subsequently stricken out, but "unquestionability" was not. The above resolutions contain about as much cool assurance as could be crowded into the space they occupy, and should this effusion of the "plasterers of Brooklyn" ever reach the eye of President Grant, it will probably remind him of the old story of the three tailors of Tooley street, who commenced a document directed to the king and public at large, with "We, the people of England."

LATH.—The report current last week that the great bulk of the lath cargoes had arrived, appears to have been pretty well founded, and for want of desirable stock our market has relapsed into a comparatively dull condition, and values a little uncertain, though on the few sales made previous extreme figures were obtained, viz.: \$3.00 per M., without much difficulty. In fact receivers now having rather the advantage of the position, are unwilling to entertain any negotiations below \$3.00, and in some cases have refused this rate on parcels to arrive. Our city jobbing dealers, as a rule, have a supply on hand sufficient to meet immediate calls, and are not disposed to stock up very freely just now, hoping that another accumulation of cargoes may cause a break; but wholesale dealers claim that the rush of stock to market is over for the present, and the steady tone may be looked for. A few cargoes of old stock however, have recently been forwarded hither from sources just becoming available, and the mills are sawing more liberally, making it probable that though coming forward gradually there will be plenty for all calls, the more so that \$3.00 per M. pays the manufacturer a snug profit, and is fully equal to the average of last year. From recent arrivals a great many laths were taken to delivery on previous contracts. The yard trade is only fair and entirely for job lots. Sales for week of 1,200,000 at \$2.87½ @ \$3.00.

LIME.—We still find a steady uniform market, devoid of new features of stirring interest, the supply moderate, and receivers working off cargoes without great difficulty at \$1.25 per bbl for common Rockland, and \$2 do. for lump do. The general demand is fair, and as the sales were pretty rapid of late, some dealers find their stocks reduced and are commencing to restock, current values being supposed the lowest probable figures, for some time to come at least. The kilns continue to burn moderately, but where fires have gone out, or where operations have not as yet been commenced, manufacturers refuse to proceed with the production in view of the low ruling rates. The Northern limes remain quiet, though being peculiarly adapted to certain work, they are sought after to some extent and command regular market rates. A few loads are occasionally run down by rail in order to keep trade moving, but the regular receipts cannot be looked for until some time in May, when the canal shall have become open to navigation. The freshet in the upper Hudson carried the water into a store-house of the Glens Falls Co., slaked the lime, set the building on fire, and destroyed it, together with some 4,000 bbls stock that had wintered over.

P. S. Since putting the above in type, we learn of a decline on Rockland lump to \$1.75 per bbl. Otherwise the market is unchanged.

LUMBER.—The slight symptoms of activity at the yards referred to last week have continued to slowly increase, until we find a great many dealers reporting quite a fair little trade from day to day, and a few hopeful that the long-delayed spring business has at last set in. The demand is almost solely on local account, however, and only for jobbing parcels, and while in this way the call may be quite regular, there is nothing to indicate that buyers will operate to any extent beyond immediate wants.

until new arrivals give them more confidence, and a better opportunity to make selections. Builders still refrain from entering into any very liberal contracts, owing to the uncertainty in regard to position of employers and journeymen during the coming season, and there is also evidence of less anxiety or ability, to improve real estate than was noticeable last year, though even the probable extent of the falling off in building operations is not as yet sufficiently well indicated to admit of a prediction as to the result upon the lumber trade. The stock now here begins to show a want of desirable grades, and the receipts are too small to admit of relief, but no important changes have as yet taken place in values. Of dressed spruce boards there does not appear to be any supply whatever, and our figures may be considered as simply nominal. Chestnut plank are in quick demand at the moment, and scarce, causing a stiff feeling at \$65 to \$70 per M. Black walnut plank is firm, and desirable assortments difficult to find, though just at present the inquiry is not remarkably active. The Albany market remains firm, but there is comparatively little business doing, owing to most of the assortments being broken up, and a large proportion of stock cleaned out. The high water has of course, seriously impeded shipments, and many of our city dealers are disappointed in their expectations of receiving stock; but everything will probably again be in working order by the time this reaches our readers. Nothing definite has been ascertained as to the amount of damage suffered by the lumbermen in the northern section of this State, though it is feared the loss in some sections will be heavy. Canal navigation is not likely to open as early as was anticipated a couple of weeks ago, but when the boats do commence running a liberal supply of lumber is looked for from the north, Oswego, and Buffalo. The wholesale market during the past week has not presented many new features, there being scarcely trade enough doing to give either buyer or seller any important advantage, and not a very large amount of goods arriving to work with. Prices, however, have evidently lost the extremely strong tone of the early spring, and within a day or two sellers have experienced more difficulty in placing their cargoes to arrive. Exporters have secured a few lots of stock to be delivered a little later in the season, but this demand is as yet moderate. Local manufacturers and dealers are becoming somewhat particular in selecting specifications, but manage to consume a very fair amount of timber. Eastern spruce has been in very good supply, a portion being the first arrivals, from some of the larger depots (old stock of course), just opened to navigation. Several of the cargoes had been sold to arrive, and the others were soon disposed of, though not so readily as heretofore, and just a trifle shading of prices took place, not enough to quote a decline, but enough to show that the desire to operate was gaining with the seller. A very good schedule sold at \$23 per M, and it is now difficult to obtain a bid as high as \$23, unless the offering is of the most desirable kind. White pine is in fair demand, and steady, and the stocks small. The trade now doing is quite general, though fine shipping boards could be sold more freely if here. A considerable quantity of stock is daily delivered to the pavement companies, whose operations are even more extensive than last year. We quote at \$22.00 to \$25.00 per M for inferior to fair box and shipping boards; and \$27 to \$31 for good do., with selections at higher figures. Piling has again arrived to a comparatively liberal extent, and with no improvement in the demand it has been found necessary to float out a considerable portion. Prices are unsettled, but favor the buyer, and may be placed at about 6½¢ to 7½¢ for common to prime. Pickets are still very slow of sale, and quoted nominally at about \$5.50 to \$9.00 for desirable ½-inch stock. Yellow pine has continued at about former figures, particularly on choice grades, but without much activity, owing to the small supply. We quote at \$30 to \$33 per M for timber; and \$33 to \$35 for flooring boards. Black walnut logs are still quite dull, exporters holding off in anticipation of more liberal supplies with the opening of navigation, and prices are somewhat nominal at about 7¢ to 7½¢ per foot. Eastern shingles are again dull, the supply large, and prices down to \$1.50 for No. 1, and \$5.50 to \$6.00 for clear. Southern shingles quoted at about \$16 to \$18 for the ordinary average of cypress. Sales during week of 250,000 feet Eastern spruce at \$22 to \$23; 65,000 feet yellow pine at \$34; 900 piling at 6½¢ to 7½¢, and 150,000 Southern shingles within the range.

The exports of lumber have been as follows:

	This wk.	Last wk.	Since Jan. 1, '09.
	Feet.	Feet.	Feet.

Value.....	\$10,418	\$28,460	\$310,599

We also notice shipments of 49 bundles shingles, value \$51.00, to British West Indies; 219 pcs. plank, and 2,400

staves to San Francisco; 3,600 staves to Hamburg; 18,000 do. to Antwerp; 2,400 do. to Liverpool; 11,000 do. to London; 12,000 do. to Glasgow; 5,000 do. to Gibraltar; 62,880 do. to Tarragona; 71,600 do. to Cadiz; and 12,000 do. to Oporto. The receipts reported include 250 logs black walnut from New Orleans, and 9,706 feet walnut lumber from Norfolk; 866,000 feet yellow pine from Pensacola; 125,000 feet do. from Jacksonville; 53,160 feet lumber from Georgetown, S. C.; 163,500 feet do. from Wilmington, N. C.; 8,600 staves, and 58,000 shingles from Beaufort, N. C.; 300 pcs. piling from St. George, N. B.; 400 do. from Grand Meun, do.; and from the Maine coast six cargoes lumber; four do. lath; four do. piling; and one do. shingles.

At the leading Western markets, Chicago in particular, stock is coming in with some freedom, and trade begins to show signs of considerable animation. Prices rule steady, and in nearly all cases dealers are reported as feeling great confidence in this season's trade. The following recent transactions at Chicago will give an idea of current values: Cargo, 71,000 ft. good mill-run strips, dry, at \$17; 19,000 ft. mixed lumber, at \$14. Cargo, about 75,000 ft. small long timber at \$18; 115,000 ft. scantling and joist at \$12. Cargo, about 90,000 ft. scantling and joist, at \$12.25. Cargo, 150,000 ft. mixed lumber, at \$14.50. Cargo, 90,000 ft. common mixed at \$18; flat pickets, at \$12. Cargo, 65,000 ft. strips and boards at \$14.25. Cargo, 900,000 shingles at \$2.50; 150,000 do. at \$3.25.

The Saginaw Enterprise continues to hack up its statements, published by us last week, as follows: "There has not been the usual spring freshet, and most of the logs on the tributaries of the Saginaw river are in the immediate vicinity of the places where they were banked during the winter. The ice and snow is nearly all out of the swamps and woods, so there will be nothing left to keep the water up, should a freshet come. The only hope now is in the receiving of continued rains at intervals of a day or two for two or three weeks. Very few lumbermen have as yet left their logs and come down, but a few more days without rain will bring the men from the woods without their logs. When the men have once left the woods, it is almost impossible to get them back again in time to make use of a rain before the waters run off again and leave the logs high and dry once more. Even under the most favorable circumstances, at least 100,000,000 feet must lay over until another season. Should the present drought continue two weeks longer, it is thought that nearly the entire stock would be unavailable, and the whole trade of the valley sustain a damage that cannot be estimated.

"Much has been said in regard to the present stock of logs, should they all come down the river this spring. Careful inquiry from all the rivers shows that there is only a fair stock for the mills, and the entire stock would be cut out by the 1st of October, or the 1st of November at the farthest, by the mills running days only. The stock of logs last season does not vary much in quantity from the stock put in this season, and many of our mills were compelled to lay up last fall, long before the close of navigation, for want of logs to supply them."

The following from the St. Paul (Minn.) Press will be read with interest by lumber dealers:

The past winter has proved in the main extremely favorable for the operations of lumbermen, and its advantages have been improved in all the pine districts to an extent greater than in any previous season. Snow fell early, and, in the woods, continued on the ground sufficiently for good skidding until the breaking up, although in some directions the later heavy falls have interfered, to a certain extent, with logging operations. The impediments resulting from a too great depth of snow have, however, been comparatively trivial, while the general summing up of the winter's work shows a much greater product in logs to each man and team employed, than has been known for years. When, in addition to this, it is stated that the great demand for lumber, and the satisfactory prices the market has sustained, have served to send an increased force into the woods, a greatly increased product over all former years could not be expected.

From various sources of information we estimate the amount of logs cut the past winter, on streams of which the Mississippi is the outlet, as follows:

	Feet.
Upper Mississippi, including Rum river.....	95,000,000
St. Croix river, and tributaries.....	145,000,000
Chippewa river, including the Eau Claire, Menominee, Eau Claire, and Yellow rivers.....	175,000,000
Black river.....	80,000,000
Wisconsin river.....	125,000,000
Total	620,000,000

Less than one-half of this cut twelve years ago, swamped not only the markets of the Mississippi river, including that of St. Louis, but the greater portion of the men interested in lumbering operations, who generally lost, besides their personal labor, all the cash means on which their ventures were based. That was the period when any man who owned a span of horses and could procure, upon credit or otherwise, a barrel or two of pork and a few blankets, was a self-constituted lumberman, and planted himself and his "gang" of assistants—whose pay depended upon the many contingencies incident to the safe delivery and market price of logs—upon some unentered piece of Government land, and assumed the risk of the legal penalty for such trespass. Whatever his fortune might be—whether more or less logs passed unmolested from his camp into the general boom—his necessities were the same. Cash he must have to meet his obligations; and when, as in 1857-8, during and immediately succeeding the great financial crash, no ready money was available, except from heavy capitalists, who no collapse could affect, these enterprising, industrious but unfortunate men were compelled to accept the best prices they could obtain, and generally sacrificed their labor and original capital for the means to pay off their men. Then lumber was cheap.

It was not until the latter part of 1861 that prices began to revive from the unexampled depression of 1858, and

not until two years after that the markets below could be depended upon for the absorption of large supplies at profitable rates. Since then the business has increased in prosperity, until now, it is well known, no enterprise is surer of great profit. What will be the result of the immense stock soon to arrive in the boom cannot, of course, be precisely foretold. Last year the demand was about equal to the supply, and no particular diminution of prices occurred. A vast and constantly increasing area of prairie has been opened to the lumber markets of the Mississippi within the last few years, by the completion and extension of numerous railroads in Minnesota, Iowa, Illinois and Missouri, as well as by the building of the Union Pacific Railroad over an interminable and treeless plain, and the full capabilities of all these sources for the consumption of pine products are not yet tested. It is indisputable that the demand from the older settled portions of the farming community, in view of the low price of wheat, will be considerably less than heretofore. Contemplated improvements among this class will be confined to actual necessities; while new-comers and homestead settlers will, under present circumstances, confine their purchases to the smallest quantities. Should nearly the whole supply cut this season be sent forward to market, it is not improbable that prices may, toward fall, drop considerably.

But consumers of lumber may as well be warned that the drop, should it occur, will be but temporary. The business has assumed a very different footing from that of ten years ago. All available or valuable pine lands are now private property, and are owned in the main by men who appreciate their value, and who are able to hold them until the timber constituting such value will sell for satisfactory prices. A single lumbering firm in this State is the owner of upwards of 100,000 acres of selected pine lands, for the mere stumpage of which it asks and will ultimately receive \$5 per thousand feet. Other capitalists have monopolized the lands on all the lumbering streams, and will soon, if they have not already, fix their prices for timber to correspond with those of the largest holders. The squatters upon Government lands—enterprising men who were content to be ruined every year, provided some confiding trader would furnish supplies for the next season's operations—have necessarily disappeared, for the most part, and will gradually give place to the great firms who own lands and employ small armies of men. The control of the entire business is rapidly concentrating in the hands of a few men, who will fix prices and hold their products until the markets are compelled to succumb.

The pine belt of the Northwest includes land enough for a great many States like Rhode Island; but, its wealth once exhausted, we have no assurance that it will live again. In Maine, for instance, wherever the besom of the logger has swept, the land remains to-day as destitute of the peculiar beauty of the pine verdure as when the last stroke of the chopper was delivered. If an exception is established in Minnesota, we may in truth claim to be the favored people.

The Eastern and Northern markets are as active as circumstances will admit, the business still mainly in old stock, none of the large mills having as yet found it possible to start their saws. Prices firm, though manufacturers are willing to show pretty liberal terms for future delivery. The freshets continue at many points, with no logs as yet reported lost. Shippers coastwise are making to the full extent of the foreign room offering.

The following are the surveys at Boston for the week ending April 23, 1869:

Domestic Lumber.	Feet.	For'n Lumber.	Feet.
Pine.....	1,432,561	Pine.....	562,725
Spruce.....	166,080	Spruce.....	442,033

The Southern markets are pretty firm on the average run of stock, and very strong on choice timber, of which there is a scarcity. Shipments are slow, and the supply of common sorts accumulates. A Savannah report says:

"Vessels coastwise are wanted, and will do well on arrival; but little disengaged tonnage in port; considerable lumber and timber awaiting shipment. Timber to New York \$11, lumber \$9. Timber to Boston \$11, lumber \$9 @ \$10. Timber to Philadelphia \$10, lumber \$8. Lumber to Baltimore \$7. To Eastern ports, lumber, \$10 @ \$11. Lumber and timber offering from Darien at \$1 @ \$2 advance on above rates."

Savannah prices are as follows:

Timber \$8 @ \$12 per M. feet for mill timber, \$10 @ \$15 for small shipping do., and \$14 @ \$20 for large do. Lumber \$20 @ \$22 for ordinary sizes; \$25 @ \$30 for difficult sizes, and \$22 @ \$23 for flooring.

Mobile rates are as follows:

Pine lumber \$16 per M. for large lots; flooring, seasoned, \$25; cypress, \$35 per M.; shingles, cypress split, \$4 @ \$5 per M.

Charleston prices remain as follows: Steam sawed \$ 5.00 @ \$8.00 per M.; boards and scantling, \$24.00 @ \$25.00 per M.; flooring boards \$35.00 @ \$38.00, mill timber, \$6.00 @ \$8.00; and shipping, \$11.00 @ \$12.00.

Wilmington quotations as follows:

Dressed Flooring, seasoned.....	\$ M ft. 20 00 @ 25 00
Scantling and Boards, common.....	\$ M ft. 15 00 @ 20 00

The latest report of prices by the Pensacola Lumber Co. is as follows:

Lumber.—Boards 1x12 inches and upwards merchantable, \$14 to \$18 per M.
Flooring, 1 1/4 x 4 to 6, \$15 to \$17 per M.
 dressed, 25 to 27 "
Ceiling, 3/4, dressed, \$24 to \$25 per M.
Planks, 1 1/2 x 10 and upwards, \$15 to \$17 per M.
 1 1/2 x 2 " 15 to 17 "
Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.
80 to 90, 13 to 15 cents per foot.
90 to 100 and upwards, 14 cents and upwards.

The Charleston News contains the following:

"With the valuable pine forests in the lower part of this State the lumber trade of this city should be large and prosperous. To show what may be done to promote the business in this article, Messrs. Risley & Croighton shipped, per schooner Nellie Carr, for Mayaguez, P. R., a cargo of Carolina hard pine, which was got out and carefully put up by our well-known lumber merchants, Messrs. J. H. Steinmeyer & Co. The following is the very flattering report concerning it received from the party to whom it was sent in Porto Rico. 'We have much pleasure to say that this cargo, as regards quality and assortment, has been of the very best landed here in many years.'"

METALS.—Copper sheathing is rather less active than last week, but in small parcels there is still a very fair amount of stock changing hands, and the general feeling among dealers is one of considerable confidence, and uniformity at full previous rates. We quote at 33c @ 35c, for new, and 22c @ 23c, for old, according to quantity. Yellow metal in fair demand and steady at 27c. Ingot copper is steady at 23 1/2 c @ 24c and quiet on the spot, but for future delivery a number of quite liberal contracts have been entered into, mainly at about 24c. Scotch pig iron continues in good demand, but with no increase of the supply the business is necessarily confined to such small parcels as dealers can furnish from yard. A few lots have been engaged previous to arrival, but as a rule the disposition to operate in this manner is still very light. Prices remain strong, and we still quote at \$41.00 @ \$45.00 per ton, according to brand. The inquiry for American pig iron has rather improved of late, imparting a stronger tone to the market, though the actual amount of business transacted has not footed very heavy, owing to the light offerings on the part of sellers. The general jobbing trade is fair at full figures. We quote at \$40.00 @ \$42.00 per ton for No. 1; \$38.00 @ \$40.00 do. for No. 2; and \$37.00 @ \$38.00 do. for No. 3. Bar iron from store is selling very slowly, and we hear of no change worthy of note on the general range of values. We quote at \$55.00 @ \$57.50 per ton for common American and English bar; \$90.00 @ \$92.00 for refined do.; \$140.00 do. for Swedes, ordinary sizes; \$117.50 @ \$122.50 do. for ovals and half round; \$120.00 @ \$150.00 for scoll, and \$97.50 @ \$155.00 for rods, 5-8 @ 3-16 inch, all less 5 per cent. Common sheet iron is still quite dull, dealers reporting no trade beyond the usual jobbing lots, prices remaining about as before. We quote at 5 1/2 c @ 6 c, for singles, doubles and trebles. Galvanized sheet fairly active and steady at 25 per cent. off list rates. Russia sheet at the advance last noted, re-

mains firm on all the choice qualities, owing to their scarcity, but common stock is comparatively plenty and a little irregular. The general demand only fair. We quote at 11 1/2 c @ 13c, gold, assorted sizes. Pig lead is still greatly neglected and the market presents a decidedly dull tone; holders, however, appear to retain a confident feeling and full former figures are insisted upon. We quote at 6 1/2 c @ 6 7/8 c, for common to choice. Bar lead 10 1/2 c; sheet and pipe 12c, less 6 per cent. to the trade. Pig iron is meeting with an improved demand mainly from dealers, who, finding the distributive trade good and their supplies decreasing, are inclined to stock up again. This with the more encouraging foreign advices, imparts a very firm tone to the market, and as we close prices show some little buoyancy. We quote in coin at 31 1/4 c @ 31 1/2 c, for English; 33c @ 33 1/2 c, for Straits; and 35 1/2 c @ 36c, for Banca. Tin plates, in a jobbing way, are selling better, and full prices are realized. Zinc is neglected, and with an increasing stock the market is easier, closing somewhat nominal at about 12c @ 12 1/2 c, for job lots from store.

NAILS.—The firm, uniform feeling on cut nails, noticed in our last, still continues, and dealers generally talk as if they had reached the lowest point, for the present, at least. The general supplies are fair, and of late have rather increased, owing to some falling off in the demand, but all additions are looked upon as necessary to make good the late defection, and as a whole, the stock cannot be considered excessive. Shippers operate lightly at present, the main demand coming from the home trade. We quote at 4 1/2 c @ 5c, in a wholesale way and 1/2 c @ 3/4 c, better for job lots from store. Clinch firm, with a fair prevailing demand. We quote at 6 1/2 c @ 6 3/4 c, for finishing nails are quoted at about 5 1/2 c @ 5 3/4 c, for 6d., 8d., 10d., and 12d.; 5 1/2 c @ 5 3/4 c, for 5d., and 5 1/2 c @ 5c, for 4d. Other kinds steady at 18c, for zinc; 27c, for yellow metal; 40c @ 42c, for copper. The exports are 165 packages, valued at \$1,176, against 1,315 packages valued at \$7,585, same time last week. Shipments to San Francisco 2,430 packages.

PAINTS AND OILS.—The wholesale market continues very fairly active, and the demand does not appear to be directed to any particular class of goods, but calls for a little of all kinds, causing a good healthy general trade. Importers and manufacturers either have enough stock on hand or ready for early delivery to meet present wants, and assortments are made up with little or no difficulty. For export there is not much call, and the business is still mainly with domestic jobbers, many of whom report a steady increase in the distributive inquiry, the fine weather proving very favorable for the forwarding of work. Glues are steady, and both domestic and foreign sell with a trifle more freedom, a good assortment attracting the attention of buyers. Linseed oil within a day or two has shown rather a stronger front, and sold with considerable freedom, some of the leading crushers advancing their views about 1c, per gallon, and even the outside operators coming up quite close to the regular market rates. The trade have bought freely, and there has also been some speculative movement based, it is said upon the scarcity and high price of goods at the West. We quote outside lots at \$1.00; crushers' rates at \$1.00 @ \$1.08 in casks; and \$1.08 @ \$1.05 in bbls.; with retail figures in proportion. The only exports are 18 pkgs. paint valued at \$90.

PITCH.—The advance noted last week has been sustained without much difficulty, very moderate additions to the supply giving sellers the advantage, but there is less general inquiry, and at the present writing the market shows a want of life on all sides. The few export orders are filled, and the stock awaits shipment, while domestic buyers having obtained enough to meet present wants, seem disposed to withdraw. This is particularly the case where stock is wanted for the interior, owing to the prospect of an early reduction in the cost of transportation. We quote at \$3.00 @ \$3.12 1/2 for city; \$2.75 @ \$3.25 for southern; and small lots very choice in a jobbing way from store \$3.37 1/2 @ \$3.50 per bbl. The receipts for the week are 10 bbls. Exports for the week 50 bbls. Since January 1st, 1,666 bbls.; and for same period last year 1,284 bbls.

PLASTER PARIS.—The market remains steady, and for white lump all dealers are asking \$4.50 @ \$4.75 per ton. One or two additional cargoes have been contracted for, but the demand is moderate and manufacturers evidently do not intend to call for more stock than they can handle to immediate advantage. The receipts of lump for the week reach 1,000 tons, all coming in on contract. Calcined is not moving with great freedom, though a fair trade in jobbing lots takes place, and former figures are still current. We quote at \$2.40 @ \$2.50 per bbl. We notice shipments of 90 bbls. to San Francisco, and 200 bbls. to Cuba.

SPIRITS TURPENTINE.—The market has shown considerable irregularity since our last, and the feeling generally appears a little feverish. Following our last, a very good consumptive and export trade caused an advance, but of late the demand from all quarters has partially subsided, and with advices of a lower market, at Wilmington prices have given way, and close unsettled. Holders are not forcing business to any extent, but meet the demand fairly, and the supply on sale is equal to all calls. The shipments and arrivals have about balanced, and adding to deliveries for the home wants, the stock in yard shows a reduction. We quote at 48 @ 48 1/2 c, for merchantable and shipping order; 49c, for New York bbls.; and 49 @ 51c, for small parcels, with retail lots from store in proportion. Receipts for week 756 bbls. Exports for week 735 bbls.; since January 1st, 1,858 bbls., and for same period last year 8,619 bbls.

TAR.—For really good shipping qualities the demand has continued very active throughout the week, and full former prices were realized without any trouble, the market closing with a number of orders still to be filled. On home account trade can only be called fair, but still there is a number of odd parcels going into consumption from day to day, and values a rule are sustained. The receipts show a decided falling off, but are fully equal to the ordinary average. The recent purchases on foreign account are commencing to move forward quite freely. We quote

at \$2.50 @ \$2.75 per bbl. for North County as it runs; \$3.25 @ \$3.50 for Wilmington do.; \$3.50 @ \$3.75 for rope; and occasionally \$4.00 for something very choice in a small way. Receipts for week 1,532 bbls. Exports for week 6,946 bbls.; since January 1st, 15,511 bbls.; and for same period last year 3,008 bbls.
